government printing
Department:
Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

Extraordinary Gazettes

3. *Extraordinary Gazettes* can have only one publication date. If multiple publications of an *Extraordinary Gazette* are required, a separate Z95/Z95Prov *Adobe* Forms for each publication date must be submitted.

Notice Submission Process

4. Download the latest *Adobe* form, for the relevant notice to be placed, from the **Government Printing Works** website www.gpwonline.co.za.

5. The *Adobe* form needs to be completed electronically using *Adobe Acrobat* / *Acrobat Reader*. Only electronically completed *Adobe* forms will be accepted. No printed, handwritten and/or scanned *Adobe* forms will be accepted.

6. The completed electronic *Adobe* form has to be submitted via email to submit.egazette@gpw.gov.za. The form needs to be submitted in its original electronic *Adobe* format to enable the system to extract the completed information from the form for placement in the publication.

7. Every notice submitted **must** be accompanied by an official **GPW** quotation. This must be obtained from the *eGazette* Contact Centre.

8. Each notice submission should be sent as a single email. The email **must** contain **all documentation relating to a particular notice submission**.

   8.1. Each of the following documents must be attached to the email as a separate attachment:

      8.1.1. An electronically completed *Adobe* form, specific to the type of notice that is to be placed.

         8.1.1.1. For National *Government Gazette* or *Provincial Gazette* notices, the notices must be accompanied by an electronic Z95 or Z95Prov *Adobe* form

         8.1.1.2. The notice content (body copy) **MUST** be a separate attachment.

      8.1.2. A copy of the official **Government Printing Works** quotation you received for your notice. *(Please see Quotation section below for further details)*

      8.1.3. A valid and legible Proof of Payment / Purchase Order: **Government Printing Works** account customer must include a copy of their Purchase Order**. Non-Government Printing Works** account customer needs to submit the proof of payment for the notice

      8.1.4. Where separate notice content is applicable (Z95, Z95 Prov and TForm 3, it should **also** be attached as a separate attachment. *(Please see the Copy Section below, for the specifications)*.

      8.1.5. Any additional notice information if applicable.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

9. The electronic *Adobe* form will be taken as the primary source for the notice information to be published. Instructions that are on the email body or covering letter that contradicts the notice form content will not be considered. The information submitted on the electronic *Adobe* form will be published as-is.

10. To avoid duplicated publication of the same notice and double billing, Please submit your notice **ONLY ONCE.**

11. Notices brought to **GPW** by "walk-in" customers on electronic media can only be submitted in *Adobe* electronic form format. All "walk-in" customers with notices that are not on electronic *Adobe* forms will be routed to the Contact Centre where they will be assisted to complete the forms in the required format.

12. Should a customer submit a bulk submission of hard copy notices delivered by a messenger on behalf of any organisation e.g. newspaper publisher, the messenger will be referred back to the sender as the submission does not adhere to the submission rules.

QUOTATIONS

13. Quotations are valid until the next tariff change.

    13.1. ***Take note:*** **GPW**'s annual tariff increase takes place on ***1 April*** therefore any quotations issued, accepted and submitted for publication up to ***31 March*** will keep the old tariff. For notices to be published from 1 April, a quotation must be obtained from **GPW** with the new tariffs. Where a tariff increase is implemented during the year, **GPW** endeavours to provide customers with 30 days' notice of such changes.

14. Each quotation has a unique number.

15. Form Content notices must be emailed to the *eGazette* Contact Centre for a quotation.

    15.1. The *Adobe* form supplied is uploaded by the Contact Centre Agent and the system automatically calculates the cost of your notice based on the layout/format of the content supplied.

    15.2. It is critical that these *Adobe* Forms are completed correctly and adhere to the guidelines as stipulated by **GPW**.

16. **APPLICABLE ONLY TO GPW ACCOUNT HOLDERS**:

    16.1. **GPW** Account Customers must provide a valid **GPW** account number to obtain a quotation.

    16.2. Accounts for **GPW** account customers **must** be active with sufficient credit to transact with **GPW** to submit notices.

        16.2.1. If you are unsure about or need to resolve the status of your account, please contact the **GPW** Finance Department prior to submitting your notices. (If the account status is not resolved prior to submission of your notice, the notice will be failed during the process).

17. **APPLICABLE ONLY TO CASH CUSTOMERS:**

    17.1. Cash customers doing **bulk payments** must use a **single email address** in order to use the **same proof of payment** for submitting multiple notices.

18. The responsibility lies with you, the customer, to ensure that the payment made for your notice(s) to be published is sufficient to cover the cost of the notice(s).

19. Each quotation will be associated with one proof of payment / purchase order / cash receipt.

    19.1. This means that **the quotation number can only be used once to make a payment.**

GOVERNMENT PRINTING WORKS - BUSINESS RULES

COPY (SEPARATE NOTICE CONTENT DOCUMENT)

20. Where the copy is part of a separate attachment document for Z95, Z95Prov and TForm03

20.1. Copy of notices must be supplied in a separate document and may not constitute part of any covering letter, purchase order, proof of payment or other attached documents.

The content document should contain only one notice. (You may include the different translations of the same notice in the same document).

20.2. The notice should be set on an A4 page, with margins and fonts set as follows:

Page size = A4 Portrait with page margins: Top = 40mm, LH/RH = 16mm, Bottom = 40mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

Page size = A4 Landscape with page margins: Top = 16mm, LH/RH = 40mm, Bottom = 16mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

CANCELLATIONS

21. Cancellation of notice submissions are accepted by **GPW** according to the deadlines stated in the table above in point 2. Non-compliance to these deadlines will result in your request being failed. Please pay special attention to the different deadlines for each gazette. Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.

22. Requests for cancellation must be sent by the original sender of the notice and must accompanied by the relevant notice reference number (N-) in the email body.

AMENDMENTS TO NOTICES

23. With effect from 01 October 2015, **GPW** will not longer accept amendments to notices. The cancellation process will need to be followed according to the deadline and a new notice submitted thereafter for the next available publication date.

REJECTIONS

24. All notices not meeting the submission rules will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za). Reasons for rejections include the following:

24.1. Incorrectly completed forms and notices submitted in the wrong format, will be rejected.

24.2. Any notice submissions not on the correct *Adobe* electronic form, will be rejected.

24.3. Any notice submissions not accompanied by the proof of payment / purchase order will be rejected and the notice will not be processed.

24.4. Any submissions or re-submissions that miss the submission cut-off times will be rejected to the customer. The Notice needs to be re-submitted with a new publication date.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

APPROVAL OF NOTICES

25. Any notices other than legal notices are subject to the approval of the Government Printer, who may refuse acceptance or further publication of any notice.

26. No amendments will be accepted in respect to separate notice content that was sent with a Z95 or Z95Prov notice submissions. The copy of notice in layout format (previously known as proof-out) is only provided where requested, for Advertiser to see the notice in final Gazette layout. Should they find that the information submitted was incorrect, they should request for a notice cancellation and resubmit the corrected notice, subject to standard submission deadlines. The cancellation is also subject to the stages in the publishing process, i.e. If cancellation is received when production (printing process) has commenced, then the notice cannot be cancelled.

GOVERNMENT PRINTER INDEMNIFIED AGAINST LIABILITY

27. The Government Printer will assume no liability in respect of—

27.1. any delay in the publication of a notice or publication of such notice on any date other than that stipulated by the advertiser;

27.2. erroneous classification of a notice, or the placement of such notice in any section or under any heading other than the section or heading stipulated by the advertiser;

27.3. any editing, revision, omission, typographical errors or errors resulting from faint or indistinct copy.

LIABILITY OF ADVERTISER

28. Advertisers will be held liable for any compensation and costs arising from any action which may be instituted against the Government Printer in consequence of the publication of any notice.

CUSTOMER INQUIRIES

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While **GPW** deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.
GPW has a 2-working day turnaround time for processing notices received according to the business rules and deadline submissions.
Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

29. Requests for information, quotations and inquiries must be sent to the Contact Centre ONLY.

30. Requests for Quotations (RFQs) should be received by the Contact Centre at least **2 working days** before the submission deadline for that specific publication.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

Payment of cost

31. The Request for Quotation for placement of the notice should be sent to the Gazette Contact Centre as indicated above, prior to submission of notice for advertising.

32. Payment should then be made, or Purchase Order prepared based on the received quotation, prior to the submission of the notice for advertising as these documents i.e. proof of payment or Purchase order will be required as part of the notice submission, as indicated earlier.

33. Every proof of payment must have a valid **GPW** quotation number as a reference on the proof of payment document.

34. Where there is any doubt about the cost of publication of a notice, and in the case of copy, an enquiry, accompanied by the relevant copy, should be addressed to the Gazette Contact Centre, **Government Printing Works**, Private Bag X85, Pretoria, 0001 email: info.egazette@gpw.gov.za before publication.

35. (3) A director may only be re-appointed as a director of the board based on the performance and execution of the director's responsibilities in the Board and its committees and attendance of board meetings and board committees' meetings.

Removal of directors

101.(1) Subject to section 71(1) and (2) of the Companies Act, a director shall be removed as a director of the Bank, if he or she has been absent from three consecutive meetings of the Board without the leave of the Board and the Board has resolved that his or her office be vacated by reason of such absence.

(2) The Minister shall furnish the Cabinet and the public with reasons for the removal of any director in terms of section 71(1) and (2) of the Companies Act.

Vacation of office

102. A director shall immediately vacate office if he or she—

(a) is convicted of a criminal offence, whether in the Republic or elsewhere;

(b) becomes a public office bearer;

(c) becomes an insolvent;

(d) has been removed from an office of trust on account of misconduct;

(e) is removed as director in terms of regulation 101; or

(f) without authorisation discloses or improperly acts on information gained as a result of his or her membership of the Board.

Conditions of employment of chief executive officer

103.(1) The Board shall, with the approval of the Minister, determine the remuneration and other conditions of employment of the chief executive officer, appointed in terms of section 12 of the Act.

(2) The chief executive officer shall, within three months after appointment, enter into a performance agreement with the Board.

Conflict of interest and declaration by directors

104. (1) A director shall, on appointment, submit to the Bank a written declaration whether that director's family has any financial or other direct or indirect interest that—

(a) may constitute a conflict of interest in respect of his or her functions as a director of the Board; or

(b) could reasonably be expected to compromise the Board in the performance of its functions.

(2) If a director acquires an interest contemplated in sub-regulation (1), he or she shall immediately in writing declare that fact to the Board.

(3) A director may not be present at, or take part in, the discussion of, or the taking of a decision on, any matter before the Board in which that director has an interest contemplated in sub-regulation (1).

(4) A director may not use his or her position or confidential information obtained as a director, for personal gain or to improperly benefit another person.

(5) The Bank shall keep a register of the interests of directors declared in terms of sub-regulations (1) and (2) and shall update that register within five working days after receipt of a declaration.

(6) For purposes of subregulation (1), "family" means an individual related to another individual if they—

(a) are married, or live together in a relationship similar to a marriage; or

(b) are separated by no more than two degrees of natural or adopted consanguinity or affinity.".

3. The following regulation is hereby inserted after regulation 104 of the Regulations:

"Directors may not hold other offices

104A. A director may not hold any other office in the Bank except for the chief executive officer, any executive manager or member of the staff of the Bank referred to in section 7(4) of the Act.".

4. The following regulation is hereby substituted for regulation 111 of the Regulations:

"**Director's fees and expenses**

111. Directors shall be paid directors' fees for attending the meetings of the board and the reimbursement of expenses in connection with travel and subsistence in accordance with the Banks' policies, except for the chief executive officer, any executive manager or member of the staff of the Bank referred to in section 7(4) of the Act.".

Notice is hereby given that Agrément South Africa has, with effect from 18 July 2024, **reappraised** an Agrément certificate, details of which appear in the schedule hereto.

SCHEDULE

Agrément certificate 2013/436 (Reappraisal July 2024): Exelis Development Building System

Subject: Exelis Development Building System

Certificate holder: Exelis Development (Pty) Ltd

Description: The Exelis Development Building System combines innovative and conventional construction methods. It is a single-storey structure that uses factory-produced wall and roof panels. Walls are 2400 mm x 1200 mm x 150 mm thick lightweight sandwich panels comprising a polyurethane (PU) or Expanded Polystyrene (EPS) core encapsulated in two layers of 15 mm thick Magnesium Oxide (Mg0) boards.

The foundations are cast in-situ concrete surface beds with thickened edge beams. They are always designed by a professional engineer or competent person. The roof panels are made of the same material as the wall panels and are externally clad with light or heavyweight cladding.

Alternatively insulated roofs are conventional.

Windows are "clisco" type frames and door frames are made of galvanised pressed steel.

All other services are conventional.

The Agrément certificate contains detailed information on the product and can be accessed at http://www.agrement.co.za.

SCHEDULE

Agrément certificate 2010/372: (Reappraisal April 2024): Blast Building System

Subject: Blast Building System

Certificate holder: Didutex (Pty) Ltd

Description: The Blast Building System foundations consist of conventional concrete surface bed foundations with thickened edge beams and thickening under the internal load-bearing walls. Surface bed is power-floated to a smooth finish or screed at a later stage.

The structural frame comprises 90mm x 40mm x 0.6mm zincalume base rails, 90mm x 40mm x 10mm x 0.6mm zincalume lipped channel vertical studs at 600mm centres and 90mm x 40mm x 0.6mm zincalume ring beams. Horizontal reinforcing bars, 8mm diameter, are centrally placed, passing through the vertical studs and spaced at 1.2m centres.

Internal walls are constructed from zincalume base rails, vertical studs, and ring beam capping (no horizontal reinforcing) of similar dimensions as the external wall and clad on both sides with 10mm thick magboard. Internal load-bearing walls are constructed as external walls.

The base rails are anchored to the surface bed with 10mm diameter expansion bolts with large diameter washes at 800mm centres. Bitumen 2mm thick forms the DPC below the base rail. The external base rail overlaps the edge of the foundation by 10mm.

Vertical studs, base rail and ring beams etc, are secured to one another using three self-drilling tapping tek screws per side.

Galvanised lipped channel roof beam 150mm or 100mm x 50mm x 10mm x 2mm thick span from gable to gable and can be supported on internal cross walls. Roof beams are anchored to ring beams with 32mm x 1.6mm galvanised mild steel straps taken over the beam and bolted to the ring beam on either side. Roof construction can also be conventional timber construction spanning from eaves to eaves. Roof cladding can be either light or heavy weight.

All external walls are internally clad with 6mm thick magnesium oxide boards (magboard) secured at 300mm centres to the structural frame. A 2mm wide gap is left between boards that are sealed with an acrylic sealant before painting. Internal walls are insulated with a 100mm thick fibreglass blanket wedged between the magboard linings.

Window and door openings are lined with zincalume lipped channels, Timber or “clisco” type frames are secured in position with foamed polyurethane.

20 MPa concrete (1: 5 mix with 750 micron to 10mm graded aggregate) is spray applied to external walls in two layers, filling the cavities between structural members and floating to a smooth finish. External walls are always rendered with 12mm to 15mm thick plaster.

Services are conventional.

Agrément certificate 2011/398: (Reappraisal April 2024): Sandbag Building System

Subject: Sandbag Building System

Certificate holder: Avranex (Pty) Ltd trading as Ubuhle Bakha Ubuhle (UBU)

Description: Sandbag Building System is a timber frame structure consisting of timber lattice beams (Eco-Beam) as vertical and horizontal studs and wall plates with sandbags as in fills. The walls are finished by securing steel wire mesh on both sides of the frame structure and plastering with conventional cement-sand plaster 25 mm thick.

The Eco-beams are fabricated from two 38 mm square treated timber sections **(SANS 10005)** connected by continuous galvanised steel strap which zigzag between the timber to form a lattice beam 220 mm deep.

The foundation and ground floor slabs are conventional concrete strip footing and surface bed with screed finish which are always the responsibility of a professional engineer.

The walls are nominally 270 mm thick and constructed by fixing vertical Eco-beams (columns/studs) spaced at 900 mm centres to top and bottom Eco-beams (wall and sole plates). Bags made from UV protected non-woven polypropylene fabric and measuring 300 mm x 300 mm are filled with sand and packed in between the studwork up to the wall plate. Each layer is compacted slightly.

At the corners or junctions, the walls are Eco-beams reinforced with 6 mm diameter steel wire mesh at least 300 mm in length on both sides of the corner or junction. At window and door openings timber frames are built between Eco-beams with wire ties to restrain adjacent studs from buckling. Lintels are formed with welded steel wire mesh fixed to suds on both sides of the opening.

Electrical and plumbing services are positioned in place within the bags before the application of plaster.

The roof is constructed of eco-beams, timber rafters or conventional timber trusses and light- or heavy weight cladding. Window and door frames are incorporated as in timber frame structures and are conventional.

Agrément certificate 1999/272: (Reappraisal April 2024): Robust Building System

Subject: Robust Building System

Certificate holder: Robust Structure (Pty) Ltd

Description: In Single storey buildings Robust Building System consists of:

- conventional strip foundation, conventional cast in situ concrete surface beds with thickened edge beams and thickening under internal walls.
- walls constructed of factory produced expanded metal panels supported with additional reinforcing, to which mortar is applied on both faces. Mortar is applied to panels either by hand or mechanical packing. Mechanically applied mortar may be applied wet (pumped) or dry (gunited). Both faces of core are plastered.
- conventional roof construction and roof coverings.
- where the Robust System is to be used in the Southern Coastal Condensation Problem Area, insulated ceilings are installed in all cases and outer walls are given an additional external finish of Perlite plaster. The walls must be 130 mm, excluding 13 mm thick additional plaster on the outside.
- in multi storey structures the Robust panels are used as infill panels and are designed and constructed under the supervision of a professional competent engineer.

Agrément Certificate 2022/634 (Amended June 2024)

Subject: Amalooloo/MyLoo Urine Diversion and Low Volume Multi-Flush Toilet System

Certificate holder: Betram (Pty) Ltd

Description: The Amalooloo/MyLoo Urine Diversion and Low Volume Multi-Flush Toilet System is a combination of low-flush and non-water-borne toilets that comprise prefabricated construction panels and plumbing components.

The system consists of the following components:

- **A pedestal with a complete Urine Diversion System (UDS) and child safety seat.**

This pedestal system includes a liquid separation function that allows liquid to be dispersed through a dispersion field and for solid waste to be collected and dried in a pit.

- **Myloo Pedestal with a visual barrier at the bottom of the toilet pan**.

This pedestal is the same as the urine diversion but includes a visual barrier between the user and the pit. The barrier comprises a mechanical flap that remains in the closed position while the toilet is not in use. When a user sits on the toilet the flap opens allowing a free channel for defecation to pass through to the pit. The flap can also be opened by stepping on a foot pedal.

- **A Low Volume Multi-Flush Sanitation System.**

The low volume multi flush system allows for the system to be installed as either a pour flush system without the need for the Amalooloo cistern component to be fitted, or a lever flush system fitted with the incorporated Amalooloo cistern component. The low volume multi flush system allows for effective flushing performance with a flush volume of 1.0 litres or more. The pedestal is replaced by a toilet pan arrangement with a uniquely designed discharge configuration. The configuration comprises a uniform pipe length containing no water trap. To limit smells from the toilet pan, a self-closing flap is provided at the outlet of the pipe and a 110 mm vent stack pipe is provided for airflow

from the toilet pan side to the outlet of the air stack. The function of the vent is to eliminate and/or significantly reduce smells.

- **Top structure and Bottom Structure**

The system is manufactured from reinforced precast concrete slabs consisting of the following components:

- top structure with a base, roof, side panels and a door; and
- a sealed bottom structure.

The dimensions of the panels are described as follows:

- side wall panels – 1150 mm length x 990 mm height x 30 mm thickness (2 identical panels each side)
- back wall panels – 970 mm length x 990 mm height x 30 mm thickness (2 identical panels)
- roof slab – 1250 mm length x 970 mm width x 40 mm thickness
- floor slabs - 1250 mm length x 970 mm width x 40 mm thickness and
- bottom structure – 2500 mm length x 1250 mm width x 1000 mm depth.

Optional components of the system can include:

- Rainwater collection gutters fitted to the roof slabs
- Freestanding rainwater collection tank
- External hand wash basin with a tap, fed from the rainwater collection tank and
- A concrete tank stand.

SCHEDULE

Agrément certificate 2013/446: (Reappraisal April 2024): Non-tacky Tack Coat (nt-cote)

Subject: Non-tacky Tack Coat (nt-cote)

Certificate holder: Tarspray cc

Description: Non-tacky Tack Coat consists of 50/70 penetration grade bitumen that complies with the requirements of **SANS 4001 – BT1**, emulsifier and filler which comply with the confidential specification under the manufacturer's control. The water conforms to national standards for potable water (**SANS 241**). The Non-tacky Tack Coat is applied at a rate of between 0.3 l/m^2 and 0.6 l/m^2 to asphalt surfacing in a manner similar to the conventional SS60 tack coat.

The Non-tacky Tack Coat is an effective binding agent for an overlaid asphalt layer. It has a lower tackiness than the SS60 tack. The Non-tacky Tack Coat does not ultimately prevent the pick-up of tack. However, it certainly retards pick-up of the tack under construction vehicles. Also, it does not decrease the inter-layer asphalt strength in any way. It is safe for workers to use and is friendly to the environment.

Agrément certificate 2014/450: (Reappraisal April 2024): Power Profile Building System

Subject: Power Profile Building System

Certificate holder: Shell Case 208 (Pty) Ltd

Description: Power Profile Building System utilises both conventional and innovative aspects of construction. The foundations are conventional and the responsibility of a registered professional, competent person.

The external walls are structural bearing prefabricated panels made up of a 50 mm thick expanded polystyrene core of density 16 kg/m^3 encapsulated by 0.5 mm zincalume sheets with AZ150 coating, which complies with the requirements of SANS 9364. The inside face of the panel is lined with 51 mm thick Isover glasswool cavitybatt insulation of density 14 kg/m^3 and 15 mm thick fire stop board. The overall thickness of the external wall panel is 117 mm. Internal walls are made from the same panel as the external walls but with 15 mm fire stop boards on either side.

All external wall panels are finished with two coats of water-based acrylic paint or any similar Agrément certified paint. One coat of the same paint is applied on the internal walls. In corrosive conditions the external wall facings are to be treated as specified in durability: explanatory notes, page 11 of 21 of this certificate.

The roof structure conventional and the design and erection are the responsibility of a registered competent person.

Windows and door frames are made up of aluminium or steel, and provisions for all openings are pre-cut during the panel manufacturing stage.

Electrical and plumbing services and/or conduits are conventional and must be specified and installed in accordance with good building practice.

Agrément certificate 2014/474: (Reappraisal April 2024): FSM FR Polycore Building System

Subject: FSM FR Polycore Building System

Certificate holder: Fabricated Steel Manufacturing Company (Pty) Ltd

Description: FSM FR Polycore Building System is used for single-storey buildings. The system comprises prefabricated components that are assembled on-site, conventional strip or raft foundations and roofs with insulated ceilings.

Foundations are either cast in-situ concrete surface beds with thickened edge beams or with strip footings. Where the latter are used, the surface bed is thickened over the brick plinth. A 105 mm x 40 mm deep rebate is formed around the perimeter of the slab to accommodate the external wall panels.

The minimum reinforcing mesh to be used in the slab is RF193. The design and approval of the foundation is always the responsibility of a registered professional competent engineer. The external wall panels (wall type 1) are up to 3000 mm × 1120 mm × 103 mm thick. They comprise a 0.58 mm pre-galvanized. Chromadek sheet on either side encapsulating a 90 mm thick Expanded Polystyrene (15 kg/m^3) core laminate to a 12 mm thick fire-resistant MgO board.

Wall type 1 is also used as an internal wall for the following occupancy classifications:

- moderate and low-risk commercial service buildings (B2 & B3)
- low and moderate risk industrial (D2 & D3)
- large, small shops and wholesalers store (F1, F2 & F3)
- dwelling house (detached houses) and related outbuildings (H4).

The internal wall panels (wall type 2) are used for occupancies where 41 – 45dB sound insulation is required. The panels are up to 3000 mm × 1120 mm × 103 mm thick. They comprise two sheets of 0.58 mm pre-galvanised Chromadek sheets and two boards of 12 mm thick fire-resistant MgO encapsulating an 80 mm thick and Expanded Polystyrene (15 kg/m3) core. In addition, internal wall panels (wall type 3) can be up to 3000 mm x 1120 mm × 206 mm thick and comprise 2 No. wall type 1 erected back-to-back. These are for occupancies where a 60-minute FR and 45 dB sound insulation are required.

The roof structure comprises a bolted steel structure with light- or heavy-weight cladding. Ceilings are always insulated.

Window and door frames are galvanised steel or are aluminium, which are purpose made to suite the design of the building system.

Plumbing and electrical conduits can be flush mounted or surface mounted onto the composite panels.

Agrément certificate 2015/490 (Reappraisal July 2024): Abacus EzeeSpace Building System

Subject: Abacus EzeeSpace Building System

Certificate holder: Waco Modular a division of Waco Africa (Pty) Ltd

Description: Abacus EzeeSpace Building System is made of a standard 6 100 mm long x 3 050 mm wide x 2 850 mm high exoskeleton steel frame. The frame comprises a steel exoskeleton with four corner posts. 1200 mm wide x
2 480 mm high x 73 mm thick panels are slotted between the corner posts.

The foundation and floor slab are conventional and can either be raft or suspended steel floor. Steel must either be hot-dip galvanised in accordance with SANS 121 or powder coated. The design, erection and approval of the foundation is the responsibility of an approved competent person.
The external wall panels consist of 60 mm thick Expanded Polystyrene (EPS) core of 15 kg/m3 density. The EPS core is clad by 0.58 mm chromadek on both sides. The external wall is lined with a 12 mm Superboard on its internal face. The internal wall is constructed using a 40 mm thick EPS core clad with 12 mm Superboards on both sides. Panel joints comprise tongue and groove sections.
The roof structure is constructed from light gauge galvanised steel trusses that are designed and erected in accordance with SANS 517 and clad with light- or heavy-weight cladding. The roof structure is the responsibility of an approved competent person.

Door frames are made from aluminium or powder coated steel and window frames are made from aluminium. Both window and door frames are factory fitted onto the panels during manufacturing stage.

All services are conventional and electrical conduits are either surface mounted or pre-drilled into the panels during manufacturing. Services must be specified and installed in accordance with good building practice.

NOTICE 2793 OF 2024

INTERNATIONAL TRADE ADMINISTRATION COMMISSION

CUSTOMS TARIFF APPLICATIONS

LIST 06/2024

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following application concerning the Customs Tariff. Any objection to or comment on this representation should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001. Attention is drawn to the fact that the rate of duty mentioned in this application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at http://www.itac.org.za/documents/R.397.pdf.
These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- *Each instance where confidential information has been omitted and the reasons for confidentiality;*
- *A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- *In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.
If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due).
Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

ITAC SELF-INITIATED INVESTIGATION FOR THE POSSIBLE CREATION OF A FULL DUTY REBATE PROVISION FOR COPPER SULPHATE USED IN THE MANUFACTURE OF ANIMAL FEED, AS FOLLOWS:

Rebate of the full duty on copper sulphates, classifiable under tariff subheading 2833.25 used in the manufacture of preparations of a kind used in animal feeding in such quantities, at such times and subject to such conditions as the International Trade Administration Commission may allow by specific permit, provided the product is not available in the SACU market.

ENTITY:

International Trade Administration Commission (ITAC)
77 Meintjies Street
Sunnyside
Pretoria
0001

REASONS FOR THE SELF-INITIATED INVESTIGATION:

ITAC Report No. 675: Increase in the rate of customs duty on sulphates; alums; peroxosulphates (persulphates): of copper, classifiable under tariff subheading 2833.25 from free of duty to 10 per cent *ad valorem*, was implemented by the South African Revenue Services ("SARS") on 20 September 2024.

The then Minister of Trade, Industry and Competition took cognisance of the unintentional consequential impact on the animal feed manufacturing sector, who use copper sulphate in their production processes, once the increased duty is implemented, and subsequently requested that ITAC conduct an expedited investigation regarding the possible creation of a rebate facility for copper sulphate used in the manufacture of animal feed.

INTERNATIONAL TRADE ADMINISTRATION COMMISSION

NOTICE OF INITIATION OF THE INVESTIGATION INTO THE ALLEGED DUMPING OF FULLY AUTOMATIC TOP LOAD MACHINES, OF A DRY LINEN CAPACITY EXCEEDING 10 KG BUT LESS THAN 17 KG, CLASSIFIABLE UNDER TARIFF SUBHEADING 8450.20.20 ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA ("CHINA") AND THE KINGDOM OF THAILAND ("THAILAND")

Defy Appliances (Proprietary) Limited ("the Applicant") submitted an application to the Commission alleging that fully automatic top load machines originating in or imported from the People's Republic of China ("China") and the Kingdom of Thailand ("Thailand") is being dumped on the SACU market, causing material injury and a threat of material injury to the SACU industry concerned.

THE APPLICANT

The application was lodged by Defy Appliances (Proprietary) Limited ("the Applicant"). The Applicant alleges that the dumped product is causing material injury and that a threat of material injury exists. The Applicant submitted sufficient evidence and established a *prima facie* case to enable the Commission to arrive at a reasonable conclusion that an investigation should be initiated on the basis of dumping, material injury, threat of material injury and causality.

THE PRODUCT

The product allegedly being dumped is fully automatic top load machines, of a dry linen capacity exceeding 10 kg but less than 17 kg, classifiable under tariff sub-heading 8450.20.20 originating in or imported from China and Thailand.

THE ALLEGATION OF DUMPING

The allegation of dumping is based on the comparison between the normal value in China and Thailand and the export prices from China and Thailand.

People's Republic of China

The normal value for China was determined based on the price quotations of 12kg and 15kg of the top load washing machines.
To calculate the export price for China, the official South African Revenue Service ("SARS") statistics for the period 1 April 2023 to March 2024 were used. An adjustment of 5% for inland freight was calculated to arrive at the ex-factory export price.

The dumping margin for China was determined to be 21.48%.

Kingdom of Thailand
The normal value for Thailand was determined based on the price quotations of 12 kg, 14 kg and 16 kg of the top load washing machines.

To calculating the export price for Thailand, the official SARS statistics for the period 1 April 2023 to March 2024 were used. An adjustment of 5% for inland freight was calculated to arrive at the ex-factory export price.

The dumping margin for Thailand was determined to be 67.11%.

On this basis, the Commission found that there was *prima facie* proof of dumping of the subject product originating in or imported from China and Thailand.

THE ALLEGATION OF MATERIAL INJURY; THREAT OF MATERIAL INJURY AND CAUSAL LINK – CUMULATIVE ASSESSMENT

There are two countries involved in this investigation, namely China and Thailand.
In terms of the ADR16.3, the Commission may cumulatively assess the effect of the dumped imports only if it finds that cumulating is appropriate. In light of the information available, the Commission decided to do a cumulative assessment of the effect of the dumped imports from China and Thailand.

The Applicant submitted evidence showing that it experienced injury in the form of price suppression and undercutting, decline in profits, decline in return on investments, negative effects on cash flow, and increase in inventories from 2022 to 2024.

The Applicant alleged that a threat of material injury exists and submitted evidence with regards to the freely disposable capacity of the exporters, significant increase of the alleged dumped imports, the state of the economy in China and Thailand and prices of imports which will have a significant undercutting or suppressing effect on domestic prices.

On this basis, the Commission found that there was *prima facie* proof of material injury, a threat of material injury and causal link.

PERIOD OF INVESTIGATION

The period of investigation for the purpose of determining the dumping margin in the exporting country of origin will be from 1 April 2023 to 31 March 2024. The period of investigation for the purpose of determining material injury will be from 1 April 2022 to 31 March 2024.

PROCEDURAL FRAMEWORK

Having decided that there is sufficient evidence and a *prima facie* case to justify the initiation of an investigation, the Commission has begun an investigation in terms of section 16 of the International Trade Administration Act, 2002 ("the ITA Act"). The Commission will conduct its investigation in accordance with the relevant sections of the ITA Act and the Anti-Dumping Regulations of the International Trade Administration Commission of South Africa ("ADR"). Both the ITA Act and the ADR are available on the Commission's website (www.itac.org.za) or from the Trade Remedies section, on request.

To obtain the information it deems necessary for its investigation, the Commission will send non-confidential versions of the application and questionnaires to all known importers and exporters and known representative associations. The trade representatives of the exporting countries have also been notified. Importers, exporters, and other interested parties are invited to contact the Commission as soon as possible to determine whether they have been listed and were furnished with the relevant documentation. If not, they should immediately ensure that they are sent copies. The questionnaire must be completed, and any other representations must be made within the time limit set out below.

CONFIDENTIAL INFORMATION

Please note that if any information is considered to be confidential then a non-confidential version of the information must be submitted for the public file, simultaneously with the confidential version. In submitting a non-confidential version, the following rules are strictly applicable, and parties must indicate:

- where confidential information has been omitted and the nature of such information;
- reasons for such confidentiality;
- a summary of the confidential information which permits a reasonable understanding of the substance of the confidential information; and
- In exceptional cases, where information is not susceptible to summary, a sworn affidavit setting out the reasons why it is impossible to comply should be

provided.

A sworn affidavit is defined as a written sworn statement of fact voluntarily made by an affiant or deponent under an oath or affirmation administered by a person authorized to do so by law. Such statement is witnessed as to the authenticity of the affiant's signature by a taker of oaths, such as a notary public or commissioner of oaths. An affidavit is a type of verified statement or showing, or in other words, it contains verification, meaning it is under oath or penalty of perjury and this serves as evidence to its veracity and is required for court proceedings.

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless indicated to be confidential and filed together with a non-confidential version, will be placed on the public file and be made available to other interested parties.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations based on the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and, any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality. In the alternative, a sworn statement should be made setting out reasons why it is impossible to comply with these requirements.

Section 2.3 of the ADR provides as follows:

"The following list indicates "information that is by nature confidential" as per section 33(1) (a) of the Main Act, read with section 36 of the Promotion of Access to Information Act (Act 2 of 2000):

(a) management accounts;

(b) financial accounts of a private company;

(c) actual and individual sales prices;

(d) actual costs, including cost of production and importation cost;

(e) actual sales volumes;

(f) individual sales prices;

(g) information, the release of which could have serious consequences for the person that provided such information; and

(h) information that would be of significant competitive advantage to a competitor;

Provided that a party submitting such information indicates it to be confidential."

ADDRESS

The response to the questionnaire and any information regarding this matter and any arguments concerning the allegation of dumping and the resulting material injury and threat of material injury must be submitted in writing to the following address:

PROCEDURES AND TIME LIMITS

All responses, including non-confidential copies of the responses, should be received by the Senior Manager: Trade Remedies I not later than 30 days from the date hereof, or from the date on which the letter accompanying the above-mentioned questionnaire was received. The said letter shall be deemed to have been received seven days after the day of its dispatch.

Late submissions will not be accepted except with the prior written consent of the Commission. The Commission will give due consideration to written requests for an extension of not more than 14 days on good cause shown (properly motivated and

substantiated), if received prior to the expiry of the original 30-day period. Merely citing insufficient time is not an acceptable reason for extension. Please note that the Commission will not consider requests for extension by the Embassies on behalf of exporters.

The information submitted by any party may need to be verified by the Investigating Officers for the Commission to take such information into consideration. The Commission may verify the information at the premises of the party submitting the information, within a short period after the submission of the information to the Commission. Parties should therefore ensure that the information submitted will subsequently be available for verification. It is planned to do the verification of the information submitted by the exporters within three to five weeks subsequent to submission of the information. This period will only be extended if it is not feasible for the Commission to do it within this time period or upon good cause shown, and with the prior written consent of the Commission, which should be requested at the time of the submission. It should be noted that unavailability of, or inconvenience to consultants will not be considered as good cause.

Parties should also ensure when they engage consultants that they will be available at the requisite times, to ensure compliance with the above time frames. Parties should also ensure that all the information requested in the applicable questionnaire is provided in the specified detail and format. The questionnaires are designed to ensure that the Commission is provided with all the information required to make a determination in accordance with the rules of the ADR. The Commission may therefore refuse to verify information that is incomplete or does not comply with the format in the questionnaire, unless the Commission has agreed in writing to a deviation from the required format. A failure to submit an adequate non-confidential version of the response that complies with the rules set out above under the heading *Confidential Information* will be regarded as an incomplete submission.

Parties, who experience difficulty in furnishing the information required, or submitting in the format required, are therefore urged to make written applications to the Commission at an early stage for permission to deviate from the questionnaire or provide the information in an alternative format that can satisfy the Commission’s requirements. The Commission will give due consideration to such a request on good cause shown.

Any interested party may request an oral hearing at any stage of the investigation in accordance with Section 5 of the ADR, provided that the party indicates reasons for not

relying on written submission only. The Commission may refuse an oral hearing if granting such hearing will unduly delay the finalisation of a determination. Parties requesting an oral hearing shall provide the Commission with a detailed agenda for, and a detailed version, including a non-confidential version, of the information to be discussed at the oral hearing at the time of the request.

If the required information and arguments are not received in a satisfactory form within the time limit specified above, or if verification of the information cannot take place, the Commission may disregard the information submitted and make a finding based on the facts available to it.

Should you have any queries, please do not hesitate to contact the following investigating officers: **Dr. Regina Peta at RPeta@itac.org.za** and **Mr Emmanuel Manamela at Emanamela@itac.org.za**.

BOARD NOTICE 683 OF 2024

HEALTH PROFESSIONS COUNCIL OF SOUTH AFRICA

HEALTH PROFESSIONS ACT, 1974 (ACT NO. 56 OF 1974)

ETHICAL RULES OF CONDUCT FOR PRACTITIONERS REGISTERED UNDER THE HEALTH PROFESSIONS ACT, 1974: AMENDMENT

The Health Professions Council of South Africa has, under section 49 read with section 61A (2) of the Health Professions Act, 1974 (Act No. 56 0f 1974) and in consultation with the professional board for optometry and dispensing opticians, made the rules in the schedule.

SCHEDULE

Definitions

1. In these rules **"the Ethical Rules of Conduct"** means the Ethical rules of conduct for practitioners registered under the Health Professions Act, 1974 published under Government Notice No. R. 717 of 04 August 2006, as amended by Government Notice Nos. R. 68 of 02 February 2009, R. 654 of 30 July 2010, Board Notice Nos. 26 of 01 March 2013, and 373 of 01 December 2022, and any word or expression to which a meaning has been assigned in the rules shall have that meaning, unless the context otherwise indicates.

Amendment of Annexure 8 of the Ethical Rules of Conduct

2. Annexure 8 of the Ethical Rules of Conduct is hereby amended by the substitution for paragraph (f), of rule 1(4) of Annexure 8, of the following paragraph:

"(f) not less than thirty days prior to conducting such a mobile practice, the board is given a written notice of –

(i) intention to conduct a mobile practice;

(ii) the address where a mobile practice will be conducted; and

(iii) the period/s during which such a mobile practice will be conducted.
