Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

DEPARTMENT OF FORESTRY, FISHERIES AND THE ENVIRONMENT

NO. 5774 **24 January 2025**

MARINE LIVING RESOURCES ACT, 1998
(ACT NO. 18 OF 1998)

CONSULTATION ON THE PROPOSED REGULATIONS RELATING TO THE ENTRY OF FOREIGN FISHING VESSELS INTO SOUTH AFRICAN WATERS

I, Dr Dion Travers George, the Minister of Forestry, Fisheries and the Environment, hereby publish the draft Regulations relating to the entry of foreign fishing vessels into South African Waters (the Draft Regulations) for public comment. The proposed regulations will be made in terms of sections 77(1), 77(2)*(g)*, *(j)*, *(k)*, *(o)* and 42(4) of the Marine Living Resources Act, 1998 (Act No. 18 of 1998), and are set out in the schedule to this notice.

The draft regulations seek to create a discreet notification and permitting procedure applicable to foreign fishing vessels that wish to traverse South African waters or enter into South African ports. The intention is—

- to provide certainty for those vessels as to the processes and procedures required prior to entering South African waters;
- to ensure that South Africa is aware of the presence of foreign fishing vessels in its waters at any given time;
- to ensure that if fishing gear is carried on board, it is properly stowed;
- to regulate transshipment at sea; and
- to minimise illegal, unreported and unregulated fishing.

The first draft of the regulations relating to the entry of foreign fishing vessels into South African waters was published on 19 January 2024. As a result of comments received during this process, it became necessary to revise the Draft Regulations. The changes made to the Draft Regulations include the following:

- Additional definitions have now specifically been included for clarity and to avoid the need to cross refence to the Marine Living Resources Act, 1998 (MLRA).
- A new definition of “associated activities” has been included to make it clear that storage and container vessels which support fishing are also covered.
- Although it is already stated in the MLRA General Regulations, for clarity it is now included in the Draft Regulations that transshipment at sea is prohibited unless a permit has been issued in terms of section 13 of the MLRA.
- The Minister’s power to refuse entry into South African waters based on a suspicion of IUU fishing (illegal, unreported or unregulated fishing) or an IUU listing has been removed in light of the UN Convention of the Law of the Sea which preserves the right of innocent passage through a country’s waters. While a vessel cannot be refused entry, restrictions can be placed on their passage through South African waters, which these draft regulations provide for. This includes notification of entry and stowage of all fishing gear on board while traversing South African waters.

- It has been made clear that a vessel that intends to enter port may enter South African waters on submission of its application but may not enter port unless or until the permit has been issued.
- The permit application procedure has been revised to also include criteria to be considered. It has been made clear that permits to enter port must be refused where there are reasonable grounds to believe the vessel has engaged in IUU fishing unless entry is required for purposes of inspection and enforcement. The Draft Regulations now also introduce an obligation to notify a flag state of that refusal.
- A requirement has been added prohibiting the deletion of tracking data for a specified period.

Members of the public are invited to submit written comments within 30 days from the date of the publication of this notice in the *Government Gazette* or the newspaper, whichever is the later date, in the following manner:

Short title

7. This Act is called the Local Government: Municipal Structures Amendment Act, 2025.

MEMORANDUM ON THE OBJECTS OF THE LOCAL GOVERNMENT: MUNICIPAL STRUCTURES AMENDMENT BILL, 2025

1. INTRODUCTION

1.1 South Africa is currently in a transitionary phase where the ruling party no longer holds majorities in a number of metropolitan, district or local councils across South Africa. This has resulted in many coalition governments being formed at local government level. The 2024 National elections have also resulted in the ruling party slipping below 50% of the votes. What this means for South Africa is that coalition governments will now be the "new norm", at a national, provincial and local government level. Parties and Independent Candidates will have to come together and form workable coalitions for the good of the Republic of South Africa.

1.2 However, the current issue with coalition governments at local government level is that a high number of political parties are needed to join together in order to gain a majority in the council. What this means is that coalition governments are sometimes made up of up to 10 or more political parties, the majority of these parties having obtained only one seat each in the council. Often, in practice, some of these parties gain a seat without even first obtaining the requisite votes needed for such seat (namely, the seat quota). Instead, such a seat is obtained through the next stage of the highest surplus calculations. The effect of this is that opposition parties continuously lobby these smaller parties to retract from coalitions in exchange for positions or favour. These "one person" parties who obtain a fraction of the votes required for a seat, now become 'king makers', which can destabalise entire governments which in turn affects service delivery to the very people who voted these parties in.

1.3 The Local Government: Municipal Structures Amendment Bill, 2025 ("the Bill"), aims to prevent circumstances such as these from occurring by providing for an electoral threshold into the calculation and allocation of seats in councils.

1.4 The practice of electoral thresholds is not a new concept. Electoral thresholds (albeit expressed in percentages) are used in a number of countries such as Germany, Denmark, New Zealand, Turkey, Netherlands, Belgium, Greece, Romania, Ukraine and more.

1.5 The Bill also seeks to extend the period within which the first meeting of the council must be called after it has been declared elected, thereby extending the period within which the speaker, whip, an executive mayor, executive deputy mayor, mayor and deputy mayor can be elected in the council to provide more time for parties to engage with each other to form stable coalitions.

2. OBJECTS OF THE BILL

2.1 The purpose of the Bill is to amend the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998) ("the Act"), so as to provide an electoral threshold into the calculation and allocation of seats in councils so that parties must first obtain the number of the votes equal to the seat quota +1 before they are even entitled to be considered for seat calculations and allocations. This will ensure that smaller parties, who do not enjoy the confidence of the voters, are not let into council through "the back door" by way of the second-round highest surplus calculations.

2.2 The Bill also seeks to amend the Act by extending the period within which the first meeting of the council must be called after it has been declared elected, such meeting to be called within 30 days after being declared elected, as opposed to the current 14 day period provided for in the Act. This will in turn extend the time period within which the speaker and whip should be elected in council as such

election will take place at the first sitting. The Bill also extends the time period within which members of the executive committee must be determined and the time period within which an executive mayor and executive deputy mayor may be elected. These extended periods will provide more time for parties to engage with each other to form stable coalitions.

3. CONTENTS OF THE BILL

3.1 Clause 1 of the Bill amends section 23 of the Act so as to extend the time period within which a local council must appoint its representatives to the district council. The Bill replaces the current 14 day period with 30 days and thus provides that such appointment must take place within 30 days after the result of the election of the local council has been declared.

3.2 Clause 2 of the Bill amends section 29 of the Act so as to extend the period within which the council must call the first meeting of the council after the council has been declared elected. The Bill replaces the current 14 day period with 30 days and thus provides that the first meeting of the council must be called within 30 days after the council has been declared elected.

3.3 Clause 3 of the Bill amends section 45 of the Act by extending the period within which the meeting at which members of an executive committee are determined, must be held. The Bill replaces the current 14 day period with 30 days and thus provides that this meeting of the council must be called within 30 days after the council has been declared elected; after the last of the local councils has appointed its representatives if it is a district council; or after the date from which a municipality has been changed from one type to another as provided.

3.4 Clause 4 of the Bill amends section 55 of the Act by extending the period within which an executive mayor and executive deputy mayor can be elected by a municipal council, district council or municipality that has changed from one type to another.

3.5 Clause 5 of the Bill amends Schedule 1 to the Act by amending Item 13 to provide that only a party who has already obtained at least one seat may compete with similar surpluses.

3.6 Clause 6 amends Schedule 2 to the Act by amending Item 7 to provide that only a party who has already obtained at least one seat may compete with similar surpluses. Clause 6 also amends item 15 of Schedule 1 to provide that a local council will not be entitled to a seat on the district council where the local council did not meet the quota of votes for a seat. Clause 6 also amends item 20 of Schedule 2 to the Act to provide that only lists which have already obtained at least one seat will be entitled to compete with similar surpluses and to provide that if the calculation gives a figure that is a fraction of the figure in subitem (1), the council must not be awarded a seat and must not participate in any further calculation or award.

3.7 Clause 7 provides for the short title.

4. FINANCIAL IMPLICATIONS FOR THE STATE

A financial implication assessment may be completed upon introduction of the Bill.

6. PARLIAMENTARY PROCEDURE

6.1 The Member proposes that the Bill must be dealt with in accordance with the procedure established by section 75 of the Constitution of the Republic of South Africa, 1996 ("the Constitution"), since it contains no provisions to which the procedures set out in section 74 or 76 of the Constitution apply.

6.2 The Member is of the opinion that it is necessary to refer this Bill to the National House of Traditional and Khoi-San Leaders in terms of section 39(1)*(a)* of the Traditional and Khoi-San Leadership Act, 2019 (Act No. 3 of 2019), since it contains provisions pertaining to matters referred to in section 154(2) of the Constitution.

NOTICE 2940 OF 2025

COMPETITION COMMISSION SOUTH AFRICA

NOTICE IN TERMS OF SECTION 10(7) OF THE COMPETITION ACT NO. 89 OF 1998 (AS AMENDED)

REFUSAL TO GRANT AN EXEMPTION TO THE BOARD OF HEALTHCARE FUNDERS: 2021DEC0045

1. On 20 December 2021, the Board of Healthcare Funders ("**BHF**") applied to the Competition Commission of South Africa ("**the Commission**") in terms of Section 10(1) of the Competition Act, No. 89 of 1998, as amended ("**the Competition Act**"), which allows a firm to apply to the Commission to exempt an agreement, a practice, and a category of agreements from the provisions of Chapter 2 of the Competition Act. The BHF is a voluntary representative association in the medical schemes industry. Its members include medical schemes, administrators and managed care organisations throughout the Southern African region, with membership in Lesotho, Zimbabwe, Namibia, Botswana, Malawi and Swaziland.

2. The BHF filed the application on behalf of its members requesting to be exempted from the provisions of Section 4 of Chapter 2 of the Competition Act to enable it and its members to engage collectively in relation to the following agreements and/or practices:

    2.1. Publish a Recommended Scale of Benefits (reference price list for healthcare services) developed by BHF and its members;
    2.2. Collectively negotiate with all healthcare service providers with respect to pricing, Prescribed Minimum Benefits **("PMBs")** and quality of services;
    2.3. Collaborate on and publish Health Technology Assessments **("HTAs")** research outcomes; and
    2.4. To make collective submissions to regulators and government bodies on behalf of its members.

3. The BHF submitted that the agreement and/or practices sought will result in:

    3.1. a change of productive capacity necessary to stop the decline in the industry, in line with Section 10(3)(b)(iii) of the Competition Act; and

3.2. competitiveness and efficiency gains that would promote the expansion of the medical schemes industry, in line with Section 10(3)(b)(v) of the Competition Act.

4. On 6 May 2022, the Commission published a Government Gazette Notice pertaining to the BHF's exemption application in accordance with section 10(6) of the Competition Act, read with Rule 19(4) of the Rules of Conduct of Proceedings in the Competition Commission ("the Rules"). The Notice stated that the conduct sought may amount to prohibited practices in contravention of Section 4 of the Competition Act. The Notice also called upon interested parties to make written representations to the Commission within twenty (20) business days of publication as to why the exemption should or should not be granted.

5. The submissions received from interested parties were considered in the assessment of the BHF's exemption application.

6. Notice is therefore given in terms of Section 10(7) of the Competition Act that the exemption application filed by the BHF has been rejected by the Commission due to the following reasons:

6.1. The Commission's investigation revealed that the members of the BHF are actual competitors in relation to the provision of medical scheme services and that the practices sought in the exemption application will result in contravention of Section 4(1)(b)(i) and/or Section 4(1)(a) of the Competition Act. However, the Commission could not find sufficient and/or clear evidence to prove that the practices sought by the BHF meet the objectives of Section 10(3)(b)(iii) of the Competition Act.

6.2. The investigation revealed that the medical schemes industry faces some challenges, such as (i) the reduction in the number of medical schemes, (ii) high healthcare costs, (iii) health practitioners' ability to charge any fee they deem appropriate, resulting in patients having to pay out of their pockets when receiving healthcare services; (iv) and increase in expenditure on PMBs by medical schemes. Nevertheless, there are positive industry trends that suggest that the medical schemes may be relatively stable. These include an increased number of beneficiaries covered by medical schemes, a stable age profile, and the industry's ability to adhere to the 25% solvency requirements. The Commission found that there is not sufficient evidence submitted

by the BHF and/or gathered by the Commission to demonstrate that the medical schemes industry is in decline.

6.3. The Commission also could not find sufficient and/or clear evidence to prove that the practices sought by the BHF meet the objectives of Section 10(3)(b)(v) of the Competition Act. The Commission found that there was no clear evidence demonstrating how the sought practices would contribute to the promotion of employment and/or industrial expansion.

7. The BHF and any other person with a substantial material interest affected by this decision may lodge an appeal to the Competition Tribunal in the prescribed manner in terms of Section 10(8) of the Competition Act.

NOTICE 2941 OF 2025

COMPETITION COMMISSION SOUTH AFRICA

NOTICE IN TERMS OF SECTION 10(7) OF THE COMPETITION ACT 89 OF 1998, (AS AMENDED)

OUTCOME OF AN EXEMPTION APPLICATION FILED BY THE INDEPENDENT PRACTITIONER ASSOCIATION FOUNDATION: 2022APR0022

1. On 07 April 2022, the Independent Practitioner Association Foundation and its members ("**IPAF**"), filed an application for an exemption in terms of Section 10(1) of the Competition Act 89 of 1998, as amended ("**the Competitio Act**"), which allows a firm to apply to the Competition Commission ("**the Commission**") to exempt an agreement, a practice, and a category of agreements from the provisions of Chapter 2 of the Competition Act.

2. IPAF is a non-profit company registered with the Companies and Intellectual Property Commission under registration number 2009/001513/08. IPAF was established in 2009 with the main purpose being that of an overarching network management company for medical professionals who are members of regional Independent Practitioner Organisations ("IPAs"), and a provider of peer review used in managed care. The services IPAF provides are on behalf of general practitioners who are registered with the Health Professions Council of South Africa ("HPCSA") and whose scope of practice is defined as such by the Health Professions Act. Medical professionals who are not members of regional IPAs are also free to join IPAF directly.

3. The exemption application covered the following practices by IPAF and its members:

   3.1. Collective bargaining between IPAF (on behalf of its members) and individual medical schemes and administrators, as well as arrangements that result from such collective bargaining to set prices in respect of insured services rendered by GPs to medical scheme members;

   3.2. Global fee negotiations with medical schemes; medical scheme administrators; the state and/or other healthcare providers; and

3.3. To undertake collective or centralized procurement on behalf of IPAF members.

4. IPAF relied on the objectives set out in Sections 10(3)(b)(ii) and 10(3)(b)(iv) of the Competition Act, which allow an exemption of agreements and/or practices that promote the ability of small businesses or firms controlled or owned by historically disadvantaged individuals ("**HDIs**") to become competitive; and to ensure competitive and efficiency gains that promote employment or industrial expansion – respectively.

5. The exemption was requested for a period of five (5) years.

6. On 1 July 2022, the Commission published a *Government Gazette* Notice pertaining to the exemption application filed by IPAF in accordance with Section 10(6) of the Competition Act, read with Rule 19(4) of the Rules of Conduct of Proceedings in the Competition Commission ("**the Rules**"). The Notice stated that the conduct sought may amount to prohibited practices in contravention of Section 4 of the Competition Act. The Notice also called upon interested parties to make written representations to the Commission within twenty (20) business days of publication as to why the exemption should or should not be granted.

7. The submissions received from interested parties were considered in the assessment of IPAF's exemption application.

8. The Commission's investigation has been completed and it resulted in the following findings:

8.1. The conduct of IPAF members as envisaged in the exemption application - would result in a contravention of Section 4 of the Competition Act, as the application relates to information exchange agreements and/or practices between parties in a horizontal relationship;

8.2. In relation to ***collective bargaining*** and ***global fee negotiations*** - the granting of an exemption to IPAF will likely result in a limitation on competition and an increase in prices above competitive levels which will be detrimental to consumers. Several stakeholders have also objected to the granting of the exemption to IPAF due to concerns around the impact of such an exemption on competition in the market and potential consumer harm;

8.3. In relation to ***centralised procurement*** - the granting of this aspect of the exemption to IPAF, will enable its members to compete more effectively and create employment opportunities for other personnel required in the running of the individual practices. The Commission's view is that this aspect of the exemption will also benefit IPAF's members in that, it will allow for an increased procurement of goods from local suppliers - thereby creating opportunities for more suppliers within the value chain. Several stakeholders expressed support for this practice to be exempted by the Commission because of its potential benefit to GPs and the consumers.

9. Notice is therefore given in terms of Section 10(7) of the Competition Act that the Commission has decided to (i) ***reject*** an exemption application filed by IPAF in respect of ***collective bargaining*** and ***global fee negotiations***; and (ii) ***approve*** an exemption application filed by IPAF in respect of ***centralised procurement***.

The conditional exemption relating to centralised procurement is for a period of 5 (five) years, commencing from 9 December 2024 ending on 9 Dececember 2029. The exemption for centralised procurement will be subject to monitoring mechanisms to ensure that the objectives set out in the application are met. The Conditions and Monitoring Mechanisms are attached hereto as

10.

11. **ANNEXURE *1***.

The SAOA is a not-for-profit professional association that represents orthopaedic surgeons in South Africa and those who have had orthopaedic training in South Africa or show a continuing interest in the affairs of the association. The SAOA's objective is the advancement for public benefit of the science, art and practice of orthopaedic surgery with the aim of bringing relief to patients of all ages suffering from the effects of injury or disorders of the musculoskeletal system.

3. The exemption application was in respect of the SAOA being granted permission to engage with major medical scheme funders and others interested to discuss acceptable coding bundles, total units per procedure and an acceptable total quantum.

4. According to the SAOA, the reimbursement environment requires that surgeons list codes indicating the procedure(s) performed and the absolute quantum charge. Each code has a number of units associated with it and units differ between procedure codes. Each surgeon would then ascribe a Rand unit Value ("**RUV**") in order to create the final account (total procedure units x RUV = Total Invoiced).

5. Each medical scheme/funder/plan has different Rand unit values and codes that they accept as a bundle. As a result, the SAOA submitted that this has led to confusion in the marketplace given that surgeons charge different code bundles with different total units and different Rand unit values for the same surgical procedures. Similarly, medical

schemes accept or reject different coding bundles and pay at different Rand unit values. This according to the SAOA places patients in jeopardy as final accounts and shortfalls are difficult to predict.

6. Given the above, the SAOA requested the Commission to grant an exemption to allow it on behalf of its members, to engage with major medical scheme funders and others interested to discuss acceptable coding bundles, total units per procedure and an acceptable total quantum.

7. The SAOA relied upon the objectives set out in Section 10 of the Competition Act, which allows for an exemption of agreements and/or practices that contribute towards:

    7.1. Changing the productive capacity necessary to stop decline in an industry in terms of Section 10(3)(b)(iii) of the Competition Act;

    7.2. Maintaining economic stability in an industry designated by the Minister in terms of Section 10(3)(b)(iv) of the Competition Act; and

    7.3. Achieving competitive and efficiency gains that promote employment or industrial expansion in terms of Section 10(3)(b)(v) of the Competition Act.

8. On 3 March 2023, the Commission published a *Government Gazette* Notice pertaining to the SAOA's exemption application in accordance with Section 10(6) of the Competition Act, read with Rule 19(4) of the Rules of Conduct of Proceedings in the Competition Commission ("**the Rules**"). The Notice stated that the conduct sought may amount to prohibited practices in contravention of Section 4 of the Competition Act. The Notice also called upon interested parties to make written representations to the Commission within twenty (20) business days of publication as to why the exemption should or should not be granted.

9. The submissions received from interested parties were considered in the assessment of the SAOA's exemption application.

10. Notice is therefore given in terms of section 10(7) of the Competition Act that the exemption application filed by the SAOA has been rejected by the Commission. The Commission's investigation revealed that the conduct of the SAOA's members would result in a contravention of Section 4 of the Competition Act. However, the Commission also found

that the SAOA's exemption application did not meet the requirements of Section 10 of the Competition Act because of the following reasons:

10.1. No information was submitted by the SAOA to prove that the orthopaedic surgery industry is in decline as required by Section 10(3)(b)(iii) of the Competition Act;

10.2. The orthopaedic surgery industry is not an industry designated by the Minister of Trade Industry and Competition as required by Section 10(3)(b)(iv) of the Competition Act; and

10.3. There was a lack of sufficient evidence to prove that the SAOA's exemption would result in efficiency and competitive gains that would lead to the promotion of employment opportunities and industrial expansion as required by Section 10(3)(b)(v) of the Competition Act.

11. The SAOA and any other person with a substantial material interest affected by this decision may lodge an appeal to the Competition Tribunal in the prescribed manner in terms of Section 10(8) of the Competition Act.

INTERNATIONAL TRADE ADMINISTRATION COMMISSION

CUSTOMS TARIFF APPLICATIONS

LIST 01/2025

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following application concerning the Customs Tariff. Any objection to or comment on this representation should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001. Attention is drawn to the fact that the rate of duty mentioned in this application is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

CONFIDENTIAL INFORMATION

The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at http://www.itac.org.za/documents/R.397.pdf.
These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:

- *Each instance where confidential information has been omitted and the reasons for confidentiality;*
- *A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- *In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.

The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.
If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due).
Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

APPLICATION FOR AN INCREASE IN THE RATE OF CUSTOMS DUTY ON:

Steel shoulder couplers, classifiable under tariff subheadings 7307.11.90, 7307.19.80 & 7307.19.90 by way of creating additional 8-digit subheadings from free or 10% *ad valorem* to the WTO bound rate of 15 per cent *ad valorem*.

ITAC Ref: 16/2024 **Enquiries**: Mr Jacob Mtimkulu, Email: jmtimkulu@itac.org.za and Mr. Sipho Tshabalala, Email: stshabalala@itac.org.za

AS MOTIVATION FOR THE APPLICATION, THE APPLICANT SUBMITTED, *INTER ALIA*, THAT:

The downstream steel industry has been under significant distress for an extended period, primarily due to the influx of low-priced imports from China and other Asian countries. To address this challenge, it is crucial to increase the customs duty on the relevant tariff subheadings to the WTO-bound rate of 15%. Such an adjustment would play a vital role in enhancing the domestic industry's price competitiveness against the relentless pressure from lower-priced imports.

This measure would not only help safeguard the current employment levels in the industry but also create an environment conducive to job growth and encourage investment in modernising plant and equipment. The urgency of this intervention is underscored by the loss already experienced in the grooved coupling sector within the SACU region, where import competition has led to the complete collapse of domestic manufacturing.

The domestic industry now faces a similar threat in the shouldered coupling sector, as import volumes remain at unsustainable levels. Without immediate action to curb these imports, the domestic manufacturing industry risks the same fate.

PUBLICATION PERIOD:

Representation should be submitted to the above ITAC officials within **four (4) weeks** of the date of this notice.
