Where the duplicate original operating licence marked FOR THE FILE is used to provide a public transport service with a vehicle not specified therein (different registration, chassis or engine number), the operating licence may be withdrawn using the provisions of section 79 of the NLTA. In the event of the operating licence being withdrawn by the PRE, the operator will have to surrender both original operating licences as well as distinguishing marks relating to the service; 36. Where the vehicle linked to the operating licence is registered in another province, such a vehicle must be registered in the Western Cape Province for as long as the operating licence is valid. This must be done within 3 months of the date of issue of the operating licence; 37. The holder of this operating licence must be compliant with the requirements of South African Revenue Services for the validity period of the operating licence. This effectively means that holder must have a valid tax clearance certificate for the validity period of the operating licence. Where the tax clearance certificate expires and the holder applies for the renewal/new tax clearance certificate, it must be submitted to the PRE (within 7 days of the expiry thereof). No further transactions on any operating licence will be allowed if there is no valid tax clearance certificate on file; 38. The holder of the operating licence must register the driver(s) of the vehicle specified in this operating licence with the Office of the Provincial Taxi Registrar. A copy of the driver's Identification document, Professiona Driving Permit and drivers licence must also be submitted to the Office of the Registrar together with a copy of the operating licence as part of the registration process. The driver must be registered within a period of 30 days from the issue date of the operating licence and only the registered driver(s) must be used to provide the service authorised by the operating licence. 39. The holder of this operating licence must apply for the renewal thereof at least 30 days before the expiry date; 40. Where there is a Taxi Recapitalisation (TRP) compliant vehicle linked to an operating licence, the holder will not be allowed to replace that vehicle with a vehicle that is not TRP5 compliant; and 41. The vehicle identified in this operating licence must be registered in the name of the operating licence holder. The following conditions are imposed on this commercial service contract of the Western Cape Education Department operating licence in terms of section 57(5) of the NLTA: --- 1. The holder must at all times adhere to the conditions of the contract issued by the Western Cape Education Department (herein referred to as the WCED) in respect of which the operating licence has been issued. In the case of a devolved contract, the holder must adhere the contract issued by the governing body or management of the school; 2. Where the contract between the WCED and the operating licence holder is not renewed, the authority to provide learner transport services will be removed from the operating licence and / or the operating licence will be cancelled. In such a case, the holder may only apply for the renewal of the operating licence where the operating licence authorises other public transport services; 3. Where the contract between the WCED and the operating licence holder is terminated prematurely, the routes mentioned in the contract will be removed from the operating licence. In such cases, the operating licence must be handed in to the Provincial Regulatory Entity within 7 days of the contract being cancelled by the WCED; 4. Where the contract with the WCED is amended so as to change the authority conveyed by the operating licence, or to extend the duration of the contract, the amended contract and operating licence must be submitted to the Provincial Regulatory Entity within 7 days for the amendment of the operating licence; and 5. That a debriefing session is held every six months with the school, affected learners and parents to discuss issues relating to the quality /safety of the service provided in terms of this operating licence and that corrective action is taken by the holder of the operating licence where requested by the school or WCED. Minutes of such meetings must be kept by the Principal of the school and critical issues relating to the service as we as cases where corrective action has not been taken by the operator must be brought to the attention of the Provincial Regulatory Entity. The following conditions are imposed on this charter service operating licence in terms of section 57(5) of the NLTA. --- 1. A charter operating licence may not be used to provide the following types of public transport services: * Minibus-taxi type services * Staff service * Metered taxi

services * Scholar services * Tourist services * Contracted services * Long distance services The only exception to this rule is where the operating licence also authorises the holder to provide other public transport services in addition to the charter authority; 2. The holder of this operating licence is authorised to transport groups of persons with a common interest or purpose to a particular destination (the same place)(previously known as the transportation of organised parties). In other words, it should be a homogeneous group, which could for example be members of a church or community organisation going to a wedding, funeral, conference, etc. The group must hire the vehicle and driver and can determine the route, date and time of departure; 3. Passengers may not be charged fares individually by either the driver or the operator and fares must be arranged beforehand; 4. The holder may not solicit passenger trips by requesting passengers to put their names and contact details on a waiting list. This does not constitute a group with a common interest or purpose and this practice is not allowed in terms of this operating licence. Law enforcement officers should prohibit the random conglomeration (grouping) of people to load a particular vehicle. This will result in a heterogeneous group (people that are randomly grouped together without a common purpose) that will more than likely disembark at different places. The NLTA explicitly stipulates that passengers must go to a common (same) destination; 5. The holder of this operating licence must keep a detailed logbook showing the names and contact details of the client, time of departure, destination, trip purpose and arrival time. This logbook must be submitted to the Provincial Regulatory Entity every six months and where the holder applies for the renewal of the operating licence. Such a logbook must also be presented to the PRE and Law Enforcement Officers on request; 6. The vehicle specified in this operating licence may not pick up passengers outside of the provincial area specified in this operating licence (This is not applicable to operating licences authorising services in the Republic of South Africa); 7. Where a charter authority is issued, the holder must ensure that the passenger list is kept in the vehicle, bar weddings, funerals and sporting trips where it is impossible to determine who will make use of the service; 8. No municipal ranks or bus terminals to be used for the loading and off-loading of passengers; 9. Charter operating licences cannot be used to form a minibus-taxi association or to apply for membership of a minibus-taxi association. Holders of charter operating licences cannot affiliate to a minibus-taxi association unless the operator also holds a valid operating licence(s) to provide minibus-taxi type services on the route or routes served by the association; 10. All luggage must be properly labelled with the name of the passenger whether such luggage is kept in the vehicle or in a separate trailer. The driver of the vehicle will be held responsible for any luggage that is not properly labelled in the event of illegal goods/contraband being discovered in such unmarked luggage during search operations;
