Government Printing Works
REPUBLIC OF SOUTH AFRICA

# HIGH ALERT: SCAM WARNING!!!

## TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

**PROCUREMENT@GPW-GOV.ORG**

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

*GPW* has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

*GPW* will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

*Government Printing Works* gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

**Fake Tenders**

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

**How tender scams work**

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

Any incidents of corruption, fraud, theft and misuse of government property in the *Government Printing Works* can be reported to:

Supply Chain Management: Ms. Anna Marie Du Toit, Tel. (012) 748 6292.
Email: **Annamarie.DuToit@gpw.gov.za**

Marketing and Stakeholder Relations: Ms Bonakele Mbhele, at Tel. (012) 748 6193.

## GOVERNMENT PRINTING WORKS - BUSINESS RULES

The **Government Printing Works** (**GPW**) has established rules for submitting notices in line with its electronic notice processing system, which requires the use of electronic *Adobe* Forms. Please ensure that you adhere to these guidelines when completing and submitting your notice submission.

### Closing Times for Acceptance of Notices

1. The *Government Gazette* and *Government Tender Bulletin* are weekly publications that are published on Fridays and the closing time for the acceptance of notices is strictly applied according to the scheduled time for each gazette.

2. Please refer to the Submission Notice Deadline schedule in the table below. This schedule is also published online on the Government Printing works website www.gpwonline.co.za

   All re-submissions will be subject to the standard cut-off times.
   **All notices received after the closing time will be rejected**.

| Government Gazette Type | Publication Frequency | Publication Date | Submission Deadline | Cancellations Deadline |
|---|---|---|---|---|
| National Gazette | Weekly | Friday | Friday 15h00 for next Friday | Tuesday, 15h00 - 3 working days prior to publication |
| Regulation Gazette | Weekly | Friday | Friday 15h00 for next Friday | Tuesday, 15h00 - 3 working days prior to publication |
| Petrol Price Gazette | Monthly | Tuesday before 1st Wednesday of the month | One day before publication | 1 working day prior to publication |
| Road Carrier Permits | Weekly | Friday | Thursday 15h00 for next Friday | 3 working days prior to publication |
| Unclaimed Monies (Justice, Labour or Lawyers) | January / September 2 per year | Last Friday | One week before publication | 3 working days prior to publication |
| Parliament (Acts, White Paper, Green Paper) | As required | Any day of the week | None | 3 working days prior to publication |
| Manuals | Bi- Monthly | 2nd and last Thursday of the month | One week before publication | 3 working days prior to publication |
| State of Budget (National Treasury) | Monthly | 30th or last Friday of the month | One week before publication | 3 working days prior to publication |
| *Extraordinary Gazettes* | As required | Any day of the week | *Before 10h00 on publication date* | *Before 10h00 on publication date* |
| Legal Gazettes A, B and C | Weekly | Friday | One week before publication | Tuesday, 15h00 - 3 working days prior to publication |
| Tender Bulletin | Weekly | Friday | Friday 15h00 for next Friday | Tuesday, 15h00 - 3 working days prior to publication |
| Gauteng | Weekly | Wednesday | Two weeks before publication | 3 days **after** submission deadline |
| Eastern Cape | Weekly | Monday | One week before publication | 3 working days prior to publication |
| Northern Cape | Weekly | Monday | One week before publication | 3 working days prior to publication |
| North West | Weekly | Tuesday | One week before publication | 3 working days prior to publication |
| KwaZulu-Natal | Weekly | Thursday | One week before publication | 3 working days prior to publication |
| Limpopo | Weekly | Friday | One week before publication | 3 working days prior to publication |
| Mpumalanga | Weekly | Friday | One week before publication | 3 working days prior to publication |

## GOVERNMENT PRINTING WORKS - BUSINESS RULES

| Government Gazette Type | Publication Frequency | Publication Date | Submission Deadline | Cancellations Deadline |
|---|---|---|---|---|
| Gauteng Liquor License Gazette | Monthly | Wednesday before the First Friday of the month | Two weeks before publication | 3 working days **after** submission deadline |
| Northern Cape Liquor License Gazette | Monthly | First Friday of the month | Two weeks before publication | 3 working days **after** submission deadline |
| National Liquor License Gazette | Monthly | First Friday of the month | Two weeks before publication | 3 working days **after** submission deadline |
| Mpumalanga Liquor License Gazette | Bi-Monthly | Second & Fourth Friday | One week before publication | 3 working days prior to publication |

### Extraordinary Gazettes

3. *Extraordinary Gazettes* can have only one publication date. If multiple publications of an *Extraordinary Gazette* are required, a separate Z95/Z95Prov *Adobe* Forms for each publication date must be submitted.

### Notice Submission Process

4. Download the latest *Adobe* form, for the relevant notice to be placed, from the **Government Printing Works** website www.gpwonline.co.za.

5. The *Adobe* form needs to be completed electronically using *Adobe Acrobat* / *Acrobat Reader*. Only electronically completed *Adobe* forms will be accepted. No printed, handwritten and/or scanned *Adobe* forms will be accepted.

6. The completed electronic *Adobe* form has to be submitted via email to submit.egazette@gpw.gov.za. The form needs to be submitted in its original electronic *Adobe* format to enable the system to extract the completed information from the form for placement in the publication.

7. Every notice submitted **must** be accompanied by an official **GPW** quotation. This must be obtained from the *eGazette* Contact Centre.

8. Each notice submission should be sent as a single email. The email **must** contain **all documentation relating to a particular notice submission**.

   8.1. Each of the following documents must be attached to the email as a separate attachment:

      8.1.1. An electronically completed *Adobe* form, specific to the type of notice that is to be placed.

         8.1.1.1. For National *Government Gazette* or *Provincial Gazette* notices, the notices must be accompanied by an electronic Z95 or Z95Prov *Adobe* form

         8.1.1.2. The notice content (body copy) **MUST** be a separate attachment.

      8.1.2. A copy of the official **Government Printing Works** quotation you received for your notice. *(Please see Quotation section below for further details)*

      8.1.3. A valid and legible Proof of Payment / Purchase Order: **Government Printing Works** account customer must include a copy of their Purchase Order**. Non-Government Printing Works** account customer needs to submit the proof of payment for the notice

      8.1.4. Where separate notice content is applicable (Z95, Z95 Prov and TForm 3, it should **also** be attached as a separate attachment. *(Please see the Copy Section below, for the specifications)*.

      8.1.5. Any additional notice information if applicable.

## GOVERNMENT PRINTING WORKS - BUSINESS RULES

9. The electronic *Adobe* form will be taken as the primary source for the notice information to be published. Instructions that are on the email body or covering letter that contradicts the notice form content will not be considered. The information submitted on the electronic *Adobe* form will be published as-is.

10. To avoid duplicated publication of the same notice and double billing, Please submit your notice **ONLY ONCE.**

11. Notices brought to **GPW** by "walk-in" customers on electronic media can only be submitted in *Adobe* electronic form format. All "walk-in" customers with notices that are not on electronic *Adobe* forms will be routed to the Contact Centre where they will be assisted to complete the forms in the required format.

12. Should a customer submit a bulk submission of hard copy notices delivered by a messenger on behalf of any organisation e.g. newspaper publisher, the messenger will be referred back to the sender as the submission does not adhere to the submission rules.

### QUOTATIONS

13. Quotations are valid until the next tariff change.

    13.1. ***Take note:*** **GPW**'s annual tariff increase takes place on ***1 April*** therefore any quotations issued, accepted and submitted for publication up to ***31 March*** will keep the old tariff. For notices to be published from 1 April, a quotation must be obtained from **GPW** with the new tariffs. Where a tariff increase is implemented during the year, **GPW** endeavours to provide customers with 30 days' notice of such changes.

14. Each quotation has a unique number.

15. Form Content notices must be emailed to the *eGazette* Contact Centre for a quotation.

    15.1. The *Adobe* form supplied is uploaded by the Contact Centre Agent and the system automatically calculates the cost of your notice based on the layout/format of the content supplied.

    15.2. It is critical that these *Adobe* Forms are completed correctly and adhere to the guidelines as stipulated by **GPW**.

16. **APPLICABLE ONLY TO GPW ACCOUNT HOLDERS**:

    16.1. **GPW** Account Customers must provide a valid **GPW** account number to obtain a quotation.

    16.2. Accounts for **GPW** account customers **must** be active with sufficient credit to transact with **GPW** to submit notices.

        16.2.1. If you are unsure about or need to resolve the status of your account, please contact the **GPW** Finance Department prior to submitting your notices. (If the account status is not resolved prior to submission of your notice, the notice will be failed during the process).

17. **APPLICABLE ONLY TO CASH CUSTOMERS:**

    17.1. Cash customers doing **bulk payments** must use a **single email address** in order to use the **same proof of payment** for submitting multiple notices.

18. The responsibility lies with you, the customer, to ensure that the payment made for your notice(s) to be published is sufficient to cover the cost of the notice(s).

19. Each quotation will be associated with one proof of payment / purchase order / cash receipt.

    19.1. This means that **the quotation number can only be used once to make a payment.**

## *GOVERNMENT PRINTING WORKS - BUSINESS RULES*

### Copy (Separate Notice Content Document)

20. Where the copy is part of a separate attachment document for Z95, Z95Prov and TForm03

    20.1. Copy of notices must be supplied in a separate document and may not constitute part of any covering letter, purchase order, proof of payment or other attached documents.

    The content document should contain only one notice. (You may include the different translations of the same notice in the same document).

    20.2. The notice should be set on an A4 page, with margins and fonts set as follows:

    Page size = A4 Portrait with page margins: Top = 40mm, LH/RH = 16mm, Bottom = 40mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

    Page size = A4 Landscape with page margins: Top = 16mm, LH/RH = 40mm, Bottom = 16mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

### Cancellations

21. Cancellation of notice submissions are accepted by **GPW** according to the deadlines stated in the table above in point 2. Non-compliance to these deadlines will result in your request being failed. Please pay special attention to the different deadlines for each gazette. Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.

22. Requests for cancellation must be sent by the original sender of the notice and must accompanied by the relevant notice reference number (N-) in the email body.

### Amendments to notices

23. With effect from 01 October 2015, **GPW** will not longer accept amendments to notices. The cancellation process will need to be followed according to the deadline and a new notice submitted thereafter for the next available publication date.

### Rejections

24. All notices not meeting the submission rules will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za). Reasons for rejections include the following:

    24.1. Incorrectly completed forms and notices submitted in the wrong format, will be rejected.

    24.2. Any notice submissions not on the correct *Adobe* electronic form, will be rejected.

    24.3. Any notice submissions not accompanied by the proof of payment / purchase order will be rejected and the notice will not be processed.

    24.4. Any submissions or re-submissions that miss the submission cut-off times will be rejected to the customer. The Notice needs to be re-submitted with a new publication date.

## GOVERNMENT PRINTING WORKS - BUSINESS RULES

### APPROVAL OF NOTICES

25. Any notices other than legal notices are subject to the approval of the Government Printer, who may refuse acceptance or further publication of any notice.

26. No amendments will be accepted in respect to separate notice content that was sent with a Z95 or Z95Prov notice submissions. The copy of notice in layout format (previously known as proof-out) is only provided where requested, for Advertiser to see the notice in final Gazette layout. Should they find that the information submitted was incorrect, they should request for a notice cancellation and resubmit the corrected notice, subject to standard submission deadlines. The cancellation is also subject to the stages in the publishing process, i.e. If cancellation is received when production (printing process) has commenced, then the notice cannot be cancelled.

### GOVERNMENT PRINTER INDEMNIFIED AGAINST LIABILITY

27. The Government Printer will assume no liability in respect of—

27.1. any delay in the publication of a notice or publication of such notice on any date other than that stipulated by the advertiser;

27.2. erroneous classification of a notice, or the placement of such notice in any section or under any heading other than the section or heading stipulated by the advertiser;

27.3. any editing, revision, omission, typographical errors or errors resulting from faint or indistinct copy.

### LIABILITY OF ADVERTISER

28. Advertisers will be held liable for any compensation and costs arising from any action which may be instituted against the Government Printer in consequence of the publication of any notice.

### CUSTOMER INQUIRIES

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While **GPW** deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.
**GPW** has a 2-working day turnaround time for processing notices received according to the business rules and deadline submissions.
Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

29. Requests for information, quotations and inquiries must be sent to the Contact Centre ONLY.

30. Requests for Quotations (RFQs) should be received by the Contact Centre at least **2 working days** before the submission deadline for that specific publication.

## GOVERNMENT PRINTING WORKS - BUSINESS RULES

### Payment of cost

31. The Request for Quotation for placement of the notice should be sent to the Gazette Contact Centre as indicated above, prior to submission of notice for advertising.

32. Payment should then be made, or Purchase Order prepared based on the received quotation, prior to the submission of the notice for advertising as these documents i.e. proof of payment or Purchase order will be required as part of the notice submission, as indicated earlier.

33. Every proof of payment must have a valid **GPW** quotation number as a reference on the proof of payment document.

34. Where there is any doubt about the cost of publication of a notice, and in the case of copy, an enquiry, accompanied by the relevant copy, should be addressed to the Gazette Contact Centre, **Government Printing Works**, Private Bag X85, Pretoria, 0001 email: info.egazette@gpw.gov.za before publication.

35. Overpayment resulting from miscalculation on the part of the advertiser of the cost of publication of a notice will not be refunded, unless the advertiser furnishes adequate reasons why such miscalculation occurred. In the event of underpayments, the difference will be recovered from the advertiser, and future notice(s) will not be published until such time as the full cost of such publication has been duly paid in cash or electronic funds transfer into the **Government Printing Works** banking account.

36. In the event of a notice being cancelled, a refund will be made only if no cost regarding the placing of the notice has been incurred by the **Government Printing Works**.

37. The **Government Printing Works** reserves the right to levy an additional charge in cases where notices, the cost of which has been calculated in accordance with the List of Fixed Tariff Rates, are subsequently found to be excessively lengthy or to contain overmuch or complicated tabulation.

### Proof of publication

38. Copies of any of the *Government Gazette* or *Provincial Gazette* can be downloaded from the **Government Printing Works** website www.gpwonline.co.za free of charge, should a proof of publication be required.

39. Printed copies may be ordered from the Publications department at the ruling price. The **Government Printing Works** will assume no liability for any failure to post or for any delay in despatching of such *Government Gazette*(s)

# GOVERNMENT NOTICES • GOEWERMENTSKENNISGEWINGS

## DEPARTMENT OF AGRICULTURE, LAND REFORM AND RURAL DEVELOPMENT

**NO. 6112** **11 April 2025**

### PUBLIC NOTICE

**Application for derogation for the restricted use of agricultural remedies identified as substances of concern**

This notice is to inform the public of administrative action being taken in relation to the approval of agricultural remedies under the Fertilizer, Farm Feeds, Agricultural Remedies and Stock Remedies Act, 1947 (Act No. 36 of 1947).

**Sharda International Africa (PTY) Ltd.** hereby informs the public of its intention to submit an application for derogation for the registered agricultural remedy **Spiral 240 SC, Reg, no. L 10492** containing spirodiclofen with active load **240g/L**, identified as a substance of concern due to its classification as a reproductive toxin Category 1B according to the Globally Harmonized System of Classification and Labelling of Chemicals, for the following uses in South Africa: A miticide for the control of various mite species in crops or situations such as **citrus orchards.**

As per the requirements of the "Regulations relating to agricultural remedies" of August 2023, a toxicological risk assessment was conducted for the proposed end uses and the public is hereby invited to review the risk assessment report and submit comments in relation to the proposed application. This report can be accessed online via the following website: **https://shardaafrica.com** or in hard copy at the Department of Agriculture, Land Reform and Rural Development (Agriculture Building, 20 Steve Biko Street, Arcadia, Pretoria, 0002) during office hours (08:00 to 16:00 on Mondays to Fridays, excluding public holidays). Interested parties must submit comments or objections in connection with the proposed application in writing to:

Mr. Maluta Mudzunga.

The Registrar: Fertilizer, Farm Feeds, Agricultural Remedies and Stock Remedies Act, 1947 (Act No. 36 of 1947) Department of Agriculture, Land Reform and Rural Development, Private Bag X343, Pretoria, 0001

Office 417, Harvest House Building, 30 Hamilton Street, Arcadia, Pretoria, 0002

Tel no: 012 319 6530

Email to MalutaM@dalrrd.gov.za

Interested parties must submit comments or objections in relation to this application within 30 days of the publication of this notice. Comments received after this date need not be considered.

**DEPARTEMENT VAN LANDBOU, GRONDHERVORMING EN LANDELIKE ONTWIKKELING**

**NO. 6112** **11 April 2025**

**OPENBARE KENNISGEWING**

**Aansoek vir derogasie vir die beperkte gebruik van landbouchemikalieë geïdentifiseer as sorgwekkende middels.**

Hierdie kennisgewing het ten doel om die algemene publiek in te lig van die administratiewe aksie onderweg in verband met die goedkeuring van landbouchemikalieë onder die Wet op Misstowwe, Veevoer, Landbouchemikalieë en Veemiddels,1947 (Wet Nr. 36 van 1947).

**Sharda International Africa (PTY) Ltd.** lig die algemene publiek hiermee in van die voorneme om 'n aansoek in te dien vir derogasie vir hul geregistreerde spirodiclofen-bevattende landboumiddel **Spiral 240 SC Reg, nr L 10492** met aktiewe bestanddeel inhoud van **240 g/L,** wat geïdentifiseer is as 'n sorgwekkende middel weens klassifikasie as reproduktief toksies Kategorie 1B volgens die "Globally Harmonized System of Classification and Labelling of Chemicals" vir die volgende eindgebruike in Suid-Afrika: 'n Mytdoder vir die beheer van verskeie mytspesies in gewasse of omstandighede soos **sitrusboorde**.

Soos vereis in die "Regulations relating to agricultural remedies" van Augustus 2023 is 'n toksikologiese risko-ontleding onderneem vir die voorgestelde eindgebruike en die publiek word genooi om die risko-ontleding na te gaan en om kommentaar in verband met die voorgestelde aansoek in te dien. Bogenoemde verslag kan óf aanlyn verkry word by **https://shardaafrica.com** of in gedrukte vorm by die Departement van Landbou, Grondhervorming en Landelike Ontwikkeling, (Landbougebou, Steve Bikostraat 20, Arcadia, Pretoria, 0002 gedurende kantoorure (08:00 to 16:00 Maandae tot Vrydae, publieke vakansiedae uitgesluit).

Belangstellendes moet kommentaar, of besware rakende hierdie aansoek skriftelik rig aan:

Mnr. Maluta Mudzunga

Registrateur, Wet op Misstowwe, Veevoer, Landbouchemikalieë en Veemiddels, 1947 (Wet Nr. 36 van 1947). Departement van Landbou, Grondhervorming en Landelike Ontwikkeling, Privaatsak X343, Pretoria, 0001

Kantoor 417, Harvest House-gebou, Hamiltonstraat 30, Arcadia, Pretoria, 0002

Tel. nr: 012 319 6530

Epos: MalutaM@dalrrd.gov.za

Kommentaar, of besware rakende hierdie aansoek moet binne 30 dae van publikasie van hierdie kennisgewing ingedien word. Kommentaar ontvang na die sperdatum mag nie noodwendig in ag geneem word nie.

## NATIONAL ENVIRONMENTAL MANAGEMENT: WASTE ACT, 2008 (ACT NO. 59 OF 2008)

## CONSULTATION ON THE DRAFT STRATEGY RELATING TO THE DESIGN OF PRODUCT LIFE CYCLE, RE-USE, CONTROLS, AND DISPOSAL OF ABSORBENT HYGIENIC PRODUCTS

I, Dion Travers George, Minister of Forestry, Fisheries and the Environment, hereby in terms of section 24 of the Constitution of the Republic of South Africa, 1996, read together with sections 72 and 73 of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), give notice of my intention to develop the Strategy relating to the design of product life cycle, re-use, control, and disposal of absorbent hygienic products (AHP), as set out in the Schedule hereto.

The demand for diapers and other absorbent hygienic products continues to grow in South Africa. AHPs are widely used for feminine hygiene and baby care, as well as by senior citizens experiencing incontinence. Currently, used AHPs are typically disposed of in landfills or released into the environment, with little focus on recycling and reuse of their materials by waste management operators and AHP suppliers. Improper disposal of AHPs poses risks to safety, health, and the environment, especially when discarded improperly, resulting in environmental pollution. This is common in rural and informal communities lacking formal waste management systems.

Although recycling AHPs was previously uneconomical due to their minimal material worth, there are now biodegradable materials, reusable diapers, and proven treatment technologies that could help address the AHP waste problem. However, addressing these issues require collaboration among public and private sectors, academia, consumers, and civil society, hence the development of this draft Strategy.

Members of the public are invited to submit, within 30 days from the date of publication of this notice in the Government *Gazette*, or in a national newspaper, whichever date comes last, written representations or objections to the draft Strategy to any of the following addresses:

**By post to**: The Director General: Department of Forestry, Fisheries and the Environment
Attention: Mr Jeremia Sibande
Acting Director: Waste and Chemicals Policy and Information Management
Private Bag X447
**PRETORIA**
0001

**By hand at**: Ground Floor (Reception), Environment House, 473 Steve Biko Road, Arcadia, Pretoria, 0001.

**By email**: jsibande@dffe.gov.za

Any inquiries in connection with this notice can be directed to Mr Jeremia Sibande at jsibande@dffe.gov.za. at (012) 399 9832/067 417 3844.

The draft Strategy can be accessed at http://sawic.environment.gov.za/ under "Draft documents for comment".

The Department of Forestry, Fisheries and the Environment complies with the Protection of Personal Information Act, 2013 (Act No. 4 of 2013). Comments received and responses thereto will be included in a comments and response report which may be made available to the public. If a commenting party has any objection to his or her name, or the name of the represented company/organization, being made publicly available in any comments and responses report, such objection should be highlighted as part of the comments submitted.

**Comments received after the closing date may not be considered.**

**DR DION TRAVERS GEORGE, MP**

**MINISTER OF FORESTRY, FISHERIES AND THE ENVIRONMENT**

## 1. BACKGROUND

Ever since Procter & Gamble first produced *Pampers* in 1961, the popularity of diapers and AHPs in general has grown steadily. AHPs provide a convenient, less unpleasant, better hygiene solution for users than the conventional alternatives. Demand for AHPs has grown with the increase in population, the rise of the two-salary households, which increased disposable incomes, but which gave people less time for domestic chores, and the emergence of a throw-away culture. Demand is not only for infant diapers and feminine hygiene products. Diaper use by the elderly is growing rapidly with an increase in incontinence amongst those who live longer.

Currently, the majority of AHP waste in most countries, including South Africa, is disposed to landfill or dumped in the environment, with little effort being made, by both waste management operators or suppliers of AHPs, towards diversion and recovery of raw materials.

Apart from consuming air space in registered landfill for a very long time, the other issue with AHPs (and similar residual waste streams) is the safety, health and environmental impacts that AHPs cause when disposed into unlined landfill or dumped into the environment such as in bushes, at roadsides, in open fields and near fresh water sources. This disposal method is becoming an increasing trend in rural and informal settlements, where there are generally no proper waste management systems in place or due to traditional practices regarding disposal of materials with human waste or blood.

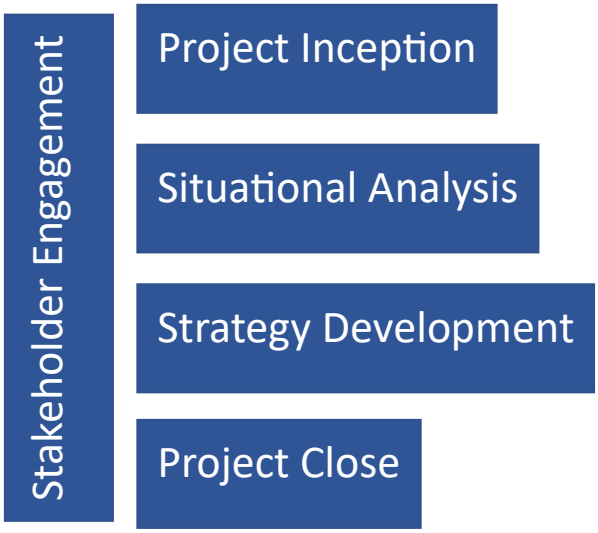

Due to the low value of the materials as well as the low value to weight ratio of post-consumer AHPs, the collection, transportation and treatment/recycling of AHP waste have, in the past, been uneconomical. However, bio-degradable materials, re-usable diapers and proven treatment technologies are now available and could have a net positive effect on the AHP waste problem. However, success in overcoming the AHP waste problem requires the joint efforts of a range of stakeholders including the public and private sectors, academia and civil society, consumers*, inter alia*.

DFFE commissioned Lindon Consulting Corporation (LCC) to assess and develop a Strategy relating to the design of product life cycle, re-use, controls, and disposal of AHPs.

This gazette is also available free online at **www.gpwonline.co.za**

The Scope of the Study and Phases of the project are shown in the figure below:

## 2. STAKEHOLDER ENGAGEMENT PROCESS

In person and online workshops with public and private sectors were held in all provinces. The aim of these sessions was to obtain credible and grass-root information from key stakeholders directly responsible for AHPs and AHP waste. These sessions were also used to share ideas and thoughts on the draft Strategy.

## 3. STATEMENT OF THE PROBLEM

Despite having a national policy in South Africa that promotes the waste hierarchy of reuse, recycle and recovery before disposal, most of the waste continues to be disposed to landfill (and into open fields), with little regard (or ability) to transition to more sustainable waste management practices and alternate waste treatment technologies. There are tremendous socio-economic opportunities and environmental benefits that can be unlocked when waste is redefined as a resource instead of as a nuisance.

The problems associated with the management of AHP waste are well documented, and include:

This gazette is also available free online at **www.gpwonline.co.za**

i. Even though AHPs are problem waste, consumers continue to dispose of them into general waste destined to landfill, which is still regarded as the most cost-effective “technical” solution by most municipalities.

ii. Due to their functional requirements for water proofing, liquid retention and comfort, AHPs are designed and assembled using a variety of durable and waterproof materials that take between 200 to 500 years to decompose once disposed at landfills.

iii. The rise in demand for AHPs increases the demand for virgin raw materials and increases the emission of pollutants during manufacturing and landfilling.

iv. Design of AHPs currently does not take environmental impacts, S@S and treatment into account.

v. The potential health risks, hygiene concerns and unpleasant odours of soiled AHPs compel consumers to dispose them immediately.

vi. Documented research has indicated that the disposal of AHPs (especially feminine hygienic products) in some African communities is influenced by cultural beliefs and superstition where some communities continue to bury, burn or throw AHPs into rivers.

vii. Exposure to waste AHPs pose a health risk, especially to waste pickers. A number of pathogens are present in human excreta and blood contained within AHPs.

viii. AHPs are considered a low-risk Health Care Waste (HCW), even though they contain organic waste, sewage sludge, plastic and a Super Absorbent Polymer (SAP), all with known environmental and health impacts.

ix Recycling of AHPs is a complex and expensive process requiring collection, transportation, energy, chemicals and mechanical equipment.

x. There are few market outlets for AHP recovered materials due to the risk of cross contamination.

This gazette is also available free online at **www.gpwonline.co.za**

xi. AHPs lock in airspace permanently at landfills. At R200 to R500 per ton for current (2023) landfill disposal fees, the loss in future revenue because of this "unsaleable" airspace runs into billions of rands.

xii. Currently, there is very little effort being made, by both waste management operators or suppliers of AHPs, towards consumer education, diversion and recovery of AHP raw materials.

xiii. Due to the low value to weight ratio of AHPs, the collection and transportation of AHPs over long distances or across the province is uneconomic.

xiv. The choice of raw materials and the producers of AHPs do not consider sustainable disposal during research and design, such as faster decomposition or recycling.

The other pressing issue with AHPs is the safety, health and environmental impacts that these risks pose to unlined landfills or in open spaces. The practice of indiscriminate disposal is prevalent especially in rural areas and informal urban settlements, where there are no alternate waste disposal options available.

## 4. QUANTIFYING AHP WASTE

Estimates from the market suggest that approximately 3 billion diaper units are sold in South Africa each year. Puig and González (2009) weighed a wet diaper as being approximately 210 grams. Using this estimate, we can calculate that approximately 630 thousand tons of wet diapers are disposed each year in South Africa.

To give a better estimate of all AHP waste in South Africa, the number of infants, menstruating females and elderly that would be using AHPs over a certain period of time in their lives were estimated from South African population statistics.

*A baby uses 4 000 to 6 000 nappies[1] on average before being toilet trained by the age of two and a half years. This is equivalent to 840 – 1 260 kg of waste AHP per infant (note: the weight includes the human waste aspect as well).*

*A menstruating female individual (typically between the ages of 9 to 51) uses approximately 19 656 sanitary pads in her lifetime, equivalent to approximately 687 kg of waste AHP.*

[1] Assuming a baby used between 5.5 – 8 nappies per day over two years.

This gazette is also available free online at **www.gpwonline.co.za**

*An adult (aged 65+) that suffers from incontinence will generate approximately 467 kg of diaper waste before death; and as life expectancy is increasing, more adult diapers will be used.*

Based on calculations, it was concluded that the tonnage of soiled AHP disposed annually is closer to 900,000 tons per annum in South Africa. Since post-consumer AHP consists of two-thirds liquid and solid waste and one third of dry raw materials, the tonnage of AHP waste equates to about 300,000 tons per annum of dry raw materials with some economic value.

## 5. RATIONALE FOR THE STRATEGY

The use of sustainable or compostable materials, alternate design options and diversion of waste AHP from landfill (and from open fields) and into some form of treatment process provide several benefits to various stakeholder groups, specifically because:

- Producers of AHPs are under increasing pressure from consumers and legislators to implement or fund programmes to manage their post-consumer waste. Furthermore, producers of AHPs dispose of hundreds of tons of production waste each month, incurring high disposal costs due to storage and transportation to landfill.

- The AHP products are excluded from the listed products in the Extended Producer Responsibility Notices. Therefore, producers of AHP products are currently not implementing an EPR scheme and paying EPR levy. The producers are ready to participate in an EPR to reduce the disposal and reputational costs associated with AHP waste. AHP producers would benefit financially and reputationally if they send their production waste to an AHP recycling plant and participate in post-consumer collection and recycling activities.

- Industrialists are under increasing pressure to reduce energy consumption (and costs) and their $CO_2$ emissions. Businesses that operate fossil-fuel boilers and kilns are particularly hard pressed due to rising fossil fuel costs, greenhouse gas (GHG) emission reduction targets and stakeholder objections to fossil-fuel boilers. Industrialists would benefit from converting or replacing part or all their fossil fuel with Refuse Derived Fuels (RDFs) derived from AHPs which will be relatively cleaner.

This gazette is also available free online at **www.gpwonline.co.za**

- Municipalities: With no current solution to the problem of AHP waste, municipalities are forced to send a potentially valuable (and bio-hazardous) waste stream to general landfill where it occupies landfill airspace for at least 300 years. AHPs make up to 6% of municipal solid waste (MSW). By separating and diverting waste AHPs away from landfill and into processing plants, municipalities will, in effect, extend the life of landfills, delay investment in new landfill and prevent long-term environmental damage. Municipalities also experienced blocked drains, damaged pumps and compromised stormwater systems, leading to expensive repairs and maintenance, as a result of the disposal of AHPs in the environment, which ends up in stormwater systems.

- Private recyclers could capitalise on the economic opportunity of processing waste AHPs into usable raw materials and RDFs.

- Economy: The diversion of AHP waste to processing plants would create jobs (as many as 400 per region including collection and sorting), create and support small enterprises in the waste value chain, generate taxes and contribute to the national Gross Domestic Product (GDP).

- Environment: The collection and processing of AHP waste would reduce the leaching of contents and contaminants contained within AHPs, especially when disposed into the natural environment. Furthermore, there are other compatible and comparable residual waste, for which there are currently no solutions except landfill. These residual waste streams include low grade and contaminated plastics and multi-laminate (N#7) waste such as soap powder packaging, dog food packaging, chips packets, etc. These could be combined with waste AHP to increase the overall calorific value (CV) or energy value of a AHP derived RDF.

- Consumers: Participation in AHP collection and recycling programmes provide consumers with the satisfaction that they are helping protect the environment. However, a financial incentive and a robust collection system needs to be considered to encourage support for recycling programmes. Additionally, there is a need for a national campaign to raise awareness of the negative effects of AHPs, the alternative disposal options available to consumers and the need to rinse off human solid waste from diapers (to ensure such waste is disposed correctly in the sewer system) before forwarding for recycling. Solutions would need to consider

This gazette is also available free online at **www.gpwonline.co.za**

the current cost of living crisis, water supply and sanitation challenges experienced by many South Africans.

## 6. ALIGNMENT WITH CURRENT POLICIES AND OBJECTIVES

Sustainable management of waste AHP is linked to, and supportive of, several government policies and objectives such as:

### 6.1 National Waste Management Strategy

The objects of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), the Norms and Standards and associated Regulations are structured around the steps in the waste management hierarchy, which is the overall approach that informs waste management in South Africa. Therefore, the AHP waste management strategy follows the waste management hierarchy approach.

The waste management hierarchy can and should be applied to for the disposal of AHPs by adopting processes during the lifecycle of AHPs, arranged in descending order of priority. All stakeholders must apply the waste management hierarchy in making decisions on how to manage AHP waste.

The foundation of the hierarchy, and the first choice of measures in AHP waste management, is avoidance and reduction. This step aims for AHP to be designed in a manner that minimises their waste components. Also, the reduction of the quantity and toxicity of AHP waste generated during the production process is important, as well as reducing the carbon footprint during the manufacturing process.

The next stage of the hierarchy is re-using AHP waste. Re-using an AHP article removes it from the waste stream for use in a similar or different purpose without changing its form or properties. After re-use comes the recycling of AHP waste, which involves separating components from the waste stream and processing them as products or raw materials.

These first four stages of the AHP waste management hierarchy are the foundation of the cradle-to-cradle AHP waste management philosophy. This approach seeks to re-use or recycle AHP when it reaches the end of its life span. In this way, it becomes inputs for new products and materials. This cycle repeats itself until as small a portion

This gazette is also available free online at **www.gpwonline.co.za**

as possible of the original AHP eventually enters the next level of the waste management hierarchy, namely recovery.

Recovery involves reclaiming particular components or materials or using the waste as a fuel.

As a last resort, AHP waste enters the lowest level of the hierarchy to be treated and / or disposed of, depending on the safest manner for its final disposal.

Where the quantity of AHP waste cannot be reduced during production, the purpose of implementing the waste management hierarchy is to use waste as a resource and divert these potential resources from landfill. Although landfill is widely considered the most affordable way to manage AHP waste, this view does not take into account factors such as the environmental impacts of landfills; the costs of developing and maintaining additional landfill capacity to accommodate the increasing rate of waste disposal; and the cost of closing and remediating the landfill.

[adapted from NWMS/ http://wastepolicy.environment.gov.za/]

### 6.2 National Sustainability Objectives

The proper management of waste AHP is supportive of the Sustainable Development Goals (SDGs), particularly:

- *SDG 3 : Good Health and Well-being*
- *SDG 4 : Quality Education*
- *SDG 6 : Clean Water and Sanitation*
- *SDG 11 : Sustainable Cities and Communities*
- *SDG 12 : Responsible Consumption and Production*
- *SDG 14 : Life Below Water, and*
- *SDG 15 : Life on Land*

Additionally, better management of waste AHP is aligned to South Africa's National Development Plan 2030 (NDP), in particular its *Objective 6, Chapter 5: Environmental Sustainability and Resilience*.

Issues contained in the NDP that are relevant to this Study include:

This gazette is also available free online at **www.gpwonline.co.za**

(a) A global drive for compliance on environmental standards which, while it will have cost implications, it will drive innovation, reduce waste, improve energy efficiency and promote new investment;

(b) Consumer awareness initiatives and sufficient recycling infrastructure resulting in South Africa becoming a zero-waste society;

(c) Investment in consumer awareness, green product design, recycling infrastructure and waste to-energy projects resulting in significant strides to becoming a zero-waste society;

(d) As per the National Waste Management Strategy (NWMS), implementing a waste-management system through the rapid expansion of recycling infrastructure, and encouraging the composting of organic domestic waste will bolster economic activity, particularly in poor urban communities;

(e) Waste makes up two percent of emissions and South Africa will cut down on solid-waste disposal through composting and recycling of organic waste, and running countrywide programmes to capture land-fill gas methane; and

(f) Introduce measures such as stepped tariffs and targeted penalties that would eliminate waste going to landfill;

### 6.3 Applicable Environmental legislative framework

The collection, transportation, storage and processing of AHPs must be in line with the Constitution of the Republic of South Africa, 1996, the National Environmental Management Act, 1998 (Act No. 107 of 1998) and the various other applicable Specific Environmental Management Acts (SEMAs), notably the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) (NEM: WA), as well as the National Waste Management Strategy 2020. Relevant municipal bylaws will also be applicable.

*Table 6.1: Applicable Environmental Legislations and Relevance to Project*

| No. | Legislation | Environmental Aspect |
|---|---|---|
| 1. | Constitution of the Republic of South Africa, 1996 | Environmental rights of the I&APs |
| 2. | National Environmental Management Act, 1998 (Act No. 107 of 1998); (NEMA) | Duty of care; reasonable measures; reporting of incidents; protection of workers; environmental whistleblowers; private prosecution; criminal proceedings; fines; EIA regulations for AHP waste plants |

This gazette is also available free online at **www.gpwonline.co.za**

| No. | Legislation | Environmental Aspect |
|---|---|---|
| 3. | Environmental Conservation Act, 1989 (Act No. 73 of 1989) | Establishment of waste sites; littering |
| 4. | National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004); | Threatened or protected species (TOPS) of plants and animals |
| 5. | National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) (NEM: WA) | Waste generation, storage and disposal |
| 6. | National Water Act, 1998 (Act No. 36 of 1998); | Watercourses (rivers, wetlands, etc.); water use |
| 7. | Hazardous Substances Act, 1973 (Act No. 15 of 1973) | Hazardous substances and chemicals |
| 8. | Atmospheric Pollution Prevention Act, 1965 (Act No. 45 of 1965); | Vehicle and machinery emissions |
| 9. | National Environmental Management: Air Quality Act, 2004 (Act No. 39 of 2004); | Emissions include dust |
| 10. | National Forest Act, 1998 (Act No. 84 of 1998) | Indigenous and protected trees affected by construction of infrastructure for AHP waste plants |
| 11. | National Heritage Resources Act, 1999 (Act No. 25 of 1999) | AHP facilities near or interfering with structures older than 60 years, archaeological (human remains, wrecks, rock art, artefacts of military history older than 75 years) or paleontological (fossil remains of animals or plants) or any meteorite or graves |
| 12. | Fertilizers, Farm Feeds, Agricultural Remedies and Stock Remedies Act, 1947 (Act No. 36 of 1947) | Use of herbicides and pesticides at AHP facilities |
| 13. | The Conservation of Agricultural Resources Act, 1983 (Act No. 43 of 1983); | Soil erosion; spreading of weeds (alien invasive plants) at AHP facilities |
| 14. | Advertising on Roads and Ribbon Development Act, 1940 (Act No. 21 of 1940) | Litter along public roads |

This gazette is also available free online at **www.gpwonline.co.za**

| No. | Legislation | Environmental Aspect |
|---|---|---|
| 15. | National Building Regulations and Building Standards Act, 1977 (Act No. 103 of 1977) | Erection of buildings; building standards |
| 16. | Occupational Health and Safety Act, 1993 (Act No. 85 of 1993) | Safety of workers and the public at AHP facilities |
| 17. | Fencing Act, 1963 (Act No. 31 of 1963) | Accessing properties; fences; farm gates for the collection of AHP waste from open areas |
| 18. | Public Finance Management Act, 1999 (Act No. 01 of 1999) | Fruitless, wasteful, and irregular expenditure arising from environmental incidents or non-compliance to Environmental Authorisation EA or the Environmental Management Programme (EMPr) for AHP facilities |

The management of waste AHPs may be further governed by other various national, and provincial ordinances, including municipal bylaws.

### 6.4 Applicable Standards

**The Sanitary Dignity Policy Framework, 2017**

Paragraph 8.9 of the Sanitary Dignity Policy Framework, 2017, which is about Sanitary waste disposal, provides some basic guidelines on the disposal of Feminine Hygienic Products (FHP, which calls for the education of users on the safe disposal of used sanitary pads and that sanitary pads may be disposed of as part of the municipal waste management strategy.

In areas where municipal waste disposal services are limited or unavailable, it is recommended that sanitary waste be disposed at a municipal dump site by means of deep burial, composting, pit burning or incineration, provided the necessary approvals have been obtained.

**SANS 8841 of 2019**

The Disposable diapers for infants Standard, while specifying requirements for the manufacture of disposable diapers for infants, has little to no guidelines on the disposal of used diapers.

Non-compliance of relevant legislation, Regulations and Standards could lead to costly delays, legal and financial risks, as well as health risks for all those involved in the AHP value chain.

This gazette is also available free online at **www.gpwonline.co.za**

## 7. STRATEGY FRAMEWORK

### 7.1 Proposed Vision

| |
|---|
| Within 15 years (i.e. between 2025 and 2040), 100% of AHPs will be biodegradable and/or compostable and all forms of AHP waste in South Africa will be diverted from the natural environment and incorporated into an appropriate material recovery solution. |

### 7.2 Proposed Mission

| |
|---|
| Rethink, Reduce, Re-design, Recover, Recycle and Re-circulate AHPs in the South African economy. |

### 7.3 Proposed Objectives

Rethink,

- Policy changes around classification, stockpiling and transportation of AHP waste
- AHP Waste as an economic resource
- Rural-urban dynamics in AHP waste management
- Funding initiatives

Reduce,

- AHP waste disposed into the natural systems,
- Single-use AHPs, and
- AHP waste disposed to landfill

Re-design,

- Using bio-degradable materials,
- AHPs into re-usable (outer) and disposable (inner) components, and
- For cost-effective treatment and recovery of raw materials

Recover through,

- S@S and collection programmes,
- Extraction at material recovery facilities, and
- Centralised consumer disposal and collection points

This gazette is also available free online at **www.gpwonline.co.za**

Recycle,

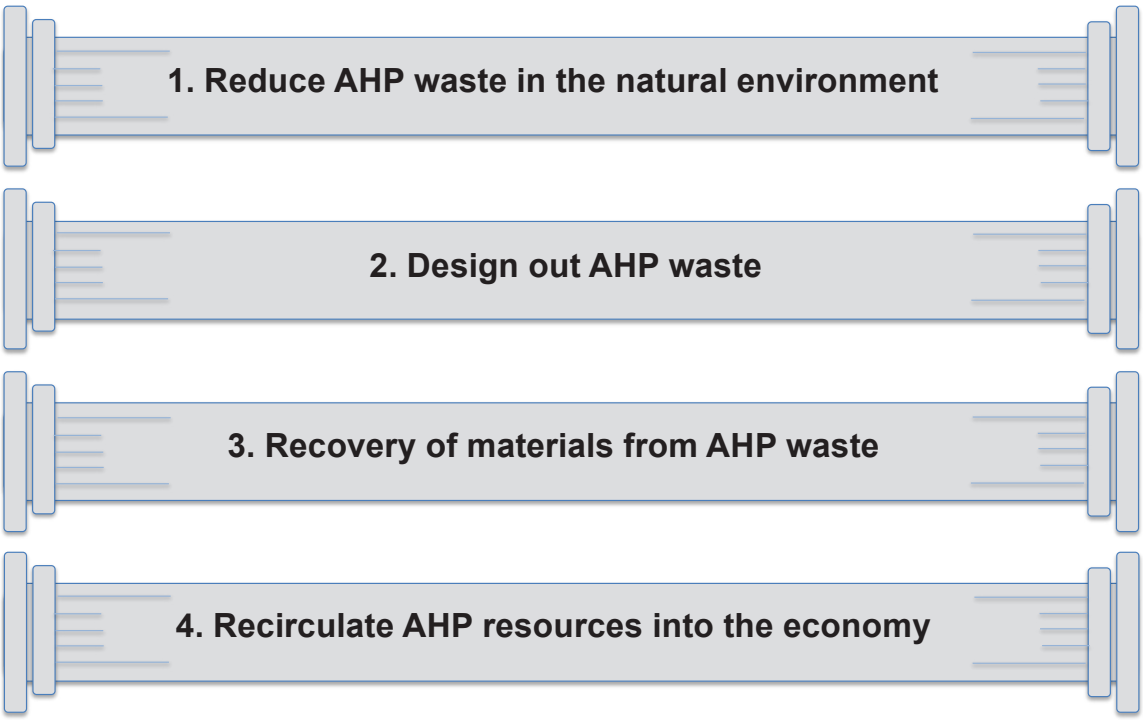

- Using sustainable and cost-effective technology, and
- Into materials with some economic value

Re-Circulate by,

- Setting standards for recycled materials, and
- Creating market demand

## 8. STRATEGIC INTERVENTIONS

The following FOUR strategic interventions or key performance areas are proposed to realise the vision and objectives of the Strategy:

### 8.1 Strategic Pillar 1 - Reduce AHP waste

***KPA 8.1.1:*** ***Consumers/users (with a focus on those in areas where waste collection systems are non-existent or problematic) are educated and programmes are implemented to collect AHP waste for responsible disposal to landfill***

This gazette is also available free online at **www.gpwonline.co.za**

*KPI and milestones:*

2025[2]: Commence with national awareness campaigns about the risks of disposing AHP in the natural environment and start with clean-up of AHP (and other domestic waste) in pilot rural and informal settlements and dispose to local modular treatment facility or to nearby approved landfill. Establish partnerships with relevant NGOs and private sector working in this space.

2025 - 2040: Roll-out of long-term sustainable disposal and collection solutions in rural and informal settlements, e.g. skips, concrete bins, and regular emptying of these.

2035: 50% roll-out of long-term sustainable disposal and collection solutions in rural and informal settlements.

2040: 100% roll-out of long-term sustainable disposal and collection solutions in rural and informal settlements.

*Overall timeframe:*

2025 to 2040

*Responsible stakeholders:*

Relevant regulatory authorities, DFFE, AHP Producers and PROs, rural/informal consumers, local waste management authorities.

***KPA 8.1.2: Reduce single-use AHP***

*KPI and milestones:*

2025-7: National public awareness campaigns on sustainable use of single-use AHPs (e.g. keeping them on for a longer period or less frequent changes).

[2] Targets should be met by the end year given.

This gazette is also available free online at **www.gpwonline.co.za**

2025: Study on the economics, life-cycle costs, benefits and risks of re-usable AHPs, etc.

2026-7: Set standards for re-usable (cloth) AHP materials. Standards to include recyclability percentage, bio-degradability rate, compost-ability rate, price levels, quality standards and hygienic cleaning requirements.

2028 - 2040: Government procurement of sustainable and/or re-usable AHPs, e.g. issue of FHP for menstruating learners and diapers for infants and adults at public healthcare facilities, etc.

*Overall timeframe:*

2025 - 2040

*Responsible stakeholders:*

DFFE, Department of Health (DOH, Rural Planning & Development, DTIC, DW&S, Co-operative Governance and Traditional Affairs (COGTA, AHP Producers and PROs, and retail outlets.

## 8.2 Strategic pillar 2 – Design out AHP waste

### *KPA 8.2.1 Design and produce AHPs with reusable components*

*KPI and milestones:*

2025: Private sectors commence with re-design/re-engineer of AHP with re-usable and washable components, e.g. outer covering

2030: At least 30% of AHP have reusable components

2040: At least 60% of AHP have reusable components

This gazette is also available free online at **www.gpwonline.co.za**

*Overall timeframe*:

2025 - 2040

*Responsible stakeholders*:

DFFE, Higher Education Institutions (HEIs), CSIR, and AHP Producers and PROs.

***KPA 8.2.2 Develop AHP raw materials with faster biodegradable or compostable rates (<5 years)***

*KPI and milestones*

2026: Collaboration between raw material producers, AHP assemblers and HEI and CSIR to develop bio-degradable or compost-able raw materials for use in AHP.

2030: At least 30% of AHP consist of materials that have faster biodegradable or compost-able rates, i.e. <5 years for complete breakdown.

2040: At least 60% of AHP consist of materials that have faster biodegradable or compost-able rates, <5 years for complete breakdown.

*Overall timeframe*:

2026 - 2040

*Responsible stakeholders*:

DFFE, Department of Science and Innovation (DSI, AHP Producers and PROs, HEI's, and CSIR.

***KPA 8.2.3 Design for easier and cost-effective S@S, drop-off and treatment of AHP***

This gazette is also available free online at **www.gpwonline.co.za**

*KPI and milestones:*

2026: Collaboration between raw material producers, AHP assemblers and HEI and CSIR to develop AHPs that are cost effective to treat and recover of raw materials.

2030: Develop a cost-effective technical solution to de-activate SAP and release locked-in liquids from the AHP waste.

2035: Design and prototype proprietary local technology to treat and recover AHP materials that have some economic value.

2026: Collaboration between producers and plastic packaging companies to design and produce cost-effective S@S solutions such as vermin-, odour-, pet and child-proof disposal bags and drop-off bins.

*Timeframe:*

2026 - 2030

*Responsible stakeholders:*

AHP Producers and PROs, CSIR (Material research unit), and HEIs.

**8.3 Strategic Pillar 3 – Recovery of materials from AHP waste:**

***KPA 8.3.1 (@S and collection programmes***

*KPI and milestones*:

2026: Implement S@S through a bagging solution and drop-off programme

2026: Develop a network of stakeholders willing to accommodate AHP drop-off centres.

2026: Implement a weekly collection of AHP waste from households and/or drop-off centres.

This gazette is also available free online at **www.gpwonline.co.za**

***KPA 8.3.2: Reduce AHP waste disposed to landfill***

*KPI and milestones:*

2026: National public awareness campaigns on S@S and alternate disposal solutions for AHP waste

2026: 5% of SA's local government waste management operations have S@S, central drop-off and regular collection programmes for general consumer AHP waste. This includes extraction of AHP from material recovery facilities (MRFs); and sent to approved AHP treatment facilities.

2030: 20% of SA's local government waste management operations have S@S, central drop-off and regular collection programmes for general consumer AHP waste. This includes extraction from MRFs; and sent to approved AHP treatment facilities.

2035: 50% of SA's local government waste management operations have S@S, central drop-off and regular collection programmes for general consumer AHP waste. This includes extraction from MRFs and sent to approved AHP treatment facilities.

2040: 75%-100% of SA's local government waste management operations have S@S, central drop-off and regular collection programmes for general consumer AHP waste. This includes extraction from MRFs and sent to approved AHP treatment facilities.

*Overall timeframe:*

2026 to 2040

*Responsible stakeholders:*

Relevant regulatory authorities, DFFE, AHP Producers and PROs, rural/informal consumers, local waste management authorities

This gazette is also available free online at **www.gpwonline.co.za**

***KPA 8.3.3: Small scale treatment and recovery of AHP materials***

*KPI and milestones:*

2025-26: Assess options and procure small scale modular AHP treatment facilities for installation at centralised urban and rural locations.

2026: Commission small scale modular AHP treatment facilities at five major urban and rural locations.

2030 : Commission 20 additional small scale modular AHP treatment facilities at urban and rural locations

2035 Commission 20 additional small scale modular AHP treatment facilities at urban and rural locations

2040: Commission 20 additional small scale modular AHP treatment facilities at urban and rural locations

*Overall timeframe:*

2025 - 2040

*Responsible stakeholders:*

DFFE, Metros, LMs, private sector, and AHP Producers and PROs.

***KPA 8.3.4: Large scale treatment and recovery of AHP materials***

2028: Undertake a feasibility study for an industrial scale (40,000 tpa) AHP waste treatment plant.

2030: If feasible, implement an industrial scale (40,000 tpa) AHP waste treatment plant through a public-private-partnership (PPP) model at one metro with a large volume of AHP waste.

This gazette is also available free online at **www.gpwonline.co.za**

2035: If feasible, implement another industrial scale (40,000 tpa) AHP waste treatment plant through a PPP model at a second metro with a large volume of AHP waste.

2040: If feasible, implement another industrial scale (40,000 tpa) AHP waste treatment plant through a PPP model at a third metro with a large volume of AHP waste.

*Overall Timeframe*:

2028 - 2040

*Responsible stakeholders*:

Consumers, municipalities, DFFE (feasibility study), DTIC, CSIR, industrial plant operators (private sector), and AHP Producers and PROs.

## 8.4 Strategic Pillar 4 – Re-circulate AHP resources back into the economy

### *KPA 8.4.1 Set standards for recycled AHP materials*

*KPI and milestone*s:

2026 - 2028: Establish the quality, technical standards and specifications (such as bacterial content, odour, moisture content, calorific value, pellet size, etc.) for AHP-derived recycled materials such as for plastic, wood fibres, SAP and RDF, etc.

*Timeframe:*

2026 – 2028

*Responsible stakeholders*:

This gazette is also available free online at **www.gpwonline.co.za**

DFFE, CSIR, South African Bureau of Standards (SABS), Market off-takers, and AHP Producers and PROs.

***KPA 8.4.2 Create market off-take opportunities for AHP2RDF products***

*KPI and milestone*s:

2026: Establish RDF fuel blending rates for boiler, kiln and waste to energy plant (WtE) operators

2026: 10% AHP derived RDF blended with fossil fuels such as coal in industrial applications, e.g. industrial boilers and kilns

2028: 20% AHP derived RDF blended with fossil fuels such as coal in industrial applications, e.g. industrial boilers and kilns

2030: 30% AHP derived RDF blended with fossil fuels such as coal in industrial applications, e.g. industrial boilers and kilns

2040: AHP derived RDF available to the general consumer as an alternate green energy source for heating, etc.

*Overall Timeframe:*

2026 - 2040

*Responsible stakeholders:*

DFFE, CSIR, Retailers, private sector, and AHP Producers and PROs

## 9. FINANCING AND SUPPORTING THE STRATEGY

Funding of the AHP design and disposal Strategy interventions may be obtained from a number of sources such as:

- EPR levies. In the future, AHP producers and PROs should be required to integrate the management of AHP products into their operations and adhere to

This gazette is also available free online at **www.gpwonline.co.za**

published targets in the notice, as well as to establish an EPR Scheme for these products.

Other funding options that should be considered include:

- Carbon reduction grants, especially for RDF that could be a replacement for coal in industrial and consumer applications.
- Grants available for protection of clean water resources and catchments.
- Grants available for sustainable rural development.
- Grants available for indigent women/families to support with re-usable AHP.
- International grants, e.g. Global Environmental Facility (GEF, focused on environment, waste and climate issues.
- Private funding, e.g. from Private Funding Advisory Network (PFAN), focused on environment, waste and climate issues.

A programme for the local development and implementation of AHP treatment technologies as well as the verification of imported technologies should be initiated and headed by the likes of CSIR Waste RDI Roadmap, with support from local and international institutions and programmes such as:

- SABS
- Expertise France
- Expertise Holland (PUM)
- Senior Experten Service (SES), Germany

## 10. MONITORING AND EVALUATION FRAMEWORK

The overall development of the Strategy and targets is the responsibility of the DFFE with support from the Department of Performance, Monitoring and Evaluation (DPME.

Since the bulk of AHP waste is generated and its impacts are felt at the local level, it is imperative that local municipalities be co-opted as implementing and monitoring partners for the Strategy.

The targets proposed in this Strategy should become an integral part of the *National Waste Management Strategy*. Furthermore, a local municipality should incorporate the management of AHPs into its *Integrated Waste Management Strategy*. Finally, the

This gazette is also available free online at **www.gpwonline.co.za**

DFFE, should incorporate the targets mentioned in this Strategy, as well as the performance against the KPIs, in the annual *South Africa State of Waste Report*.

## 11. KEY SUCCESS FACTORS

The success of the AHP Design and Disposal Strategy would depend on a number of factors and approaches during its implementation:

- The implementation of the Strategy must be phased over a number of years to ensure that municipalities budget for and allocate resources for AHP management initiatives.
- Goals and targets set in the Municipal Integrated Waste Management Plans must be SMART, i.e. Specific, Measurable, Achievable, Relevant, and Time-Bound.
- Proposals and solutions must align with this Strategy and comply with the relevant regulations.
- Public awareness campaigns, with a specific focus on attitude and behaviour of AHP consumers, is a pre-requisite to change attitude towards AHP and current disposal practices.
- A robust collection, transport and storage system is a prerequisite and a pre-cursor to alternate AHP treatment.
- Market demand for recycled AHP material such as such as RDF, or plastics must engaged, ready and willing.
- Access to sustainable finance, subsidies and grants.
- Establishment of national agency (under the jurisdiction of the DFFE), if one does not exist, responsible for the governance, monitoring and enforcement of requirements for the AHP Producers and PROs.
- Partnerships with key stakeholders, such as R&D, AHP Producers and PROs, NPOs and NGOs working in the AHP design and disposal space.
- The Strategy should become an integral part of the *National Waste Management Strategy*. Furthermore, a local municipality should incorporate the management of AHPs into its *Integrated Waste Management Strategy*. Finally, the DFFE, should incorporate the targets mentioned in this Strategy, as well as the performance against the KPIs, in the annual *South Africa State of Waste Report*

This gazette is also available free online at **www.gpwonline.co.za**

## 12. SUPPORTING INITIATIVES

### 12.1 National Communication Plan

A national communication strategy and plan for all media platforms to be developed and launched at the appropriate time. The Strategy would encompass:

- Messages to create awareness in society about AHPs and its negative environmental impacts.
- Posters, e.g. for schools and clinics, as well as on-air and on-line materials
- Integration into Municipal newsletters, billing statements, and local and national environmental and waste management awareness campaigns
- Partnerships with private, government and NGOs to assist with campaigns

### 12.2 Information Management

Provision or integration with the South African Waste Information Centre (SAWIC) to document AHP statistics, such as production volumes, disposal volumes, disposal points, S@S volumes, treatment volumes, volume of raw materials recovered, and treatment plant locations, challenges experienced, lessons learned, etc.

This gazette is also available free online at **www.gpwonline.co.za**

# NOTIFICATION IN GOVERNMENT GAZETTE

## PUBLIC NOTICE

**Application for derogation for the restricted use of agricultural remedies identified as substances of concern.**

This notice is to inform the public of administrative action being taken in relation to the approval of agricultural remedies under the Fertilizer, Farm Feeds, Agricultural Remedies and Stock Remedies Act, 1947 (Act No. 36 of 1947).

**ICA International Chemicals (Pty) Ltd.,** (Co Reg. No. 2001/013319/07) hereby informs the public of its intention to submit an application for derogation for the registered agricultural remedy containing **Spirodiclofen** (tetronic acid) below, with active ingredient load of **240 g/L**, identified as a substance of concern due to its classification as a **Carcinogen Category 1B** according to the Globally Harmonized System of Classification and Labelling of Chemicals, for the following uses in South Africa: An acaricide for the control of mite pests on crops such as **Citrus** and **Strawberries** as specified in the Toxicological Risk Assessment.

| COMPANY NAME AND REGISTRATION NUMBER | TRADE NAME AND REGISTRATION NUMBER | WEBSITE |
|---|---|---|
| **ICA International Chemicals (Pty) Ltd** (Co. Reg. No. 2001/013319/07) | **SpiroFlo 240 SC** (L 11598) | https://www.icaonline.co.za-/derogation.html |

As per the requirements of the "Regulations relating to agricultural remedies" of August 2023, a toxicological risk assessment was conducted for the proposed end uses and the public is hereby invited to review the risk assessment report and submit comments in relation to the proposed application. This report can be accessed online via the following website: https://www.icaonline.co.za/derogation.html or in hard copy at the Department of Agriculture, Land Reform and Rural Development (Agriculture Building, 20 Steve Biko Street, Arcadia, Pretoria, 0002) during office hours (08:00 to 16:00 on Mondays to Fridays, excluding public holidays).

Interested parties must submit comments or objections in connection with the proposed application in writing to:

Mr. Maluta Mudzunga.

The Registrar: Fertilizer, Farm Feeds, Agricultural Remedies and Stock Remedies Act, 1947 (Act No. 36 of 1947) Department of Agriculture, Land Reform and Rural Development, Private Bag X343, Pretoria, 0001.

Office 417, Harvest House Building, 30 Hamilton Street, Arcadia, Pretoria, 0002.

Tel no: 012 319 6530

Email: MalutaM@dalrrd.gov.za

Interested parties must submit comments or objections in relation to this application within 30 days of the publication of this notice. Comments received after this date need not be considered.

# KENNISGEWING IN DIE STAATSKOERANT

## ALGEMENE KENNISGEWING

**Aansoek vir derogasie vir die beperkte gebruik van landbouchemikalieë geïdentifiseer as sorgwekkende middels.**

Hierdie kennisgewing het ten doel om die algemene publiek in te lig van die administratiewe aksie onderweg in verband met die goedkeuring van landbouchemikalieë onder die Wet op Misstowwe, Veevoer, Landbouchemikalieë en Veemiddels (Wet Nr. 36 van 1947).

**ICA International Chemicals (Edms) Bpk.** (Mpy Reg. Nr. 2001/013319/07) lig die publiek hiermee in van hul voorneme om aansoek te doen vir die derogasie van die geregistreerde **Spirodiklofen** (tetroniese suur) bevattende landboumiddel hieronder, met aktiewe bestanddeel inhoud van **240 g/L**, wat geïdentifiseer is as 'n sorgwekkende middel na klassifikasie as **Karsinogeen Kategorie 1B** ingevolge die "Globally Harmonized System of Classification and Labelling of Chemicals", vir die volgende eindgebruike in Suid-Afrika: 'n mytdoder vir die beheer van mytplae in gewasse soos **Aarbeie** en **Sitrus** soos uiteengesit in die Toksikologiese Risiko-ontleding.

| MAATSKAPPYNAAM EN REGISTRASIENOMMER | HANDELSNAAM EN REGISTRASIENOMMER | WEBWERF |
|---|---|---|
| **ICA International Chemicals (Edms) Bpk.** (Mpy. Reg. Nr. 2001/013319/07) | **SpiroFlo 240 SC** (L 11598) | https://www.icaonline.co.za-/derogation.html |

Soos vereis in die "Regulations relating to agricultural remedies" van Augustus 2023 is 'n toksikologiese risiko-ontleding voltooi vir die voorgestelde eindgebruike en die publiek word hiermee uitgenooi om kommentaar te lewer rakende die risiko-ontleding en die voorgestelde aansoek. Die verslag is aanlyn beskikbaar by: https://www.icaonline.co.za/derogation.html of in harde kopie by "Department of Agriculture, Land Reform and Rural Development (Agriculture Building, 20 Steve Biko Street, Arcadia, Pretoria, 0002) gedurende kantoorure (tussen 08:00 en 16:00, Maandag tot Vrydag, uitsluitend openbare vakansiedae).

Belangstellende partye moet kommentaar of besware skriftelik rakende die voorgestelde aansoek rig aan:

Mnr. Maluta Mudzunga

Registrateur: Wet op Misstowwe, Veevoer, Landbouchemikalieë en Veemiddels, 1947 (Wet Nr. 36 van 1947).

Departement van Landbou, Grondhervorming en Landelike Ontwikkeling, Privaatsak X343, Pretoria, 0001. Kantoor 417, Harvest House-gebou, Hamiltonstraat 30, Arcadia, Pretoria, 0002.

Tel nr: 012 319 6530

E-pos: MalutaM@dalrrd.gov.za

Kommentaar, of besware rakende hierdie aansoek moet binne 30 dae van publikasie van hierdie kennisgewing ingedien word. Kommentaar ontvang na die sperdatum mag nie noodwendig in ag geneem word nie.

| **MINISTER OF WATER AFFAIRS AND SANITATION** | Fourth Respondent |

*This Order is made an Order of the Tribunal by the Judge whose name is reflected herein, duly stamped by the Registrar of the Tribunal and is submitted electronically to the Parties/their legal representatives by email. This Order is further uploaded to the electronic file of this matter on Case Lines by the Judge or her Secretary. The date of this Order is deemed to be 13 January 2025.*

---

**ORDER**

---

**After having read the papers filed on behalf of the Applicant, it is ordered as follows:**

1. The Applicant's deviation from the rules in launching this Application is condoned and the forms and time periods for service provided for in the Rules are dispensed with and the Application is dealt with as one of urgency in terms of Rule 12(2) of the Special Tribunal Rules;

2. Pending the finalisation of the action instituted in the High Court by the Applicant against *inter alia* the First Respondent under Case number 7760/18, the First Respondent is interdicted and restrained from withdrawing and/or in any other way encumbering or prejudicing the value of monies held or administered by the Second and Third Respondents, as pension fund benefits, due to the First Respondent;

3. Pending the finalisation of the action instituted in the High Court by the Applicant under Case number 7760/18, the Second and Third Respondents are interdicted and restrained

from paying out to the First Respondent and/or any other party, and from doing anything that may in any other way encumber or prejudice the value of the monies held or administered by it/them, as pension fund benefits, due to the First Respondent;

4. The Second and Third Respondents must within 60 (sixty) days of this order assess the value of the First Respondent's pension benefit and notify the parties in writing thereof;

5. The First Respondent may apply on the present papers, duly supplemented, for any relief the First Respondent considers appropriate, if the pension benefit due to the First Respondent (as assessed by the Second and Third Respondents) is in excess of the Applicant's claim instituted in the High Court under Case number 7760/18, including an estimated amount of costs and interest;

6. Costs of this application are costs in the action under Case number 7760/18.

JUDGE M VICTOR

PRESIDENT OF THE SPECIAL TRIBUNAL

For Applicant: Adv Raath SC

With Adv Hlalethoa

Instructed by the State attorney Pretoria

APPLICATION FOR THE CONTINUATION OF A STATUTORY MEASURE:
BREEDING AND TECHNOLOGY LEVY ON LUPINS IN TERMS OF THE MARKETING OF AGRICULTURAL PRODUCTS ACT, 1996, (ACT NO 47 OF 1996), (MAP ACT) AS AMENDED

••••

### INVITATION TO DIRECTLY AFFECTED GROUPS IN THE LEGUME INDUSTRY TO FORWARD COMMENTS REGARDING THE REQUEST FROM THE SA CULTIVAR AND TECHNOLOGY AGENCY (SACTA), FOR THE CONTINUATION OF THE STATUTORY LEVY ON LUPINS FOR BREEDING AND TECHNOLOGY PURPOSES

The statutory levy for lupins of R35 per ton (VAT excluded) to fund seed breeding and technology, that is administered by the SA Cultivar and Technology Agency (SACTA), will lapse on 30 September 2025.

On 18 March 2025, the National Agricultural Marketing Council (NAMC) received a request from SACTA, on behalf of role players in the legume industry, that the Minister of Agriculture, in terms of section 15 of the Marketing of Agricultural Products Act, Act No 47 of 1996 (MAP Act), approve the proposed continuation of the statutory levy on lupins for a further period of two years, to stimulate and ensure new breeding technology in the industry. Furthermore, that the following levy rate (VAT excluded) be approved by the Minister:

| Commodity | Period | Amount (VAT Excl) |
|---|---|---|
| Locally produced lupins | 1/10/2025 to 30/9/2026 | R 35,00 per metric ton |
| | 1/10/2026 to 30/9/2027 | R 35,00 per metric ton |

The proposed levy amount is approximately 1% of the average lupin price from 2022 to 2024.

Statutory levies for breeding and technology purposes have been imposed over the past few years on wheat, barley, oats, soybeans and lupins to create sustainable breeding research funding models. These levies have been administered by the "SA Cultivar and Technology Agency" (SACTA). SACTA, a Non-Profit Company, was established to act as Administrator of the Breeding and Technology System, to eventually administer breeding and technology levies on most self-pollinated crops. The Board of Directors of SACTA includes industry role-players that are directly affected by the payment and/or utilisation of the levies, as well as two representatives appointed by the Minister of Agriculture.

According to the applicant, the statutory breeding levy on lupins has proven to be effective and payments to the appropriate seed marketing companies were successfully made at the end of each marketing season. The continuation of the model is therefore important to achieve the required benefits for the development of new seed technology to improve yields and productivity and maintain food security in the country.

If approved, the levy will again be payable to SACTA by buyers, processors and persons issuing a silo receipt, and will be recovered from producers. Institutions collecting and paying the levy over to SACTA, may claim 2,5% commission on the amount of the levies to cover their costs.

**PARTICULARS REQUIRED IN TERMS OF SECTION 10 OF THE MAP ACT**

The relevant particulars, as required in terms of section 10(2) of the MAP Act, to be included in a request for the establishment of a statutory measure of this nature, are as follows:

1. The proposed statutory levy would relate to lupins that are produced in the Republic of South Africa.

2. The manner in which the objectives referred to in section 2(2) of the MAP Act will be advanced (namely increased market access for all market participants, promotion of the efficiency of the marketing of agricultural products, optimisation of export earnings from agricultural products and the enhancement of the viability of the agricultural sector) is summarised below:

   The purpose and aim of this statutory levy are to compensate breeders of lupin varieties for their contribution towards obtaining and utilising improved international and local agriculture related intellectual property to the benefit of the lupin industry in the Republic of South Africa.

   The agricultural sector is expected to ensure food security, strengthen the economy and create job opportunities. This can be reconciled with the provisions of Section 2(3) of the MAP Act. In order to achieve these aims and to further the competitive position of the lupin industry in the Republic of South Africa, cultivation of high yielding crops from seed varieties that are most suited for particular regions is essential.

   A portion of the funds collected by means of the levy will be focused on small-scale farmers and transformation of the lupin industry in the Republic of South Africa. SACTA, that will administer the levy, will be responsible for allocating at least 20% of levy income to transformation initiatives and report to the National Agricultural Marketing Council annually.

3. The Administration of SACTA will take responsibility for the collection of the levy and for the administration functions associated with the proposed levy. The lupin statutory levy collected shall be administered in a separate account. SACTA shall be audited in accordance with generally accepted accounting practices.

4. Annual audits will be available to the Auditor-General.

**BUSINESS PLAN:**

The income by means of the statutory levy is based on a success rate of only 50% in the collection of levies. The low collection rate is a projection based on estimates of what will enter the market (where the levy is collected) and what might be retained for on-farm use as feed.

The following income is budgeted for the next two years:

**SACTA Estimated budget: Lupins levy**

| Financial year | Estimated crop size (Tons) | Levy amount (R/Ton) | Budgeted levy income * R | Possible Seed breeders' distribution R | Transformation R | Administration cost R |
|---|---|---|---|---|---|---|
| **2025/26** | 19 200 | 35 | 327 600 | 252 000 | 65 520 | 10 080 |
| **2026/27** | 19 200 | 35 | 327 600 | 252 000 | 65 520 | 10 080 |

***Budgeted levy income is based on 50% success rate and after commission was paid to levy collectors**

These statutory funds will be used to support breeding research functions, based on the following:

- The levy funds are earmarked for commercial breeding activities by seed companies based on their performance and utilisation in the seed market.
- These funds will be distributed according to the calculated market share of each seed company.
- At least 20% of the levy income will be used for transformation and development projects, of which the business plan will be considered by the NAMC.
- The budget for administration costs represents approximately 3% of the expected income by means of statutory levy on lupins during the next two years; and
- The levy is applicable on local production only.

As the proposed continuation of the breeding and technology levy on lupins is consistent with the objectives of the MAP Act, the NAMC is investigating the possible continuation of the relevant statutory levy.

**Directly affected groups in the legumes industry are kindly requested to submit comments or objections regarding the proposed continuation of the breeding and technology levy on lupins to the NAMC in writing (e-mail lizettem@namc.co.za) on or before 25 April 2025, to enable the Council to formulate its recommendation to the Minister in this regard.**

# KENNISGEWING VAN 2025

## RAAD VAN MEDIESE SKEMAS

**Die Registrateur van Mediese Skemas maak ooreenkomstig artikel 25 van die Wet op Mediese Skemas, 1998, (Wet No. 131 van 1998), bekend dat ondergemelde mediese skemas geregistreer is soos aangedui.**

**Hierdie lys vervang die lys wat in Staatskoerant No. 46032 gedateer 15 March 2025 gepubliseer is en bevat 71 Mediese Skemas.**

MEDICAL SCHEMES REGISTERED IN TERMS OF THE MEDICAL SCHEMES ACT, NO 131 OF 1998, AS AT APRIL 2025

| NO. | NAME OF SCHEME | TYPE | PO/POSTNET BOX/PRIVATE BAG | CITY/TOWN | POSTAL CODE | REF. NR. | DATE OF REG. | TEL NR. |
|---|---|---|---|---|---|---|---|---|
| | NAAM VAN SKEMA | TIPE | POS/POSTNET BUS/PRIVAAT SAK | STAD/DORP | POSKODE | VERW. NO. | DATUM VAN REG. | TEL. NO. |
| | A | | | | | | | |
| 1 | AECI MEDICAL AID SOCIETY | RESTRICTED | 1101 | FLORIDA GLEN | 1708 | 1005 | 11/Feb/1971 | 086 000 2103 |
| 2 | ALLIANCE-MIDMED MEDICAL SCHEME | RESTRICTED | 90346 | GARSFONTEIN | 0042 | 1465 | 30/Aug/1976 | 012 845 0080 |

## NON-GOVERNMENTAL ORGANIZATION

## NOTICE 3129 OF 2025

### NOTIFICATION: ENVIRONMENTAL AUTHORISATION APPLICATION PROCESS.

Motuoane Energy (Pty) Ltd (Motuoane) (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Independent Environmental Assessment Practitioner (EAP) to assist with undertaking the required authorisation processes (including the statutory public participation), and to compile and submit the required documentation.

| | |
|---|---|
| **Applicant:** | **Motuoane Energy (Pty)** |
| **Application/s:** | An Environmental Authorisation (EA) in accordance with the National Environmental Management Act (Act 107 of 1998) (NEMA), Environmental Impact Assessment (EIA) Regulations, 2014 as amended for the following listed activity: GNR 983 Activity 21C; and GNR 984 Activity 18; Other applicable listed activities are: GNR 983 Activity 27; and GNR 985 Activity 12.<br><br>Additional listed activities and/or water uses may be identified during the process. |
| **Activity** | The applicant proposes to explore all saleable gases including but not limited to Methane, Carbon Dioxide, Helium, and Nitrogen within Exploration Right (ER) 386. Due to the large area and complex exploration methodology, the ER will be required for an initial period of three years with the option to renew for three additional periods of two years resulting in a total of nine years. The ER application is a consolidation of Technical Cooperation Permits (TCP) 235 and 240 and Exploration Release Area (ERA) 341, approved under Section 79 of the Mineral and Petroleum Resources Development Act (Act 28 of 2002 – MPRDA, as amended).<br><br>Proposed activities include identifying and analysing existing gas-emitting boreholes, drilling and sampling new core wells, conducting seismic and/or magnetotelluric surveys, and clearing vegetation of approximately 50mx50m for each drill pad. Up to 13 target drilling areas are proposed, though the current program focuses on three wells, each well will be approximately 650m deep and a maximum width of 350mm, with steel-casing and cement barrier and plugged for environmental safety and to prevent contamination of groundwater.<br><br>Seismic surveys, potentially employing Vibroseis or Accelerated Weight Drop techniques and/or magnetotellurics survey will cover over 100km of transects within the ER, realigned as new data emerges. |
| **Location:** | The proposed project is located over an area of approximately 60 000 hectares (ha), covering various farm portions near the towns of Welkom, Virginia, Hennenman and Odendaalsrus, Free State Province. The furthest boundaries of ER386 are 28°13'28.95"S; 26°55'2.76"E in the South, 27°57'37.57"S; 26°48'49.15"E in the West, 27°59'13.57"S; 27°11'13.06"E in the East and 27°46'34.45"S; 26°57'44.05"E in the North, the central coordinates are approximately 27°58'23.27"S; 26°59'38.94"E. |

EIMS will be following the procedures defined in the Environmental Impact Assessment (EIA) Regulations (GRN982 of 2014, as amended) for undertaking a Scoping and Environmental Impact Assessment (EIA) process. In accordance with Chapter 6 of the EIA Regulations, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and application/s. By registering as an interested and affected party you consent to the collection and processing of your personal information as per the EIMS Privacy Notice available at www.eims.co.za/public-participation. In order to avoid missing out on opportunities for public participation, please submit I&AP registrations, or any queries, comments, or concerns with regard to this application, as soon as possible to EIMS.

## NIE-REGERINGSORGANISASIE

## KENNISGEWING 3129 VAN 2025

### KENNISGEWING: OMGEWINGSMAGTIGING AANSOEKPROSES.

Motuoane Energy (Edms) Bpk (Motuoane) (hierna verwys as die aansoeker) het Environmental Impact Management Services (Edms) Bpk (EIMS) as die Onafhanklike Omgewingsbeoordelingspraktisyn (OBP) aangestel om te help met die onderneming van die vereiste magtigingsprosesse (insluitend die statutêre openbare deelname), en om die vereiste dokumentasie saam te stel en in te dien.

| | |
|---|---|
| **Aansoeker** | **Motuoane Energy (Edms) Bpk** |
| **Aansoek/e:** | 'n Omgewingsmagtiging (OM) in ooreenstemming met die Nasionale Omgewingsbestuurswet (Wet 107 van 1998) (NEMA), Omgewingsimpakbepaling (OIB) Regulasies, 2014, soos gewysig, vir die volgende gelyste aktiwiteit: GNR 983 Aktiwiteit 21C; en GNR 984 Aktiwiteit 18. Ander toepaslike gelyste aktiwiteite is: GNR 983 Aktiwiteit 27; en GNR 985 Aktiwiteit 12.<br><br>Bykomende gelyste aktiwiteite en/of watergebruike kan tydens die proses geïdentifiseer word. |
| **Aktiwiteit:** | Die aansoeker wil alle verkoopbare gasse ondersoek, insluitend, maar nie beperk nie tot metaan, koolstofdioksied, helium en stikstof binne Eksplorasie Reg (ER) 386. As gevolg van die groot area en komplekse eksplorasiemetodologie, sal die Eksplorasie Reg (ER) vereis word vir 'n aanvanklike tydperk van drie jaar met die opsie om te hernu vir drie bykomende tydperke van twee jaar wat 'n totaal van nege jaar gee. Die ER-aansoek is 'n konsolidasie van die twee Tegniese Samewerkingspermitte (TCP) 235 en 240 en Exploration Release Area (ERA) 341, ingevolge Artikel 79 van die Wet goedgekeur op die Ontwikkeling van Minerale en Petroleumhulpbronne (Wet 28 van 2002 – MPRDA, soos gewysig).<br><br>Voorgestelde aktiwiteite sluit in die identifisering en ontleding van bestaande gasvrystellende boorgate, die boor en neming van monsters van nuwe kernboorgate, die uitvoer van seismiese en/of magnetotelluriese opnames, en die verwydering van plantegroei van ongeveer 50mx50m vir elke boorblok. Tot en met 13 teikenboorareas word voorgestel, alhoewel die huidige program op drie putte fokus, sal elke put ongeveer 650 m diep en 'n maksimum breedte van 350 mm wees, met staalomhulsel en sementversperring en ingeprop vir omgewingsveiligheid en om besoedeling van grondwater te voorkom.<br><br>Seismiese opnames, moontlik deur gebruik te maak van Vibroseis- of Versnelde “Weight Drop” tegnieke en/of magnetotelluriese opname sal meer as 100 km se transekte binne die ER dek, met herbelyning soos nuwe data beskikbaar word |
| **Ligging:** | Die voorgestelde eksplorasiereg-aansoek (ER386) is geleë oor 'n gebied van ongeveer 60 000 hektaar (ha), wat verskeie plaas gedeeltes in die omgewing van die dorpe Welkom, Virginia, Hennenman en Odendaalsrus, Vrystaat Provinsie, dek. Die verste grense van ER386 is 28°13'28.95"S; 26°55'2.76"O in die Suide, 27°57'37.57"S; 26°48'49.15"O in die Weste, 27°59'13.57" S; 27°11'13.06"O in die Ooste en 27°46'34.45"S; 26°57'44.05"O in die Noorde, die sentrale koördinate is ongeveer 27°58'23.27"S; 26°59'38.94"O. |

EIMS sal die prosedures volg soos omskryf in die Omgewingsimpakbepaling (OIB) Regulasies (GRN982 van 2014, soos gewysig) vir die onderneming van 'n Omvang- en Omgewingsimpakbepaling proses. In ooreenstemming met Hoofstuk 6 van die OIB-regulasies, sal 'n openbare deelnameproses onderneem word. U word hiermee uitgenooi om te registreer en kommentaar te lewer op die voorgestelde projek en aansoek/s. Deur as 'n B&GP te registreer, stem u in tot die versameling en verwerking van u persoonlike inligting soos per die EIMS Privaatheidskennisgewing beskikbaar by www.eims.co.za/public-participation. Om te verhoed dat geleenthede vir publieke deelname misgeloop word, dien asseblief B&GP-registrasies, of enige navrae, kommentaar of bekommernisse met betrekking tot hierdie aansoek, so gou moontlik by EIMS in.

**Additional Notes**

1. The Act: Reference is made to the Property Valuers Profession Act, Act No. 47 of 2000.

2. Annual Fee
   2.1 A newly registered candidate valuer is exempt from paying the annual fee for his/her first year of registration. All that is payable is the application fee and the registration fee. Once the applicant has been approved to register with SACPVP, an invoice will be issued for the registration fee in order to be registered as a candidate valuer.
   2.2 This is the annual subscription paid by all registered persons. The invoices are emailed on 1st April 2025 which is the start of the new financial year. The registered persons have three months to pay their annual fees, i.e. May, June and July or 90 days. Thereafter, interest will be charged on the amount of the annual fees.

3. Application Fee
   Fees that are paid by the new applicant when they submit an application to SACPVP for the first time. Proof of payment should be attached to the prescribed application form. It is a non-refundable, once off payment.
   Once the new applications have been approved, they will proceed to pay the registration fees.

4. Registration Fee
   Are fees paid by registered persons when they are progressing from one category to another. Once the registered person has passed the professional valuer or professional associated valuer examination. He/she is required to pay the registration fees to change the category of registration.

5. Validation of CPD events and points: Please visit the website: www.sacpvp.co.za
6. Posting of Registration certificate and Registration cards. The registered persons or Institutions to arrange the collection thereof.
7. Recognized Prior Learning (RPL). Each application will be assessed on its merit and subject to the applicant adhering to a set criterion.

## DEPARTMENT OF TRANSPORT

## NOTICE 3131 OF 2025

## AIR TRAFFIC AND NAVIGATION SERVICES COMPANY SOC LIMITED

AIR TRAFFIC AND NAVIGATION SERVICES COMPANY ACT, 1993 (ACT No. 45 OF 1993)
PUBLICATION OF AIR TRAFFIC SERVICE CHARGES
CORRECTION NOTICE

The following correction to Notice 2924 in Government Gazette No. 51843 of 3 January 2025 is hereby published for general information:

(a) Replace rule 9.9 with the following rule:

"9.9 Search mission co-ordination services are payable by the relevant authority or any operator at a rate of **R2 021,97** per hour or part thereof, where these services fall outside of the normal scope of alerting services and assistance to agencies involved in search and rescue operations, in particular where services are activated due to negligence in canceling service requests."

(c) Replace rule 9.12 with the following rule:

"9.12 Extended air traffic service charges at a rate of **R4 043,94** per hour or part thereof, are payable by an operator for the extension of existing air traffic services beyond the normal negotiated and planned service amendments as documented in the Integrated Aeronautical Information Package (IAIP)."

(d) Replace paragraph 1 of the Appendix with the following paragraph:

"1. An air traffic service charge is composed of the sum of VC, BSC and FC for each discrete Aerodrome, TMA Access and Area movement undertaken, according to the following mass categories and locations:

| *Main Mass Category* | *Cost Component* | *Formulas & Coefficients* | | |
|---|---|---|---|---|
| | | *Aerodrome Charge* | *TMA Access Charge* | *Area Charge* |
| FAOR ≤ 5 000 kg | VC | R39,87 | R39,87 | |
| | BSC | R161,99/10 000.MCM | R161,99/10 000.MCM | |
| | FC | R85,49 | R157,93 | |
| 5 000 kg < MCM ≤ 15 000 kg | VC | R39,87 | R39,87 | R39,87 |
| | BSC | R161,99/10 000.MCM | R161,99/10 000.MCM | R161,99/10 000.MCM |
| | FC | R170,95/10 000.MCM | R31,59/1 000.MCM | R22,66/100 000.MCM.d |
| > 15 000 kg | VC | R39,87 | R39,87 | R39,87 |
| | BSC | R198,35/100.√MCM | R198,35/100.√MCM | R198,35/100.√MCM |
| | FC | R209,39/100.√MCM | R386,87/100.√MCM | R277,72/10 000.√MCM.d |

"

(e) Replace paragraph 3 of the Appendix with the following paragraph:

"3. As an illustration, assume the following flights:

*Example 1*

Domestic flight from FAOR to FACT, with aircraft with MCM = 100 000 kg and d = 686 miles

Charge = [Aerodrome Charge at FAOR + TMA Access Charge at FAOR + Area Charge + TMA Access Charge at FACT + Aerodrome Charge at FACT] x 100%

= $[[VC_{Aero} + BSC_{Aero} + FC_{Aero}] + [VC_{TMA} + BSC_{TMA} + FC_{TMA}] + [VC_{Area} + BSC_{Area} + FC_{Area}] + [VC_{TMA} + BSC_{TMA} + FC_{TMA}] + [VC_{Aero} + BSC_{Aero} + FC_{Aero}]] \times 100\%$

= [[R39,87 + (R161,99/100 x √100 000) + (R209,39/100 x √100 000)] + [R39,87 + (R198,35/100 x √100 000) + (R386,87/100 x √100 000)] + [R39,87 + (R198,35/100 x √100 000) + (R277,72/10 000 x √100 000 x (686-35-35))] + [R39,87 + (R198,35/100 x √100 000) + (R386,87/100 x √100 000)] + [R39,87 + (R198,35/100 x √100 000) + (R209,39/100 x √100 000)]] x 100%

= [(R39,87 x 5) + (R198,35/100 x √100 000 x 5) + (R198,35/100 x √100 000 x 2) + (R386,87/100 x √100 000 x 2) + (R277,72/10 000 x √100 000 x 616)] x 100%

= R12 514,42

*Example 2*

International flight from FAOR to international gateway, with aircraft with MCM = 4 500 kg and d = 211 miles

Charge = [Aerodrome Charge at FAOR + TMA Access Charge at FAOR] x 100%

= $[[VC_{Aero} + BSC_{Aero}] \times 103\% + FC_{Aero}] + [[VC_{TMA} + BSC_{TMA}] \times 100\% + FC_{TMA}]$

= [[R39,87 + (R161,99/10 000 x 4 500)] x 100% + R85,49] + [[R39,87 + (R161,99/10 000 x 4 500)] x 100% + R161,99]

= [(R39,87 x 2) + (R161,99/10 000 x 4 500 x 2)] x 100% + R85,49+ R161,99

= R468,85"

**BOARD NOTICE 768 OF 2025**

BEFORE THE DISCIPLINARY TRIBUNAL OF THE ENGINEERING COUNCIL OF SOUTH AFRICA HELD AT JOHANNESBURG ON 11 JULY 2024 VIA MS TEAMS

In the matter between:

Engineering Council of South Africa (Complainant)

And

Atholl Mitchell
Registration number 8770066 (Respondent)

---

Publication in terms of section 32(5) of the Engineering Profession Act, 46 of 2000 ("The Act") of the finding and sanction imposed by a Disciplinary Tribunal at a disciplinary hearing, into the alleged improper conduct of a registered person.

---

**NATURE OF CONTRAVETION**

Guilty of contravention of Rules 3.1(a) and 3.1(c) of the Rules of the Code of Conduct for Registered Persons promulgated under Board Notice 41 of 2017, Government Gazette number 40961 of 17 March 2021.

**SANCTION**

1. The Respondent is fined to pay the Council an amount of R40 000. 00 (Forty Thousand Rand) in two equal instalments. The first instalment of R20 000.00 is due within 30 days of the ruling coming to the knowledge of the Respondent, the second instalment of R20 000.00 is due within 30 days after payment of the first instalment.

2. The Respondent's registration is suspended for a period of 1 (one) year. In the event of the Respondent's registration having been cancelled then in that event the Tribunal Members recommend the Respondent's cancellation of registration be declared void under Section 20(3) of the Engineering Professions Act. Then thereafter the Respondent's suspension should run for a period of 1 (one) year before final cancellation.

**BOARD NOTICE 769 OF 2025**

BEFORE THE DISCIPLINARY TRIBUNAL OF THE ENGINEERING COUNCIL OF SOUTH AFRICA HELD AT JOHANNESBURG ON 25 FEBRUARY 2025 VIA MS TEAMS

In the matter between:

Engineering Council of South Africa (Complainant)

And

Funeka Arthur Grootboom
Registration number 20120168 (Respondent)

---

Publication in terms of section 32(5) of the Engineering Profession Act, 46 of 2000 ("The Act") of the finding and sanction imposed by a Disciplinary Tribunal at a disciplinary hearing, into the alleged improper conduct of a registered person.
