government printing
Department:
Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

Any incidents of corruption, fraud, theft and misuse of government property in the *Government Printing Works* can be reported to:

Supply Chain Management: Ms. Anna Marie Du Toit, Tel. (012) 748 6292.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

The **Government Printing Works** (**GPW**) has established rules for submitting notices in line with its electronic notice processing system, which requires the use of electronic *Adobe* Forms. Please ensure that you adhere to these guidelines when completing and submitting your notice submission.

Closing Times for Acceptance of Notices

1. The *Government Gazette* and *Government Tender Bulletin* are weekly publications that are published on Fridays and the closing time for the acceptance of notices is strictly applied according to the scheduled time for each gazette.

2. Please refer to the Submission Notice Deadline schedule in the table below. This schedule is also published online on the Government Printing works website www.gpwonline.co.za

   All re-submissions will be subject to the standard cut-off times.
   All notices received after the closing time will be rejected.

Government Gazette Type	Publication Frequency	Publication Date	Submission Deadline	Cancellations Deadline
National Gazette	Weekly	Friday	Friday 15h00 for next Friday	Tuesday, 15h00 - 3 working days prior to publication
Regulation Gazette	Weekly	Friday	Friday 15h00 for next Friday	Tuesday, 15h00 - 3 working days prior to publication

GOVERNMENT PRINTING WORKS - BUSINESS RULES

Government Gazette Type	Publication Frequency	Publication Date	Submission Deadline	Cancellations Deadline
Gauteng Liquor License Gazette	Monthly	Wednesday before the First Friday of the month	Two weeks before publication	3 working days **after** submission deadline
Northern Cape Liquor License Gazette	Monthly	First Friday of the month	Two weeks before publication	3 working days **after** submission deadline
National Liquor License Gazette	Monthly	First Friday of the month	Two weeks before publication	3 working days **after** submission deadline
Mpumalanga Liquor License Gazette	Bi-Monthly	Second & Fourth Friday	One week before publication	3 working days prior to publication

Extraordinary Gazettes

3. *Extraordinary Gazettes* can have only one publication date. If multiple publications of an *Extraordinary Gazette* are required, a separate Z95/Z95Prov *Adobe* Forms for each publication date must be submitted.

Notice Submission Process

4. Download the latest *Adobe* form, for the relevant notice to be placed, from the **Government Printing Works** website www.gpwonline.co.za.

5. The *Adobe* form needs to be completed electronically using *Adobe Acrobat* / *Acrobat Reader*. Only electronically completed *Adobe* forms will be accepted. No printed, handwritten and/or scanned *Adobe* forms will be accepted.

6. The completed electronic *Adobe* form has to be submitted via email to submit.egazette@gpw.gov.za. The form needs to be submitted in its original electronic *Adobe* format to enable the system to extract the completed information from the form for placement in the publication.

7. Every notice submitted **must** be accompanied by an official **GPW** quotation. This must be obtained from the *eGazette* Contact Centre.

8. Each notice submission should be sent as a single email. The email **must** contain **all documentation relating to a particular notice submission**.

   8.1. Each of the following documents must be attached to the email as a separate attachment:

      8.1.1. An electronically completed *Adobe* form, specific to the type of notice that is to be placed.

         8.1.1.1. For National *Government Gazette* or *Provincial Gazette* notices, the notices must be accompanied by an electronic Z95 or Z95Prov *Adobe* form

         8.1.1.2. The notice content (body copy) **MUST** be a separate attachment.

      8.1.2. A copy of the official **Government Printing Works** quotation you received for your notice. *(Please see Quotation section below for further details)*

      8.1.3. A valid and legible Proof of Payment / Purchase Order: **Government Printing Works** account customer must include a copy of their Purchase Order**. Non-Government Printing Works** account customer needs to submit the proof of payment for the notice

      8.1.4. Where separate notice content is applicable (Z95, Z95 Prov and TForm 3, it should **also** be attached as a separate attachment. *(Please see the Copy Section below, for the specifications)*.

      8.1.5. Any additional notice information if applicable.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

9. The electronic *Adobe* form will be taken as the primary source for the notice information to be published. Instructions that are on the email body or covering letter that contradicts the notice form content will not be considered. The information submitted on the electronic *Adobe* form will be published as-is.

10. To avoid duplicated publication of the same notice and double billing, Please submit your notice **ONLY ONCE.**

11. Notices brought to **GPW** by "walk-in" customers on electronic media can only be submitted in *Adobe* electronic form format. All "walk-in" customers with notices that are not on electronic *Adobe* forms will be routed to the Contact Centre where they will be assisted to complete the forms in the required format.

12. Should a customer submit a bulk submission of hard copy notices delivered by a messenger on behalf of any organisation e.g. newspaper publisher, the messenger will be referred back to the sender as the submission does not adhere to the submission rules.

QUOTATIONS

13. Quotations are valid until the next tariff change.

    13.1. ***Take note:*** **GPW**'s annual tariff increase takes place on ***1 April*** therefore any quotations issued, accepted and submitted for publication up to ***31 March*** will keep the old tariff. For notices to be published from 1 April, a quotation must be obtained from **GPW** with the new tariffs. Where a tariff increase is implemented during the year, **GPW** endeavours to provide customers with 30 days' notice of such changes.

14. Each quotation has a unique number.

15. Form Content notices must be emailed to the *eGazette* Contact Centre for a quotation.

    15.1. The *Adobe* form supplied is uploaded by the Contact Centre Agent and the system automatically calculates the cost of your notice based on the layout/format of the content supplied.

    15.2. It is critical that these *Adobe* Forms are completed correctly and adhere to the guidelines as stipulated by **GPW**.

16. **APPLICABLE ONLY TO GPW ACCOUNT HOLDERS**:

    16.1. **GPW** Account Customers must provide a valid **GPW** account number to obtain a quotation.

    16.2. Accounts for **GPW** account customers **must** be active with sufficient credit to transact with **GPW** to submit notices.

        16.2.1. If you are unsure about or need to resolve the status of your account, please contact the **GPW** Finance Department prior to submitting your notices. (If the account status is not resolved prior to submission of your notice, the notice will be failed during the process).

17. **APPLICABLE ONLY TO CASH CUSTOMERS:**

    17.1. Cash customers doing **bulk payments** must use a **single email address** in order to use the **same proof of payment** for submitting multiple notices.

18. The responsibility lies with you, the customer, to ensure that the payment made for your notice(s) to be published is sufficient to cover the cost of the notice(s).

19. Each quotation will be associated with one proof of payment / purchase order / cash receipt.

    19.1. This means that **the quotation number can only be used once to make a payment.**

GOVERNMENT PRINTING WORKS - BUSINESS RULES

COPY (SEPARATE NOTICE CONTENT DOCUMENT)

20. Where the copy is part of a separate attachment document for Z95, Z95Prov and TForm03

20.1. Copy of notices must be supplied in a separate document and may not constitute part of any covering letter, purchase order, proof of payment or other attached documents.

The content document should contain only one notice. (You may include the different translations of the same notice in the same document).

20.2. The notice should be set on an A4 page, with margins and fonts set as follows:

Page size = A4 Portrait with page margins: Top = 40mm, LH/RH = 16mm, Bottom = 40mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

Page size = A4 Landscape with page margins: Top = 16mm, LH/RH = 40mm, Bottom = 16mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

CANCELLATIONS

21. Cancellation of notice submissions are accepted by **GPW** according to the deadlines stated in the table above in point 2. Non-compliance to these deadlines will result in your request being failed. Please pay special attention to the different deadlines for each gazette. Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.

22. Requests for cancellation must be sent by the original sender of the notice and must accompanied by the relevant notice reference number (N-) in the email body.

AMENDMENTS TO NOTICES

23. With effect from 01 October 2015, **GPW** will not longer accept amendments to notices. The cancellation process will need to be followed according to the deadline and a new notice submitted thereafter for the next available publication date.

REJECTIONS

24. All notices not meeting the submission rules will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za). Reasons for rejections include the following:

24.1. Incorrectly completed forms and notices submitted in the wrong format, will be rejected.

24.2. Any notice submissions not on the correct *Adobe* electronic form, will be rejected.

24.3. Any notice submissions not accompanied by the proof of payment / purchase order will be rejected and the notice will not be processed.

24.4. Any submissions or re-submissions that miss the submission cut-off times will be rejected to the customer. The Notice needs to be re-submitted with a new publication date.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

Approval of notices

25. Any notices other than legal notices are subject to the approval of the Government Printer, who may refuse acceptance or further publication of any notice.

26. No amendments will be accepted in respect to separate notice content that was sent with a Z95 or Z95Prov notice submissions. The copy of notice in layout format (previously known as proof-out) is only provided where requested, for Advertiser to see the notice in final Gazette layout. Should they find that the information submitted was incorrect, they should request for a notice cancellation and resubmit the corrected notice, subject to standard submission deadlines. The cancellation is also subject to the stages in the publishing process, i.e. If cancellation is received when production (printing process) has commenced, then the notice cannot be cancelled.

Government Printer Indemnified Against Liability

27. The Government Printer will assume no liability in respect of—

27.1. any delay in the publication of a notice or publication of such notice on any date other than that stipulated by the advertiser;

27.2. erroneous classification of a notice, or the placement of such notice in any section or under any heading other than the section or heading stipulated by the advertiser;

27.3. any editing, revision, omission, typographical errors or errors resulting from faint or indistinct copy.

Liability of advertiser

28. Advertisers will be held liable for any compensation and costs arising from any action which may be instituted against the Government Printer in consequence of the publication of any notice.

Customer inquiries

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While **GPW** deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.
GPW has a 2-working day turnaround time for processing notices received according to the business rules and deadline submissions.
Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

29. Requests for information, quotations and inquiries must be sent to the Contact Centre ONLY.

30. Requests for Quotations (RFQs) should be received by the Contact Centre at least **2 working days** before the submission deadline for that specific publication.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

Payment of cost

31. The Request for Quotation for placement of the notice should be sent to the Gazette Contact Centre as indicated above, prior to submission of notice for advertising.

32. Payment should then be made, or Purchase Order prepared based on the received quotation, prior to the submission of the notice for advertising as these documents i.e. proof of payment or Purchase order will be required as part of the notice submission, as indicated earlier.

33. Every proof of payment must have a valid **GPW** quotation number as a reference on the proof of payment document.

34. Where there is any doubt about the cost of publication of a notice, and in the case of copy, an enquiry, accompanied by the relevant copy, should be addressed to the Gazette Contact Centre, **Government Printing Works**, Private Bag X85, Pretoria, 0001 email: info.egazette@gpw.gov.za before publication.

35. Overpayment resulting from miscalculation on the part of the advertiser of the cost of publication of a notice will not be refunded, unless the advertiser furnishes adequate reasons why such miscalculation occurred. In the event of underpayments, the difference will be recovered from the advertiser, and future notice(s) will not be published until such time as the full cost of such publication has been duly paid in cash or electronic funds transfer into the **Government Printing Works** banking account.

36. In the event of a notice being cancelled, a refund will be made only if no cost regarding the placing of the notice has been incurred by the **Government Printing Works**.

37. The **Government Printing Works** reserves the right to levy an additional charge in cases where notices, the cost of which has been calculated in accordance with the List of Fixed Tariff Rates, are subsequently found to be excessively lengthy or to contain overmuch or complicated tabulation.

Proof of publication

38. Copies of any of the *Government Gazette* or *Provincial Gazette* can be downloaded from the **Government Printing Works** website www.gpwonline.co.za free of charge, should a proof of publication be required.

39. Printed copies may be ordered from the Publications department at the ruling price. The **Government Printing Works** will assume no liability for any failure to post or for any delay in despatching of such *Government Gazette*(s)

TRANSLATION KEYS IMPLEMENTATION

1. Implementation of the translation keys of the identified permanent employees to the new notches was already implemented effective from 1 April 2022.

2. Translation keys implementation was categorised into three groups:

   2.1 Group 1 are those permanent Deputy Directors of Public Prosecutions (DDPPs) or Chief Public Prosecutors (CPPs) who have entered their position on level 13 or 14 up to 31 March 2010. They have already been translated to the 5th notch of SL15 (Grade 2) which is R 1 688 373.00 effective from 1 April 2022.

   2.2 Group 2 are those permanent Deputy Directors of Public Prosecutions (DDPPs) or Chief Public Prosecutors (CPPs) who entered their positions on level 13 or 14 from 1/04/2010 to 31/03/2018. They have already been translated to the 4th notch of SL15 (Grade 2) which is R 1 663 422.00 effective from 1 April 2022.

   2.3 Group 3 are those permanent Deputy Directors of Public Prosecutions (DDPPs) or Chief Public Prosecutors (CPPs) who entered their positions of on level 13 or 14 from 1/04/2018 up to the date the new salary determination was signed. They have already been translated to the 3rd notch of SL15 (Grade 2) which is R 1 638 828.00 effective from 1 April 2022.

3. The maximum salary notch of Senior State Advocates (SSA) and Senior Public Prosecutors (SPP) as from 1 April 2022 is R 1 606 404.00. With the above translations as explained above the permanent Deputy Directors of Public Prosecutions (DDPPs) or Chief Public Prosecutors (CPPs) translated will earn above the maximum of SSA/SPP.

4. DDPPs and CPPs appointed additional/on contract remained on the entry salary notch of SL14 (grade 1), i.e., R 1 367 811.00, and were not translated in terms of the translation keys.

DEPARTMENT OF SMALL BUSINESS DEVELOPMENT

NO. 6935 **14 November 2025**

NATIONAL SMALL ENTERPRISE ACT, 1996 (NO. 102 OF 1996) AS AMENDED

DRAFT

INCUBATION BUSINESS DEVELOPMENT SERVICE (IBDS) POLICY

1. I, Ms S Ndabeni, Minister of Small Business Development, hereby publish the draft IBDS policy to solicit public comments on the policy following publication of NISED which was published under the National Small Enterprise Act, 1996 (Act No. 102 of 1996) as amended. NISED proposed the development of the IBDS policy that will provide for standardization, quality assurance, improve competitiveness and improve collaboration and coordination of the BDS service offering

2. Furthermore, members of the public are notified that comments should be submitted to Ms. Lebohang Malakoane at LMalakoane@dsbd.gov.za or Mr. Fhatuwani Tshikovhi at FTshikovhi@dsbd.gov.za or submitted by hand to the SMME Policy & Oversight Directorate, Department of Small Business Development, 77 Meintjies Street, Sunnyside, Pretoria, within 20 (twenty) days of publication of this notice

3. Enquiries can be directed to Mr Fhatuwani Tshikovhi on FTshikovhi@dsbd.gov.za

DEFINITIONS

For the purposes of this policy, the terms indicated below have the following meaning:

Term	Definition
Accelerator	A business programme that supports companies to scale through business development services and typically provides access to finance, investor readiness, and introductions. Start-ups typically enter accelerators for a fixed period and as part of an industry-specific cohort of companies.
Accreditation	The formal recognition that an institution, programme, or individual meets established standards of quality and competence in providing services. In the incubation and business development services ecosystem, accreditation ensures consistent service delivery and professional standards.
Business development services	A range of services designed to improve small enterprise performance, access to markets, and competitive edge. These services include training, consultancy, marketing assistance, information, technology development, and business linkage promotion.
Business development services ecosystem	The interconnected and evolving network of all stakeholders involved in the delivery and consumption of business development services aimed at supporting small enterprises. It includes private and public entities, non-governmental organisations, and academic institutions that collaborate to provide comprehensive support.
Business development services practitioner	Juristic persons, entities, or individuals whose primary activity is the delivery of business development services. These practitioners offer services, such as mentorship, consulting, incubation, and virtual support. Different types of business development services practitioners include business advisors, management consultants, mentors, and leadership coaches.
Certification	A formal process by which an individual or organisation is verified to have met certain pre-established standards or qualifications. Certification often involves passing a test, completing a course, or demonstrating competence in a particular skill or area. In the incubation and business development services ecosystem, certification ensures that practitioners possess the necessary skills and knowledge to deliver specific business development services.
Digital hub	A technology-driven centre that supports small enterprises by providing access to digital tools, infrastructure, and resources. Digital hubs play a crucial role in enabling small enterprises to leverage modern technologies and foster innovation and digital transformation. The digital hub provides technology access and infrastructure, offers training in digital skills, facilitates innovation, enables small enterprises to participate in the digital economy, and provides a bridge to market access opportunities. The service is often provided on a drop-in or needs basis.

This gazette is also available free online at **www.gpwonline.co.za**

Term	Definition
	Digital hubs serve a wide range of users, including individuals, startups, small enterprises, and even freelancers, who are looking to develop digital skills, adopt technology, or pivot to a more technology-driven business mode.
Enterprise supplier development	A programme designed to assist and develop small enterprises by integrating them into corporate supply chains. Enterprise supplier development initiatives focus on providing small enterprises with business linkages and market access opportunities.
Entrepreneurship development	A strategic and systematic approach to promoting and supporting the growth of entrepreneurs and small enterprises in the country. It encompasses a range of initiatives, policies, and programmes designed to create a favourable environment for entrepreneurship by addressing systemic barriers, providing access to resources, and enhancing the skills and capabilities of entrepreneurs.
Fourth industrial revolution	The transformation of industries and societies driven by advances in digital technologies, such as artificial intelligence, machine learning, robotics, and the Internet of Things. These technologies are reshaping industries and economies worldwide.
Green economy	An economic model focused on reducing environmental risks and ecological scarcities. The green economy seeks to drive economic growth while promoting sustainability and reducing carbon emissions.
Incubatee	A small enterprise or entrepreneur that is receiving business development services or related support within an incubator.
Incubation support programme	A formalised programme aimed at supporting early-stage small enterprises by providing infrastructure, business development services, mentoring, and access to finance to help them grow into sustainable businesses.
Incubator	Physical or virtual facilities providing short- to medium-term business development services, including capacity building and infrastructure, to early-stage enterprises to nurture them into independent, viable businesses.
Mentor	Industry experts or business development services providers who offer ongoing business counselling to small enterprises, guiding them through multiple stages of business development with a long-term focus.
Public-private partnership	A cooperative arrangement between public and private sectors aimed at financing, designing, and implementing public services or infrastructure projects. These partnerships combine resources and expertise to achieve common goals.
Sector-specific incubation	Incubation facility or programme tailored to the specific needs of a small enterprise in a particular sector or industry, offering specialised support, mentoring, and infrastructure to early-stage small enterprises in that sector. The sector-focused incubators serve to align incubation activities with sector trends, regulatory requirements, and value chains to offer specialised guidance that accelerates the growth and competitiveness of small enterprises in the respective high-growth industry. Typically, incubators operate on a structured programme basis, where startups participate in incubation for a set period (e.g., six months to two

Term	Definition	
	years) to develop, refine, and validate their business models before graduating.	
Small enterprise	As defined by the National Small Enterprise Amendment Act 21 of 2024, a small enterprise is a distinct business entity (together with its branches or subsidiaries) that operates in any economic sector or subsector as outlined in the 2019 schedule. Small enterprises are classified as micro, small, or medium based on the criteria established in the 2019 schedule.	
Small enterprise development ecosystem	The interconnected network of stakeholders, resources, and processes that support the growth and sustainability of small enterprises. This ecosystem spans the entire business lifecycle, from inception and start-up to growth, maturity, and possible exit.	
Results framework definitions	Performance information	Planning, budgeting, implementation, monitoring, reporting, and evaluation elements which are key to effective management. It indicates how well results are achieved against intended objectives.
	Theory of Change	A tool that describes the process of planned change from assumptions guiding its design, planned outputs and outcomes, to long-term impacts. It outlines the path to achieving desired results reflected in strategic and operational plans.
	Monitoring	Continuous collection, analysis, and reporting of data to provide feedback on implementation progress. It tracks actual performance against planned targets.
	Evaluation	Systematic collection and analysis of evidence on policies, programmes, and projects to assess their relevance, performance, value for money, impact, and sustainability. It helps assess if the right things are being done effectively.
	Vision	A forward-looking statement that outlines the desired future state of a system or ecosystem, providing a guiding beacon for decision-making and goal setting.
	Strategic objective	A long-term aspiration that guides actions toward achieving the vision, measurable through quantitative or qualitative outcomes.
	Operating principle	Rules and commitments that guide action and decision-making in various areas, ensuring consistency and alignment with strategic objectives.
	Results-based framework	A planning tool that links impact, outcomes, outputs, activities, and inputs into a results chain. It is used to monitor and evaluate progress toward achieving desired results.
	Impact	Long-term change or effect resulting from specific outcomes, such as reducing poverty or creating jobs.
	Outcome	Medium-term results for beneficiaries arising from specific outputs. They represent the changes or benefits the system or process aims to achieve.

This gazette is also available free online at **www.gpwonline.co.za**

Term	Definition	
	Key result area/output	Products, goods, or services delivered which serve as the building blocks toward achieving the desired outcomes.
	Intervention	A deliberate process or action aimed at influencing or improving a situation or system.
	Activity	An action or process that uses inputs to produce outputs and, ultimately, desired outcomes.
	Input	Resources, e.g., finance, personnel, or equipment, used to produce outputs and achieve outcomes.
	Indicator	A measure used to track progress or achievement, either qualitative or quantitative. It specifies what is being measured and how it relates to the intended results.
Policy-related definitions[1]	White paper	A comprehensive government policy document that outlines the final policy position on a specific matter. A white paper typically follows a green paper and does not carry the force of law unless regulated through additional legislation.
	Policy	A specific statement of intent outlining the principles, goals, and actions that guide decision-making in a particular area. Policies provide the foundation for organisational operations and inform legislation, regulations, and governance structures.
	Legislation	The body of laws enacted by a governing authority to provide the legal framework for policy implementation. Legislation establishes obligations, rights, and responsibilities to ensure that policies are legally enforceable.
	Policy framework	A comprehensive structure that includes the steps, procedures, principles, and values needed to implement an organisation's policy. A policy framework provides both broad and detailed guidelines to ensure coherence, consistency, and alignment with strategic goals.
	Regulation	Specific rules or directives issued by a competent authority to enforce legislation and provide detailed operational standards. Regulations ensure that the objectives of legislation are met and are often enforceable through penalties for non-compliance.
	Strategy	A detailed plan outlining the actions, resources, and steps necessary to achieve the objectives of a policy. Strategies are typically timebound and focus on operationalising the policy within a specified timeframe.
	Plan	A detailed outline of the steps, timelines, and resources required to execute a strategy or achieve specific objectives. Plans translate strategies into actionable tasks with clear guidance for implementation.

1. INTRODUCTION AND BACKGROUND

The Incubation and Business Development Services (IBDS) Policy Framework seeks to address South Africa's national challenges of poverty, unemployment, and inequality by positioning micro, small, and medium-sized enterprises and co-operatives, co-operative financial institutions, and co-operative banks (hereinafter referred to as small enterprises in terms of the definition contained in the National Small Enterprise Amendment Act 21 of 2024) as key drivers of job creation, economic transformation, and inclusive growth, as outlined in the National Development Plan Vision 2030 (NDP).

These enterprises are crucial drivers of economic growth and job creation; however, they face significant challenges, including limited business acumen, restricted access to finance, and constrained market opportunities. These challenges contribute to high failure rates, particularly during the early stages of business development. The policy emphasises the need to address fragmentation and coordination gaps in the IBDS ecosystem, enhance market access, and adopt innovation and technology to expand access to services, especially in underserved regions.

The IBDS ecosystem is a complex network involving various stakeholders, such as incubators, financial institutions, government agencies, corporations, universities, service providers, and communities. Each plays a crucial role in creating an environment where small enterprises can thrive, leading to greater innovation, economic development, and job creation.

A more strategic approach to IBDS coordination on the ground is crucial, with a focus on strengthening partnerships across the ecosystem to enhance entrepreneurship development. The IBDS Policy Framework prioritises improving access to finance as a critical enabler for small enterprise growth and sustainability. This comprehensive support system integrates business incubation as a core component of business development services (BDS), specifically targeting early-stage entrepreneurs and improving their readiness to access essential business support and financial resources necessary for sustainable development and growth.

Innovation and the Fourth Industrial Revolution (4IR) are recognised as key drivers of long-term economic growth. The incorporation of digital hubs and technology business incubators positions small enterprises to compete in a rapidly evolving global market shaped by the 4IR. The South African incubation model integrates various streams, including technology business incubators and digital hubs. This approach is critical for preparing small enterprises to leverage digital technologies, foster innovation, and achieve competitive advantage.

1.1. POLICY ISSUE IDENTIFICATION

The IBDS Policy Framework seeks to tackle the critical barriers faced by small enterprises in accessing sustainable support systems. It identifies the need for a coordinated approach to IBDS, which are currently fragmented and lack sufficient alignment with the needs of small enterprises, particularly in underserved areas.

The policy shifts focus from merely coordinating ecosystem players to creating measurable outcomes, specifically increasing the growth and market access of small enterprises, critical for reducing poverty, unemployment, and inequality. The current fragmentation within the ecosystem results in duplicative efforts, while gaps in professionalisation, standards, and accreditation for IBDS providers undermine the quality of services delivered.

This gazette is also available free online at **www.gpwonline.co.za**

The Competition Commission and local procurement regulations must ensure fair market practices, particularly addressing large retailers' control of market access and the exclusion of small suppliers. Additionally, the professionalisation of IBDS providers is essential, with a national accreditation framework ensuring consistent quality and service delivery.

1.2. BACKGROUND

Globally, small enterprises are recognised as pivotal engines of economic growth, innovation, and job creation. According to the International Labour Organization[2], these enterprises account for over 70% of global employment, underscoring their vital role in job creation. The World Bank[3] highlights the importance of small enterprises in poverty alleviation, particularly in developing countries, where they often constitute the majority of the private sector. In emerging economies, small enterprises contribute approximately 40% of gross domestic product while, in developed countries, this figure can reach up to 60%[4].

The early stages of a business, particularly the first three to five years, are the most vulnerable. Evidence suggests that small enterprises receiving high-quality guidance and specialised support are more likely to survive. For instance, a World Bank study found that 80% to 90% of incubated small enterprises continued to operate after two to three years, compared to only 50% to 69% of non-incubated enterprises.

In South Africa, despite ongoing efforts to stimulate economic growth and reduce poverty, the country continues to grapple with high unemployment rates, particularly among youth, and one of the highest levels of income inequality globally. With over half the population living in poverty, the development of small enterprises is critical for enhancing economic participation, fostering innovation, and creating jobs. However, the economic landscape for small enterprises is fraught with challenges. Structural inequalities, high unemployment rates, and limited access to finance create formidable barriers to their success and sustainability. The World Economic Forum (WEF)[5] has highlighted that South Africa’s high Gini coefficient, a measure of income inequality, exacerbates the difficulties faced by small enterprises, as limited disposable income among the majority population restricts market opportunities.

The NDP sets ambitious goals for job creation, with 90% of new jobs expected to come from small enterprises. However, the current underperformance of this sector indicates that these targets may be difficult to achieve without substantial policy shifts and increased support for small enterprises. The Organisation for Economic Co-operation and Development (OECD)[6] notes that South Africa's small enterprise sector struggles with low survival rates, with only about half of new enterprises surviving beyond five years. This trend reflects global challenges, where small enterprise survival often hinges on the availability of supportive policies and development services.

As of quarter three in 2023, South Africa had approximately 2.5 million small enterprises, down from 2.7 million in 2022, with only 54.5% surviving beyond five years and around 30% lasting

beyond 10 years[7]. Despite significant investments over the past two decades, the sustainability and survival rate of small enterprises in South Africa remains unacceptably low, revealing critical gaps in the effectiveness of current strategies. The high mortality rates among startups, despite the availability of various support services, underscores the need for a more structured relationship between national policies, private and public sector strategies, and the design and implementation of support programmes.

1.3. LEGISLATIVE AND POLICY CONTEXT

In South Africa, the importance of a coordinated national framework for small enterprise development was first articulated in the 1995 White Paper on a National Strategy for the Development and Promotion of Small Business. The white paper emphasised the need for a systematic national approach to create an enabling environment for small enterprises, ensuring that policies and programmes at national, regional, and local levels were harmonised.

Building on this foundation, the National Small Enterprises Act (No. 102 of 1996) (NSEA) emerged, identifying key factors essential for small enterprise growth, such as access to finance, capacity building, and a supportive regulatory framework. This act further led to the establishment of government institutions focused on addressing the needs of the small enterprise sector.

In 2004, the Department of Trade and Industry (DTI), then responsible for small enterprise development, introduced the Integrated Strategy for the Promotion of Entrepreneurship and Small Enterprises (ISPESE), a 10-year plan. An amendment to the National Small Business Act that same year resulted in the formation of the Small Enterprise Development Agency (Seda), which assumed responsibility for providing non-financial support to small enterprises.

Under NSEA, the Department of Small Business Development (DSBD), led by the Minister for Small Business Development, is mandated to promote and support small enterprises across South Africa. The DSBD is tasked with creating an enabling business, policy, and regulatory environment that fosters the development and growth of small enterprises. Central to this mission is the DSBD's leadership in executing a comprehensive strategy to nurture entrepreneurship, strengthen small enterprise growth, and ensure a conducive legislative and policy environment.

A 2018 evaluation of the ISPESE revealed implementation challenges, leading to strategic recommendations now embedded in the National Integrated Small Enterprise Development (NISED) Strategic Framework, approved by the Cabinet in 2023. The NISED Strategic Framework, which is further detailed in Section 1.6, provides the roadmap for building a coherent small enterprise ecosystem in South Africa, delivering equitable, accessible, and quality services to small enterprises. It provides a pragmatic roadmap for all actors involved in small enterprise development, outlining clear directions, measurable outcomes, and targeted intervention programmes, and emphasises the need for an integrated approach that combines financial and non-financial support.

The establishment of the Small Enterprise Development Finance Agency (SEDFA) under the National Small Enterprise Amendment Act (No. 21 of 2024) (NSEAA), as the implementation agent of the DSBD, marks a significant step toward integrating these services, with a particular focus on supporting small enterprises in underserved areas like townships and rural regions. SEDFA's mandate includes supporting small enterprises across all sectors, from pre-startup to growth stages, with a focus on stimulating township and rural economies, empowering marginalised

[7] *Seda, SMME Quarterly Update Third Quarter 2019, March 2020, and SMME Quarterly Update Third Quarter 2023, March 2024*

This gazette is also available free online at **www.gpwonline.co.za**

communities, and promoting entrepreneurship, innovation, and competitiveness within priority sector value chains. SEDFA's integrated approach, combining its roles as both a development agency and a development finance institution (DFI), is designed to mitigate lending risks, enhance financial sustainability, and facilitate increased access to finance over time.

The IBDS Policy Framework is mutually supportive of various government policies related to financial inclusion and small enterprise support, including but not limited to: An Inclusive Financial Sector for All (2023), the Co-operatives Development Policy (2012), and the South African SMMEs and Co-operatives Funding Policy (2024).

1.4. STRENGTHENING THE SUPPORT ECOSYSTEM FOR SMALL ENTERPRISES

For South Africa to meet the ambitious goals set out in the NDP, it is essential to strengthen the support ecosystem for small enterprises. This includes expanding access to finance, improving the quality and reach of support services, enhancing access to markets, and fostering a culture of innovation and entrepreneurship. Lessons from countries like Germany, India, and South Korea demonstrate the importance of a coordinated approach involving both public and private sectors, as well as non-governmental organisations (NGOs).

Co-operatives play a vital role in advancing inclusive growth, particularly in rural regions. Their community-driven structure empowers local residents to break down structural barriers, take control of their economic future, and participate in broader financial ecosystems through co-operative banking institutions.

Enterprise supplier development (ESD) is a key driver of market access, capacity building, and sustainability for small businesses in South Africa. Its focus on onboarding and scaling suppliers through training and revenue-generating contracts significantly reduces the high failure rate of small enterprises. However, ESD practices are typically siloed within individual corporations, limiting the external sharing of best practices, tools, and techniques. While the proprietary nature of some ESD investments may support trade competitiveness, greater knowledge sharing is essential to advance ESD outcomes. A more structured and systematic approach to skills development and best practice sharing could significantly impact small enterprise growth. Consistent impact measurements beyond Broad-Based Black Economic Empowerment (B-BBEE) scorecard compliance would better reflect the private sector’s contribution to improving market access for small enterprises.

Although the policy responsibility for ESD lies with the Department of Trade, Industry and Competition and the B-BBEE Commission, the DSBD, alongside its agency, SEDFA, holds a mandate to facilitate market access and finance for small businesses. Through partnerships with the private sector, there is significant potential to collaboratively build a strong pipeline of sustainable Black-owned businesses through the inclusion of ESD-focused partnerships as an integral part of IBDS.

While the challenges facing South Africa’s small enterprises are significant, their potential to drive economic transformation is immense. With the right policies, strategic partnerships, and a focus on building a supportive ecosystem, South Africa can unlock the full potential of its small enterprise sector and achieve sustainable, inclusive growth.

This gazette is also available free online at **www.gpwonline.co.za**

1.5. IMPORTANCE OF INCUBATION AND BUSINESS DEVELOPMENT SERVICES

International studies consistently demonstrate the importance of small enterprise BDS, mentorship and business incubation which significantly enhance the survival and success rates of small enterprises, making them a valuable component of the small enterprise development ecosystem. Research by the International Finance Corporation[8] shows that small enterprises that receive BDS are more likely to survive and grow, as these services provide the necessary skills, market access, and networks that small businesses need to thrive.

The South African incubation model, as championed by the Seda previously, illustrates the importance of a comprehensive and integrated approach to incubation. The incubation model incorporates various streams, including digital hubs, technology business incubators, and centres for entrepreneurship and rapid incubators, which are crucial for preparing small enterprises to compete in a global market shaped by the 4IR.

Business incubators, digital hubs and business accelerators are distinct but complementary streams:

1) **Business incubators** provide structured programmes that support startups through the early stages of business development, with sector-focused incubators offering industry-specific guidance. They provide ongoing monitoring, support, and management, serving as a key organisational vehicle for delivering BDS.

2) **Digital hubs** are centres for building digital capabilities and fostering technology adoption, often with flexible engagement.

3) **Business accelerators** are designed for startups that are ready to scale, offering short-term, intensive support to prepare them for rapid growth and investment opportunities.

Together, the streams create a more comprehensive support system for small enterprises, addressing digital readiness, entrepreneurial development, and broader business growth.

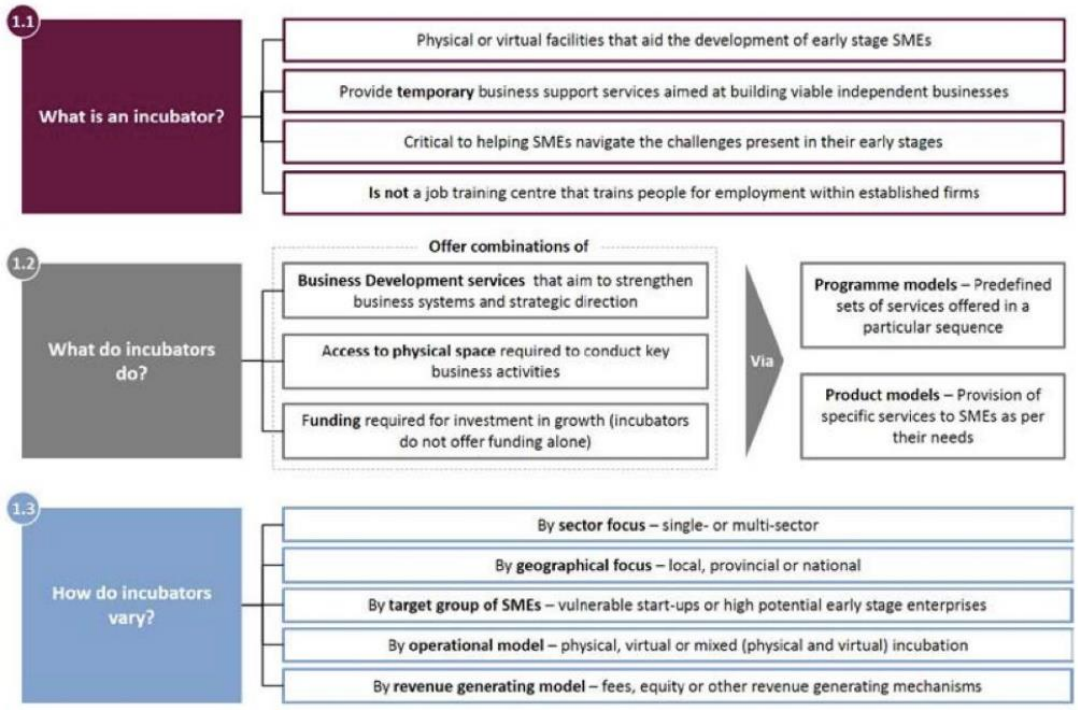

BDS encompasses a wide range of services aimed at improving business performance, expanding market access, and boosting competitiveness. These services address both strategic and operational aspects of business support. Strategic services focus on medium- to long-term challenges, while operational services support day-to-day business functions.

BDS providers offer a wide array of services, each with distinct definitions that clarify their roles and functions. These distinctions are vital for policymakers, as they underscore the ecosystem's diversity. Digitalisation has enabled business development professionals to support entrepreneurs online, creating new opportunities to reach underserved communities in rural areas and small towns. BDS delivery frequently occurs through business-to-business relationships, such as supplier-buyer partnerships, subcontracting, franchising, and licensing.

[8] *International Finance Corporation. "MSME Finance Gap: Assessment of the Shortfalls and Opportunities in Financing Micro, Small, and Medium Enterprises in Emerging Markets.", 2017. Accessed from IFC.org, 2024*

This gazette is also available free online at **www.gpwonline.co.za**

Figure 1: What are incubators ⇨ description and role

Source: South Africa Business Incubator Establishment Handbook, DTI 2019

Incubation services are typically delivered in two formats:

1) **Programme delivery**: Small enterprises receive a structured set of services delivered sequentially.

2) **Product delivery**: Small enterprises access individual services on demand, with payment based on usage.

Incubation programmes are offered by national, provincial, and local government departments and entities and cover various economic sectors. Beyond government-supported incubators, numerous private sector and NGOs operate incubators offering similar, though often more costly, support. Various incubation models are adopted, including:

1) **Virtual incubation model**: An online programme offering business development support with minimal physical contact. This model is particularly beneficial for small enterprises in remote areas or those unable to participate in physical incubation programmes.

2) **Physical incubation model**: A traditional model providing physical infrastructure, networking opportunities, and hands-on business development support.

3) **Hybrid incubation model**: A flexible model combining in-house and virtual support, extending services to a broader entrepreneurial community.

South Africa's efforts to develop its incubation ecosystem, though still in the early stages, are critical for addressing the country's socioeconomic challenges. The European Union's success

This gazette is also available free online at www.gpwonline.co.za

with incubation programmes[9] can serve as a model for South Africa, where the integration of digital hubs and business accelerators could significantly enhance the capacity of small enterprises to compete in the global market.

A digital hub is focused on enterprises that are inclined to the use of technology-based protocols and delivery systems. The digital hubs are designed to accelerate the development of innovative technologies until they are commercial-ready products and services. These are part of the efforts to create a conducive environment for the swift adoption of various technologies within the 4IR context[10].

A business accelerator is a programme designed to provide growing enterprises with mentorship, investment opportunities, and other forms of support to help them become stable, self-sufficient businesses. Unlike incubators, which cater to businesses in the earliest stages, accelerators focus on startups that have progressed beyond the initial phase but require additional guidance and peer support to scale and strengthen. Accelerator programmes typically last between two to six months, after which companies are expected to be capable of operating independently with a strong market presence.

Integrating digital hubs with business accelerators can provide a holistic approach to small enterprise development, addressing both digital readiness and accelerated growth. This dual support system not only enhances enterprise capacity but also fosters long-term resilience, competitiveness, and innovation, positioning small enterprises for sustainable success in an increasingly digital economy.

IBDS are critical for nurturing resilient and competitive small enterprises, particularly in underserved sectors and communities. Recognising that IBDS delivery models continuously evolve to adapt to changing market needs, technological advancements, and sector-specific demands, this policy is designed to provide a flexible framework that supports innovation and scalability in IBDS delivery. It ensures that emerging models and best practices can be integrated to maximise impact and responsiveness.

1.5.1. Evaluation of the Existing Incubation Support Programme

In 2023, the DSBD commissioned an impact evaluation to determine whether the Incubation Support Programme is delivering sustainable benefits for the small enterprises participating in its various centres[11], with a focus on whether the programme is achieving its primary objectives of enhancing socioeconomic conditions through job creation and small business development.

Key insights from the evaluation include:

1) There is a perception that Seda has historically focused on establishing a large number of incubation centres, possibly at the expense of ensuring the long-term sustainability of existing centres.

[9] European Union. "Business Incubation in Europe: Entrepreneurship Support in Europe's Regions." 2020. Accessed from EU Publications, 2024

[11] Department of Small Business Development. "Impact of the Incubation Support Programme From Inception (2008) To 2021/22 and determining how the beneficial impacts can be strengthened". DSBD, 2023

This gazette is also available free online at **www.gpwonline.co.za**

2) Recent governance changes have led to lengthier adjudication processes, resulting in delays in programme execution.

3) Feedback from incubators indicates a need for a more flexible, context-specific approach to measuring programme impact.

4) Although Incubation Support Programme incubators have been effective in preparing small enterprises with validated business ideas, the issue of high dropout rates during the incubation process requires further investigation.

The evaluation put forward several key recommendations to strengthen the Incubation Support Programme:

1) Strategic selection and programme design:

    a) Prioritise incubation centres with a strong track record and reduce reliance on public sector funding.

    b) Develop incentives for centres that achieve key milestones, such as enterprise growth and job creation.

    c) Transition the DSBD from a funding role to a strategic partner, ensuring interventions are tailored and outcome focused.

2) Monitoring, evaluation, and data management:

    a) Establish a robust system to track progress and impact, particularly focusing on postgraduation outcomes.

    b) Centralise data in a secure, accessible digital repository to improve transparency and decision-making.

3) Capacity building and stakeholder engagement:

    a) Address capacity constraints to enhance programme execution.

    b) Involve incubators and beneficiaries in programme design and strategy development to ensure greater relevance and foster a culture of continuous learning.

4) Funding and strategic partnerships:

    a) Increase access to funding and leverage tools, such as B-BBEE, to attract private sector support.

    b) Regularly assess the success of partnerships in achieving programme goals, such as increased market access and financial sustainability.

5) Ecosystem coordination and collaboration:

    a) Strengthen collaboration within the broader enterprise development ecosystem.

    b) Facilitate knowledge sharing through conferences, workshops, and studies on incubator best practices and outcomes.

This gazette is also available free online at **www.gpwonline.co.za**

The recommendations aim to enhance the effectiveness and resilience of the Incubation Support Programme, ensuring that it continues to deliver meaningful support to small enterprises and contributes to broader socioeconomic development goals.

1.5.2. Incubation and Business Development Services within the Broader Entrepreneurship Development Ecosystem

The DSBD is committed to implementing a comprehensive policy framework that strengthens the reach and quality of IBDS across South Africa. This policy seeks to ensure equitable access to support for small enterprises, encouraging all stakeholders involved in the delivery of BDS to align with the DSBD's objectives and policy pillars.

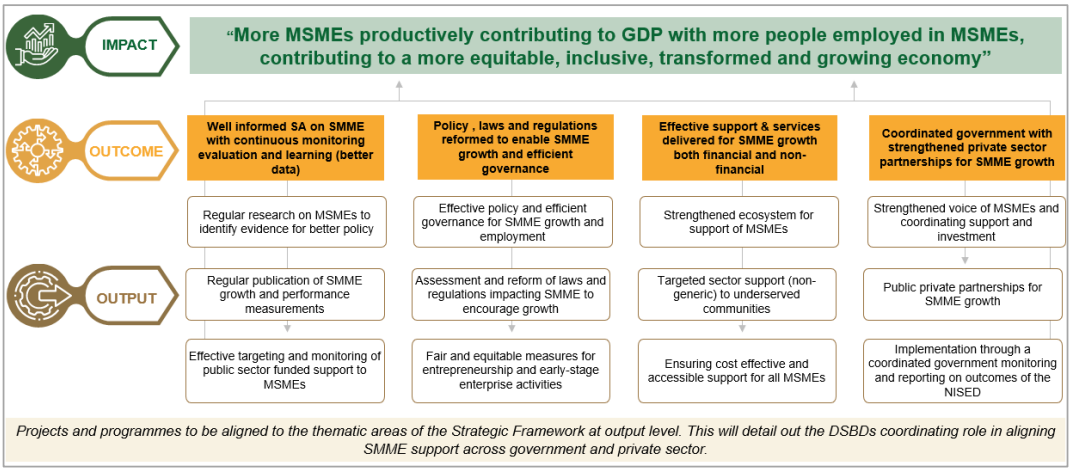

By addressing the unique challenges faced by small enterprises and providing targeted support through incubation and acceleration programmes, the DSBD aims to build a vibrant entrepreneurial ecosystem. This approach is essential for driving economic growth, job creation, and broad-based business ownership, ensuring that South Africa's small enterprises are well-positioned to thrive in a competitive global market.

1.6. ALIGNMENT TO THE NATIONAL INTEGRATED SMALL ENTERPRISE DEVELOPMENT STRATEGIC FRAMEWORK

The NISED Strategic Framework represents the next 10-year strategic approach to promoting entrepreneurship, growth, and support for small enterprises in alignment with the NDP targets. It builds on prior policy discussions and developments, ensuring a coordinated and integrated approach to small enterprise development.

The overarching objective of all the programmes of action contained in the NISED Strategic Framework is to contribute to the impact of significantly raising the contribution of economic output and labour absorption in real value of small enterprises. The impact envisaged by NISED will be realised through four outcomes and 12 outputs, reflected in the strategy map below.

Figure 2: NISED Strategic Framework

This gazette is also available free online at www.gpwonline.co.za

A key focus of the NISED Strategic Framework is to align programme areas of work across different role-players in government and the private sector in order to coordinate and drive small enterprise growth and performance. In partnership with business, labour, and civil society, the NISED Strategic Framework presents a coordination tool and repository of the action steps to be taken by numerous actors within government and the whole of society.

While there are linkages to programme areas and outputs of the four NISED outcomes, the IBDS Policy Framework is located and is a specific deliverable under **Outcome 3: Effective support and services delivered for MSME growth, both financial and non-financial**. Although IBDS is more focused on non-financial support, a key emphasis is ensuring small enterprises are investment-ready and able to access financial support and ensuring ongoing support and acceleration post-investment.

In this regard, the IBDS Policy Framework is specifically orientated to contribute to the NISED outputs:

1) **Strengthened ecosystem of support for small enterprises** through the District Ecosystem Facilitation Model to implement a game changer to build the ecosystem of support in collaboration with a broad range of public and private sector partners.

2) **Targeted sector support (non-generic) to underserved communities** by ensuring programmes are aligned with the District Development Model, to ensure tailored support is provided at a district level, with a focus on supporting entrepreneurship development in the value chains of priority sector industries.

3) **Ensuring cost effective and accessible support for all small enterprises** ensuring programmes are accessible through an extensive branch and service access points network, supported incubation centres, and from ecosystem partners to extend the reach and impact of support.

NISED introduces the concept of “transformative game changers” as scalable solutions designed to tackle the sector's most pressing and complex challenges. These game changers are to be implemented through strategic partnerships that leverage the expertise of diverse stakeholders, both within and outside of government.

In this regard, the successful implementation of the IBDS Policy itself is recognised as a game-changing initiative.

1.7. BUILDING ON PRIOR POLICY DISCUSSIONS AND DEVELOPMENTS

In addition to the legislative and policy reforms introduced above, over the years, key engagements and policy discussions have taken place to improve the coordination of the IBDS ecosystem in South Africa and to enhance the quality of services offered, which together serve as a baseline and influence the development of this IBDS Policy Framework:

1) **2011**: The report "Rethinking Small Business Support in South Africa," commissioned by the DTI, critically reviewed government support for small businesses. It highlighted the fragmentation and lack of coordination in support services and the substandard quality of business advisors. The report called for urgent improvements, including institutionalising and measuring collaboration between support institutions and programmes.

2) **2015**: The DTI released the "South Africa Business Incubator Establishment Handbook," offering guidelines for establishing business incubators tailored to the needs of small

This gazette is also available free online at **www.gpwonline.co.za**

enterprises in specific areas. The handbook was designed for provincial or municipal representatives but also served as a resource for private firms, government entities, NGOs, and academic institutions interested in incubation.

3) **2016**: In March, the DSBD and Seda hosted the South African Business Incubation Conference, which led to the early drafting of the IBDS Policy Framework.

4) **2017**: A working group formed during a symposium organised by the Global Partnership for Action on Sustainable Development and the Green Economy was tasked with developing business advisory services standards under the South African Bureau of Standards (SABS). Later that year, the International Conference on Business Advising brought together government, business advising professionals, and other stakeholders to discuss the state of business advising in South Africa, addressing issues highlighted in the 2011 DTI report.

5) **2018**: The DSBD, Seda, and Services SETA announced the establishment of the National Entrepreneurship and Co-operative Development Institute. This joint initiative aimed to close critical supply-side gaps and scale impact for entrepreneurs and small enterprises. Additionally, the Director-General of DSBD convened a meeting of professional bodies towards the development of a discussion paper on the roles of post-school education and training (PSET) and other stakeholders in professionalising business advisory services.

6) **2019**: A working group comprising Services SETA, business advising professional bodies, accredited training providers, business advisors, and a qualification development consultant developed a small business consultant occupational qualification.

7) **2020**: SABS developed the SATS 2234:2020, outlining standards for business incubators and accelerators. These standards distinguish between incubators and accelerators, providing guidelines for service provision to meet stakeholder requirements.

8) **2022**: The International Standards Organisation (ISO) ratified ISO 20700:2017, which offers guidelines for management consulting and support services, including BDS. These standards set principles for ensuring competence, ethical conduct, and agreed-upon deliverables in service provision.

Building from this platform and to address certain findings and recommendations from the Assessment of the Impact of the Incubation Support Programme from Inception (2008 to 2021/2022), in 2023, the DSBD developed and consulted on a draft IBDS Policy and draft Sector Focussed Hybrid Incubation and Digital Hub Support Strategy. Further, DSBD developed a business case for the Incubation Partnership Game Changer (2023), and Seda has a board-approved Technology Programme Sectoral Focus Strategy (2023).

Together, these documents have been developed to address Pillar 3 of the NISED Strategic Framework; however, each document has a variation of an implementation roadmap and its own implementation considerations, which risks fragmentation and duplication.

To ensure alignment and compliance with the processes outlined in the Cabinet-approved National Policy Development Framework (2020), this updated IBDS Policy Framework was developed and consulted through a policy dialogue with key external stakeholders to allow for additional inputs, refinements, and validation and co-ownership.

Legislation and public policy must play a pivotal role in ensuring the delivery of high-quality support and services that position entrepreneurship as a viable alternative to traditional employment, thus fostering small enterprise growth.

This gazette is also available free online at **www.gpwonline.co.za**

2. PROBLEM STATEMENT

2.1. UNDERLYING POLICY STATEMENT

The IBDS Policy Framework is designed to address the systemic barriers that prevent small enterprises from realising their full potential as drivers of job creation, economic transformation, and inclusive growth in South Africa. Small enterprises are pivotal to addressing the country's challenges of poverty, unemployment, and inequality, as outlined in the NDP.

However, despite existing support mechanisms, small enterprises continue to face significant obstacles, particularly in accessing finance, markets, and BDS. Fragmentation, lack of coordination, and inconsistent service delivery further weaken the support ecosystem, particularly in rural and underserved areas. Additionally, the rising costs of accessing services, coupled with insufficient professionalisation and inadequate regulation, hinder the ability of small enterprises to scale and contribute meaningfully to South Africa's economic development.

2.2. PROBLEM STATEMENTS FOR POLICY COMPONENTS

The following problem statements detail the core issues that the IBDS Policy Framework must address to empower small enterprises to drive inclusive economic growth.

2.2.1. Fragmentation and Lack of Coordination in the Incubation and Business Development Services Ecosystem

The IBDS ecosystem in South Africa is fragmented with weak coordination between stakeholders, such as government entities, private sector players, NGOs, and financial institutions. This lack of coordination leads to inefficient resource allocation and poor service delivery, particularly in townships, rural areas, and the informal economy. Marginalised groups, such as women, youth, and persons with disabilities, are disproportionately affected by these coordination gaps, limiting their access to critical support.

2.2.2. Inconsistent Quality of Services Due to a Lack of Standards and Professionalisation of Incubation and Business Development Services Providers

The IBDS ecosystem lacks a national accreditation framework, leading to inconsistent service quality across providers. Without structured accreditation and professionalisation of IBDS providers, small enterprises receive varied levels of support, often falling short of what is needed for long-term growth. Targeted training, accreditation, and professional development are necessary to standardise the quality and effectiveness of business support across the country.

This gazette is also available free online at **www.gpwonline.co.za**

2.2.3. Inadequate Access to Funding for Small Enterprises and Incubators

Both small enterprises and incubators face significant barriers to accessing sustainable funding mechanisms, particularly in rural areas, townships, and for marginalised groups like women, youth, and persons with disabilities. Incubators struggle with long-term sustainability due to inconsistent funding models, limiting their ability to provide critical support. Without innovative blended finance models and tailored funding tools, small enterprises and incubators are unable to grow and scale effectively.

2.2.4. Barriers to Market Access and Value Chain Integration

Small enterprises face significant barriers to accessing markets, including limited entry into value chains dominated by larger firms. Despite the existence of local procurement regulations, weak enforcement and insufficient incentives for both public and private sector entities to integrate small enterprises into their supply chains hinder market access. Strengthened procurement incentives and more robust regulatory frameworks are essential to improving small enterprise market participation.

2.2.5. Geographic, Economic, and Financial Barriers to Accessing Incubation and Business Development Services

Small enterprises in townships, rural areas, and the informal economy face significant challenges in accessing both IBDS due to limited infrastructure, outreach, and service hubs. The high cost of accessing these services further excludes marginalised groups, such as women, youth, and persons with disabilities. Without subsidies, incentives, and alternative funding models, small enterprises remain excluded from critical support services.

2.2.6. Poor Integration Between Incubation, Business Development Services, and Enterprise Supplier Development Services

The lack of integration between IBDS and ESD services results in fragmented service delivery. Small enterprises, particularly in underserved areas, struggle to receive continuous, stage-appropriate support across their business lifecycle. A more integrated service structure is needed to ensure coordinated support that covers all stages of enterprise development.

2.2.7. Gaps in Sector-Specific Expertise in Incubation

Incubation services often lack the sector-specific expertise needed to provide targeted support to early-stage enterprises. Incubators typically adopt a generalist approach, which fails to meet the specialised needs of key sectors like technology, green industries, and agriculture. Addressing these expertise gaps is crucial to ensuring that incubators can offer tailored, relevant support to small enterprises in priority sectors.

This gazette is also available free online at **www.gpwonline.co.za**

2.2.8. Lack of Targeted Business Development Services for Lifecycle-Appropriate Enterprises

BDS face challenges in delivering targeted support to growth-stage enterprises. While early-stage support is often available, businesses at the scaling-up stage require more sophisticated services, such as market access, export readiness, and advanced financial management. The lack of tailored BDS for different growth stages limits the potential for these businesses to scale and compete in broader markets.

2.2.9. Lack of Post-Incubation and Long-Term Support for Graduates

Small enterprises often face a lack of post-incubation support, leaving them vulnerable once they graduate from incubation programmes. Without continued mentorship, financing, and market access, many businesses struggle to scale and sustain growth. A comprehensive post-incubation strategy is necessary to provide long-term support for enterprises as they move beyond the incubation phase.

2.2.10. Weak Implementation and Coordination of Government's Incubation and Business Development Services Mandate

The government's ability to implement its IBDS mandate is hindered by weak coordination across departments and limited capacity at the municipal level. Slow, bureaucratic processes for establishing public-private partnerships further delays the delivery of essential support to small enterprises. Improving the government's coordination capacity and streamlining of public-private partnership processes is essential to achieving effective IBDS implementation.

2.2.11. Lack of Innovation in the Incubation and Business Development Services Ecosystem

The lack of innovation limits the ability of IBDS providers to provide dynamic, responsive, and forward-thinking services to meet the evolving needs of small enterprises, particularly those operating in high-growth sectors like technology, agriculture, and green industries. The adoption of modern technologies, data-driven approaches, or sector-specific innovations are essential to provide small enterprises with access to advanced tools, methodologies, and practices that could drive their competitiveness and growth.

2.2.12. Low Uptake of Innovation Solutions and New Technologies

The low uptake of innovative solutions and new technologies by small enterprises (often due to barriers, such as limited access to technology, inadequate digital skills, financial constraints, or a lack of awareness), limits their ability to enhance their operations, products, or services. The adoption of new technologies and innovative solutions are essential to capitalise on opportunities for efficiency gains, market expansion, and improved competitiveness.

This gazette is also available free online at **www.gpwonline.co.za**

2.2.13. Limiting High Regulatory Compliance Costs for Small Enterprises

Stringent compliance processes and high regulatory compliance costs restrict growth, innovation and limit access to markets for small enterprises in highly-regulated industries. While these regulations are designed to ensure safety and quality, they impose disproportionately high costs on small businesses, even those not directly involved in manufacturing. The development of proportional sector-specific regulatory frameworks, simplified compliance procedures, shared compliance networks, and shared access to compliance resources aims to reduce the compliance cost of small enterprises.

3. POLICY VISION AND OBJECTIVES

3.1. POLICY PURPOSE AND SCOPE

The IBDS Policy Framework supports NISED Outcome 3: Effective support and services delivered for small enterprise growth, both financial and non-financial. The purpose is to address fragmentation, improve coordination, enhance service quality, leverage technology, and ensure equitable access to resources across all regions, especially in underserved areas. This policy serves as a comprehensive solution to the challenges that small enterprises face, focusing on creating a cohesive, inclusive, and sustainable small enterprise ecosystem.

The policy is responsive to and enabled by the following applicable legislation:

1) The Constitution of the Republic of South Africa, 1996.

2) The NSEAA, which amended certain provisions of the NSEA.

3) The Co-operatives Act (No. 14 of 2005) as amended, and the Co-operative Banks Act (No. 40 of 2007) as amended.

4) The Intergovernmental Relations Framework Act (No.13 of 2005), as amended, including regulations framing the institutionalisation of the District Development Model.

The IBDS Policy Framework applies to all stakeholders involved in IBDS to small enterprises in South Africa, including state and private actors, community organisations, voluntary associations, business chambers, and professional bodies.

3.2. POLICY VISION

To create an inclusive, resilient IBDS ecosystem that empowers small enterprises to drive growth, job creation, and innovation, thereby playing a meaningful role in addressing poverty, unemployment, and inequality.

3.3. POLICY OBJECTIVES

To achieve this vision, the IBDS Policy Framework will pursue the following key objectives:

This gazette is also available free online at **www.gpwonline.co.za**

1) Strengthen the role of the state and its agencies in enabling and overseeing the delivery of incubation and BDS to improve accountability, enforce service quality, and ensure compliance across the ecosystem.

2) Promote and drive effective collaboration among sector stakeholders to reduce fragmentation across IBDS and to create a streamlined, integrated support system for small enterprises, improve access to sustainable funding and markets, and connect small enterprises to local and global value chains, enhancing their competitiveness and growth potential in priority sectors.

3) Strive to provide lifecycle-appropriate and sector-focused IBDS that is accessible to all small enterprises, with a focus on equitable access for underserved groups in urban, rural, and township areas, including women, youth, and persons with disabilities.

4) Foster the adoption of innovative solutions in service delivery and by entrepreneurs (including green technologies), ensuring small enterprises contribute to long-term sustainable economic growth, particularly in priority sectors.

5) Professionalise the IBDS sector by implementing a national accreditation and certification framework to ensure the provision of consistent, high-quality support for small enterprises, and promoting continuous professional development for IBDS practitioners to develop a skilled and reputable IBDS workforce that meets the evolving needs of the sector.

3.4. POLICY GUIDING PRINCIPLES

The guiding principles of the IBDS Policy Framework align with the vision and objectives, ensuring effective and equitable implementation:

1) **Standards and accountability:** The IBDS ecosystem must operate under clear, enforceable standards and guidelines to ensure high-quality service delivery and accountability across all stakeholders, protecting the interests of small enterprises.

2) **Professionalisation and capacity building:** A commitment to raising the quality of IBDS providers through accreditation, formal qualifications, and continuous professional development. This ensures that providers are competent and well-equipped to meet the needs of small enterprises.

3) **Inclusive access through technology and localisation:** Equity in access to IBDS will be achieved by leveraging digital platforms and innovative technologies and decentralised service touchpoints, ensuring that all small enterprises, particularly those in underserved areas, can access critical support.

4) **Collaborative partnerships:** Effective support for small enterprises depends on fostering strong multistakeholder partnerships, involving the public sector, private sector, NGOs, donors, and social enterprises. Collaboration will enhance access to funding, market access and resource mobilisation.

5) **Sustainability and lifecycle support:** The policy will promote long-term sustainability by ensuring that small enterprises receive continuous support throughout their lifecycle (from pre-startup to post-investment growth), enabling them to achieve resilience and success.

This gazette is also available free online at **www.gpwonline.co.za**

6) **Innovation and adaptability:** The ecosystem must foster innovation and continuously adapt to changing market needs. Incubation centres, BDS providers, and other institutions will be encouraged to adopt modern technologies and practices to remain relevant and effective.

7) **Integration and coordination:** A coordinated and integrated approach to service delivery will reduce duplication, enhance resource allocation, and ensure that small enterprises receive cohesive support across incubation, BDS, and ESD services.

8) **Sector-specific and tailored approaches:** The policy will ensure that support is tailored to the specific needs of different sectors, recognising that each sector requires customised interventions and expertise to foster growth.

9) **Inclusive governance and responsiveness:** Governance structures must be inclusive, agile, and responsive to the needs of small enterprises, especially those from underserved communities. The policy will focus on reducing barriers and simplifying processes to ensure ease of access for all.

3.5. POLICY THEORY OF CHANGE

Towards the policy vision and aligned with the NDP goals and the NISED Strategic Framework, the IBDS Policy Framework's desired impact is an environment where small enterprises have access to high-quality and tailored support services that enable their growth and long-term sustainability, contributing to inclusive economic growth, social equity, and sustainable development across South Africa.

The Theory of Change for the IBDS Policy Framework outlines the interconnected steps that link the policy's inputs, activities, outputs, outcomes, and the ultimate impact. It reflects a dynamic system that adapts based on feedback, continuous learning, refinement, and responsiveness to external conditions.

The Theory of Change Framework includes:

1) **Inputs**: Foundational resources and systems.

2) **Activities**: Actions to operationalise the policy.

3) **Outputs**: Tangible deliverables of those actions.

4) **Outcomes**: Intermediate and final results achieved over time.

5) **Impact**: Long-term developmental transformation.

Feedback loops are integrated throughout the Theory of Change, ensuring that:

1) Monitoring and evaluation informs adjustments to activities and outputs.

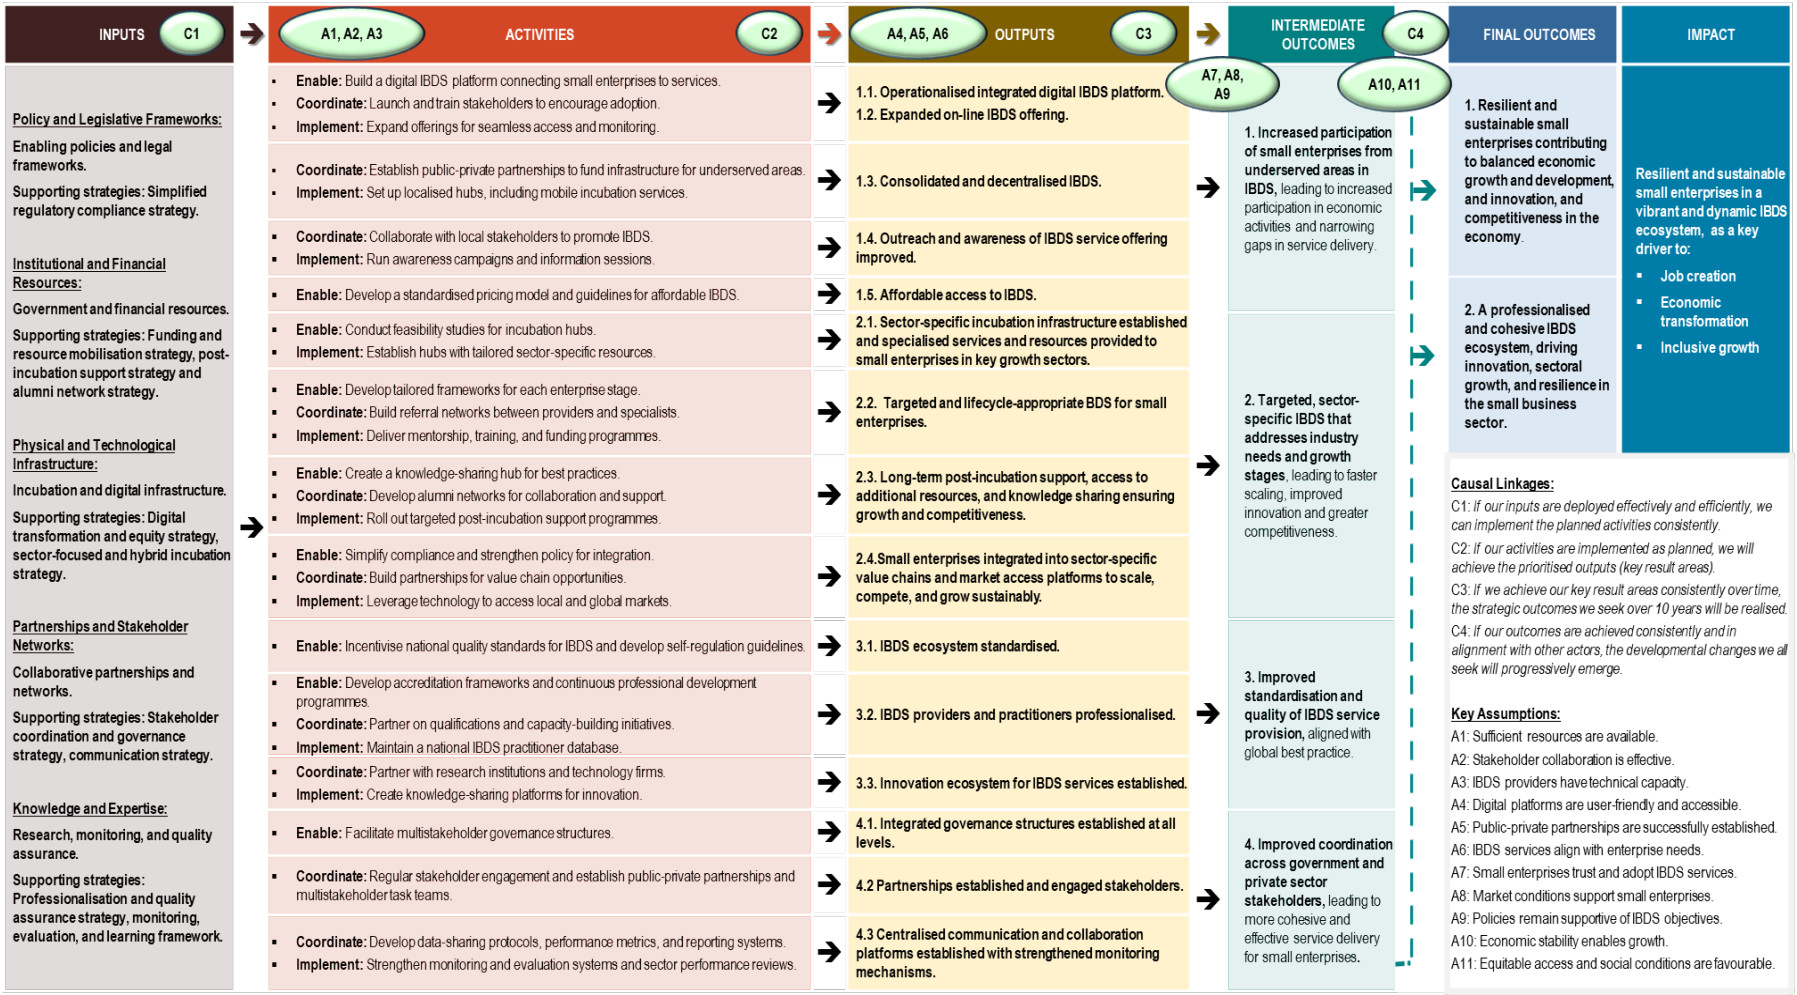

2) Lessons from intermediate outcomes are used to refine priorities and strategies.

3) Stakeholder engagement provides continuous insights to improve governance, coordination, and delivery.

Visually, the IBDS Policy Framework Theory of Change is reflected as follows:

This gazette is also available free online at **www.gpwonline.co.za**

Figure 3: IBDS Theory of Change

This gazette is also available free online at www.gpwonline.co.za

The Theory of Change outlines the step-by-step progression from inputs to impact, supported by explicit causal linkages, feedback loops, and assumptions underpinning each transition. This ensures transparency and adaptability, enabling effective implementation and monitoring.

1) **From inputs to activities**:

   a) **Key inputs:**

      i) Enabling policies and frameworks.

      ii) Institutional and financial resources.

      iii) Physical and technological infrastructure.

      iv) Collaborative partnerships and networks.

      v) Knowledge and expertise.

   b) **Feedback loops**:

      i) Regular resource reviews ensure gaps in funding, infrastructure, and capacity are identified and resolved.

      ii) Stakeholder engagement evaluates the effectiveness of collaborations.

   c) **Causal linkage**:

      If inputs are effectively mobilised, they will enable planned activities to proceed efficiently.

   d) **Key assumptions**:

      i) **(A1)** Adequate funding and resources are available.

      ii) **(A2)** Stakeholders actively participate and collaborate.

      iii) **(A3)** Targeted IBDS providers have the technical capacity to adopt accreditation frameworks and digital systems.

2) **From activities to outputs**:

   a) **Key activities:**

      i) **Enable:** Develop key tools and frameworks, such as the digital IBDS platform, standardised pricing models, and feasibility studies for sector-specific hubs.

      ii) **Coordinate:** Facilitate public-private partnerships, multistakeholder governance structures, and referral networks among service providers.

      iii) **Implement:** Deliver lifecycle-appropriate and sector-specific IBDS, including mobile incubation hubs, post-incubation programmes, and targeted outreach campaigns.

   b) **Feedback loops**:

      i) Monitor implementation challenges to adjust activities in real time.

This gazette is also available free online at **www.gpwonline.co.za**

ii) Collect feedback on stakeholder participation to ensure alignment and commitment.

c) **Causal linkage**:

If activities are implemented consistently, they will deliver the intended outputs.

d) **Key assumptions**:

i) **(A4)** Digital IBDS platforms and services are user-friendly and accessible.

ii) **(A5)** Public-private partnerships and stakeholder engagement mechanisms are effectively established.

iii) **(A6)** IBDS are aligned to the needs of small enterprises within high-growth sectors, particularly underserved groups.

3) **From outputs to intermediate outcomes**:

a) **Key outputs:**

i) Operationalised and expanded digital IBDS platforms for seamless access.

ii) Affordable and decentralised IBDS offerings through localised hubs and mobile services.

iii) Professionalisation of IBDS providers via national accreditation frameworks and continuous professional development programmes.

iv) Integrated governance structures and strengthened partnerships across stakeholders.

v) Sector-specific incubation infrastructure tailored to high-potential industries, e.g., green technology and health technology.

vi) Targeted and lifecycle-appropriate BDS for small enterprises to align with different needs at different stages.

vii) Leveraged innovative solutions and new technologies to drive modernisation across the ecosystem and within small enterprises.

viii) Small enterprises integrated into sector-specific value chains and market access platforms

ix) Standardised IBDS systems aligned with global best practices.

x) Targeted awareness campaigns and outreach increasing service visibility in underserved areas.

xi) Post-incubation support programmes fostering enterprise growth and competitiveness.

b) **Feedback loops:**

i) Assess adoption rates of digital platforms and IBDS.

ii) Conduct stakeholder surveys to evaluate output quality and refine service delivery.

This gazette is also available free online at **www.gpwonline.co.za**

c) **Causal linkage:**

If outputs are achieved, they create the conditions for intermediate outcomes to emerge.

d) **Key assumptions:**

i) **(A7)** Small enterprises trust and actively use IBDS.

ii) **(A8)** Market demand for small enterprise products supports their sustainability.

iii) **(A9)** Policies and regulations remain supportive of IBDS ecosystem goals.

4) **From intermediate outcomes to final outcomes**:

a) **Intermediate outcomes:**

i) Increased participation of small enterprises from underserved areas, enhancing equity and access.

ii) Improved sector-specific IBDS alignment, fostering scalability, innovation, and competitiveness.

iii) Enhanced standardisation and quality in IBDS service delivery.

iv) Greater coordination between government, private, and community stakeholders.

b) **Feedback loops:**

i) Use monitoring and evaluation data to assess enterprise performance and refine services.

ii) Incorporate stakeholder input to address service gaps and improve alignment.

c) **Causal linkage:**

If intermediate outcomes are consistently achieved, they will lead to final outcomes.

d) **Key assumptions:**

i) **(A10)** Enterprises effectively scale with improved services and tailored support.

ii) **(A11)** Stakeholders remain engaged and committed to supporting intermediate outcomes.

5) **From final outcomes to impact**:

a) **Final outcomes:**

i) A resilient and sustainable small enterprise sector, driving economic growth, innovation, and competitiveness.

ii) A professionalised and cohesive IBDS ecosystem, fostering sectoral growth and resilience.

This gazette is also available free online at **www.gpwonline.co.za**

b) **Feedback loops:**

i) Long-term evaluations assess whether final outcomes contribute meaningfully to impact.

ii) Cross-sector collaboration ensures alignment with broader development goals.

c) **Causal linkage:**

If final outcomes are achieved, they contribute to the policy's long-term developmental impact.

d) **Key assumptions:**

i) **(A12)** Broader economic and political stability supports long-term small enterprise growth.

ii) **(A13)** Social and environmental conditions, such as equitable access and digital readiness, remain favourable.

The Theory of Change provides a clear roadmap for implementing the IBDS Policy, showing how inputs, activities, and outputs contribute to long-term outcomes and impact. By integrating assumptions, causal linkages, and feedback loops, the Theory of Change ensures accountability, adaptability, and alignment with the policy's vision.

This framework supports implementation, monitoring and evaluation, driving sustainable small enterprise growth and economic transformation.

4. POLICY IMPLEMENTATION

In response to the defined problem statements within the context of the Theory of Change and towards achieving the policy vision and desired impact, the IBDS Policy becomes a transformative solution that not only tackles the sector's most pressing challenges but also positions small enterprises as key drivers of inclusive economic growth.

Central to this implementation framework are the two final outcomes to increase sustainability and growth and competitiveness of small enterprises, and to develop a professional and cohesive IBDS ecosystem, capable of supporting and transforming the small business sector. Rooted in a commitment to inclusivity and equity, the implementation framework is designed to achieve four intermediate outcomes to address the diverse challenges faced by small enterprises across geographic, economic, and sectoral dimensions.

4.1. POLICY FOCUS AREAS RESPONDING TO PROBLEM STATEMENTS

This section outlines the focus areas to translate the policy's objectives into impactful, measurable outcomes that strengthen South Africa's small enterprise sector.

This gazette is also available free online at **www.gpwonline.co.za**

4.1.1. Increased Participation Rate of Small Enterprises in Incubation and Business Development Services

Problems to be addressed:

Small enterprises in townships, rural areas, and the informal economy face significant challenges in accessing both incubation and BDS due to limited infrastructure, outreach, and service hubs. The high cost of accessing these services further excludes marginalised groups, such as women, youth, and persons with disabilities. This results in a widening gap between urban and rural businesses in terms of access to mentorship, networking, training, and critical support services that are necessary for growth and sustainability. A holistic system is required to drive increased participation by small enterprises in IBDS, particularly from underserved areas. Increased participation of small enterprises and access to essential resources and support boosts their contribution to economic activities and narrows service delivery gaps.

Focus and approach:

1) **Development and operationalisation of an integrated digital platform:**

   The lack of integration between incubation, BDS, and ESD services results in fragmented service delivery. Small enterprises, particularly in underserved areas, struggle to receive continuous, lifecycle-appropriate support across their business lifecycle. A more integrated service structure is needed to ensure coordinated support that covers all stages of enterprise development. The development of an integrated digital platform is designed to revolutionise the coordination between stakeholders and the delivery of small enterprise support services across South Africa. A primary objective is to centralise and streamline access to a comprehensive range of resources and support services, such as incubation, business development, financing, and market access, into a single, cohesive system.

   Centralising coordination efforts will enhance the efficiency of the entire ecosystem, reduce duplication of services, and optimise resource allocation, ensuring that small enterprises receive the most effective support possible. In addition, the platform will enable information sharing and tools to integrate monitoring of performance and centralised reporting and will play a critical role in the professionalisation of both IBDS providers and small enterprises. By offering continuous development opportunities, raising service standards, and empowering enterprise growth, the platform ensures that all participants in the ecosystem are equipped to thrive.

2) **Digital transformation and expansion of IBDS**:

   Leveraging digital platforms revolutionises the way IBDS are delivered, bridging economic and geographic divides. By providing an expanded virtual service offering and access to mentorship, training, and business support, small enterprises in underserved areas can overcome logistical challenges and benefit from high-quality services.

   Powered by advanced technologies, the platform will offer personalised, real-time support and insights, yet it will also be complemented by traditional support methods to ensure that even rural and underserved areas have equal access to these services. The platform's inherently scalable design will extend services to the most remote and underserved areas, bridging geographic and socioeconomic divides and making essential support services accessible to all small enterprises. Furthermore, virtual platforms empower small enterprises to connect with larger markets and networks, boosting their growth potential.

This gazette is also available free online at **www.gpwonline.co.za**

The integrated digital platform for small enterprise support will be an enabling force in South Africa's entrepreneurial landscape. It is expected to drive systemic improvements by making support services more accessible, efficient, and impactful.

3) **Consolidation and decentralisation of IBDS**:

By establishing regional hubs and deploying mobile incubation units, the geographic barriers that restrict access to IBDS for small enterprises in underserved areas are minimised, particularly for the entrepreneurs who are not yet comfortable with using technology to access services. These initiatives bring essential services closer to rural and remote areas, eliminating the need for small enterprises to incur high travel costs and providing equitable access to incubation, training, and mentorship. The localised presence ensures a strong ecosystem of support, enabling small enterprises to participate fully in economic activities.

4) **Affordable access to services:**

The introduction of a standardised pricing model for IBDS service offering, subsidies, and cost-sharing mechanisms lowers the financial burden on small enterprises, making IBDS accessible to those who previously found the costs prohibitive. These financial support mechanisms are particularly impactful for marginalised communities, ensuring that underserved small enterprises can engage with incubation and development services, scale their operations, and increase their competitiveness. By addressing affordability, this focus area directly contributes to the inclusion of economically disadvantaged enterprises.

5) **Outreach and awareness:**

Many small enterprises in underserved areas are unaware of the IBDS available to them, which perpetuates gaps in service delivery. Targeted awareness campaigns inform small enterprises about available resources and how to access them, addressing the information gap. These campaigns leverage local partnerships, community networks, and digital channels to ensure that small enterprises in even the most remote areas are reached. By improving awareness, this focus area ensures higher participation rates and maximises the impact of IBDS initiatives.

Through these key focus areas, small enterprises in underserved areas are empowered to overcome the barriers that previously excluded them from accessing IBDS. Decentralised services ensure physical proximity and affordability initiatives remove financial constraints, digital platforms extend reach to previously inaccessible regions, and targeted awareness campaigns ensure that small enterprises know where and how to access support.

Together, these interventions create a holistic system that increases the participation of small enterprises in economic activities and addresses service delivery gaps. By fostering an inclusive IBDS ecosystem, these efforts contribute to job creation, enhanced competitiveness, and sustainable economic growth.

4.1.2. Targeted, Lifecycle-Appropriate and Sector-Specific Incubation and Business Development Services

Problems to be addressed:

The focus areas outlined for targeted, lifecycle-appropriate, and sector-specific IBDS provide a comprehensive approach to addressing the challenges faced by small enterprises:

This gazette is also available free online at **www.gpwonline.co.za**

1) Inadequate access to funding for small enterprises and incubators.

2) Gaps in sector-specific expertise in incubation

3) Lack of targeted bds for small enterprises during the different lifecycle stages.

4) Barriers to market access and value chain integration.

5) Lack of post-incubation and long-term support for graduates.

6) Low uptake of innovation solutions and new technologies.

7) Limiting high regulatory compliance costs for small enterprises.

These interventions ensure that IBDS programmes are designed to meet the specific needs of different industries and stages in the lifecycle of entrepreneurial development, enabling small enterprises to scale more rapidly, innovate, and compete effectively.

Focus and approach:

1) **Access to funding and financial readiness:**

   The creation of modernised funding mechanisms and financial readiness programmes address the critical issue of inadequate access to capital for small enterprises and incubators. By building capacity in financial management and readiness, small enterprises are better prepared to secure funding for their operations. This ensures long-term sustainability for both small enterprises and the incubators supporting them, directly contributing to their ability to scale and innovate.

2) **Sector-specific IBDS programmes:**

   Incubation services in specialised industries often lack the sector-specific expertise needed to provide targeted support to early-stage enterprises. Incubators that lack this deep, sectoral expertise may struggle to provide businesses with the industry-specific support they need, leading to suboptimal outcomes.

   Developing sectoral frameworks tailored to high-growth industries (aligned to the priority sectors identified in the Decadal Plan[12] and Master Plan[13]) ensures that small enterprises receive support that is aligned with the unique demands of their respective sectors. These targeted interventions equip small enterprises with industry-specific skills, resources, and networks to overcome sector-specific challenges, positioning them for continuous learning, faster growth, and greater competitiveness.

3) **Targeted lifecycle-appropriate BDS:**

   BDS face challenges in delivering targeted and lifecycle-appropriate support to small enterprises. While early-stage support is often available, businesses at the scaling-up stage require more sophisticated services, such as market access, export readiness, and advanced financial management. The lack of targeted BDS for different lifecycle stages limits the potential for these businesses to scale and compete in broader markets.

   Providing tailored BDS for enterprises at different stages of growth ensures that small enterprises receive lifecycle-appropriate support that matches their unique needs. This

[12] *Department of Science and Innovation. "STI Decadal Plan 2022-2032", May 2024*

[13] *Department of Trade, Industry and Competition. "Master Plans"*

This gazette is also available free online at **www.gpwonline.co.za**

lifecycle approach addresses the specific challenges of scaling enterprises, such as market entry, operational efficiency, and financial sustainability. It ensures that IBDS programmes are relevant and impactful across all stages of entrepreneurial growth.

4) **Market access and value chain integration:**

For small enterprises and startups, barriers to accessing market opportunities and integrating into value chains present significant challenges. Despite the existence of local procurement regulations, weak enforcement and insufficient incentives for both public and private sector entities to integrate small enterprises into their supply chains hinders market access.

Small enterprises often face difficulties in reaching broader markets, including both domestic and international markets, limiting their ability to generate sufficient revenue, build brand recognition, access supply networks, or scale operations. Barriers to integration often stem from a lack of market information, limited networks, lack of technical skills, inadequate infrastructure, and the inability to meet certification standards.

By strengthening small enterprises' ability to access markets and integrate into local and global value chains, this focus area facilitates connections with larger enterprises, distributors, and global buyers, ensuring that small enterprises can participate meaningfully in value chains, driving revenue growth, and fostering collaboration within industries, positioning them as key contributors to broader economic systems.

In addition, the Competition Commission is a key stakeholder and plays a pivotal role in strengthening enforcement, advocating for fair competition, and creating an enabling environment for small enterprises to access markets and integrate into supply chains

5) **Post-incubation and long-term support:**

Small enterprises often face a lack of post-incubation support or are sometimes reluctant to participate in post-incubation activities where it does exist. This leaves them vulnerable once they graduate from incubation programmes. Without continued mentorship, financing, and market access, many businesses struggle to scale and sustain growth. A comprehensive post-incubation strategy is necessary to provide long-term support for enterprises as they move beyond the incubation phase.

The establishment of online and cost-effective post-incubation programmes ensures continuity in support for small enterprises after they graduate from incubation and the ease of access, leading to higher participation rates. This focus area addresses the lack of long-term support, providing mentorship, funding access, and market linkages that are crucial for sustained growth and competitiveness. It reduces the dropout rate of small enterprises post-incubation and ensures their sustained contribution to economic transformation.

6) **Innovation and technology adoption:**

The lack of innovation in the IBDS ecosystem limits the ability of IBDS providers to provide dynamic, responsive, and forward-thinking services to meet the evolving needs of small enterprises, particularly those operating in high-growth sectors.

Promoting the uptake of innovative solutions and new technologies enhances the capacity of small enterprises to remain competitive in rapidly evolving markets. By integrating innovation into IBDS delivery and providing access to digital and innovation hubs, small enterprises are encouraged to adopt cutting-edge and new technologies, improving

This gazette is also available free online at **www.gpwonline.co.za**

operational efficiency and fostering the development of new products and services that meet market demands.

7) **Regulatory simplification:**

Stringent compliance processes and high regulatory compliance costs presents challenges in navigating complex regulatory environments, restrict growth and innovation, and limits access to markets for small enterprises in highly-regulated industries. While these regulations are designed to ensure safety and quality, they impose disproportionately high costs on small businesses, even those not directly involved in manufacturing.

Advocating for simplified and small enterprise-friendly regulatory frameworks to reduce compliance burdens and regulatory costs alleviate this burden, enabling small enterprises to operate more efficiently and focus on growth. Simplified regulations and user-friendly processes ensure that more small enterprises can formalise their businesses and access critical IBDS, fostering a vibrant and compliant small enterprise sector.

4.1.3. Standardisation and Improved Quality of Incubation and Business Development Services Provision

Problems to be addressed:

The identified focus areas directly address the systemic challenges of inconsistent quality and lack of innovation in the IBDS ecosystem, laying the foundation for an ecosystem that delivers high-quality, globally-aligned services to small enterprises. Together, these focus areas ensure the standardisation, professionalisation, and continuous improvement of IBDS, fostering a system that is efficient, innovative, and impactful.

Focus and approach:

1) **Development and enforcement of national IBDS standards:**

The establishment of clear service delivery guidelines, benchmarks, and quality frameworks provides unified standards for all IBDS providers. This ensures consistency in service delivery, eliminating disparities in quality and impact across regions and sectors. By setting minimum operational and service standards, IBDS providers are held accountable, fostering trust among small enterprises and stakeholders. The standards also act as a blueprint for new entrants, reducing inefficiencies and aligning efforts across the ecosystem.

2) **Professionalisation of IBDS providers:**

The implementation of accreditation, certification, and capacity-building programmes ensures that IBDS providers possess the necessary skills, expertise, and credibility to deliver impactful services. This professionalisation process not only raises the bar for service quality but also establishes IBDS provision as a recognised and respected profession. Certified providers are better equipped to address the diverse needs of small enterprises, resulting in tailored and high-impact interventions. Additionally, professionalisation enhances the reputation of the ecosystem, attracting more small enterprises to participate and benefit from its services.

This gazette is also available free online at **www.gpwonline.co.za**

3) **Innovation-driven and best practice aligned service models and tools:**

Fostering innovation in IBDS design and delivery enables providers to stay ahead of emerging trends and meet the dynamic needs of small enterprises. By leveraging the digital platforms, innovative business models, and sector-specific tools, IBDS become more accessible, efficient, and relevant. This focus on innovation ensures that the ecosystem remains competitive and adaptive, offering cutting-edge solutions that enable small enterprises to thrive in modern markets. For instance, digital tools can streamline operations, while sector-specific models ensure that incubators and BDS providers address unique industry challenges effectively.

Benchmarking IBDS service delivery against global best practices positions the ecosystem to compete on an international scale. By aligning standards, methods, and approaches with those of leading global systems, IBDS providers can ensure relevance and competitiveness in an increasingly interconnected world. Global alignment also enhances the credibility of the ecosystem, attracting international partnerships, funding, and market opportunities for small enterprises.

4) **Knowledge sharing and continuous improvement:**

Creating systems for sharing best practices, lessons learned, and success stories fosters a culture of collaboration and continuous improvement within the IBDS ecosystem. Providers can learn from successful models and avoid repeating common mistakes, ensuring that service delivery evolves and improves over time. By facilitating regular knowledge exchanges, the ecosystem becomes more cohesive and adaptive, ensuring that small enterprises benefit from the collective expertise of the IBDS network.

By addressing the gaps in standardisation, professionalisation, and innovation, these focus areas collectively ensure that the IBDS ecosystem delivers consistent, high-quality services aligned with global benchmarks. The result is a system that is trusted by small enterprises, fosters innovation, and continuously evolves to meet changing market demands.

Through the integration of these focus areas, the IBDS ecosystem evolves into a dynamic, high-quality network that effectively supports small enterprises as drivers of inclusive economic growth and innovation.

4.1.4. Strengthen Coordination Across Government and the Private Sector

Problems to be addressed:

The government's ability to implement its IBDS mandate is hindered by weak coordination across departments and limited capacity at municipal level. Slow, bureaucratic processes for establishing public-private partnerships further delay the delivery of essential support to small enterprises. Improving the government's coordination capacity and streamlining public-private partnership processes is essential to achieving effective IBDS implementation.

The focus areas outlined address the systemic issues of fragmentation and weak coordination within the IBDS ecosystem by building robust frameworks, enhancing communication, fostering partnerships, and strengthening accountability. These measures ensure more cohesive and effective collaboration between government and private sector stakeholders, resulting in improved service delivery for small enterprises.

This gazette is also available free online at **www.gpwonline.co.za**

Government Gazette
Staatskoerant

REPUBLIC OF SOUTH AFRICA
REPUBLIEK VAN SUID AFRIKA

Vol. 725 14 November / November 2025 No. 53662

PART 2 OF 3

N.B. The Government Printing Works will not be held responsible for the quality of "Hard Copies" or "Electronic Files" submitted for publication purposes

ISSN 1682-5845

9 771682 584003 53662

AIDS HELPLINE: 0800-0123-22 Prevention is the cure

Focus and approach:

1) **Integrated governance structures:**

Fragmentation in the IBDS ecosystem stems from unclear roles and responsibilities among stakeholders. By establishing integrated governance structures, this focus area creates a unified framework that defines the roles, responsibilities, and coordination mechanisms for all stakeholders. These structures eliminate overlaps, reduce inefficiencies, and ensure that both public and private sector entities work collaboratively toward shared goals. This foundational framework also fosters trust and alignment, creating a solid basis for coordinated action.

2) **Centralised communication and collaboration platforms:**

One of the key barriers to effective coordination is the lack of streamlined communication systems. The integrated digital platform provides a common space for stakeholders to share information, track progress, and collaborate efficiently. It reduces duplication of efforts, enhances transparency, and enables real-time decision-making.

By facilitating seamless communication across different levels of government and private sector entities through the established mechanisms, this focus area ensures that IBDS are delivered in a timely and consistent manner.

3) **Stakeholder engagement and partnerships:**

The participation of diverse stakeholders is critical to addressing complex challenges in the IBDS ecosystem. By fostering public-private partnerships and creating multistakeholder task forces, this focus area ensures the pooling of resources, expertise, and networks. This collaborative approach aligns public sector policy priorities with private sector innovations, ensuring that the needs of small enterprises are met effectively. Partnerships also promote knowledge sharing and co-creation of solutions tailored to specific sectors and regions.

4) **Monitoring and accountability mechanisms:**

Weak implementation and coordination often result from a lack of oversight and accountability. This focus area strengthens monitoring and accountability mechanisms to track stakeholder performance and ensure compliance with the IBDS mandate. By setting clear performance indicators, regular evaluations, and transparent reporting, stakeholders are held accountable for their roles. This focus area fosters a culture of responsibility and continuous improvement, ensuring that coordination efforts translate into tangible outcomes for small enterprises**.**

Regional and local coordination mechanisms are vital to bridging the gap between national small business policies and localised implementation. By leveraging existing provincial and local structures and business chambers, along with fostering collaboration through public-private partnerships and community-based organisations, the small business ecosystem can create tailored, effective solutions that meet the diverse needs of small enterprises. Strengthening these mechanisms ensures more inclusive, efficient, and impactful small business development.

This gazette is also available free online at **www.gpwonline.co.za**

4.2. TARGET BENEFICIARIES AND STAKEHOLDERS

Target markets and stakeholders will be identified to support national and provincial economic policies and priorities outlined in the NDP, District Development Model one-plans, and sector masterplans.

4.2.1. Beneficiaries

The primary beneficiaries of the IBDS Policy Framework are small enterprises at various stages of development, particularly early-stage entrepreneurs, startups, and small enterprises with growth ambitions. With a strong emphasis on inclusivity and capacity building to drive sustainable growth and meaningful economic participation, the framework is designed with specific considerations for:

1) **Small enterprises:** Focus on micro enterprises, particularly those in townships, rural areas, and those owned by women, youth, persons with disabilities, and military veterans.

2) **Growth-oriented small businesses:** Tailored support for small enterprises in priority sectors, including value chain assessments to facilitate meaningful industry participation.

3) **Co-operative banking sector:** Strengthen capacity and improve operational efficiency through innovation and technology to enhance financial inclusion.

4.2.2. Stakeholders and Partnerships

The IBDS Policy Framework emphasises the critical role of diverse stakeholders:

1) **The state and its agencies:** Including those responsible for small business development, trade, industry, and education.

2) **Provincial and municipal development agencies:** Provincial and local partners in facilitating the implementation of national strategies at local and regional levels.

3) **IBDS and skills development providers:** Implement national policies and strategies and provide IBDS, advice, and support to beneficiaries.

4) **Private sector partners:** Corporates, financial institutions, and industry bodies involved in IBDS and ESD.

5) **Academic and research institutions:** Universities and research organisations contributing to innovation and professionalisation.

6) **Skills development institutions (e.g., SETA**, **SAQA**, **QCTO)** and professional bodies involved in skills development, education, certification, continuous development, quality assurance, and training regulation in South Africa.

7) **Community organisations and NGOs:** Local bodies supporting entrepreneurial development, particularly in underserved areas.

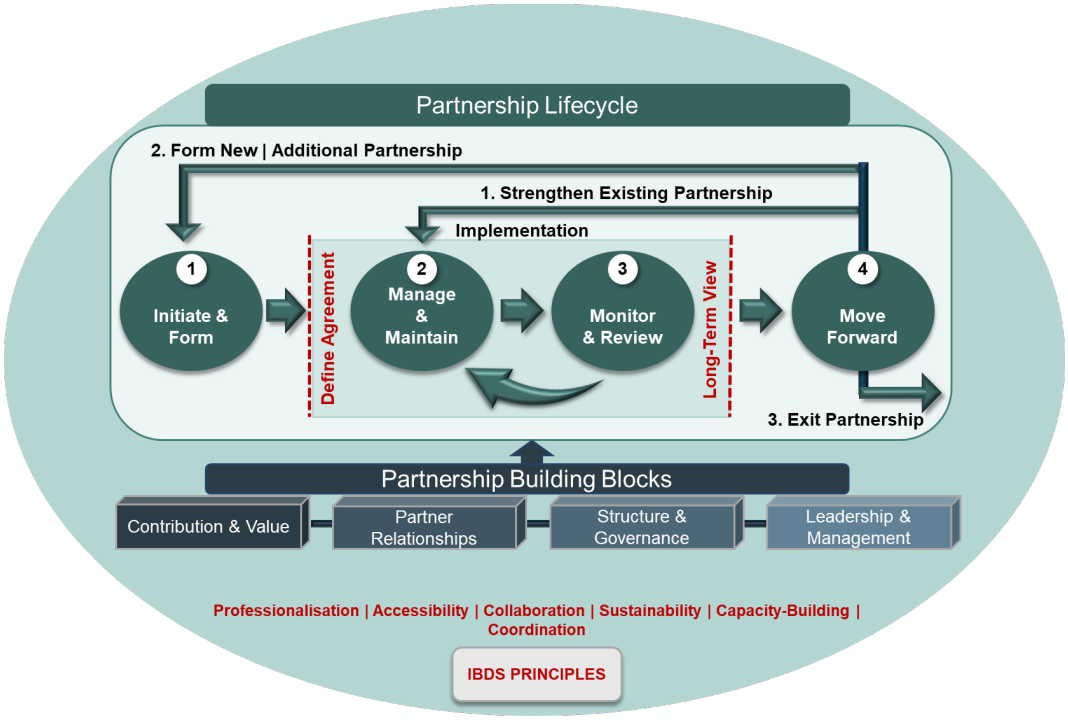

Effective stakeholder management focuses on building strong relationships and aligning expectations. Not all stakeholders are suitable partners and partnerships may vary in

This gazette is also available free online at **www.gpwonline.co.za**

effectiveness. Successful partnerships require shared goals, value creation, and compatibility between partners, with a focus on collaborative advantages.

In the context of IBDS, partnerships can range from high-level strategic alliances to localised initiatives, but the core processes of building and maintaining them are universally applicable. Despite challenges, resilient and committed partnerships can drive notable change.

Figure 4: IBDS Partnership Model

Source: Adapted from Partnership Model adopted in the achievement of the Sustainable Development Goals[14]

The IBDS Partnership Model provides a structured approach to managing partnerships with a clear lifecycle:

1) **Initiate and form:** Identify and engage stakeholders, develop a shared vision, and formalise commitments through agreements or memoranda of understanding.

2) **Manage and maintain:** Develop action plans aligned with long-term goals, build strong relationships, and address potential obstacles.

3) **Monitor and review:** Regularly assess partnership performance, measure value creation, and adapt as needed.

4) **Moving forward:** Based on review outcomes, decide to exit, strengthen, scale, or reimagine the partnership.

Key elements for the success of a partnership include ensuring that the partnership creates value greater than the sum of individual efforts, building strong relationships based on equity and

[14] *United Nations and Partnership Initiative. "The SDG Partnership Guidebook". United Nations, 2020*

This gazette is also available free online at **www.gpwonline.co.za**

transparency, establishing flexible yet accountable governance structures, and employing effective leadership and management strategies.

The IBDS Policy Framework, through the IBDS Partnership Model, outlines a comprehensive approach to forming, managing, and sustaining cross-sectoral partnerships, ensuring they drive meaningful and transformative change in the IBDS ecosystem.

4.3. RESOURCE CONSIDERATIONS

To implement the IBDS Policy Framework, consideration should be given the following resources:

1) **Human resources**:

   a) For IBDS providers and practitioners, invest in the upskilling and accreditation of IBDS providers, ensuring they meet the standards required to deliver effective support. This includes continuous professional development opportunities to keep practitioners updated on the latest industry trends and methodologies.

   b) For small enterprises and enterprise owners, allocate resources to develop and deliver training programmes aimed at the professionalisation of small enterprise owners. This will include workshops, mentoring, and access to online resources that cover essential business management skills and industry-specific knowledge.

2) **Financial resources**: Secure sustainable funding from government, private sector, and international donors. Develop funding models that ensure long-term viability.

3) **Technological resources**: Invest in information technology (IT) infrastructure and advanced technologies to support the centralised digital platform and digital service delivery, ensuring broad accessibility and effective data management.

4) **Physical resources:** Ensure that incubation centres, BDS offices, and other physical infrastructure are adequately equipped to deliver high-quality services.

4.4. ROLES AND RESPONSIBILITIES

The IBDS ecosystem relies on a diverse set of stakeholders, each playing a critical role in fostering a thriving small enterprise environment.

1) **The government** sets the strategic direction by formulating policies, providing funding, and ensuring alignment with national development goals.

2) **Government agencies, such as DSBD and SEDFA**, serve key roles in the implementation of the IBDS Policy. DSBD is positioned to oversee and enable the delivery of IBDS to improve accountability, enforce service quality, and ensure compliance across the ecosystem; and SEDFA is strategically positioned to lead and strengthen cross-sectoral partnerships and coordination efforts across national, provincial, and local levels, leveraging resources and sharing risks to maximise the impact within the IBDS ecosystem.

3) **Provincial and local government development agencies** localise these initiatives by aligning them with regional priorities, supporting local development and facilitating infrastructure development.

This gazette is also available free online at **www.gpwonline.co.za**

4) The **private sector** contributes through partnerships, supply chain integration, and mentoring, leveraging its resources and networks to enable market access for small enterprises.

5) **Educational institutions and research organisations** enhance the ecosystem by providing training, capacity building, and sector-specific expertise, while **industry associations** and **chambers of commerce** advocate for small-enterprise-friendly policies and facilitate networking opportunities.

6) Additionally, **financial institutions and development finance entities** support small enterprises with funding mechanisms tailored to their growth needs, and **regulatory bodies** ensure compliance and standardisation within the ecosystem.

Together, these stakeholders create a cohesive and supportive framework that equips small enterprises with the resources, knowledge, and networks needed to scale, innovate, and contribute to economic transformation.

The delineation of roles and responsibilities for implementing the IBDS Policy Framework is discussed in more detail in Annexure B.

4.5. POLICY COMMUNICATION

Communication plays a crucial role in the implementation of the IBDS Policy Framework. Its functions include:

1) **Stakeholder engagement:**

   a) **Building relationships**: Establish and nurture relationships with key stakeholders, including government agencies, private sector partners, service providers, and small enterprises.

   b) **Information sharing**: Disseminate relevant information about the policy framework and its objectives and available services to ensure stakeholders are well-informed and aligned.

   c) **Feedback collection**: Implement channels for stakeholders to provide feedback, raise concerns, and suggest improvements, ensuring that the policy framework remains responsive and effective.

2) **Awareness and outreach:**

   a) **Marketing campaigns**: Develop and execute marketing strategies to increase awareness of the policy framework and its benefits, targeting both potential beneficiaries and service providers.

   b) **Educational initiatives**: Conduct workshops, webinars, and seminars to educate small enterprises and service providers about the policy framework, its components, and how to access the available support.

   c) **Public relations**: Manage public relations efforts to highlight successes, share success stories, and build a positive image of the policy framework.

This gazette is also available free online at **www.gpwonline.co.za**

3) **Internal communication:**

   a) **Coordination and alignment**: Ensure effective communication among SEDFA, DSBD, provincial hubs, service providers, and other stakeholders to align efforts and prevent duplication.

   b) **Information flow**: Facilitate the smooth flow of information between various levels of the organisation and between different stakeholders, ensuring that everyone is up-to-date and working towards common goals.

   c) **Training and support**: Provide ongoing communication support for training initiatives, ensuring that staff and service providers have the information and resources needed to implement the policy effectively.

4) **Monitoring and reporting:**

   a) **Progress updates**: Communicate progress and outcomes to stakeholders through regular reports and updates, ensuring transparency and accountability.

   b) **Impact measurement**: Share insights and data on the impact of the policy framework, using communication tools to highlight achievements and areas for improvement.

   c) **Crisis management**: Develop strategies for managing communication during challenges or crises, ensuring that stakeholders are informed and reassured about the steps being taken to address issues.

5. POLICY GOVERNANCE

Nomfezeko to provide governance requirements for the policy once finalised.

5.1. POLICY PERFORMANCE REPORTING AND ACCOUNTABILITY

The implementation of the IBDS Policy Framework is guided by the distinct roles of the DSBD and SEDFA:

1) DSBD provides strategic oversight, ensuring alignment with national priorities, such as the NDP and medium-term development plans. The department is responsible for resource mobilisation, partnership building, and overseeing the overall implementation of the framework. It regularly reports on progress, resource allocation, and the impact of the IBDS initiatives on economic inclusion and job creation.

2) SEDFA, as the primary implementing agent, manages the delivery of incubation, BDS, personal initiative training, and ESD services across all regions. The agency ensures coordinated and integrated service delivery through a centralised digital platform, enhancing accessibility and effectiveness. SEDFA is also responsible for capacity building, improving service quality through targeted training and infrastructure upgrades. It reports regularly to DSBD on implementation progress, performance, and impact, providing data-driven insights to inform policy adjustments and ensure continued alignment with national goals.

This gazette is also available free online at **www.gpwonline.co.za**

5.1. POLICY RISK ASSESSMENT AND MITIGATION STRATEGY

Risks to the realisation of the IBDS Policy framework are identified as follows:

Outcome	Associated Risk	Mitigation Strategies
Outcome 1: Increased participation of small enterprises from underserved areas in IBDS, leading to increased participation in economic activities and narrowing gaps in service delivery	Limited adoption of digital platforms	▪ Provide training programmes on digital tools and platforms ▪ Partner with telecommunication providers to subsidise internet access for small enterprises ▪ Implement comprehensive training and awareness campaigns ▪ Ensure blended service delivery with traditional methods ▪ Develop partnerships to improve digital infrastructure in underserved areas
	High cost of expanding physical and mobile infrastructure	▪ Leverage partnerships with local governments, NGOs, and the private sector for cost-sharing ▪ Prioritise high-need areas for phased infrastructure deployment
	Struggles in effectively reaching and serving small enterprises in rural and underserved areas	▪ Establish outreach centres and local service centres ▪ Implement targeted outreach programmes ▪ Partner with local community organisations and NGOs
	Limited awareness among small enterprises	▪ Implement localised outreach through community networks and local business chambers ▪ Use a combination of traditional and digital media channels to expand reach
	Inefficiencies in service coordination	▪ Develop a centralised coordination framework and monitoring system ▪ Regularly engage stakeholders to align objectives and streamline processes
Outcome 2: Targeted, sector-specific IBDS that addresses industry needs and growth stages, leading to faster scaling, improved innovation, and	Limited sector-specific expertise	▪ Partner with academic institutions and industry leaders to provide sector-specific training ▪ Develop sectoral frameworks with input from experts to guide service delivery
	Insufficient access to funding and financial support	▪ Secure diverse funding sources, including government, private sector, and international donors ▪ Promote sustainable financing models

This gazette is also available free online at **www.gpwonline.co.za**

Outcome	Associated Risk	Mitigation Strategies
greater competitiveness		▪ Ensure efficient and transparent resource allocation ▪ Implement financial literacy programmes
	Barriers to market access and value chain integration	▪ Offer technical assistance to meet certification and quality standards and subsidised certification programmes ▪ Organise supply chain networking events to connect small enterprises with larger enterprises
	Resistance to innovation and technology adoption	▪ Provide financial incentives for technology adoption ▪ Establish digital hubs and innovation centres to offer hands-on training and exposure
Outcome 3: Improved standardisation and quality of IBDS service provision, aligned with global best practice	Inconsistent adherence to national standards	▪ Develop an accreditation system with gradual implementation to allow for adaptation ▪ Provide capacity-building programmes to help providers meet compliance requirements
	Gaps in knowledge sharing and best practices	▪ Create a centralised knowledge-sharing platform for IBDS providers ▪ Host regular conferences and workshops for sharing best practices and innovations
	Lack of the necessary skills, knowledge, and standards among IBDS providers and small enterprises	▪ Implement a national professionalisation framework for IBDS providers ▪ Develop tailored professionalisation programmes for small enterprises ▪ Establish ongoing evaluation and feedback mechanisms
	Resistance and/or delays in professionalisation	▪ Provide clear pathways and incentives for IBDS providers to become accredited ▪ Develop partnerships with educational institutions to create accessible certification programmes
Outcome 4: Improved coordination across government and private sector stakeholders, leading to more cohesive and effective service delivery for small enterprises	Fragmentation and role overlaps	▪ Establish integrated governance structures with clearly defined roles for each stakeholder ▪ Regularly review and update governance frameworks to ensure alignment with IBDS goals
	Limited buy-in from the private sector	▪ Simplify processes for establishing public-private partnerships and offer tax incentives for private sector participation ▪ Actively involve private sector stakeholders in policy discussions to align goals

This gazette is also available free online at **www.gpwonline.co.za**

Outcome	Associated Risk	Mitigation Strategies
	Failure to establish effective public-private partnerships limiting the impact on ESD and market access	▪ Develop structured partnership models ▪ Introduce incentives for private sector participation ▪ Regularly monitor and review the effectiveness of public-private partnerships
	Weak monitoring and accountability mechanisms	▪ Develop performance-based key performance indicators and integrate them into stakeholder agreements ▪ Use digital tools to track progress and ensure transparency in reporting

The following are general mitigation strategies across all the intermediate outcomes:

1) **Build capacity:** Regularly train stakeholders (including government officials, IBDS providers, and small enterprises) to enhance their capabilities and understanding of the ecosystem.

2) **Mobilise resources:** Leverage partnerships with donors, international organisations, and the private sector to secure funding and technical expertise.

3) **Utilise technology:** Invest in digital platforms for efficient service delivery, monitoring, and coordination.

4) **Stakeholder engagement:** Foster regular engagement through forums, task forces, and public-private working groups to maintain alignment and resolve challenges proactively.

5) **Utilise pilot programmes:** Test new initiatives on a small scale before full implementation to identify risks and refine strategies.

6. POLICY MONITORING, EVALUATION, AND REVIEW

Policy monitoring, evaluation, and continuous improvement are important to track progress, assess impact, and adapt the policy framework to ensure it remains relevant and effective. Key considerations are to enable:

1) **Real-time monitoring**: Utilising the centralised digital platform to monitor service delivery and outcomes in real time, allowing for quick adjustments as needed.

2) **Impact metrics**: Define and track key performance indicators, such as reach, service quality, business success rates, and regional inclusivity.

3) **Adaptive policymaking**: Regularly review data and feedback to refine the policy framework, ensuring that it continues to meet the evolving needs of small enterprises across South Africa.

This gazette is also available free online at **www.gpwonline.co.za**

6.1. PROGRAMME PERFORMANCE MEASUREMENT INDICATORS

The success of the IBDS Policy depends on the ability to measure its progress and effectiveness across a diverse range of activities, interventions, and outcomes.

The following table provides a set of indicative key performance indicators, designed as a guideline for measuring the performance and impact of the IBDS Policy implementation.

The key performance indicators are structured to address multiple dimensions of the IBDS ecosystem, including access to services, quality of delivery, sectoral alignment, innovation, market access, and stakeholder coordination. By monitoring these type of indicators, stakeholders can gain actionable insights to inform decision making, enhance accountability, and identify opportunities for continuous improvement.

Focus Areas	Key Performance Indicator
Coordination and integration	▪ **Stakeholder engagement levels**: Monitor the number and quality of partnerships and collaborations established among stakeholders, including public and private sectors ▪ **Coordination efficiency**: Assess the effectiveness of coordination efforts by tracking instances of duplication and alignment across services and regions ▪ **Number of alumni engaged in mentorship or investment:** The number of former incubation participants who return to provide mentorship or invest in newer enterprises ▪ **Number of partnerships established with industry:** The total number of partnerships formed with corporations, industry associations, or research institutions to provide additional resources to incubated businesses
Technology and digital platform performance	▪ **Platform utilisation rates**: Measure the number of users and frequency of use of the centralised digital platform for accessing support services ▪ **Technical performance metrics**: Track the performance of digital tools, including uptime, response times, and user satisfaction with the technology
Access and outreach	▪ **Number of small enterprises served**: Track the total number of small enterprises that access financial and non-financial support services through the centralised digital platform and provincial hubs ▪ **Geographical reach**: Measure the percentage of rural and underserved areas covered by support services, ensuring equitable access across regions
Service utilisation and quality	▪ **Service usage rates:** Monitor the number of services accessed per enterprise, including IBDS, personal initiative training, and ESD, to gauge engagement and utilisation ▪ **Client satisfaction scores:** Collect feedback from beneficiaries on the quality of services received, using surveys and rating systems to assess satisfaction levels

This gazette is also available free online at **www.gpwonline.co.za**

Focus Areas	Key Performance Indicator
Sector-specific incubation hubs	▪ **Participant retention rate:** The percentage of enrolled enterprises that remain active throughout the incubation period ▪ **Number of enterprises enrolled:** The total number of startups and small enterprises enrolled in the sector-specific incubation programme over a specific period ▪ **Percentage of participants from underserved areas:** The proportion of enterprises enrolled that come from rural or marginalised areas
Pre-investment and post-investment support	▪ **Pre-investment readiness**: Measure the percentage of enterprises that achieve investment readiness as a result of IBDS support ▪ **Post-investment success rates**: Track the survival rate (12 months, 24 month, and 36 months) and growth metrics of enterprises that have received post-investment support, including revenue growth and job creation ▪ **Percentage of enterprises scaling operations:** The proportion of enterprises that expand their operations, increase production, or enter new markets during or after incubation ▪ **Percentage of businesses transitioning to growth-stage:** The proportion of enterprises that successfully transition from early-stage to growth-stage, as measured by revenue, team size, or market expansion
Market access and value chain linkages	▪ **Percentage of enterprises expanding into new markets:** The proportion of businesses that enter new domestic or international markets during or after the incubation programme ▪ **Number of value chain linkages facilitated:** The total number of connections made between incubated enterprises and new buyers, distributors, or supply chain partners ▪ **Enterprise participation in trade shows or exhibitions:** The number of enterprises that attend or exhibit at trade fairs or international market platforms facilitated by the programme
Knowledge sharing and continual development	▪ **Number of knowledge-sharing platforms established:** The total number of digital or physical platforms (e.g., intranets, learning management systems, and resource hubs) created for knowledge dissemination ▪ **Utilisation rate of knowledge platforms:** The percentage of incubated businesses and service providers actively using knowledge-sharing platforms (e.g., number of logins, downloads, or content views)
Access to finance and investment	▪ **Number of enterprises receiving external funding:** Number of businesses that secure external financing (e.g., grants, loans, venture capital) during or after incubation ▪ **Total value of investment raised:** The total amount of capital raised by incubated enterprises from investors, lenders, or grants during or after incubation ▪ **Percentage of enterprises accessing growth capital:** The proportion of incubated enterprises that secure growth-stage capital after completing the programme

This gazette is also available free online at **www.gpwonline.co.za**

Focus Areas	Key Performance Indicator
	▪ **Number of linkages with financial institutions:** The number of formal partnerships established between the incubation programme and banks, venture capital firms, and microfinance institutions to support enterprise financing
Professionalisation of IBDS providers	▪ **Number of IBDS providers accredited:** Measure the number of IBDS providers accredited for compliance with the national accreditation framework and standards ▪ **Percentage of qualified and certified IBDS practitioners:** Proportion of IBDS practitioners qualified and professionally certified due to continuous professional development
Compliance with national quality standards	▪ **Adherence to national standards:** Measure the percentage of providers fully aligned with national standards ▪ **Compliance with sector-specific requirements:** Measure the percentage of programmes that integrate sector-specific requirements as the dominant part of the service offering
Capacity building and training	▪ **Completion rate:** The percentage of registered participants who complete the full training programme ▪ **Improvement in skills and knowledge**: Assess the effectiveness of training programmes by measuring the improvement in skills and knowledge among participants
Innovation and commercialisation	▪ **Number of innovations commercialised**: Count the number of new products or services developed and brought to market through incubation support ▪ **Partnerships with research institutions**: Monitor the number of collaborations established between incubation centres and research institutions or universities ▪ **Product or service innovation rate**: Percentage of enterprises that launch new products or services or significantly improve existing ones as a result of incubation support

The indicative set of indicators provide the foundation to inform the development of integrated sector-wide indicators, as part of the policy monitoring and reporting process below.

6.2. POLICY MONITORING AND REPORTING PROCESS

The DSBD is tasked with overseeing, monitoring, and evaluating the implementation of the IBDS Policy Framework. In collaboration with SEDFA, the DSBD will execute an integrated Monitoring, Evaluation, Research, and Learning Strategy. This strategy is designed to foster a culture of continuous improvement within both DSBD and SEDFA, ensuring that all activities are driven by data and evidence-based management.

This gazette is also available free online at **www.gpwonline.co.za**

Key components of this strategy will include:

1) **Regular needs assessments:** Conduct systematic assessments of the business development support requirements of small enterprises. These assessments will inform the design, methodologies, and delivery of BDS programmes, ensuring they are tailored to the evolving needs of these enterprises.

2) **Standardised monitoring and evaluation system:** Implement a standardised IBDS monitoring and evaluation system with appropriate tools to measure and evaluate the impact of IBDS on beneficiaries. This system will ensure consistent and accurate tracking of outcomes.

3) **Data and knowledge sharing mechanisms:** Establish robust mechanisms for collecting, classifying, curating, and disseminating relevant local and international data, research, and knowledge. This will be done in collaboration with reputable and representative IBDS stakeholders.

4) **Alignment with reporting requirements:** Ensure that monitoring and evaluation processes align with DSBD's data reporting requirements concerning IBDS, integrating monitoring and evaluation seamlessly into all DSBD and SEDFA programmes. This alignment will support a learning-oriented approach and facilitate consistent performance enhancement.

5) **Market assessments and intelligence:** Conduct annual assessments of the IBDS market to evaluate the performance and impact of BDS on small enterprises. These assessments will provide critical insights into the effectiveness of IBDS provision and identify areas for improvement.

6) **Development of e-learning and knowledge platforms:** Undertake the development of an e-learning platform and an online knowledge database to promote best practices, shared learning, and formal educational programmes, thus enhancing the overall capacity of IBDS providers.

Through this structured approach, the DSBD, with the support of SEDFA, will ensure that the IBDS Policy Framework is implemented effectively, contributing to the sustainable growth and development of small enterprises.

6.3. POLICY EVALUATION

DSBD will plan for and conduct an implementation evaluation of the IBDS Policy Framework in the fifth year of implementation to inform review of the IBDS Policy Framework.

6.4. POLICY REVIEW

The IBDS Policy Framework will be reviewed in the fifth year of implementation. However, non-material amendments to implementation considerations and templates may happen regularly based on discovery of best implementation practices.

This gazette is also available free online at **www.gpwonline.co.za**

7. CONCLUSION

This enhanced policy framework positions the DSBD, acting through its implementation agent SEDFA, as the central coordinating body for a national entrepreneurship development ecosystem. By leveraging technology, particularly generative artificial intelligence, and focusing on inclusive access through a common digital entry point, SEDFA can effectively support small enterprises across South Africa, ensuring equitable growth and economic development, especially in rural and underserved communities.

ANNEXURES

ANNEXURE A: INSTITUTIONAL FRAMEWORK FOR INCUBATION AND BUSINESS DEVELOPMENT SERVICES DELIVERY

This gazette is also available free online at www.gpwonline.co.za

ANNEXURE B: STAKEHOLDER ROLES AND RESPONSIBILITIES

Role Player	Role	Responsibility
Government	Sets the strategic direction	▪ Policy approval, providing funding, and ensuring alignment with national development goals
DSBD	Strategic oversight and policy formulation	▪ Provide overarching guidance and direction, ensuring that the IBDS Policy Framework aligns with national priorities for small enterprise development, economic inclusion, and job creation as outlined in NDP and five-year medium-term development plans ▪ Foster an enabling environment for the growth and sustainability of small enterprises, including tax incentives, regulatory frameworks, and business-friendly legislation
	Resource mobilisation and partnership building	▪ Secure and allocate resources, including financial, human, and technological assets ▪ Build partnerships with the private sector, government agencies, and international organisations to create a cohesive support ecosystem for small enterprises
	Monitoring, evaluation, and coordination	▪ Oversee the implementation of the IBDS Policy Framework, ensuring compliance to standards, effective coordination among stakeholders, tracking progress, and making data-driven adjustments to optimise the impact of the policy on small enterprise growth and sustainability
SEDFA	Centralised service delivery and coordination	▪ Act as the primary policy implementing agent, managing the delivery of IBDS and ESD services ▪ Ensure coordinated and integrated support across all regions, leveraging technology to provide a common entry point experience for small enterprises.
	Financial support	▪ Provide financial support through grants, subsidies, and low-interest loans to support incubation and business development
	Capacity building and support	▪ Enhance the capabilities of service providers and stakeholders by training personnel, upgrading infrastructure, and implementing technology solutions to improve service quality and effectiveness
	Implementation and impact measurement	▪ Oversee the execution of the IBDS Policy Framework, monitoring performance and assessing the impact of services

This gazette is also available free online at www.gpwonline.co.za

Role Player	Role	Responsibility
		▪ Use data-driven insights to refine strategies, ensure alignment with national priorities, and drive continuous improvement in supporting small enterprise growth
Provincial government and agencies	Align IBDS programmes with regional economic priorities	▪ Enhance the capabilities of service providers and stakeholders by training personnel, upgrading infrastructure, and implementing technology solutions to improve service quality and effectiveness
	Resource mobilisation and partnership building	▪ Secure and allocate resources, including financial, human, and technological assets ▪ Build partnerships within growth sectors to create a cohesive support ecosystem for small enterprises
	Capacity building and Support	▪ Enhance the capabilities of service providers and stakeholders within the province by training personnel, upgrading infrastructure, and implementing technology solutions to improve service quality and effectiveness
Local government and agencies	Implement local economic development initiatives	▪ Identify local economic opportunities and create local economic development strategies tailored to their local context, focusing on sectors or industries with growth potential in the community ▪ Streamline the process for obtaining business licenses, permits, and zoning approvals, reducing administrative burdens on small enterprise ▪ Offer clear guidance and support to help small enterprises understand and comply with health, safety, and environmental regulations, providing them with necessary assistance to meet standards ▪ Drive infrastructure development ▪ Establish one-stop-shop service points to support small enterprises ▪ Host local events
	Facilitate access to infrastructure and financial resources	▪ Collaborate with banks, microfinance institutions, and development finance entities to create loan schemes or grants accessible to small enterprises ▪ Allocate municipal funds to provide small grants or microloans for small enterprises, particularly those in high-priority sectors or underserved communities ▪ Invest in or provide space and resources for local incubation centres, digital hubs, or innovation labs that offer funding, training, and mentorship to small enterprises

This gazette is also available free online at www.gpwonline.co.za

Role Player	Role	Responsibility
		▪ Develop and maintain dedicated business parks, industrial zones, and commercial areas that offer affordable facilities and space for small enterprises
	Support underserved small enterprises through coordination and integration	▪ Act as intermediaries, aligning local needs with national policies and priorities ▪ Facilitate communication between small enterprises, SEDFA, and other stakeholders to ensure cohesive and effective support services ▪ Work with higher levels of government to advocate for small business-friendly policies and adjustments in regulations that may impact local businesses
	Provide direct access to IBDS at the community level.	▪ Serve as regional centres for delivering IBDS, ensuring that small enterprises in diverse geographical areas have access to tailored, relevant support and resources ▪ Focus on building local capacity by providing training, resources, and networking opportunities ▪ Strengthen regional ecosystems by connecting small enterprises with mentors, trainers, partners, and funding opportunities
	Promote local market access and networking opportunities	▪ Organise local markets, trade shows, and exhibitions that allow small enterprises to showcase their products and services to local customers, larger businesses, and investors ▪ Establish policies, incentives, and support programmes that encourage value chain integration ▪ Host or support business networking events where small enterprises can connect with each other and larger corporations, fostering collaborations and partnerships ▪ Facilitate connections between small enterprises and larger corporations or value chains by partnering with industry associations and regional development agencies
Private sector	Supplier development programmes, value chain integration, and market access	▪ Support small enterprises in becoming reliable suppliers through technical assistance, training, and capacity-building initiatives ▪ Facilitate market access for small enterprises through procurement, supply chain integration, and partnership opportunities
	Mentorship and knowledge sharing	▪ Offer insights, advice, and resources to small enterprises often in the form of corporate-sponsored mentorship programmes

Role Player	Role	Responsibility
	Corporate social investment and funding	▪ Provide financial support for small enterprises that need resources to upgrade their operations, ensuring they can meet the production volume and quality standards of the corporation
Non-governmental partners	Collaborative development and support	▪ Contribute expertise, resources, and networks to enhance the effectiveness of IBDS, supporting the growth and scalability of small enterprises through joint initiatives and investments
	Market access and supply chain integration	▪ Facilitate market access for small enterprises by integrating them into corporate supply chains and providing opportunities for growth through ESD programmes
	Innovation and best practice sharing	▪ Drive innovation by sharing best practices, tools, and techniques, and by collaborating on research and development efforts to commercialise new products and services
IBDS service providers	Delivery of technical, specialised, sector-specific, and lifecycle-appropriate support	▪ Deliver targeted lifecycle-appropriate BDS, addressing the specific needs of small enterprises and helping them achieve pre-investment readiness and post-investment growth
	Capacity building and infrastructure development	▪ Enhance their own capabilities through investments in infrastructure, technology, and staff training, ensuring high-quality service delivery and effective support for small enterprises ▪ Support small enterprises to achieve necessary certifications (e.g., ISO, Hazzard Analysis and Critical Control Points (HACCP)) that are often required to integrate into specific industry value chains ▪ Conduct readiness assessments to identify gaps in small enterprise operations and provide tailored support to help them meet industry standards
	Access to resources, networks and investors	▪ Provide office space, shared services (e.g., administrative support), and other resources to reduce overhead costs ▪ Facilitate connections with investors, potential partners, and industry experts to help businesses grow and secure funding
	Mentorship and coaching	▪ Connect small enterprises with experienced mentors who provide guidance and share industry insights

This gazette is also available free online at www.gpwonline.co.za

This gazette is also available free online at www.gpwonline.co.za

Role Player	Role	Responsibility
	Technology access, innovation, and technology support	▪ Provide affordable access to digital tools, software, and infrastructure (e.g., cloud services, high-speed internet) needed by small enterprises ▪ Support small enterprises in implementing technology solutions, such as business automation, customer relationship management systems, and digital payments
	Digital skills training, cybersecurity, and data protection	▪ Offer training programmes in areas like digital marketing, data analytics, and e-commerce to improve small enterprises' digital capabilities ▪ Provide resources and training to help small enterprises protect sensitive data and establish robust cybersecurity practices
	Monitoring and evaluation	▪ Implement robust monitoring and evaluation systems to track service impact, measure outcomes, and continuously improve IBDS offerings based on feedback and performance data
Educational institutions and research organisations	Training and capacity building	▪ Develop and deliver training programmes for entrepreneurs, IBDS providers, and small enterprise employees ▪ Create modules on sector-specific expertise, financial management, market access, and innovation
	Research and development	▪ Conduct studies to identify trends, challenges, and opportunities within key sectors ▪ Provide actionable insights to guide IBDS Policy design and service delivery
	Innovation hubs and collaboration	▪ Partner with small enterprises to test and implement new technologies, products, and processes ▪ Facilitate collaboration between IBDS providers and industry stakeholders to drive innovation
	Support accreditation and certification	▪ Work with regulatory bodies to develop standardised curricula and certification programmes for IBDS providers
Industry associations and chambers of commerce	Policy advocacy	▪ Lobby for small enterprise-friendly policies, including regulatory simplifications and financial incentives ▪ Advocate for the enforcement of local procurement policies to promote small enterprise integration
	Networking and collaboration	▪ Organise trade expositions/exhibitions, networking events, and business-to-business matchmaking sessions ▪ Facilitate partnerships between small enterprises, large corporations, and government entities

This gazette is also available free online at www.gpwonline.co.za

Role Player	Role	Responsibility
	Sectoral representation	▪ Represent the interests of small enterprises within specific sectors, ensuring their unique challenges are addressed in policy discussions
	Capacity building	▪ Provide mentorship and advisory services through industry leaders and experts. ▪ Host workshops on market trends, compliance, and innovation
Financial institutions and development finance entities	Funding mechanisms	▪ Offer grants, loans, and equity financing tailored to different stages of enterprise growth ▪ Develop blended finance models to de-risk investments in high-growth but underserved sectors
	Financial readiness support	▪ Provide financial literacy and investment readiness training to small enterprises ▪ Guide small enterprises in creating bankable proposals and accessing funding opportunities
	Incentive programmes	▪ Collaborate with government to design financial incentives for small enterprises, such as tax breaks or subsidies
	Market linkages	▪ Facilitate small enterprise access to financial networks, including venture capitalists, angel investors, and crowdfunding platforms
Professional associations and regulatory bodies	Accreditation, certification and professional development	▪ Provide certification for IBDS providers and small enterprises to ensure consistent quality and professionalism ▪ Offer continuous learning opportunities, certifications, and qualifications for IBDS providers to improve their service quality
	Regulatory compliance and ethical standards	▪ Guide small enterprises on industry-specific regulations and ensure compliance through monitoring and support ▪ Develop codes of conduct and ethical guidelines to promote professionalism in the IBDS ecosystem
Alumni networks and communities of practice	Mentorship and peer support	▪ Connect alumni who have navigated similar challenges to provide guidance and mentorship to newer small enterprises
	Networking opportunities, knowledge sharing and continuous learning	▪ Create opportunities for ongoing networking with industry experts, funders, and other small enterprises ▪ Organise workshops, webinars, and collaborative projects to keep small enterprises updated on industry trends and evolving market dynamics

Role Player	Role	Responsibility
		▪ Enable small enterprises to exchange insights, best practices, and experiences through alumni meetings and online forums
NGOs and non-profit organisations	Community-based support and awareness	▪ Implement programmes that support marginalised and rural entrepreneurs, focusing on reducing barriers to entry ▪ Promote social enterprises and small enterprises that address environmental or community needs through sustainable practices ▪ Offer grants, seed funding, and resource support to small enterprises in need, particularly in underserved areas ▪ Work with local communities to raise awareness of available business resources and advocate for the needs of underserved small enterprises

This gazette is also available free online at www.gpwonline.co.za

This gazette is also available free online at www.gpwonline.co.za

ANNEXURE B: POLICY IMPLEMENTATION FRAMEWORK

Whilst the Policy Implementation Framework provides the overarching structure and guidance for achieving the policy's goals, not all problem areas identified can be addresses directly within the Policy Implementation Framework. Instead, this framework should be supported by a number of strategies and more granular implementation plans as subcomponents of the broader framework.

The Policy Implementation Framework addresses the high-level, cross-cutting interventions required to enable and coordinate the sector and to guide and drive policy implementation that are critical to the success of the entire ecosystem.

Outcome	Outputs	Key Activities		Target Group	Lead Role Player	Support Role Players	Priority	Timeline	Resources Required	Risk and Mitigation
Outcome 1: Increased participation of small enterprises from underserved areas in IBDS, leading to increased participation in economic activities and narrowing gaps in service delivery	**1.1. Operationalised integrated digital IBDS platform** ▪ Seamless access ▪ Strengthened coordination, monitoring and reporting capability ▪ Expanded digital IBDS offering	**Enable and standardise**	1.1.1. A fully operational integrated digital IBDS platform connecting small enterprises with IBDS providers and ESD services	Small enterprises, especially in underserved areas, IBDS providers	DSBD	SEDFA Private sector technology partners	High	One year to two years for platform development and rollout	Funding for platform development, IT infrastructure, technical expertise	**Risks:** ▪ Technical challenges and adoption rate **Mitigation:** ▪ Robust platform development and testing ▪ Digital literacy programmes
		Coordinate	1.1.3. Launch digital platform to stakeholders with training plan to simulate adoption and usage	Small enterprises accessing IBDS IBDS providers	DSBD SEDFA	Training providers	Medium	One year	Financial analysis, policy frameworks, legal expertise	**Risks:** ▪ Slow rollout of training plan ▪ Technological proficiency of users ▪ Low adoption and usage rate **Mitigation:** ▪ Strengthened promotional campaigns ▪ Incentivise platform adoption by IBDS service providers ▪ Collaborate with stakeholders to

Outcome	Outputs	Key Activities		Target Group	Lead Role Player	Support Role Players	Priority	Timeline	Resources Required	Risk and Mitigation
										support the implementation of training plans
	1.2 Expanded on-line IBDS offering	Implement	1.2.1. Develop and roll out an expanded digital IBDS service offering	Small enterprises, especially in underserved areas	IBDS providers	Universities, sector role players	High	One year to three years	Digital tools, partnerships with technology providers, internet access infrastructure	**Risks:** ▪ Slow rollout of expanded digital IBDS service offering **Mitigation:** ▪ Launch recognition schemes/ incentivisation initiatives to accelerate availability on digital service offering
	1.3. **Consolidated and decentralised IBDS,** especially in underserved communities	Coordinate	1.3.1. Establish collaborative partnerships (public-private partnerships) to secure funding for infrastructure development and improve digital and physical access	Small enterprises in remote or underserved areas	IBDS providers SEDFA	Local government, telecommunications companies, digital service providers, funding providers	High	One year to three years	Digital tools, partnerships with academic institutions, technology providers, internet access infrastructure	**Risks:** ▪ Lack of funding for infrastructure development ▪ Internet connectivity in rural areas ▪ Low uptake due to low digital literacy ▪ Cost of infrastructure development for localised incubation and pop-up services **Mitigation:** ▪ Consolidate existing infrastructure

This gazette is also available free online at www.gpwonline.co.za

Outcome	Outputs	Key Activities		Target Group	Lead Role Player	Support Role Players	Priority	Timeline	Resources Required	Risk and Mitigation
										▪ Partnerships with telecommunications to improve internet ▪ Digital literacy training ▪ Partnerships with financial providers
		Implement	1.3.2. Establish localised IBDS access points, including mobile pop-up incubation hubs, focused on high-potential industries (i.e., green technology and health technology, local manufacturing) in target communities	Small enterprises in high-growth sectors (e.g., green technology and health technology)	IBDS providers	Private sector partners, industry associations, sector-specific experts, local government, logistics	High	Phased – two years to four years (site development, sector-specific resourcing)	Funding for hub infrastructure, specialised equipment and resources, sector-specific expertise, mobile units, technology, local government support	**Risks:** ▪ Lack of financial sustainability for hubs ▪ Inadequate specialisation based on sector needs ▪ High logistical costs ▪ Challenges with standardised quality in mobile units **Mitigation:** ▪ Develop tailored financial models for sustainability ▪ Regular, sector feasibility studies ▪ Pilot studies ▪ Partnerships to reduce costs of mobile and pop-up access points
	1.4. **Outreach and awareness** of IBDS service offering improved	**Coordinate**	1.4.1. Collaborate with regional and local stakeholders to promote available IBDS	Small enterprises in remote or underserved areas	IBDS providers SEDFA	Local NGOs, community-based organisations, municipalities	High	One year	Coordination budget, partnerships	**Risks:** ▪ Insufficient engagement from local organisations **Mitigation:**

ANNEXURE C: PROPOSED SUPPORTING STRATEGIES TO DRIVE INCUBATION AND BUSINESS DEVELOPMENT SERVICES POLICY IMPLEMENTATION

To effectively drive the implementation of the IBDS Policy intentions, several supporting strategies and implementation plans must be developed or refined to align to the IBDS Policy. These documents will operationalise the policy, translating high-level goals into actionable steps and ensuring alignment across stakeholders and sectors.

The following list of supporting strategies provide a guideline for implementation and should not be treated as an all-inclusive list.

SECTOR-FOCUSED AND HYBRID INCUBATION AND DIGITAL HUB SUPPORT STRATEGY

Purpose:

To create a conducive environment for the incubation community to provide comprehensive, high-quality support for startups and early-stage businesses, ensuring they build sustainable business models and are prepared for growth.

Key components:

1) Leverage support for high-impact incubation centres.
2) Infrastructure modernisation and development.
3) Strengthened collaboration for quality support.
4) Strengthened sector-specific incubation models.
5) Increased access to incubation support.
6) Commercialisation of innovative solutions.

FUNDING AND RESOURCE MOBILISATION STRATEGY

Purpose:

Ensure sustainable financing and resource availability to implement the policy.

Key components:

1) Blended financing models combining government funding, private sector contributions, and donor and/or grant funding.
2) Incentives for private sector participation, e.g., tax benefits, corporate social responsibility alignment).
3) Mechanisms for financial sustainability, such as cost-sharing and tiered pricing models.

This gazette is also available free online at **www.gpwonline.co.za**

DIGITAL TRANSFORMATION AND EQUITY STRATEGY

Purpose:

Enable the integration of digital tools to improve accessibility and efficiency while addressing digital inequities.

Key components:

1) Digital infrastructure rollout, particularly in underserved areas.
2) Affordable or subsidised internet access programmes for small enterprises.
3) Development and maintenance of the integrated IBDS digital platform.
4) Digital literacy and skills training programmes.

SECTOR-SPECIFIC DEVELOPMENT STRATEGIES

Purpose:

Tailor IBDS to the needs of prioritised and high-growth sectors.

Key components:

1) Detailed strategies for high-growth sectors, e.g., agriculture, technology, green economy, and manufacturing.
2) Sector-specific incubation programmes, partnerships, and funding opportunities.
3) Roadmaps for value chain integration and market access within each sector.
4) Engage with industry associations and chambers of commerce to design sector-specific programmes.
5) Develop key performance indicators and metrics to track sectoral progress.
6) Pilot sector-focused initiatives in collaboration with private sector stakeholders.

POST-INCUBATION SUPPORT AND ALUMNI NETWORK STRATEGY

Purpose:

Ensure long-term support for small enterprises beyond the incubation phase.

Key components:

1) Establish alumni networks and communities of practice for peer support and mentorship.
2) Provide ongoing access to funding, training, and advanced market linkages.
3) Design frameworks for monitoring post-incubation small enterprise performance and impact.
4) Create a centralised database to track and connect alumni.
5) Organise networking events and workshops for graduated enterprises.

This gazette is also available free online at **www.gpwonline.co.za**

6) Develop post-incubation mentorship programmes with corporate and industry experts.

STAKEHOLDER COORDINATION AND GOVERNANCE STRATEGY

Purpose:

Ensure alignment and collaboration among key players in the IBDS ecosystem.

Key components:

1) Formalise roles and responsibilities of government agencies, private sector players, and NGOs.
2) Establish mechanisms for conflict resolution and decision making.
3) Develop clear reporting and accountability structures.
4) Create a multistakeholder governance body to oversee implementation.
5) Define communication protocols and feedback loops for regular engagement.
6) Conduct periodic reviews to address inefficiencies and improve collaboration.

PROFESSIONALISATION AND QUALITY ASSURANCE STRATEGY

Purpose:

Build capacity and ensure consistent service quality within the IBDS ecosystem.

Key components:

1) Accreditation and certification frameworks for IBDS providers.
2) Continuous professional development programmes for practitioners.
3) National quality standards for IBDS aligned with global best practices.

MONITORING, EVALUATION, AND LEARNING FRAMEWORK

Purpose:

Track progress, evaluate outcomes, and enable adaptive implementation.

Key components:

1) Real-time data collection and reporting systems.
2) Outcome-based performance indicators for policy goals and implementation activities.
3) Mechanisms for feedback and continuous learning.

This gazette is also available free online at **www.gpwonline.co.za**

COMMUNICATION AND AWARENESS STRATEGY

Purpose:

Promote awareness of IBDS and encourage small enterprise participation.

Key components:

1) Targeted outreach campaigns for underserved areas and priority sectors.
2) Multichannel communication plans, e.g., radio, social media, and community workshops.
3) Branding and messaging to highlight the value of IBDS support.

SIMPLIFIED REGULATORY COMPLIANCE STRATEGY

Purpose:

Reduce barriers for small enterprises by streamlining regulatory requirements.

Key components:

1) Shared compliance hubs or virtual resources for small enterprises to access regulatory guidance.
2) Cost-sharing models for certifications and licensing processes.
3) Advocacy for regulatory reforms to benefit small enterprises.

INCLUSIVE GROWTH AND EQUITY STRATEGY

Purpose:

Ensure marginalised groups benefit from IBDS.

Key components:

1) Programmes targeting women, youth, and persons with disabilities.
2) Outreach and training initiatives for rural and township entrepreneurs.
3) Incentives for inclusive procurement and participation in value chains.

The above supporting strategies and implementation plans will serve to operationalise the IBDS Policy by providing actionable, detailed roadmaps for achieving the policy objectives. By addressing funding, coordination, sectoral focus, and equity, they ensure a comprehensive approach that drives systemic change and enhances the IBDS ecosystem's effectiveness and inclusivity.

56/2.2/0235	2024/06/11	TOMEXA 1000 µg/10 ml	Infusion	Pharmacorp (Pty) Ltd	EACH 10,0 ml SOLUTION CONTAINS DEXMEDETOMIDINE HYDROCHLORIDE 1000,0 µg	Annexure A
56/2.2/0233	2024/06/11	TOMEXA 200 µg/2 ml	Infusion	Pharmacorp (Pty) Ltd	EACH 2,0 ml SOLUTION CONTAINS DEXMEDETOMIDINE HYDROCHLORIDE 200,0 µg	Annexure A
56/2.2/0234	2024/06/11	TOMEXA 400 µg/4 ml	Infusion	Pharmacorp (Pty) Ltd	EACH 4,0 ml SOLUTION CONTAINS DEXMEDETOMIDINE HYDROCHLORIDE 400,0 µg	Annexure A
56/5.10/0082	2024/06/11	ZOFREMET 8 ODT	Tablet	Austell Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS ONDANSETRON 8,0 mg	Annexure A
56/5.10/0081	2024/06/11	ZOLFREMET 4 ODT	Tablet	Austell Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS ONDANSETRON 4,0 mg	Annexure A
560625	2024/06/11	XARHIB 2,5	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 2,5 mg	Annexure A
560626	2024/06/11	XARHIB 5	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 5 mg	Annexure A
560627.625	2024/06/11	XARPIX 2,5	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 2,5 mg	Annexure A
560628.626	2024/06/11	XARPIX 5	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 5 mg	Annexure A
560629.625	2024/06/11	APIXABAN 2,5 SANDOZ	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 2,5 mg	Annexure A
560630.626	2024/06/11	APIXABAN 5 SANDOZ	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 5 mg	Annexure A
56/1.2.2/1070	2024/06/11	ROCURONIUM 50 mg/5 ml KIARA	Injection	Kiara Health (Pty) Ltd	EACH VIAL CONTAINS ROCURONIUM BROMIDE EQUIVALENT TO ROCURONIUM 50,0 mg	Annexure A
56/1.2.2/1071	2024/06/11	ROCURONIUM 100 mg/10 ml KIARA	Injection	Kiara Health (Pty) Ltd	EACH VIAL CONTAINS ROCURONIUM BROMIDE EQUIVALENT TO ROCURONIUM 100,0 mg	Annexure A
56/11.4.3/0763.762	2024/06/18	LAANERO	Capsule	Hetero Drugs South Africa (Pty) Ltd	EACH CAPSULE CONTAINS LANSOPRAZOLE 15,0 mg	Annexure A
56/11.4.3/0762	2024/06/18	LANGENIX	Capsule	Hetero Drugs South Africa (Pty) Ltd	EACH CAPSULE CONTAINS LANSOPRAZOLE 15,0 mg	Annexure A
56/32.16/1039	2024/06/18	ROCUVERS	Injection	Abex Pharmaceutica (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS SUGAMMADEX 100,0 mg	Annexure A
56/21.8.2/0367	2024/06/18	SLYND	Tablet	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS DROSPIRENONE 4,0 mg	Annexure A
56/32.16/1040.1039	2024/06/18	SUBRINEX	Injection	Abex Pharmaceutica (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS SUGAMMADEX 100,0 mg	Annexure A
56/34/0115	2024/06/18	VARIMAPIX 0,5 mg	Tablet	Kahma Biotech (Pty) Ltd	EACH TABLET CONTAINS VARENICLINE TARTRATE 0,5 mg	Annexure A
56/34/0116	2024/06/18	VARIMAPIX 1 mg	Tablet	Kahma Biotech (Pty) Ltd	EACH TABLET CONTAINS VARENICLINE TARTRATE 1,0 mg	Annexure A
58/3.1/0053	2024/06/25	BIXICLEOD 100	Capsule	Macleods Pharmaceuticals SA (Pty) Ltd	EACH CAPSULE CONTAINS CELECOXIB 100,0 mg	Annexure A
58/3.1/0054	2024/06/25	BIXICLEOD 200	Capsule	Macleods Pharmaceuticals SA (Pty) Ltd	EACH CAPSULE CONTAINS CELECOXIB 200,0 mg	Annexure A
56/21.12/0245	2024/06/25	FUVISTRA	Injection	Ranbaxy Pharmaceutical (Pty) Ltd	EACH 5,0 ml SOLUTION CONTAINS FULVESTRANT 500,0 mg	Annexure A
50/21.5.1/0876	2024/06/25	DEXAMETHASONE 0,5 mg ASPEN	Tablet	Pharmacare Limited	EACH TABLET CONTAINS DEXAMETHASONE 0,5 mg	Annexure A
50/21.5.1/0877	2024/06/25	DEXAMETHASONE 4 mg ASPEN	Tablet	Pharmacare Limited	EACH TABLET CONTAINS DEXAMETHASONE 4,0 mg	Annexure A
53/11.4.3/0013	2024/06/25	PRAZANT IV	Injection	Activo Health (Pty) Ltd	EACH VIAL CONTAINS PANTOPRAZOLE SODIUM SESQUIHYDRATE EQUIVALENT TO PANTOPRAZOLE 40,0 mg	Annexure A
56/26/0931	2024/06/25	FALOXERAN	Injection	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS MELPHALAN HYDROCHLORIDE EQUIVALENT TO MELPHALAN 50,0 mg	Annexure A
56/26/0932	2024/06/25	MELPHALAN HETERO	Injection	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS MELPHALAN HYDROCHLORIDE EQUIVALENT TO MELPHALAN 50,0 mg	Annexure A
47/11.4/1001	2024/06/25	EXTERMO ANTACID SALTS REGULAR	Powder	Pharmacare Limited	EACH 5,0 g POWDER CONTAINS SODIUM BICARBONATE 2,32 g, ANHYDROUS CITRIC ACID 2,18 g & SODIUM CARBONATE 0,5 g	Annexure B
47/11.4/1002	2024/06/25	EXTERMO ANTACID SALTS ORANGE	Powder	Pharmacare Limited	EACH 5,0 g POWDER CONTAINS SODIUM BICARBONATE 2,29 g, ANHYDROUS CITRIC ACID 2,16 g & SODIUM CARBONATE 0,5 g	Annexure B
19/1.4.2/08	2024/06/25	DORMADET 40	Injection	Wildlife Pharmaceuticals (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS MEDETOMIDINE HYDROCHLORIDE 40,0 mg	Annexure A
21/3.1.2.2/25	2024/06/25	PETCAM 1,0 mg CHEWABLE TABLET	Tablet	Ascendis Animal Health (Pty) Ltd	EACH TABLET CONTAINS MELOXICAM 1,0 mg	Annexure A
21/3.1.2.2/26	2024/06/25	PETCAM 2,5 mg CHEWABLE TABLET	Tablet	Ascendis Animal Health (Pty) Ltd	EACH TABLET CONTAINS MELOXICAM 2,5 mg	Annexure A
22/24.5/10	2024/07/02	SOLENSIA	Injection	Zoetis South Africa (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS FRUNEVETAMAB 7,0 mg	Annexure A
56/7.5/0867	2024/07/02	ROSUVAKEM 5	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS ROSUVASTATIN CALCIUM EQUIVALENT TO ROSUVASTATIN 5,0 mg	Annexure A
56/7.5/0868	2024/07/02	ROSUVAKEM 10	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS ROSUVASTATIN CALCIUM EQUIVALENT TO ROSUVASTATIN 10,0 mg	Annexure A
56/7.5/0869	2024/07/02	ROSUVAKEM 20	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS ROSUVASTATIN CALCIUM EQUIVALENT TO ROSUVASTATIN 20,0 mg	Annexure A
56/7.5/0870	2024/07/02	ROSUVAKEM 40	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS ROSUVASTATIN CALCIUM EQUIVALENT TO ROSUVASTATIN 40,0 mg	Annexure A
56/15.4/0727	2024/07/02	RAVTAGON FORTE	Eye Drops	Austell Pharmaceuticals (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS TRANVOPROST 0,04 mg TIMOLOL MALEATE EQUIVALENT TO TIMOLOL 5,0 mg	Annexure A
59/1.2/0657	2024/07/02	DAZATRONE 50	Capsule	Biotech Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS TRAZODONE HYDROCHLORIDE 50,0 mg	Annexure A
59/1.2/0658	2024/07/02	DAZATRONE 100	Capsule	Biotech Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS TRAZODONE HYDROCHLORIDE 100,0 mg	Annexure A
56/20.1.1/0263	2024/07/02	AMIKACIN 500 mg/2 ml EMCURE	Injection	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH VIAL CONTAINS AMIKACIN SULPHATE EQUIVALENT TO AMIKACIN 500,0 mg	Annexure A
56/20.1.1/0264	2024/07/02	AMIKACIN 500 1 g/4 ml EMCURE	Injection	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH VIAL CONTAINS AMIKACIN SULPHATE EQUIVALENT TO AMIKACIN 1,0 g	Annexure A
56/20.1.1/0265.263	2024/07/02	AMOGLACIN 500 mg/2 ml	Injection	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH VIAL CONTAINS AMIKACIN SULPHATE EQUIVALENT TO AMIKACIN 500,0 mg	Annexure A
56/20.1.1/0266.264	2024/07/02	AMOGLACIN 1,0 g/4 ml	Injection	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH VIAL CONTAINS AMIKACIN SULPHATE EQUIVALENT TO AMIKACIN 1,0 g	Annexure A
57/21.2/0651	2024/07/02	AVAXIGA 5	Tablet	Innovata Pharmaceuticals	EACH TABLET CONTAINS DAPAGLIFLOZIN 5,0 mg	Annexure A
57/21.2/0652	2024/07/02	AVAXIGA 10	Tablet	Innovata Pharmaceuticals	EACH TABLET CONTAINS DAPAGLIFLOZIN 10,0 mg	Annexure A
56/7.1.3/0853	2024/07/02	HYPIMAK 10 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS HYDRALAZINE HYDROCHLORIDE 10,0 mg	Annexure A
56/7.1.3/0854	2024/07/02	HYPIMAK 25 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS HYDRALAZINE HYDROCHLORIDE 25,0 mg	Annexure A
56/7.1.3/0855	2024/07/02	HYPIMAK 50 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS HYDRALAZINE HYDROCHLORIDE 50,0 mg	Annexure A
56/21.12/0415	2024/07/02	FULVESTRANT SANDOZ	Injection	Sandoz South Africa (Pty) Ltd	EACH 5,0 ml SOLUTION CONTAINS FULVESTRANT 250,0 mg	Annexure A
56/20.1.2/0211	2024/07/02	AUGSPEC POWDER FOR ORAL SUSPENSION	Oral Suspension	Trinity Pharma (Pty) Ltd	EACH 5,0 ml SUSPENSION CONTAINS AMOXICILLIN TRIHYDRATE EQUIVALENT TO AMOXICILIN 600,0 mg POTASSIUM CLAVULANATE EQUIVALENT TO CALVULANIC ACID 42,9 mg	Annexure A
56/20.1.2/0212.211	2024/07/02	CO MAUG ES 600	Oral Suspension	Trinity Pharma (Pty) Ltd	EACH 5,0 ml SUSPENSION CONTAINS AMOXICILLIN TRIHYDRATE EQUIVALENT TO AMOXICILIN 600,0 mg POTASSIUM CLAVULANATE EQUIVALENT TO CALVULANIC ACID 42,9 mg	Annexure A
56/20.2.8/0876	2024/07/02	RALAVIR	Tablet	Umsebe Healthcare	EACH TABLET CONTAINS DOLUTEGRAVIR SODIUM EQUIVALENT TO DOLUTEGRAVIR 50,0 mg	Annexure A
56/20.2.8/0896	2024/07/02	NOTRIFOLAR	Tablet	Umsebe Healthcare	EACH TABLET CONTAINS EMTRICITABINE 200,0 mg TENOFOVIR DISOPROXIL FUMARATE EQUIVALENT TO TENOFOVIR DISOPROXIL 300,0 mg	Annexure A
55/2.6.5/0644	2024/07/02	ARIPIPRAZOLE 15 UNICORN	Tablet	Unicorn Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS ARIPIPRAZOLE 15,0 mg	Annexure A

55/2.6.5/0645	2024/07/02	ARIPIPRAZOLE 30 UNICORN	Tablet	Unicorn Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS ARIPIPRAZOLE 30,0 mg	Annexure A
55/2.6.5/0642	2024/07/02	ARIPIPRAZOLE 5 UNICORN	Tablet	Unicorn Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS ARIPIPRAZOLE 5,0 mg	Annexure A
55/2.6.5/0643	2024/07/02	ARIPIPRAZOLE 10 UNICORN	Tablet	Unicorn Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS ARIPIPRAZOLE 10,0 mg	Annexure A
53/2.5/0344	2024/07/09	REGAKEM 25 mg	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 25,0 mg	Annexure A
53/2.5/0345	2024/07/09	REGAKEM 75 mg	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 75,0 mg	Annexure A
53/2.5/0346	2024/07/09	REGAKEM 150 mg	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 150,0 mg	Annexure A
53/2.5/0348.344	2024/07/09	REGAPRE 25 mg	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 25,0 mg	Annexure A
53/2.5/0349.345	2024/07/09	REGAPRE 75 mg	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 75,0 mg	Annexure A
53/2.5/0350.346	2024/07/09	REGAPRE 150 mg	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 150,0 mg	Annexure A
53/2.5/0352.344	2024/07/09	PREGABALIN 25 mg ALKEM	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 25,0 mg	Annexure A
53/2.5/0353.345	2024/07/09	PREGABALIN 75 mg ALKEM	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 75,0 mg	Annexure A
53/2.5/0354.346	2024/07/09	PREGABALIN 150 mg ALKEM	Capsule	Ascend Laboratories (Pty) Ltd	EACH CAPSULE CONTAINS PREGABALIN 150,0 mg	Annexure A
53/21.2/0333	2024/07/09	VILEPTIN	Tablet	Ranbaxy Pharmaceutical (Pty) Ltd	EACH TABLET CONTAINS VILDAGLIPTIN 50,0 mg	Annexure A
56/26/0961	2024/07/16	GEMCITABINE 200 mg/2 ml RTU	Infusion	Accord Healthcare (Pty) Ltd	EACH VIAL CONTAINS GEMCITABINE 200,0 mg	Annexure A
56/26/0962	2024/07/16	GEMCITABINE 1 000 mg/10 ml RTU	Infusion	Accord Healthcare (Pty) Ltd	EACH VIAL CONTAINS GEMCITABINE 1 000,0 mg	Annexure A
56/26/0963	2024/07/16	GEMCITABINE 1 500 mg/15 ml RTU	Infusion	Accord Healthcare (Pty) Ltd	EACH VIAL CONTAINS GEMCITABINE 1 500,0 mg	Annexure A
56/26/0964	2024/07/16	GEMCITABINE 2 000 mg/20 ml RTU	Infusion	Accord Healthcare (Pty) Ltd	EACH VIAL CONTAINS GEMCITABINE 2000,0 mg	Annexure A
56/34/0631	2024/07/16	MYCOPHENOLATE 500 mg	Capsule	Ascendis Pharma (Pty) Ltd	EACH CAPSULE CONTAINS MYCOPHENOLATE MOFETIL 500,0 mg	Annexure A
56/1.2/0751	2024/07/16	BUPROPION 150 mg AURO	Tablet	Aurogen South Africa (Pty) Ltd	EACH TABLET CONTAINS BUPROPION HYDROCHLORIDE 150,0 mg	Annexure A
56/1.2/0752	2024/07/16	BUPROPION 300 mg AURO	Tablet	Aurogen South Africa (Pty) Ltd	EACH TABLET CONTAINS BUPROPION HYDROCHLORIDE 300,0 mg	Annexure A
56/1.2/0753.751	2024/07/16	GENIPRON 150 mg	Tablet	Aurogen South Africa (Pty) Ltd	EACH TABLET CONTAINS BUPROPION HYDROCHLORIDE 150,0 mg	Annexure A
56/1.2/0754.752	2024/07/16	GENIPRON 300 mg	Tablet	Aurogen South Africa (Pty) Ltd	EACH TABLET CONTAINS BUPROPION HYDROCHLORIDE 300,0 mg	Annexure A
56/21.2/0431	2024/07/16	GLUDAPZIN 5	Tablet	Austell Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS DAPAGLIFLOZIN 5,0 mg	Annexure A
56/21.2/0432	2024/07/16	GLUDAPZIN 10	Tablet	Austell Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS DAPAGLIFLOZIN 10,0 mg	Annexure A
55/5.1/0830	2024/07/16	NORADRENALINE INJECTION BGM	Injection	BGM PHARMACEUTICALS (PTY) LTD	EACH 1,0 ml SOLUTION CONTAINS NORADRENALINE TARTRATE EQUIVALENT TO NORADRENALINE 1,0 mg	Annexure A
59/2.6/0585	2024/07/23	ZARPAM 0,25 mg	Tablet	Adcock Ingram Limited	EACH TABLET CONTAINS ALPRAZOMAL 0,25 mg	Annexure A
59/2.6/0586	2024/07/23	ZARPAM 0,5 mg	Tablet	Adcock Ingram Limited	EACH TABLET CONTAINS ALPRAZOMAL 0,5 mg	Annexure A
59/2.6/0587	2024/07/23	ZARPAM 1 mg	Tablet	Adcock Ingram Limited	EACH TABLET CONTAINS ALPRAZOMAL 1,0 mg	Annexure A
56/21.2/0965	2024/07/23	DAPAGLIFLOZIN 5 mg ASCEND	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS DAPAGLIFLOZIN 5,0 mg	Annexure A
56/21.2/0966	2024/07/23	DAPAGLIFLOZIN 10 mg ASCEND	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS DAPAGLIFLOZIN 10,0 mg	Annexure A
57/20.2.8/0788	2024/07/23	DOLDETAF	Tablet	Austell Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS DOLUTEGRAVIR SODIUM EQUIVALENT TO DOLUTEGRAVIR 50,0 mg EMTRICITABINE 200,0 mg TENOFOVIR ALAFENAMIDE FUMARATE EQUIVALENT TO TENOFOVIR ALAFENAMIDE 25,0 mg	Annexure A
59/21.2/0049	2024/07/23	VATAMET 1 000	Tablet	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH TABLET CONTAINS METFORMIN HYDROCHLORIDE 1 000,0 mg	Annexure A
59/21.2/0047	2024/07/23	VATAMET 500	Tablet	Innovata Pharmaceuticals	EACH TABLET CONTAINS METFORMIN HYDROCHLORIDE 500,0 mg	Annexure A
59/21.2/0048	2024/07/23	VATAMET 850	Tablet	Innovata Pharmaceuticals	EACH TABLET CONTAINS METFORMIN HYDROCHLORIDE 850,0mg	Annexure A
57/20.2.3/0627.626	2024/07/23	PRETOMANID 200 mg MACLEODS	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS PRETOMANID 200,0 mg	Annexure A
57/20.2.3/0626	2024/07/23	MAKNID 200 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS PRETOMANID 200,0 mg	Annexure A
56/20.1.1/1201	2024/07/23	MOXIFLOXACIN 400 mg PD	Tablet	Pharma Dynamics (Pty) Ltd	EACH TABLET CONTAINS MOXIFLOXACIN HYDROCHLORIDE EQUIVALENT TO MOXIFLOXACIN 400 mg	Annexure A
56/16.2/0942	2024/07/23	OTIXAL	Ear Drops	Pharmacare Limited	EACH 1,0 mg SOLUTION CONTAINS CIPROFLOXACIN HYDROCHLORIDE MONOHYDRATE EQUIVALENT TO CIPROFLOXACIN3,0 mg FLUOCINOLONE ACETONIDE 0,25 mg	Annexure A
56/20.1/1041	2024/07/23	XELODAPTO 500	Infusion	Pharmaco Distribution (Pty) Ltd	EACH VIAL CONTAINS DAPTOMYCIN 500,0 mg	Annexure A
53/3.3/0024	2024/07/23	COLCHICINE 0,5 UNICORN	Tablet	Unicorn Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS COLCHICINE 0,5 mg	Annexure A
56/18.8/0933	2024/07/30	DROVELIS	Tablet	Adcock Ingram Limited	EACH TABLET CONTAINS DROSPIRENONE 3,0 mg ESTETROL MONOHYDRATE 14,2 mg	Annexure A
53/5.7.1/0724	2024/07/30	RUPAGEX	Tablet	Adcock Ingram Limited	EACH TABLET CONTAINS RUPATADINE FUMARATE EQUIVALENT TO RUPATADINE 10,0 mg	Annexure A
53/5.7.1/0725.724	2024/07/30	RUPAXINE	Tablet	Adcock Ingram Limited	EACH TABLET CONTAINS RUPATADINE FUMARATE EQUIVALENT TO RUPATADINE 10,0 mg	Annexure A
56/5.7.1/1149	2024/07/30	LORATADINE SYRUP ASCEND	Syrup	Ascend Laboratories (Pty) Ltd	EACH 5,0 ml SOLUTION CONTAINS LORATADINE 5,0 mg	Annexure A
56/5.4/0713	2024/07/30	SOLIFENACINS 5 ASCEND	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS SOLIFENACIN SUCCINATE 5,0 mg	Annexure A
56/5.4/0714	2024/07/30	SOLIFENACINS 10 ASCEND	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS SOLIFENACIN SUCCINATE 10,0 mg	Annexure A
56/26/0756	2024/07/30	HODEXEL 20 mg/ml	Infusion	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS DOCETAXEL 20,0 mg	Annexure A
56/26/0757	2024/07/30	HODEXEL 80 mg/4 ml	Infusion	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS DOCETAXEL 80,0 mg	Annexure A
56/26/0758	2024/07/30	HODEXEL 160 mg/8 ml	Infusion	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS DOCETAXEL 160,0 mg	Annexure A
56/26/0759.756	2024/07/30	DOCETAXEL 20 mg/ml HETERO	Infusion	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS DOCETAXEL 20,0 mg	Annexure A
56/26/0760.757	2024/07/30	DOCETAXEL 80 mg/4 ml HETERO	Infusion	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS DOCETAXEL 80,0 mg	Annexure A
56/26/761.758	2024/07/30	DOCETAXEL 160 mg/8 ml HETERO	Infusion	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS DOCETAXEL 160,0 mg	Annexure A
56/7.5/1038	2024/07/30	MAKZETIB 10 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg	Annexure A
56/5.7.1/0859	2024/07/30	FEXOFENADINE 120 KIARA	Tablet	Kiara Health (Pty) Ltd	EACH TABLET CONTAINS FEXOFENADINE HYDROCHLORIDE 120,0 mg	Annexure A
56/5.7.1/0860	2024/07/30	FEXOFENADINE 180 KIARA	Tablet	Kiara Health (Pty) Ltd	EACH TABLET CONTAINS FEXOFENADINE HYDROCHLORIDE 180,0 mg	Annexure A
59/20.2.2/0660	2024/08/06	CLOFUNZO VAGINAL	Cream	Biotech Laboratories (Pty) Ltd	EACH 1,0 g CREAM CONTAINS CLOTRIMAZOLE 10,0 mg	Annexure A
59/20.2.2/0661	2024/08/06	CLOFUNZO TOPICAL	Cream	Biotech Laboratories (Pty) Ltd	EACH 1,0 g CREAM CONTAINS CLOTRIMAZOLE 10,0 mg	Annexure A
55/11.10/0665	2024/08/06	ASACOL 1 600	Tablet	Equity Pharmaceutical (Pty) Ltd	EACH TABLET CONTAINS MESALAZINE 1 600,0 mg	Annexure A
55/20.1.1/0842	2024/08/06	MEROPENEM 500 EQUITY	Injection	Equity Pharmaceutical (Pty) Ltd	EACH VIAL CONTAINS MEROPENEM TRIHYDRATE EQUIVALENT TO ANHYDROUS METOPENEM 500,0 mg	Annexure A
55/20.1.1/0843	2024/08/06	MEROPENEM 1 000 EQUITY	Injection	Equity Pharmaceutical (Pty) Ltd	EACH VIAL CONTAINS MEROPENEM TRIHYDRATE EQUIVALENT TO ANHYDROUS METOPENEM 1 000,0 mg	Annexure A
55/20.1.1/0844.842	2024/08/06	INVOGEM 500	Injection	Equity Pharmaceutical (Pty) Ltd	EACH VIAL CONTAINS MEROPENEM TRIHYDRATE EQUIVALENT TO ANHYDROUS METOPENEM 500,0 mg	Annexure A
55/20.1.1/0845.843	2024/08/06	INVOGEM 1 000	Injection	Equity Pharmaceutical (Pty) Ltd	EACH VIAL CONTAINS MEROPENEM TRIHYDRATE EQUIVALENT TO ANHYDROUS METOPENEM 1 000,0 mg	Annexure A
56/6.2/0784	2024/08/06	FLECAINIDE CR 100 KIARA	Capsule	Kiara Health (Pty) Ltd	EACH CAPSULE CONTAINS FLECAINIDE ACETATE EQUIVALENT TO FLECAINIDE 100,0 mg	Annexure A
56/6.2/0785	2024/08/06	FLECAINIDE CR 200 KIARA	Capsule	Kiara Health (Pty) Ltd	EACH CAPSULE CONTAINS FLECAINIDE ACETATE EQUIVALENT TO FLECAINIDE 200,0 mg	Annexure A
56/32.2/0770	2024/08/06	SILODOSIN 4 UNICORN	Capsule	Unicorn Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS SILODOSIN 4,0 mg	Annexure A
56/32.2/0771	2024/08/06	SILODOSIN 8 UNICORN	Capsule	Unicorn Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS SILODOSIN 8,0 mg	Annexure A
22/17.1.5/01	2024/08/06	FLORFENICOL 200 mg/ml ORAL SOLUTION HUVE	Oral Solution	Huvepharma South Africa (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS FLORFENICOL 200,0 mg	Annexure A
56/7.3/0573	2024/08/13	RIZATRIPTAN 5 mg ASCEND	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS RIZATRIPTAN BENZOATE EQUIVALENT TO RIZATRIPTAN 5, 0 mg	Annexure A
56/7.3/0574	2024/08/13	RIZATRIPTAN 10 mg ASCEND	Tablet	Ascend Laboratories (Pty) Ltd	EACH TABLET CONTAINS RIZATRIPTAN BENZOATE EQUIVALENT TO RIZATRIPTAN 10, 0 mg	Annexure A
56/8/0993	2024/08/13	AZPAMIN	Tablet	Forrester Pharma (Pty) Ltd	EACH TABLET CONTAINS ASPRIN 81,0 mg	Annexure A
56/32.16/0538	2024/08/13	TERIFLUNOMIDE DRL	Tablet	Hetero Drugs South Africa (Pty) Ltd	EACH TABLET CONTAINS TERIFLUNOMIDE 14,0 mg	Annexure A
56/32.16/0539.538	2024/08/13	TERIFLUNOMIDE HETERO	Tablet	Hetero Drugs South Africa (Pty) Ltd	EACH TABLET CONTAINS TERIFLUNOMIDE 14,0 mg	Annexure A
56/2.6/1166	2024/08/13	CLOZURB 10 mg	Tablet	KAHMA BIOTECH (Pty) Ltd	EACH TABLET CONTAINS CLOBAZAM 10,0 mg	Annexure A
56/2.6/1167	2024/08/13	CLOZURB 20 mg	Tablet	KAHMA BIOTECH (Pty) Ltd	EACH TABLET CONTAINS CLOBAZAM 20,0 mg	Annexure A
56/7.5/1081	2024/08/13	TACTDUO 10/5	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg ROSUVASTATIN CALCIUM EQUIVALENT TO ROSUVASTATIN 5,0 mg	Annexure A
56/7.5/1082	2024/08/13	TACTDUO 10/10	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg ROSUVASTATIN CALCIUM EQUIVALENT TO ROSUVASTATIN 10,0 mg	Annexure A
56/7.5/1083	2024/08/13	TACTDUO 10/20	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg ROSUVASTATIN CALCIUM EQUIVALENT TO ROSUVASTATIN 20,0 mg	Annexure A
56/7.5/1084	2024/08/13	TACTDUO 10/40	Tablet	Sandoz South Africa (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg ROSUVASTATIN CALCIUM EQUIVALENT TO ROSUVASTATIN 40,0 mg	Annexure A
56/8.2/0328	2024/08/20	RIXARORA 10	Tablet	Accord Healthcare (Pty) Ltd	EACH TABLET CONTAINS RIVAROXABAN 10,0 mg	Annexure A
56/8.2/329	2024/08/20	RIXARORA 15	Tablet	Accord Healthcare (Pty) Ltd	EACH TABLET CONTAINS RIVAROXABAN 15,0 mg	Annexure A
56/8.2/0330	2024/08/20	RIXARORA 20	Tablet	Accord Healthcare (Pty) Ltd	EACH TABLET CONTAINS RIVAROXABAN 20,0 mg	Annexure A
56/3.1/0380	2024/08/20	EFIMIDEL 10 mg	Tablet	Aurogen South Africa (Pty) Ltd	EACH TABLET CONTAINS LEFLUNOMIDE 10,0 mg	Annexure A
56/3.1/0381	2024/08/20	EFIMIDEL 20 mg	Tablet	Aurogen South Africa (Pty) Ltd	EACH TABLET CONTAINS LEFLUNOMIDE 20,0 mg	Annexure A
56/3.1/0382.380	2024/08/20	ARTHROD 10 mg	Tablet	Aurogen South Africa (Pty) Ltd	EACH TABLET CONTAINS LEFLUNOMIDE 10,0 mg	Annexure A
56/3.1/0383.381	2024/08/20	ARTHROD 20 mg	Tablet	Aurogen South Africa (Pty) Ltd	EACH TABLET CONTAINS LEFLUNOMIDE 20,0 mg	Annexure A
56/20.1.1/0646	2024/08/20	UTIMYCIN	Granules for oral s	Trinity Pharma (Pty) Ltd	EACH SACHET CONTAINS FOSFOMYCIN TROMETAMOL EQUIVALENT TO FOSFOMYCIN 3,0 mg	Annexure A
57/20.1.1/0118	2024/08/20	SUNFOZ	Granules for oral s	Ranbaxy Pharmaceutical (Pty) Ltd	EACH SACHET CONTAINS FOSFOMYCIN TROMETAMOL 3,0 mg	Annexure A
53/20.2.2/0148	2024/08/27	GLEZOLE 50 mg	Tablet	Glenmark Pharmaceuticals South Africa (Pty) Ltd	EACH TABLET CONTAINS VORICONAZOLE 50 mg	Annexure A
56/11.4.3/0740	2024/08/27	MEXIENA	Tablet	Biotech Laboratories (Pty) Ltd	EACH TABLET CONTAINS CIMETIDINE 200,0 mg	Annexure A
56/21.12/1063	2024/08/27	FIRSOLTAM	Tablet	Cipla Medpro (Pty) Ltd	EACH TABLET CONTAINS SOLIFENACIN SUCCINATE 6,0 mg TAMSULOSIN HYDROCHLORIDE 0,4 mg	Annexure A
53/20.2.2/0149	2024/08/27	GLEZOLE 200 mg	Tablet	Glenmark Pharmaceuticals South Africa (Pty) Ltd	EACH TABLET CONTAINS VORICONAZOLE 50 mg	Annexure A
57/1.2/0767	2024/08/27	LATUMAK 20 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 20,0 mg	Annexure A
57/1.2/0768	2024/08/27	LATUMAK 40 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 40,0 mg	Annexure A
57/1.2/0769	2024/08/27	LATUMAK 60 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 60,0 mg	Annexure A

57/1.2/0770	2024/08/27	LATUMAK 80 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 80,0 mg	Annexure A
57/1.2/0771	2024/08/27	LATUMAK 120 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 120,0 mg	Annexure A
57/1.2/0772.767	2024/08/27	MAKTUDA 20 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 20,0 mg	Annexure A
57/1.2/0773.768	2024/08/27	MAKTUDA 40 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 40,0 mg	Annexure A
57/1.2/0774.769	2024/08/27	MAKTUDA 60 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 60,0 mg	Annexure A
57/1.2/0775/770	2024/08/27	MAKTUDA 80 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 80,0 mg	Annexure A
57/1.2/0776.771	2024/08/27	MAKTUDA 120 mg	Tablet	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LURASIDONE HYDROCHLORIDE 120,0 mg	Annexure A
58/20.1.1/0034	2024/09/03	MEROPENEM 500 SHANUR	Injection	Dezzo Trading 392 (Pty) Ltd	EACH VIAL CONTAINS MEROPENEM TRIHYDRATE EQUIVALENT TO METOPENEM ANHYDROUS 500,0 mg	Annexure A
58/20.1.1/0035	2024/09/03	MEROPENEM 1 000 SHANUR	Injection	Dezzo Trading 392 (Pty) Ltd	EACH VIAL CONTAINS MEROPENEM TRIHYDRATE EQUIVALENT TO METOPENEM ANHYDROUS 1 000,0 mg	Annexure A
57/30.2/0435	2024/09/03	RYBREVANT	Infusion	Janssen Pharmaceutica (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS AMIVANTAMAB 50,0 mg	Annexure A
56/21.13/0337	2024/09/03	RYBELSUS 3 mg	Tablet	Novo Nordisk (Pty) Ltd	EACH TABLET CONTAINS SEMAGLUTIDE 3,0 mg	Annexure A
56/21.13/0338	2024/09/03	RYBELSUS 7 mg	Tablet	Novo Nordisk (Pty) Ltd	EACH TABLET CONTAINS SEMAGLUTIDE 7,0 mg	Annexure A
56/21.13/0339	2024/09/03	RYBELSUS 14 mg	Tablet	Novo Nordisk (Pty) Ltd	EACH TABLET CONTAINS SEMAGLUTIDE 14,0 mg	Annexure A
53/7.1.3/0567	2024/09/03	VALAZYD CO 160/125	Tablet	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS VALSARTAN 160,0 mg HYDROCHLOROTHIAZINDE 12,5 mg	Annexure A
53/7.1.3/0566	2024/09/03	VALAZYD CO 80/12,5	Tablet	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS VALSARTAN 80,0 mg HYDROCHLOROTHIAZIDE 12,5 mg	Annexure A
53/7.1.3/0568	2024/09/03	VALAZYD CO 160/25	Tablet	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS VALSARTAN 160,0 mg HYDROCHLOROTHIAZINDE 25,0 mg	Annexure A
53/7.1.3/0569.566	2024/09/03	VALSARTAN HYDROCHLOROTHIAZIDE 80/12,5	Tablet	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS VALSARTAN 80,0 mg HYDROCHLOROTHIAZIDE 12,5 mg	Annexure A

53/7.1.3/0571.568	2024/09/03	VALSARTAN HYDROCHLOROTHIAZIDE 160/25	Tablet	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS VALSARTAN 160,0 mg HYDROCHLOROTHIAZIDE 25,0 mg	Annexure A
53/2.9/0717	2024/09/03	ADCOPRES	Injection	Adcock Ingram Critical Care (Pty) Ltd	EACH VIAL CONTAINS DEXMEDETOMIDINE HYDROCHLORIDE EQUIVALENT TO DEXMEDETOMIDINE 100,0 mg	Annexure A
54/34/0444	2024/09/10	GRAVTELL 0,5 mg	Capsule	Austell Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS TACROLIMUS MONOHYDRATE EQUIVALENT TO TACROLIMUS 0,5 mg	Annexure A
54/34/0445	2024/09/10	GRAVTELL 1 mg	Capsule	Austell Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS TACROLIMUS MONOHYDRATE EQUIVALENT TO TACROLIMUS 1,0 mg	Annexure A
54/34/0446	2024/09/10	GRAVTELL 5 mg	Capsule	Austell Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS TACROLIMUS MONOHYDRATE EQUIVALENT TO TACROLIMUS 5,0 mg	Annexure A
54/34/0447.444	2024/09/10	TACROLIMUS 0,5 mg AUSTELL	Capsule	Austell Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS TACROLIMUS MONOHYDRATE EQUIVALENT TO TACROLIMUS 0,5 mg	Annexure A
54/34/0448.445	2024/09/10	TACROLIMUS 1 mg AUSTELL	Capsule	Austell Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS TACROLIMUS MONOHYDRATE EQUIVALENT TO TACROLIMUS 1,0 mg	Annexure A
54/34/0449.446	2024/09/10	TACROLIMUS 5 mg AUSTELL	Capsule	Austell Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS TACROLIMUS MONOHYDRATE EQUIVALENT TO TACROLIMUS 5,0 mg	Annexure A
56/20.2.8/1035	2024/09/10	FLUMITEV 30	Capsule	Teva Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS OSELTAMIVIR PHOSPHATE EQUIVALENT TO OSELTAMIVIR 30,0 mg	Annexure A
56/20.2.8/1036	2024/09/10	FLUMITEV 45	Capsule	Teva Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS OSELTAMIVIR PHOSPHATE EQUIVALENT TO OSELTAMIVIR 75,0 mg	Annexure A
56/20.2.8/1037	2024/09/10	FLUMITEV 75	Capsule	Teva Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS OSELTAMIVIR PHOSPHATE EQUIVALENT TO OSELTAMIVIR 75,0 mg	Annexure A
54/1.2/0072	2024/09/10	ODIVEN XR 37,5	Capsule	Zydus Healthcare (Pty) Ltd	EACH CAPSULE CONTAINS VENLAFAXINE HYDROCHLORIDE EQUIVALENT TO VENLAFAXINE 37,5 mg	Annexure A
54/1.2/0073	2024/09/10	ODIVEN XR 75	Capsule	Zydus Healthcare (Pty) Ltd	EACH CAPSULE CONTAINS VENLAFAXINE HYDROCHLORIDE EQUIVALENT TO VENLAFAXINE 75,0 mg	Annexure A
54/1.2/0074	2024/09/10	ODIVEN XR 150	Capsule	Zydus Healthcare (Pty) Ltd	EACH CAPSULE CONTAINS VENLAFAXINE HYDROCHLORIDE EQUIVALENT TO VENLAFAXINE 150,0 mg	Annexure A
54/26/0834	2024/09/10	ZYMIB	Injection	Zydus Healthcare (Pty) Ltd	EACH VIAL CONTAINS BORTEZOMIB 3,5 mg	Annexure A
54/26/0835.834	2024/09/10	BORTEZOMIB ZYDUS	Injection	Zydus Healthcare (Pty) Ltd	EACH VIAL CONTAINS BORTEZOMIB 3,5 mg	Annexure A
59/34/0056	2024/09/10	MUSCUDEX 100 mg/ml	Injection	Adcock Ingram Critical Care (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS SUGAMMADEX SODIUM EQUIVALENT TO SUGAMMADEX 100,0 mg	Annexure A
23/3.1.2.1.5/02	2024/09/10	MELOXICAM 20 mg/ml INJECTION	Injection	Huvepharma South Africa (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS MELOXICAM 20,0 mg	Annexure A
56/16.4/0527	2024/09/10	SEPTOLETE CO	Oromucosal spray	LHC Pharmaceuticals (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS BENZYDAMINE HYDROCHLORIDE 1,5 mg CETYLPYRIDINIUM CHLORIDE 5,0 mg	Annexure A
56/16.4/0528.527	2024/09/10	SEPTOLETE PLUS SPRAY	Oromucosal spray	LHC Pharmaceuticals (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS BENZYDAMINE HYDROCHLORIDE 1,5 mg CETYLPYRIDINIUM CHLORIDE 5,0 mg	Annexure A
56/21.1/0047	2024/09/17	LYUMJEV U100	Injection	Eli Lilly SA (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS INSULIN LISPRO 100,0 U	Annexure A
56/21.1/0048	2024/09/17	LYUMJEV U200	Injection	Eli Lilly SA (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS INSULIN LISPRO 200,0 U	Annexure A
56/21.1/0049	2024/09/17	LYUMJEV JUNIOR U100	Injection	Eli Lilly SA (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS INSULIN LISPRO 100,0 U	Annexure A
56/21.1/0050.047	2024/09/17	BEMLIRU U100	Injection	Eli Lilly SA (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS INSULIN LISPRO 100,0 U	Annexure A
56/21.1/0051.048	2024/09/17	LYUMJEV U200	Injection	Eli Lilly SA (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS INSULIN LISPRO 200,0 U	Annexure A
56/21.1/0052.049	2024/09/17	BEMLIRU JUNIOR U100	Injection	Eli Lilly SA (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS INSULIN LISPRO 100,0 U	Annexure A
56/5.8/0390	2024/09/17	DECLOZIT	Tablet	Pharmacare Limited	EACH TABLET CONTAINS IBUPROFEN 200,0 mg PSEUDOEPHEDRINE HYDROCHLORIDE 30,0 mg	Annexure A
56/20.2.8/0487	2024/09/17	JUXOLU	Tablet	Pharma-Q Holdings	EACH TABLET CONTAINS DOLUTEGRAVIR SODIUM EQUIVALENT TO DOLUTEGRAVIR 50,0 mg LAMIVUDINE 300,0 mg TENOFOVIR DISOPROXIL FUMARATE EQUIVALENT TO TENOFOVIR DISOPROXIL 300,0 mg	Annexure A
56/3.3/0893	2024/09/17	UTRIPOLT 100	Tablet	Ascendis Pharma (Pty) Ltd	EACH TABLET CONTAINS ALLOPURINOL 100,0 mg	Annexure A
56/3.3/0894	2024/09/17	UTRIPOLT 300	Tablet	Ascendis Pharma (Pty) Ltd	EACH TABLET CONTAINS ALLOPURINOL 300,0 mg	Annexure A
56/20.3/0975	2024/09/17	NOXAFIL 300 mg CONCENTRATE FOR SOLUTION FOR INFUSION	Infusion	MSD (Pty) Ltd	EACH VIAL CONTAINS POSACONAZOLE 300,0 mg	Annexure A
56/20.3/0976.975	2024/09/17	POSACONAZOLE 300 mg CONCENTRATE FOR SOLUTION FOR	Infusion	MSD (Pty) Ltd	EACH VIAL CONTAINS POSACONAZOLE 300,0 mg	Annexure A
54/5.4/0064	2024/09/25	FENSIGLEN 5 mg	Tablet	Glenmark Pharmaceuticals South Africa (Pty) Ltd	EACH TABLET CONTAINS SOLIFENACIN SUCCINATE 5,0 mg	Annexure A
54/5.4/0065	2024/09/25	FENSIGLEN 5 mg	Tablet	Glenmark Pharmaceuticals South Africa (Pty) Ltd	EACH TABLET CONTAINS SOLIFENACIN SUCCINATE 10,0 mg	Annexure A
54/5.4/0066.064	2024/09/25	SOLIFENACIN 5 mg GLENMARK	Tablet	Glenmark Pharmaceuticals South Africa (Pty) Ltd	EACH TABLET CONTAINS SOLIFENACIN SUCCINATE 5,0 mg	Annexure A
54/5.4/0067.065	2024/09/25	SOLIFENACIN 10 mg GLENMARK	Tablet	Glenmark Pharmaceuticals South Africa (Pty) Ltd	EACH TABLET CONTAINS SOLIFENACIN SUCCINATE 10,0 mg	Annexure A
56/21.2/0969	2024/09/25	REDIFARG 5	Tablet	Dr Reddy's Laboratories (Pty) Ltd	EACH TABLET CONTAINS DAPAGLIFLOZIN 5,0 mg	Annexure A
56/21.2/0970	2024/09/25	REDIFARG 10	Tablet	Dr Reddy's Laboratories (Pty) Ltd	EACH TABLET CONTAINS DAPAGLIFLOZIN 10,0 mg	Annexure A
58/20.2.8/0005	2024/09/25	TERALAVID	Tablet	Umsebe Healthcare	EACH TABLET CONTAINS DOLUTEGRAVIR SODIUM EQUIVALENT TO DOLUTEGRAVIR 50,0 mg	Annexure A
56/19/0451	01 October 2024	OKSITOSE 10	SOLUTION	Innovata Pharmaceuticals	EACH 1,0 ml SOLUTION CONTAINS OXYTOCIN 10,0 IU	Annexure A
56/21.2/0994	01 October 2024	METPLITIN CO 50/850	TABLET	Dr Reddys Laboratories (Pty) Ltd	EACH TABLET CONTAINS SITAGLIPTIN HYDROCHLORIDE MONOHYDRATE 50,0 mg METFORMIN HYDROCHLORIDE 850,0 mg	Annexure A
56/21.2/0995	01 October 2024	METPLITIN CO 50/1 000	TABLET	Dr Reddys Laboratories (Pty) Ltd	EACH TABLET CONTAINS SITAGLIPTIN HYDROCHLORIDE MONOHYDRATE 50,0 mg METFORMIN HYDROCHLORIDE 1 000,0 mg	Annexure A
56/20.1.7/1130	01 October 2024	VORICONAZOLE 200 mg FRESENIUS	POWDER	Fresenius Kabi South Africa (Pty) Ltd	EACH VIAL CONTAINS VORICONAZOLE 200,0 mg	Annexure A
56/11/1135	01 October 2024	PENTASA SACHET 4 g	GRANULES	Ferring (Pty) Ltd	EACH SACHET CONTAINS MESALAZINE 4,0 g	Annexure A
57/20.2.3/903	01 October 2024	ISONIAZID 300 UNIMED	TABLET	Unimed Healthcare (Pty) Ltd	EACH TABLET CONTAINS ISONIAZID 300,0 mg	Annexure A
59/11.4.3/0325	01 October 2024	TRUSFLUKS 20	TABLET	Innovata Pharmaceuticals	EACH TABLET CONTAINS ESOMEPRAZOLE 20,0 mg	Annexure A
59/11.4.3/0326	01 October 2024	TRUSFLUKS 40	TABLET	Innovata Pharmaceuticals	EACH TABLET CONTAINS ESOMEPRAZOLE 40,0 mg	Annexure A
21/17.1.4/32	01 October 2024	TULATHROMYCIN 100 mg/ml HUVE	INJECTION	Huvepharma South Africa (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS TULATHROMYCIN 100,0 mg	Annexure A
53/20.1.1/0648	08 October 2024	CLARIDE XL	TABLET	Pharmacare Limited	EACH TABLET CONTAINS CLARITHROMYCIN CITRATE 500,0 mg	Annexure A
54/2.7/0224	08 October 2024	SOVETRIN 5	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 5,0 mg	Annexure A
54/2.7/0225	08 October 2024	SOVETRIN 10	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 10,0 mg	Annexure A
54/2.7/0226	08 October 2024	SOVETRIN 20	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 20,0 mg	Annexure A
54/2.7/0227.224	08 October 2024	BUPREMED 5	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 5,0 mg	Annexure A
54/2.7/0228.225	08 October 2024	BUPREMED 10	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 10,0 mg	Annexure A
54/2.7/0229.226	08 October 2024	BUPREMED 20	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 20,0 mg	Annexure A
54/2.7/0230.224	08 October 2024	NORBUTRIN 5	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 5,0 mg	Annexure A
54/2.7/0231.225	08 October 2024	NORBUTRIN 10	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 10,0 mg	Annexure A
54/2.7/0232.226	08 October 2024	NORBUTRIN 20	PATCH	Trinity Pharma (Pty) Ltd	EACH PATCH CONTAINS BUPRENORPHINE 20,0 mg	Annexure A
56/19/0450	08 October 2024	OKSITOSE 5	SOLUTION	Innovata Pharmaceuticals	EACH VIAL CONTAINS OXYTOCIN 5,0 IU	Annexure A
56/30.2/0481	08 October 2024	ROTAVAC 5 DROPS	LIQUID	The Biovac Institute	EACH 0,5 ml DOSE CONTAINS ROTAVIRUS 116E Strain (live attenuated) NLT 10 FFU	Annexure A
56/10.1/0570	08 October 2024	BENYLIN FORTE	SYRUP	Johnson & Johnson (Pty) Ltd	EACH 5,0 ml SYRUP CONTAINS DIPHENHYDRAMINE HYDROCHLORIDE 12,5 mg CODEINE PHOSPHATE 10,0 mg AMMONIUM CHLORIDE 125,0 mg	Annexure A
56/26/0602	08 October 2024	BORTEZOMIB 3,5 mg EUROLAB	POWDER	Eurolab (Pty) Ltd	EACH VIAL CONTAINS BORTEZOMIB 3,5 mg	Annexure A
56/30.1/0665	08 October 2024	HYDIMOZ 40 mg/.8 ml	SOLUTION	Sandoz South Africa (Pty) Ltd	EACH 0,8 ml SOLUTION CONTAINS ADALIMUMAB 40,0 mg	Annexure A
56/34/0989	08 October 2024	URILOSIN 0,4	CAPSULES	KAHMA BIOTECH (Pty) Ltd	EACH CAPSULE CONTAINS TAMSULOSIN HYDROCHLORIDE 0,4 mg	Annexure A
56/26/1136	08 October 2024	SORAFENIB 200 DRL	TABLET	Dr Reddys Laboratories (Pty) Ltd	EACH TABLET CONTAINS SORAFENIB TOSYLATE EQUIVALENT TO SORAFENIB 200,0 mg	Annexure A

57/21.2/0060	08 October 2024	VILEPTIN CO 50/850	TABLET	Ranbaxy (SA) (Pty) Ltd	EACH TABLET CONTAINS VILDAGLIPTIN 50,0 mg METFORMIN HYDROCHLORIDE 850,0 mg	Annexure A
57/21.2/0061	08 October 2024	VILEPTIN CO 50/1 000	TABLET	Ranbaxy (SA) (Pty) Ltd	EACH TABLET CONTAINS VILDAGLIPTIN 50,0 mg METFORMIN HYDROCHLORIDE 1 000,0 mg	Annexure A
57/21.2/0062.060	08 October 2024	VILDAGLIPTIN/METFORMIN 50/850 SUN PHARMA	TABLET	Ranbaxy (SA) (Pty) Ltd	EACH TABLET CONTAINS VILDAGLIPTIN 50,0 mg METFORMIN HYDROCHLORIDE 850,0 mg	Annexure A
57/21.2/0063.061	08 October 2024	VILDAGLIPTIN/METFORMIN 50/1 000 SUN PHARMA	TABLET	Ranbaxy (SA) (Pty) Ltd	EACH TABLET CONTAINS VILDAGLIPTIN 50,0 mg METFORMIN HYDROCHLORIDE 1 000,0 mg	Annexure A
57/20.1.1/0418	08 October 2024	MOXIFLOXACIN ADCO	TABLET	Adcock Ingram Limited	EACH TABLET CONTAINS MOXIFLOXACIN HYDROCHLORIDE 400,0 mg	Annexure A
57/21.10/0738	08 October 2024	SOGROYA 5 mg/1,5 ml	INJECTION	Novo Nordisk (Pty) Ltd	EACH 1,5 ml SOLUTION CONTAINS SOMAPACITAN 5,0 mg	Annexure A
57/21.10/0739	08 October 2024	SOGROYA 10 mg/1,5 ml	INJECTION	Novo Nordisk (Pty) Ltd	EACH 1,5 ml SOLUTION CONTAINS SOMAPACITAN 10,0 mg	Annexure A
57/21.10/0740	08 October 2024	SOGROYA 15 mg/1,5 ml	INJECTION	Novo Nordisk (Pty) Ltd	EACH 1,5 ml SOLUTION CONTAINS SOMAPACITAN 15,0 mg	Annexure A
23/17.1.4/04	08 October 2024	INCREXXA 100 mg/ml	INJECTION	Elanco Animal Health (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS TULATHROMYCIN 100,0 mg	Annexure A
53/13.8.2/0560	15 October 2024	AMOROLFINE 5 % GLENMARK	NAIL LACQUER	Glenmark Pharmaceuticals South Africa (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS AMOROLFINE HYDROCHLORIDE 50,0 mg	Annexure A
56/15.4/0841	15 October 2024	MICOGLOMA	EYE DROPS	Adcock Ingram Limited	EACH 1,0 ml SOLUTION CONTAINS DORZOLAMIDE HYDROCHLORIDE EQUIVALENT TO DORZOLAMIDE 20,0 mg	Annexure A
56/15.4/0842.841	15 October 2024	DORZOLAMIDE ADCO	EYE DROPS	Adcock Ingram Limited	EACH 1,0 ml SOLUTION CONTAINS DORZOLAMIDE HYDROCHLORIDE EQUIVALENT TO DORZOLAMIDE 20,0 mg	Annexure A
57/21.2/0167	15 October 2024	MACLOGLYMIN XR 750 mg	TABLET	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS METFORMIN HYDROCHLORIDE 750,0 mg	Annexure A
59/20.1.1/0291	15 October 2024	ELTURIN 150 mg ODT	TABLET	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS LINEZOLID 150,0 mg	Annexure A
23/3.1.2.1/01	15 October 2024	MELOXICAM 15 mg/ml HUVE	ORAL	Huvepharma South Africa (Pty) Ltd	EACH 1,0 ml SUSPENSION CONTAINS MELOXICAM 15,0 mg	Annexure A
54/11.4.3/0281	22 October 2024	HETENEX 40 INJECTION	INJECTION	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS ESOMEPRAZOLE SODIUM EQUIVALENT TO ESOMEPRAZOLE 40,0 mg	Annexure A
54/11.4.3/0283	22 October 2024	GACTAZEL 40 mg	INJECTION	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS ESOMEPRAZOLE SODIUM EQUIVALENT TO ESOMEPRAZOLE 40,0 mg	Annexure A
54/11.4.3/0285	22 October 2024	HETAFLUX 40 INJECTION	INJECTION	Hetero Drugs South Africa (Pty) Ltd	EACH VIAL CONTAINS ESOMEPRAZOLE SODIUM EQUIVALENT TO ESOMEPRAZOLE 40,0 mg	Annexure A
55/32.16/0838	22 October 2024	RELTIF	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS TERIFLUNOMIDE 14,0 mg	Annexure A
55/32.16/0839.838	22 October 2024	DENOMIDE	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS TERIFLUNOMIDE 14,0 mg	Annexure A
55/32.16/0840.838	22 October 2024	FLUNOVO	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS TERIFLUNOMIDE 14,0 mg	Annexure A
55/11.4.3/0910	22 October 2024	EMANERA 20 mg	CAPSULES	LHC Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS ESOMEPRAZOLE MAGNESIUM DIHYDRATE EQUIVALENT TO ESOMEPRAZOLE 20,0 mg	Annexure A
55/11.4.3/0911	22 October 2024	EMANERA 40 mg	CAPSULES	LHC Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS ESOMEPRAZOLE MAGNESIUM DIHYDRATE EQUIVALENT TO ESOMEPRAZOLE 40,0 mg	Annexure A
56/2.5/0269	22 October 2024	PHENPATIN 50 mg/ml	INJECTION	LeBasi Pharmaceuticals (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS PHENYTOIN SODIUM 50,0 mg	Annexure A
56/21.2/0700	22 October 2024	EMPAGLIFLOZIN 10 UNICORN	TABLET	Unicorn Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS EMPAGLIFLOZIN 10,0 mg	Annexure A
56/21.2/0701	22 October 2024	EMPAGLIFLOZIN 25 UNICORN	TABLET	Unicorn Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS EMPAGLIFLOZIN 25,0 mg	Annexure A
56/6.5/0967	22 October 2024	EPLERENONE 25 KIARA	TABLET	Kiara Health (Pty) Ltd	EACH TABLET CONTAINS EPLERENONE 25,0 mg	Annexure A
56/6.5/0968	22 October 2024	EPLERENONE 50 KIARA	TABLET	Kiara Health (Pty) Ltd	EACH TABLET CONTAINS EPLERENONE 50,0 mg	Annexure A
56/20.2.2/1097	22 October 2024	TERBANE NAIL	NAIL LACQUER	Sandoz South Africa (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS TERBINAFINE HYDROCHLORIDE EQUIVALENT TO TERBINAFINE 78,22mg	Annexure A
56/12/1162	22 October 2024	QUANTIMAK 600	TABLET	Macleods Pharmaceuticals SA (Pty) Ltd	EACH TABLET CONTAINS PRAZIQUANTEL 600,0 mg	Annexure A
57/2.2/0124	22 October 2024	ZOPICLONE 7,5 INNOVATA	TABLET	Innovata Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS ZOPICLONE 7,5 mg	Annexure A
59/26/0679	22 October 2024	KOSELUGO 10 mg	CAPSULES	Astrazeneca Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS SELUMETINIB HYDROGEN SULPHATE EQUIVALENT TO SELUMETINIB 10,0 mg	Annexure A
59/26/0680	22 October 2024	KOSELUGO 25 mg	CAPSULES	Astrazeneca Pharmaceuticals (Pty) Ltd	EACH CAPSULE CONTAINS SELUMETINIB HYDROGEN SULPHATE EQUIVALENT TO SELUMETINIB 25,0 mg	Annexure A
21/17.1.4/06	22 October 2024	TYLOSIN 200 HUVE	INJECTION	Huvepharma South Africa (Pty) Ltd	EACH 1,5 ml SOLUTION CONTAINS TYLOSIN 200,0 mg	Annexure A
53/20.2.6/0615	29 October 2024	ATOVAQUONE/PROGUANIL 250/100 mg GLENMARK	TABLET	Glenmark Pharmaceuticals South Africa (Pty) Ltd	EACH TABLET CONTAINS ATOVAQUONE 250,0 mg PROGUANIL HYDROCHLORIDE 100,0 mg	Annexure A
58/20.2.8/0048	29 October 2024	FOLANOVID	TABLET	Umsebe Healthcare	EACH TABLET CONTAINS DOLUTEGRAVIR SODIUM EQUIVALENT TO DOLUTEGRAVIR 50,0 mg LAMIVUDINE 300,0 mg TENOFOVIR DISOPROXIL FUMARATE 100,0 mg	Annexure A
53/2.6.5/0313	05 November 2024	QUETOBEX XR 50	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 50,0 mg	Annexure A
53/2.6.5/0314	05 November 2024	QUETOBEX XR 150	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 150,0 mg	Annexure A
53/2.6.5/0315	05 November 2024	QUETOBEX XR 200	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 200,0 mg	Annexure A
53/2.6.5/0316	05 November 2024	QUETOBEX XR 300	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 300,0 mg	Annexure A
53/2.6.5/0317	05 November 2024	QUETOBEX XR 400	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 400,0 mg	Annexure A
53/2.6.5/0318.313	05 November 2024	NOPTIQUEL XR 50	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 50,0 mg	Annexure A
53/2.6.5/0319.314	05 November 2024	NOPTIQUEL XR 150	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 150,0 mg	Annexure A
53/2.6.5/0320.015	05 November 2024	NOPTIQUEL XR 200	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 200,0 mg	Annexure A
53/2.6.5/0321.316	05 November 2024	NOPTIQUEL XR 300	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 300,0 mg	Annexure A
53/2.6.5/322.317	05 November 2024	NOPTIQUEL XR 400	TABLET	Abex Pharmaceutica (Pty) Ltd	EACH TABLET CONTAINS QUETIAPINE FUMARATE EQUIVALENT TO QUETIAPINE 400,0 mg	Annexure A
56/3.3/0180	05 November 2024	ALLOPURINOL 100 BIOTECH	TABLET	Biotech Laboratories (Pty) Ltd	EACH TABLET CONTAINS ALLOPURINOL 100,0 mg	Annexure A
56/3.3/0181	05 November 2024	ALLOPURINOL 300 BIOTECH	TABLET	Biotech Laboratories (Pty) Ltd	EACH TABLET CONTAINS ALLOPURINOL 300,0 mg	Annexure A
56/3.3/0182.180	05 November 2024	LAPUNOL 100	TABLET	Biotech Laboratories (Pty) Ltd	EACH TABLET CONTAINS ALLOPURINOL 100,0 mg	Annexure A
56/3.3/0183.181	05 November 2024	LAPUNOL 300	TABLET	Biotech Laboratories (Pty) Ltd	EACH TABLET CONTAINS ALLOPURINOL 300,0 mg	Annexure A
56/8.2/0355	05 November 2024	TREARENT 2,5	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 2,5 mg	Annexure A
56/8.2/0356	05 November 2024	TREARENT 5	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 5,0 mg	Annexure A
56/8.2/0357.355	05 November 2024	APITHROMB 2,5	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 2,5 mg	Annexure A
56/8.2/0358.356	05 November 2024	APITHROMB 5	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 5,0 mg	Annexure A
56/8.2/0359.355	05 November 2024	APIXABAN 2,5 LEBASI	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 2,5 mg	Annexure A
56/8.2/0360.356	05 November 2024	APIXABAN 5 LEBASI	TABLET	LeBasi Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS APIXABAN 5,0 mg	Annexure A
56/20.1.2/0929	05 November 2024	BENPEN 1 MU	POWDER	Ando Pharma (Pty) Ltd	EACH VIAL CONTAINS BENZYLPENICILLIN SODIUM EQUIVALENT TO BENZYLPENICILLIN 1 000 000,0 IU	Annexure A
56/20.1.2/0930	05 November 2024	BENPEN 5 MU	POWDER	Ando Pharma (Pty) Ltd	EACH VIAL CONTAINS BENZYLPENICILLIN SODIUM EQUIVALENT TO BENZYLPENICILLIN 5 000 000,0 IU	Annexure A
56/18.5/1015	05 November 2024	NITROFURANTOIN 50 mg EMCURE	CAPSULES	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH CAPSULE CONTAINS NITROFURANTOIN 50,0 mg	Annexure A
56/18.5/1016	05 November 2024	NITROFURANTOIN 100 mg EMCURE	CAPSULES	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH CAPSULE CONTAINS NITROFURANTOIN 100,0 mg	Annexure A
56/18.5/1017.1015	05 November 2024	SUFOROIN 50 mg	CAPSULES	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH CAPSULE CONTAINS NITROFURANTOIN 50,0 mg	Annexure A
56/18.5/1018.1016	05 November 2024	SUFOROIN 100 mg	CAPSULES	Emcure- Pharmaceutical South Africa (Pty) Ltd	EACH CAPSULE CONTAINS NITROFURANTOIN 100,0 mg	Annexure A
56/20.1.1/0981	12 November 2024	MERONACT IV 500	POWDER	Activo Health (Pty) Ltd	EACH VIAL CONTAINS MEROPENEM TRIHYDRATE EQUIVALENT TO ANHYDROUS METOPENEM 500,0 mg	Annexure A
56/20.1.1/0982	12 November 2024	MERONACT IV 1 000	POWDER	Activo Health (Pty) Ltd	EACH VIAL CONTAINS MEROPENEM TRIHYDRATE EQUIVALENT TO ANHYDROUS METOPENEM 1 000,0 mg	Annexure A
57/21.5.1/0163	12 November 2024	FURAMIST	NASAL SPRAY	Cipla Medpro (Pty) Ltd	EACH 50,0 µg SPRAY CONTAINS FLUTICASONE FUROATE 27,5 µg	Annexure A
47/10.1/0752	19 November 2024	EXICHEST	SYRUP	Pharmacare Limited	EACH 10,0 ml SYRUP CONTAINS SORBIMACROGOL LAURATE 36,33 mg AMMONIUM CHLORIDE 34,0 mg	Annexure A
53/5.7.2/0442	19 November 2024	FOSAPREPITANT ADCO	POWDER	Adcock Ingram Critical Care (Pty) Ltd	EACH VIAL CONTAINS FOSAPREPITANT DIMEGLUMINE EQUIVALENT TO FOSAPREPITANT 150,0 mg	Annexure A
53/5.7.2/0443.442	19 November 2024	OSAPIT	POWDER	Adcock Ingram Critical Care (Pty) Ltd	EACH VIAL CONTAINS FOSAPREPITANT DIMEGLUMINE EQUIVALENT TO FOSAPREPITANT 150,0 mg	Annexure A
53/5.7.2/0444.442	19 November 2024	FOCINV	POWDER	Adcock Ingram Critical Care (Pty) Ltd	EACH VIAL CONTAINS FOSAPREPITANT DIMEGLUMINE EQUIVALENT TO FOSAPREPITANT 150,0 mg	Annexure A
54/7.5/0015	19 November 2024	SIMEZYD 10/20	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg SIMVASTATIN 20,0 mg	Annexure A
54/7.5/0016	19 November 2024	SIMEZYD 10/40	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg SIMVASTATIN 40,0 mg	Annexure A
54/7.5/0017.015	19 November 2024	SEZUTIL 10/20	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg SIMVASTATIN 20,0 mg	Annexure A
54/7.5/0018.016	19 November 2024	SEZUTIL 10/40	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS EZETIMIBE 10,0 mg SIMVASTATIN 40,0 mg	Annexure A
56/2.6/1077	19 November 2024	CLOZYD 10	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS CLOBAZAM 10,0 mg	Annexure A
56/2.6/1078	19 November 2024	CLOZYD 20	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS CLOBAZAM 20,0 mg	Annexure A
56/2.6/1079.1077	19 November 2024	STREZYD 10	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS CLOBAZAM 10,0 mg	Annexure A
56/2.6/1080.1078	19 November 2024	STREZYD 20	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS CLOBAZAM 20,0 mg	Annexure A
56/3.1/1085	19 November 2024	IBROFEX 400	TABLET	Austell Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS IBUPROFEN 400,0 mg	Annexure A
56/20.1.1/1121	19 November 2024	LINEZOLID 600 ADCO	TABLET	Adcock Ingram Limited	EACH TABLET CONTAINS LINEZOLID 600,0 mg	Annexure A
56/2.6.5/1169	19 November 2024	ARIPIPRAZOLE 5 mg ACCORD	TABLET	Accord Healthcare (Pty) Ltd	EACH TABLET CONTAINS ARIPIPRAZOLE 5,0 mg	Annexure A
56/2.6.5/1170	19 November 2024	ARIPIPRAZOLE 10 mg ACCORD	TABLET	Accord Healthcare (Pty) Ltd	EACH TABLET CONTAINS ARIPIPRAZOLE 10,0 mg	Annexure A
56/2.6.5/1171	19 November 2024	ARIPIPRAZOLE 15 mg ACCORD	TABLET	Accord Healthcare (Pty) Ltd	EACH TABLET CONTAINS ARIPIPRAZOLE 15,0 mg	Annexure A

56/2.6.5/1172	19 November 2024	ARIPIPRAZOLE 30 mg ACCORD	TABLET	Accord Healthcare (Pty) Ltd	EACH TABLET CONTAINS ARIPIPRAZOLE 30,0 mg	Annexure A
57/21.2/0115	19 November 2024	DIAGLYCO 5 mg	TABLET	Teva Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS DAPAGLIFLOZIN AMORPHOUS 5,0 mg	Annexure A
57/21.2/0116	19 November 2024	DIAGLYCO 10 mg	TABLET	Teva Pharmaceuticals (Pty) Ltd	EACH TABLET CONTAINS DAPAGLIFLOZIN AMORPHOUS 10,0 mg	Annexure A
57/30.1/0232	19 November 2024	BEVACIZUMAB 100 CIPLA	CONCENTRATE FOR SOLUTION	Cipla Medpro (Pty) Ltd	EACH VIAL CONTAINS BEVACIZUMAB 100,0 mg	Annexure A
57/30.1/0233	19 November 2024	BEVACIZUMAB 400 CIPLA	CONCENTRATE FOR SOLUTION	Cipla Medpro (Pty) Ltd	EACH VIAL CONTAINS BEVACIZUMAB 400,0 mg	Annexure A
59/11.2/0174	19 November 2024	JUPOSCI	SYRUP	Adcock Ingram Limited	EACH 5,0 ml SYRUP CONTAINS HYOSCINE BUTYLBROMIDE 5,0 mg	Annexure A
53/21.2/0551	26 November 2024	ZICLAGID MR 30 mg	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS GLICLAZIDE 30,0 mg	Annexure A
53/21.2/0552	26 November 2024	ZICLAGID MR 60 mg	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS GLICLAZIDE 60,0 mg	Annexure A
53/21.2/0553.551	26 November 2024	GLICLAZIDE MR 30 mg ZYDUS	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS GLICLAZIDE 30,0 mg	Annexure A
53/21.2/0554.552	26 November 2024	GLICLAZIDE MR 60 mg ZYDUS	TABLET	Zydus Healthcare (Pty) Ltd	EACH TABLET CONTAINS GLICLAZIDE 60,0 mg	Annexure A
56/34.9/0664	26 November 2024	FLORACTO	CAPSULES	Sandoz South Africa (Pty) Ltd	EACH CAPSULE CONTAINS *Lactobacillus acidophilus* (LA-5) 1 X 10^9 CFU *Bifidobacterium animals subsp. lactis* (BB-12) 1 X 10^9 CFU	Annexure A
56/2.1.4/0877	26 November 2024	INCRESCOTYDE	INJECTION	Cipla Medpro (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS TERIPARATIDE 250,0 mg	Annexure A
56/21.4/0878.877	26 November 2024	TERICRESCO	INJECTION	Cipla Medpro (Pty) Ltd	EACH 1,0 ml SOLUTION CONTAINS TERIPARATIDE 250,0 mg	Annexure A
56/20.2.8/0884	26 November 2024	VUNAD 600	TABLET	Hetero Drugs South Africa (Pty) Ltd	EACH TABLET CONTAINS DARUNAVIR 600,0 mg	Annexure A

PRACTICE NOTE 5 OF 2025

DATE OF THE BUSINESS RESCUE STATUS REPORT FORM (COR125.1)

This practice note is issued in terms of Regulation 4(1)(b) of the Companies Regulations of 2011 which stipulates that a regulatory body may issue a practice note in respect to a matter within its authority which sets out a procedure that will be followed by that regulatory agency; a procedure to be followed when dealing with that regulatory agency or the regulatory agency's interpretation of or intended manner of applying a provision of the Act or the Regulations.

"*Section 132(3) of the Companies Act provides that is a company's business rescue proceedings have not ended within three months after the start of those proceedings, or such a longer time as the court, on application by the practitioner, may allow, the practitioner must-*

(a) Prepare a report on the progress of the business rescue proceedings, and update it at the end of each subsequent month until the end of those proceedings; and

(b) Deliver the report and each update in the prescribed manner to each affected person, and to the-

(i) Court, if the proceedings have been subject of a court order; or

(ii) Commission, in any other case."

The Companies and Intellectual Property Commission (CIPC) has observed some confusion by some Business Rescue Practitioners regarding the **date of the report**. Some write on the form the date of completing the form whereas the date on the form refers to the date of the report. We have attached the form as part of this notice as an example.

The CIPC hereby urges BRPs to ensure that the COR125.1 forms are duly completed and contain the correct date.

We trust that you will find the above in order.

Yours Sincerely,

Adv. Rory Voller
Commissioner: CIPC

DEPARTMENT OF EMPLOYMENT AND LABOUR

NOTICE 3597 OF 2025

Notice published by the Essential Services Committee ('the Committee') in terms of section 71, read with section 71(8) (a) of the Labour Relations Act, 1995 (Act No 66 of 1995 as amended)

A. Notice is hereby given in terms of section 71(8) of the Labour Relations Act, 1995 (Act No 66 of 1995 as amended), that under section 71(9) the Committee has varied the following designation:

1. The designation rendered by the Committee on 12 September 1997, under GN R1216 GG 18276 in relation to municipal health, is hereby varied to read as follows-

   a) Municipal Health services as defined in the National Health Act 61 of 2003 including public primary health care are designated as essential services.

2. The designation rendered by the Committee on 11 May 2018, under GN 41621 in relation to mud guards and team leaders at tailing dams, is substituted with the following designation-

   a) All the services that are necessary for the building and/or construction, maintenance, risk management, including monitoring, inspection and reporting at tailing dams to ensure the integrity, safety and stability of the deposition sites/and or tailing dams are essential services.

   b) All the services performed in hydro mining that relates to ensuring the integrity of the water management system which includes monitoring and inspecting pipelines to ensure the integrity of the slurry delivery pipes, valves and water lines that must be inspected in order to timeously identify non-conformance and immediately rectify the same, are essential services.

B. Notice is hereby given in terms of section 71(8) of the Labour Relations Act, 1995 (Act No 66 of 1995 as amended), that under section 71(7) the Committee designates the following services as essential:

1. Monitoring, evaluation, investigations, inspection and registration of all health products (including medicinal and scheduled substances) for human use, medical devices, in vitro devices including radiation control.

NON-GOVERNMENTAL ORGANIZATION

NOTICE 3598 OF 2025

NOTIFICATION: ENVIRONMENTAL AUTHORISATION APPLICATION PROCESS.

Motuoane Energy (Pty) Ltd (Motuoane) (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Independent Environmental Assessment Practitioner (EAP) to assist with undertaking the required authorisation processes (including the statutory public participation), and to compile and submit the required documentation.

Applicant:	**Motuoane Energy (Pty)**
Application/s:	• Environmental Authorisation (EA) in accordance with the National Environmental Management Act (Act 107 of 1998) (NEMA), Environmental Impact Assessment (EIA) Regulations, 2014 as amended for the following listed activity - GNR 984 Activity 20. • Water Use Licence (WUL) in accordance with the National Water Act – NWA (Act 36 of 1998). • Waste Management Licence in accordance with the requirements of the National Environmental Management: Waste Act- NEM:WA (Act 59 of 2008). • Atmospheric Emissions Licence variation in accordance with the requirements of the National Environmental Management: Air Quality Act- NEM:AQA (Act 39 of 2004). Details of the applicable listed activities and/or water uses will be provided in subsequent opportunity for registered interested and affected parties (I&AP's) to participate during the process.
Activity	The applicant wishes to convert a portion of their existing Exploration Right area (ER315) into a Production Right (PR). The proposed extraction and production will target helium and methane gas, and will consist of up to 43 production wells, gas gathering pipelines, a helium recovery and gas processing plant (CNG or LNG) and associated infrastructure. In addition, ongoing exploration activities will include drilling of exploration wells, seismic and/or audio magnetotelluric surveys.
Location	The proposed project falls within the Masilonyana and Matjhabeng Local Municipalities, in the Lejweleputswa District Municipality, Free State Province. The application area covers approximately 14 440 hectares (ha), and the approximate centre point of the site is located at 28°14'38.37"S and 26°57'54.97"E. The site boundary is ~15km south east of the town of Virginia, ~28km south east of the town of Welkom, ~13km south west of the town of Ventersburg and ~21km north east of the town of Theunissen.

EIMS will be following the procedures defined in the EIA Regulations for undertaking a Scoping and Environmental Impact Assessment (EIA) process. In accordance with Chapter 6 of the EIA Regulations, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and application/s. Please note that only registered I&AP's will be informed of future project information and opportunities for participation. In order to avoid missing out on opportunities for further public participation and information, please submit I&AP registrations, or any queries, comments, or concerns with regards to this application, as soon as possible to EIMS at the details provided below. By registering as an interested and affected party you consent to the collection and processing of your personal information as per the EIMS Privacy Notice available at www.eims.co.za/2025/11/06/1709-motuoane-production-right-eia/.

Further information will be available at www.eims.co.za/2025/11/06/1709-motuoane-production-right-eia/. Please note that in the event that you are unable to access the website due to data constraints please contact EIMS for alternative arrangements.

NIE-REGERINGSORGANISASIE

KENNISGEWING 3598 VAN 2025

KENNISGEWING: AANSOEKPROSES OM OMGEWINGSMAGTIGING.

Motuoane Energy (Edms) Bpk (Motuoane) (hierna verwys as die aansoeker) het Environmental Impact Management Services (Edms) Bpk (EIMS) aangestel as die Onafhanklike Omgewingsbeoordelingspraktisyn (OBP) om te help met die onderneming van die vereiste magtigingsprosesse (insluitend die statutêre openbare deelname), en om die vereiste dokumentasie saam te stel en in te dien.

Aansoeker:	**Motuoane Energy (Pty)**
Aansoek/e:	• Omgewingsmagtiging (OM) in ooreenstemming met die Nasionale Omgewingsbestuurswet (Wet 107 van 1998) (NEMA), Omgewingsimpakbepaling (OIB) Regulasies, 2014 soos gewysig vir die volgende gelyste aktiwiteit - GNR 984 Aktiwiteit 20. • Watergebruikslisensie (WUL) in ooreenstemming met die Nasionale Waterwet – NWA (Wet 36 van 1998). • Afvalbestuurslisensie in ooreenstemming met die vereistes van die Nasionale Omgewingsbestuur: Afvalwet - NEM:WA (Wet 59 van 2008). • Wysiging van Atmosferiese Emissielisensie in ooreenstemming met die vereistes van die Nasionale Omgewingsbestuur: Luggehaltewet - NEM:AQA (Wet 39 van 2004). Besonderhede van die toepaslike gelyste aktiwiteite en/of watergebruike sal verskaf word in 'n daaropvolgende geleentheid vir geregistreerde belanghebbende en geaffekteerde partye (B&GP's) om aan die proses deel te neem.
Aktiwiteit:	Die aansoeker wil 'n gedeelte van hul bestaande Eksplorasiereggebied (ER315) omskakel in 'n Produksiereg (PR). Die voorgestelde ontginning en produksie sal op helium- en metaangas gemik wees, en sal bestaan uit tot 43 produksieputte, gasversamelingspyplyne, 'n heliumherwinnings- en gasverwerkingsaanleg (CNG of LNG) en gepaardgaande infrastruktuur. Bykomende voortgesette eksplorasieaktiwiteite sal die boor van eksplorasieputte, seismiese en/of oudiomagnetotelluriese opnames insluit.
Ligging:	Die voorgestelde projek val binne die Masilonyana en Matjhabeng Plaaslike Munisipaliteite, in die Lejweleputswa Distriksmunisipaliteit, Vrystaat Provinsie. Die aansoekgebied beslaan ongeveer 14 440 hektaar (ha), en die benaderde middelpunt van die terrein is geleë op 28°14'38.37"S en 26°57'54.97"O. Die terreingrens is ~15 km suidoos van die dorp Virginia, ~28 km suidoos van die dorp Welkom, ~13 km suidwes van die dorp Ventersburg en ~21 km noordoos van die dorp Theunissen.

EIMS sal voldoen aan die prosedures uiteengesit in die OIB-regulasies vir die uitvoering van ’n Omvang- en omgewingsimpakbepalings- (OIB-)proses ’n Openbare deelnameproses sal geïmplementeer word ooreenkomstig hoofstuk 6 van die OIB-regulasies. U word uitgenooi om te registreer en kommentaar te lewer oor die voorgestelde projek en aansoek(e). Neem asseblief kennis dat slegs geregistreerde belanghebbende en geaffekteerde partye (B&GP’s) opdaterings oor projekinligting- en deelnamegeleenthede sal ontvang. Om te verhoed dat u verdere openbare deelname en inligting misloop, dien asseblief B&GP-registrasies, of enige navrae, kommentaar of bekommernisse rakende hierdie aansoek, so gou moontlik by EIMS in deur middel van die kontakbesonderhede hier onder. Deur te registreer as ’n belanghebbende en geaffekteerde party, stem u in tot die insameling en verwerking van u persoonlike inligting soos per die EIMS-privaatheidskennisgewing beskikbaar by www.eims.co.za/public-participation.

PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

NOTICE 3599 OF 2025

MR. IMRAAN ISMAIL-MOOSA, MP

NOTICE OF INTENTION TO INTRODUCE A PRIVATE MEMBER'S BILL AND INVITATION FOR COMMENT, 2025

Mr Imraan Ismail-Moosa, MP, acting in accordance with section 73(2) of the Constitution of the Republic of South Africa, 1996 ("the Constitution"), intends to introduce the Implementation of the International Convention on the Suppression and Punishment of the Crime of Apartheid Bill, 2025 ("the Bill"), in Parliament. An explanatory summary of the Bill is hereby published in accordance with Rule 276(1)*(c)* of the National Assembly Rules (9th Edition).

One hundred and ten States are parties to the International Convention on the Suppression and Punishment of the Crime of Apartheid ("the Apartheid Convention"), which was adopted by the United Nations General Assembly on 30 November 1973, by 91 votes in favour, four against (Portugal, pre-democratic South Africa, the United Kingdom and the United States) and 26 abstentions, and came into force on 18 July 1976. The democratic South African government acceded to the Apartheid Convention on 14 May 2024, and the accession came into effect on 13 July 2024.

The Rome Statute of the International Criminal Court was domesticated into South African law in the Implementation of the Rome Statute of the International Criminal Court Act, 2002 (Act No. 27 of 2002) ("Rome Statute Act"). While the Rome Statute Act provides for crimes against humanity, which includes the crime of Apartheid, this draft Bill seeks to specifically deal with the crime of Apartheid as a stand-alone crime.

The draft Bill seeks to domesticate the Apartheid Convention so that South Africa may prosecute individuals accused of committing the crime of Apartheid. The draft Bill contains various definitions which are based on the Apartheid Convention. These include "Apartheid policies," "Apartheid state," and the "crime of Apartheid".

The draft Bill further seeks to confer extra-territorial jurisdiction on our courts in respect of crimes committed by South Africans, people who are ordinarily resident in South Africa or someone who is present in the Republic after having committed the crime of Apartheid, or a person who has committed the crime of Apartheid against a South African citizen or a person who is ordinarily resident in South Africa.

The National Director of Public Prosecutions ("NDPP") must consent before a person is prosecuted for the crime of Apartheid in terms of the draft Bill. The draft Bill also provides for the minister responsible for the administration of justice to, in consultation with the Chief Justice of the Republic and after consultation with the NDPP, designate a High Court to conduct a prosecution against any person accused of having committed the crime of Apartheid.

This gazette is also available free online at **www.gpwonline.co.za**

The draft Bill provides for the appointment of an advisory committee to advise the minister responsible for international relations ("the Minister") on issues relating to the implementation of the Apartheid Convention.

The draft Bill provides that the Minister must make regulations for the effective implementation of the Bill. The Minister must report periodically to the United Nations Commission on Human Rights in compliance with the Republic's obligation in terms of the Apartheid Convention.

The draft Bill further provides that it takes precedence over any other law that conflicts with it as far as dealing with the crime of Apartheid is concerned. The draft Bill seeks to incorporate the Apartheid Convention as a Schedule to the Bill.

Interested parties and institutions are invited to submit written representations on the proposed content of the draft Bill to the Speaker of the National Assembly within 30 days of the publication of this notice. Representations can be delivered to the Speaker, New Assembly Building, Parliament Street, Cape Town; mailed to the Speaker, PO Box 15, Cape Town, 8000; or emailed to speaker@parliament.gov.za and copied to iismailmoosa@parliament.gov.za.

Copies of the draft Bill, 2025, may, after introduction, be obtained from:

DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION

NOTICE 3600 OF 2025

STANDARDS ACT, 2008
STANDARDS MATTERS

In terms of the Standards Act, 2008 (Act No. 8 of 2008), the Board of the South African Bureau of Standards has acted in regard to standards in the manner set out in the Schedules to this notice.

SECTION A: DRAFTS FOR COMMENTS

The following draft standards are hereby issued for public comments in compliance with the norm for the development of the South Africa National standards in terms of section 23(2)(a) (ii) of the Standards Act.

Draft Standard No. and Edition	Title, scope and purport	Closing Date
SANS 10272-1:XXXX Ed 2	Microbiology of the food chain - Horizontal method for detection and enumeration of Campylobacter spp. Part 1: Detection method. *This standard specifies a horizontal method for the detection by enrichment or direct plating of Campylobacter spp. It is applicable to¿ products intended for human consumption,¿ products intended for animal feeding,¿ environmental samples in the area of food and feed production, handling, and¿ samples from the primary production stage such as animal faeces, dust, and swabs.*	**2025-01-13**
SANS 11290-1:XXXX Ed 2	Microbiology of the food chain - Horizontal method for the detection and enumeration of Listeria monocytogenes and of Listeria spp. -Part 1: Detection method. *This standard specifies a horizontal method for¿ the detection of L. monocytogenes, and ¿ the detection of Listeria spp. (including L. monocytogenes).This document is applicable to¿ products intended for human consumption and for the feeding of animals, and¿ environmental samples in the area of food production and food handling.*	**2025-01-13**
SANS 21528-1:20XX Ed 2	Microbiology of the food chain - Horizontal method for the detection and enumeration of Enterobacteriaceae Part 1: Detection of Enterobacteriaceae. *This document specifies a method, with enrichment, for the detection of Enterobacteriaceae. It is applicable to¿ products intended for human consumption and the feeding of animals, and¿ environmental samples in the area of primary production, food production and food handling.This method is applicable¿ when the microorganisms sought are expected to need resuscitation by enrichment, and¿ when the number sought is expected to be below 100 per millilitre or per gram of test sample.*	**2025-01-13**
SANS 21528-2:20xx Ed 2	Microbiology of the food chain - Horizontal method for the detection and enumeration of Enterobacteriaceae Part 2: Colony-count technique. *This standard Specifies a method for the enumeration of Enterobacteriaceae.*	**2025-01-13**
SANS 6888-1:20XX Ed 2	Microbiology of the food chain - Horizontal method for the enumeration of coagulase-positive staphylococci (Staphylococcus aureus and other species) Part 1: Method using Baird-Parker agar medium. *This document specifies a horizontal method for the enumeration of coagulase-positive staphylococci by counting the colonies obtained on a solid medium (Baird-Parker medium) after aerobic incubation at 34 °C to 38 °C and coagulase confirmation.* *This document is applicable to:* *¿ products intended for human consumption;* *¿ products intended for animal feeding;* *¿ environmental samples in the area of food and feed production, handling, and* *¿ samples from the primary production stage.*	**2025-01-13**
SANS 6888-2:20XX Ed 2	Microbiology of the food chain - Horizontal method for the enumeration of coagulase-positive staphylococci (Staphylococcus aureus and other species) Part 2: Method using rabbit plasma fibrinogen agar medium. *This document specifies a horizontal method for the enumeration of coagulase-positive staphylococci by counting the colonies obtained on a solid medium (rabbit plasma fibrinogen agar medium) after aerobic incubation at 34 °C to 38 °C (see Reference.* *This document is applicable to:*	**2025-01-13**

This gazette is also available free online at **www.gpwonline.co.za**

	¿ products intended for human consumption; *¿ products intended for animal feeding;* *¿ environmental samples in the area of food and feed production and handling;* *¿ samples from the primary production stage.*	
SATR 63491:20xx Ed 1	Live working - Guidance for end users for the selection of personal protective equipment against the hazards of an electric arc. *This standard provides guidance for the selection, use and maintenance of electrical arc flash personal protective equipment.*	**2025-01-13**
SANS 6887-4:20XX Ed 2	Microbiology of the food chain - Preparation of test samples, initial suspension and decimal dilutions for microbiological examination Part 4: Specific rules for the preparation of miscellaneous products. *This standard specifies rules for the preparation of samples and dilutions for the microbiological examination of specific food products not covered in other parts of ISO 6887, which deal with more general categories.*	**2025-01-13**
SANS 61951-1:20xx Ed 2	Secondary cells and batteries containing alkaline or other non-acid electrolytes - Portable sealed rechargeable single cells Part 1: Nickel-cadmium. *This standard Specifies marking, designation, dimensions, tests and requirements for secondary sealed nickel-cadmium small prismatic, cylindrical and button cells and batteries, suitable for use in any orientation, for portable applications.*	**2025-01-13**
SANS 62642-1:20xx Ed 1	*Alarm systems - Intrusion and hold-up systems - Part 1: System requirements.* This standard specifies the requirements for Intrusion and Hold-up Alarm Systems (I&HAS) installed in buildings using specific or non-specific wired interconnections or wire-free interconnections. These requirements also apply to the components of an I&HAS installed in a building which are normally mounted on the external structure of a building e.g. ancillary control equipment or warning devices. The standard does not include requirements for exterior I&HAS.	**2025-01-13**
SATR 62933-4-200:20xx Ed 1	Electrical Energy Storage (EES) Systems - Part 4-200: Guidance on environmental issues - Greenhouse gas (GHG) emissions assessment by electrical energy storage (EES) systems. *This standard describes aspects on reduction of greenhouse gas (GHG) emissions associated with electrical energy storage systems (EES systems), and presents current practices, research activities and related researches in each country.*	**2025-01-13**
SANS 63330-1:20xx Ed 1	Repurposing of secondary batteries - Part 1: General requirements. *This standard provides general requirements for repurposing of secondary cells, modules, battery packs and battery systems, herein also referred to as "PRODUCT", that are originally manufactured for other applications such as electric vehicles.*	**2025-01-13**
SANS 60479-2:20xx Ed 3	Effects of current on human beings and livestock Part 2: Special aspects. *This standard describes the effects on the human body when a sinusoidal alternating current in the frequency range above 100 Hz passes through it.*	**2025-01-13**
SANS 62599-1:20xx Ed 1	Alarm systems - Part 1: Environmental test methods. *This standard specifies environmental test methods to be used for testing the system components of the following alarm systems, intended for use in and around buildings: a) access control systems, for security applications; b) alarm transmission systems1; c) CCTV systems, for security applications; d) combined and/or integrated systems; e) intruder and hold-up alarm systems; f) remote receiving and/or surveillance centres; g) social alarm systems. It specifies three equipment classes (fixed, movable and portable equipment) and fourenvironmental classes.*	**2025-01-13**
SANS 60335-2-12:20xx Ed 3	Household and similar electrical appliances - Safety Part 2-12: Particular requirements for warming plates and similar appliances. *This standard deals with the safety of electric warming plates, warming trays and similar appliances intended to keep food or vessels warm, for household and similar purposes, their rated voltage being not more than 250 V including direct current (DC) supplied appliances and battery-operated appliances.*	**2025-01-13**
SANS 61643-11:20xx□ Ed 2	Low-voltage surge protective devices Part 11: Surge protective devices connected to low-voltage power systems - Requirements and test methods. *This standard is applicable to devices for surge protection against indirect and direct effects of lightning or other transient overvoltages.*	**2025-01-13**
SANS 60479-1:20xx Ed 3	Effects of current on human beings and livestock Part 1: General aspects. *This part of IEC 60479 provides basic guidance on the effects of shock current on human beings and livestock.*	**2025-01-13**

This gazette is also available free online at **www.gpwonline.co.za**

SANS 62642-6:20xx Ed 1	Alarm systems - Intrusion and hold-up systems - Part 6: Power supplies. *This This document specifies the requirements, performance criteria and testing procedures for power supplies (PS) to be used as part of Intrusion and Hold up Alarm Systems (I&HAS). The PS shall either be an integral part of an I&HAS component or standalone. The control functions of the PS may be incorporated as part of the PS device, or may be provided by another I&HAS component e.g. a control and indicating equipment (CIE).*	**2025-01-13**
SANS 2095:20XX Ed 1	Requirements for Buildings made from ISO Shipping Containers. *This standard Provides requirements for the design and construction of buildings constructed from ISO shipping containers.*	**2025-01-13**
SANS 8440:20XX Ed 1	Standard Specification for Food Safety and Quality of Hempseed Products Intended for Human Consumption. *1.1 In this specification, the maximum allowable e.coli,salmonella spp, yeast and mold, foreign material, and total* *delta-9 tetrahydrocannabinol (THC) content is established for major hempseed products intended for human consumption. It also establishes acceptable ranges for moisture, peroxide value, and free fatty acid content, which help maintain product shelf life.* *1.2 This specification establishes specifications for hempseed protein products to facilitate commerce, but is not a specification for consumer-facing labels, which are determined by authorities having jurisdiction and individual companies. It does not include devitalized hempseed.* *1.3 This specification applies to hemp food processors, food companies, wholesalers, regulatory bodies, and analytical laboratories.* *1.4 In this specification, the minimum information required in a Certificate of Analysis is described.* *1.5 Where aspects of this specification differ from regional regulatory jurisdictional requirements, the jurisdictional authority¿ directive shall take precedence.* *1.6 Units¿The values stated in SI units are to be regarded as the standard. No other units of measurement are included in this standard.* *1.7 This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety, health, and environmental practices and determine the applicability of regulatory limitations prior to use.* *1.8 This international standard was developed in accordance with internationally recognized principles on standardization established in the Decision on Principles for the Development of International Standards, Guides and Recommendations issued by the World Trade Organization Technical Barriers to Trade (TBT) Committee*	**2025-01-13**
SANS 63218:20XX Ed 1	Secondary cells and batteries containing alkaline or other non-acid electrolytes - Secondary lithium, nickel cadmium and nickel-metal hydride cells and batteries for portable applications - Guidance on environmental aspects. *This standard provides requirements and recommendations on environmental aspects of secondary lithium, nickel cadmium and nickel-metal hydride cells and batteries for portable applications (hereafter referred to as relevant secondary cells and batteries).*	**2025-01-13**
SANS 62642-2-3:20xx Ed 1	Alarm systems - Intrusion and hold-up systems - Part 2-3: Intrusion detectors - Microwave detectors. *This standard provides for security grades 1 to 4, specific or non-specific wired or wire-free detectors, and uses environmental classes I to IV. This standard does not include requirements for microwave detectors intended for use outdoors.*	**2025-01-13**
SANS 62642-2-6:20xx Ed 1	Alarm systems - Intrusion and hold-up systems - Part 2-6: Intrusion detectors - Opening contacts (magnetic). *This standard provides for security grades 1 to 4, specific or non-specific wired or wirefree opening contacts (magnetic), and includes the requirements for four environmental classes covering applications in internal and outdoor locations.*	**2025-01-13**
SANS 18593:20XX Ed 2	Microbiology of the food chain - Horizontal methods for surface sampling. *This standard specifies horizontal methods for sampling techniques using contact plates, stick swabs, sponges and cloths on surfaces in the food chain environment in order to detect and enumerate culturable microorganisms such*	**2025-01-13**

This gazette is also available free online at **www.gpwonline.co.za**

	as pathogenic or non-pathogenic bacteria or yeasts and moulds.	
SANS 6887-1:XXXX Ed 2	Microbiology of the food chain - Preparation of test samples, initial suspension and decimal dilutions for microbiological examination Part 1: General rules for the preparation of the initial suspension and decimal dilutions. *This standard defines general rules for the aerobic preparation of the initial suspension and of dilutions for microbiological examinations of products intended for human or animal consumption.*	**2025-01-13**
SANS 6887-2:XXXX Ed 2	Microbiology of the food chain - Preparation of test samples, initial suspension and decimal dilutions for microbiological examination Part 2: Specific rules for the preparation of meat and meat products. This standard specifies rules for the preparation of meat and meat product samples and their suspension for microbiological examination when the samples require different preparation from the methods described in ISO 6887-1.	**2025-01-13**
SANS 1539:20XX Ed 6	Appliances operating on liquefied petroleum gas (LPG) or natural gas (NG) - Safety aspects. 1.*1 This standard covers the safety aspects of appliances that operate on liquefied petroleum gas* *(LPG), natural gas (NG), or biogas at a consumption rate not exceeding 10 kg/h for appliances* *operating on LPG and 500 MJ/h (140 kWh) for appliances operating on NG and biogas.* *1.2 This standard also covers appliances where the gas supply is direct from a non-refillable* *cartridge*	**2025-01-13**
SATR 61850-7-6:20xx Ed 2	Communication networks and systems for power utility automation -Part 7-6: Guideline for definition of Basic Application Profiles (BAPs) using IEC 61850. *Focuses on building application / function profiles and specifies a methodology to define Basic Application Profiles (BAPs), in textual documents (edition 1, 2019) or in a machine processable SCL format (current edition).*	**2025-01-13**
SANS 8273:20XX Ed 1	Standard Terminology Relating to Cannabis. *1.1 This terminology is a compilation of definitions of technical terms used in the cannabis industry. Terms that are generally understood or adequately defined in other readily* *available sources are not included.* *1.2 When a term is used in an ASTM document for which Committee D37 is responsible it is included only when judged, after review by Subcommittee D37.91, to be a generally usable term.* *1.3 Definitions that are identical to those published by other ASTM committees or other standards organizations are iden tified with the committee number (for example, D20) or with the abbreviation of the name of the organization (for example, IUPAC, International Union of Pure and Applied Chemistry).* *1.4 A definition is a single sentence with additional information included in discussions.* *1.5 Definitions are followed by the committee responsible for the standard(s) (for example, [D37.01]) and standard designation(s) in which they are used (for example, D8219).* *1.6 Abbreviated Terminology:* *1.6.1 Abbreviated terminology is intended to provide uni form contractions of terms relating to cannabis that have evolved through widespread common usage. The compilation in this standard has been prepared to avoid the occurrence of more than one abbreviated term for a given cannabis term and* *to avoid multiple meanings for abbreviated terms.* *1.6.2 The abbreviated terminology and descriptions in this standard are intended to be consistent with usage in the cannabis industry and the standards under D37 jurisdiction. Other ASTM committees may assign a different word-phrase* *description to the same abbreviated terminology. In such cases, the abbreviated terms in this standard shall apply to usage in D37 standards, or if widespread*	**2025-01-13**

This gazette is also available free online at **www.gpwonline.co.za**

	misunderstanding could result from conflicting abbreviated terminology descriptions, the abbreviated terminology for the word-phrase shall not be used in D37 standards. *1.6.3 Acronyms and Initialisms¿A word formed from the letters or parts of words of a longer word-*	
SANS 8417:20XX Ed 1	Standard Guide for Sampling of Hempseed Intended for Human Consumption. *1.1 This guide covers recommended steps used in collection of a representative field sample of bulk hempseed intended for human consumption.* *1.2 This guide applies to plant breeders, hempseed producers/farmers, seed cleaners, storage facilities, laboratories, and processors who handle bulk hempseed.* *1.3 Units¿The values stated in SI units are to be regarded as standard. No other units of measurement are included in this standard.* *1.4 This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety, health, and environmental practices and determine the applicability of regulatory limitations prior to use.* *1.5 This international standard was developed in accordance with internationally recognized principles on standardization established in the Decision on Principles for the Development of International Standards, Guides and Recommendations issued by the World Trade Organization Technical Barriers to Trade (TBT) Committee.*	**2025-01-13**
SATR 62271-307:20XX□ Ed 2	High- voltage switchgear and controlgear - Part 307: Guidance for the extension of validity of type tests of AC metal and solid-insulation enclosed switchgear and controlgear for rated voltages above1 kV and up to and including 52 kV. *This standard Refers to prefabricated metal-enclosed and solid-insulation enclosed (both hereinafter called enclosed) switchgear and controlgear assemblies for alternating current of rated voltages above 1 kV and up to and including 52 kV as specified in IEC 62271-200 (published in South Africa as an identical adoption under the designation SANS 62271-200) and IEC 62271-201(published in South Africa as an identical adoption under the designation SANS 62271-201), and to other equipment included in the same enclosure with any possible mutual influence.*	**2025-01-13**
SANS 63402-1:20xx Ed 1	Energy Efficiency - Customer Energy Management Systems - Part 1: General Requirements and Architecture. *This standard specifies general requirements and the architecture between the Point of Common Coupling (PCC) and smart devices (SD) operating within the Smart Grid premises-side system (i.e. residential or commercial but not industrial premises).*	**2025-01-13**
SANS 62052-31:20XX Ed 2	Electricity metering equipment - General requirements, tests and test conditions - Part 31: Product safety requirements and tests. *This standard specifies general safety requirements and associated tests, with their appropriate conditions for type testing of directly connected, transformer-operated or transducer-operated AC and DC electricity meters and load control equipment*.	**2025-01-13**
SANS 8433:20xx Ed 1	Standard Specification for Food Safety and Quality of Hempseed Intended for Dehulling or Oil Extraction Food Purposes. *This standard establishes the maximum allowable E. coli and Salmonella microbial levels, moisture content,peroxide value (PV), free fatty acid (FFA) content, yeast and mold levels, representative heavy metals, total coliforms,foreign material, and discoloration for hempseed intended for human consumption*.	**2025-01-13**
SANS 60079-14:20xx Ed 1	Explosive atmospheres Part 14: Electrical installations design, selection and erection. *Contains the specific requirements for the design of electrical systems, selection, installation and the required initial inspection of electrical installations of Ex Equipment in, or associated with, explosive atmospheres including requirements for documentation and personnel competency*.	**2025-01-13**

SCHEDULE A.1: AMENDMENT OF EXISTING STANDARDS

The following draft amendments are hereby issued for public comments in compliance with the norm for the development of the South African National Standards in terms of section 23(2)(a) (ii) of the Standards Act.

This gazette is also available free online at **www.gpwonline.co.za**

Draft Standard No. and Edition	Title	Scope of amendment	Closing Date
SANS 242:XXXX Ed 5.1	*Stainless steel sinks with draining boards (for domestic use)*	Amended to delete the annex on notes to purchasers.	**2025-01-13**
SANS 556-2-3:20XX Ed 1.2	*Low-voltage switchgear Part 2-3: Modular earth leakage devices (without integral current breaking)*	Amended to update referenced standards.	**2025-01-13**
SANS 1567:20XX Ed 2.4	*Portable rechargeable fire extinguishers - CO2 type extinguishers*	Amended to update referenced standards, and the requirements in the clause on inspection and methods of test	**2025-01-13**
SANS 3001AG2:20XXXX Ed 1.1	*Civil engineering test methods Part AG2: Determination of the average least dimension of aggregates by direct measurement*	Amended to update the introduction and referenced standards.	**2025-01-13**
SANS 924:XXXX Ed 3.1	*Stainless steel stall urinals.*	Amended to delete the annex on notes to purchasers.	**2025-01-13**
SANS 556-1:20XX Ed 1.3	*Low-voltage switchgear Part 1: Circuit-breakers*	Amended to update referenced standards	**2025-01-13**
SANS 556-2-1:20XX Ed 1.2	*Low-voltage switchgear Part 2-1: Earth leakage circuit-breakers*	Amended to update referenced standards.	**2025-01-13**

SECTION B: ISSUING OF THE SOUTH AFRICAN NATIONAL STANDARDS

SCHEDULE B.1: NEW STANDARDS

The following standards have been issued in terms of section 24(1)(a) of the Standards Act.

Standard No. and year	Title, scope and purport
SANS 2098:2025 Ed 1	Scouring compounds. *Specifies requirements and methods of test for three types of scouring compounds for the removal of tenacious soil from hard surfaces and kitchen utensils.*
SANS 2341:2025 Ed 1	Essential oil of Lippia Javanica. *Applies to essential oil of Lippia javanica used in cosmetics and personal hygiene*
SANS 3093:2025 Ed 1	Organic chlorine bleach. *Covers organic chlorine bleaches for use in laundries.*
SANS 10318-1:2025 Ed 1	Geosynthetics - Part 1: Terms and definitions. *Defines terms related to functions, products, properties, and other terms used in EN and ISO geosynthetics International Standards*.
SANS 10318-2:2025 Ed 1	Geosynthetics - Part 2: Symbols and pictograms. *Defines property symbols, graphical symbols, and pictograms used in EN and ISO geosynthetics standards.*
SANS 21857:2025 Ed 1	Petroleum, petrochemical and natural gas industries - Prevention of corrosion on pipeline systems influenced by stray currents. *Establishes the general principles for the evaluation and minimization of the effects of stray current corrosion on external surfaces of buried or immersed pipeline systems caused by AC and DC electrical interference.*
SANS 31031:2025 Ed 1	Managing risk for youth and school trips. *Gives guidance on managing risk for youth and school trips for both domestic and international travel with specific attention to minors.*
SATS 31050:2025 Ed 1	Risk management - Guidelines for managing an emerging risk to enhance resilience. *Gives guidance on managing emerging risks that an organization can face.*

This gazette is also available free online at **www.gpwonline.co.za**

Standard No. and year	Title, scope and purport
SANS 33406:2025 Ed 1	Approaches for the production of reference materials with qualitative properties. *Notes the requirements of ISO 17034 (adopted in South Africa as an identical adoption under the designation SANS 17034) and provides guidance on the implementation of ISO 17034 (adopted in South Africa as an identical adoption under the designation SANS 17034) in the production of RMs having one or more assigned qualitative property values, for expressing uncertainties for qualitative property values, and for establishing traceability.*
SANS 37004:2025 Ed 1	Governance of organizations -Governance maturity model – Guidance. *Provides guidance on evaluating the establishment of governance conditions and on the application of governance principles with consideration for the ISO 37000 key aspects of practice.*
SANS 60364-4-43:2025 Ed 1	Low-voltage electrical installations - Part 4-43: Protection for safety - Protection against overcurrent. *Provides requirements for:* *- protection of live conductors, PEN conductors, PEM conductors, and PEL conductors against the harmful effects caused by overcurrent;* *- coordination of measures for protection against overcurrent.*
SANS 60364-4-42:2025 Ed 1	Low-voltage electrical installations - Part 4-42: Protection for safety - Protection against thermal effects. *Applies to electrical installations with regard to measures for the protection of persons, livestock and property against:* *a) thermal effects, risk of combustion or degradation of materials, and risk of burns caused by electrical equipment,* *b) flames in case of a fire hazard being propagated from electrical installations to other fire compartments segregated by barriers which are in the vicinity, and* *c) the impairment of the safe functioning of electrical equipment, including safety services due to thermal effects.*
SANS 60364-4-41:2025 Ed 1	Low voltage electrical installations - Part 4-41: Protection for safety - Protection against electric shock. *Specifies essential requirements regarding protection against electric shock of persons and livestock.*
SANS 60884-2-8:2025 Ed 1	Plugs and socket-outlets for household and similar purposes - Part 2-8: Particular requirements for socket-outlets for furniture. *Applies to socket-outlets for furniture for AC only, with or without earthing contact, with or without supply cable, with a rated voltage greater than 50 V but not exceeding 440 V and a rated current not exceeding 32 A, intended for household and similar purposes, either indoors or outdoors. Covers socket-outlets for furniture which are intended to be built into or fixed into furniture and are not intended to be moved from one place to another without removing the fixing means. Covers socket-outlets for furniture which are intended to be connected to the electrical installation either permanently, for example by means of an installation coupler according to IEC 61535 (published in South Africa as an identical adoption under the designation SANS 61535), or non-permanently by means of a plug.*
SANS 61158-2:2025 Ed 1	Industrial communication networks - Fieldbus specifications Part 2: Physical layer specification and service definition. *Specifies the requirements for fieldbus component parts. Specifies the media and network configuration requirements necessary to ensure agreed levels of* *a) data integrity before data-link layer error checking;* *b) interoperability between devices at the physical layer*.
SATS 62271-316:2025 Ed 1	High-voltage switchgear and controlgear - Part 316: Direct current by-pass switches and paralleling switches. *Directs current (DC) by-pass switches (BPS) and paralleling switches (PS) designed for indoor or outdoor installation and for operation on HVDC transmission systems having direct voltages of 100 kV and above*.
SATS 62271-315:2025 Ed 1	High-voltage switchgear and controlgear - Part 315: Direct current (DC) transfer switches. *Applies to direct current (DC) transfer switches designed for indoor or outdoor installation and for operation on HVDC transmission systems having direct voltages of 100 kV and above.*

This gazette is also available free online at **www.gpwonline.co.za**

Standard No. and year	Title, scope and purport
SATS 62271-318:2025 Ed 1	High-voltage switchgear and controlgear - Part 318: DC gas-insulated metal-enclosed switchgear for rated voltages including and above 100 kV. *Specifies requirements for gas-insulated metal-enclosed switchgear in which the insulation is obtained, at least partly, by an insulating gas or gas mixture other than air at atmospheric pressure, for direct current of rated voltages including and above 100 kV, for indoor and outdoor installation.*
SATS 62271-320:2025 Ed 1	High-voltage switchgear and controlgear - Part 320: Environmental aspects and life cycle assessment rules for high-voltage switchgear and controlgear. *Provides guidance to suppliers, manufacturers, users, and waste operators of high-voltage switchgear and controlgear as well as their assemblies having a rated voltage above 1 kV AC and 1,5 kV DC, together with their associated auxiliary equipment, on environmentally conscious design, and on assessing environmental impacts when used in systems.*

SCHEDULE B.2: AMENDED STANDARDS

The following standards have been amended in terms of section 24(1)(a) of the Standards Act.

Standard No. and year	Title, scope and purport
SANS 80:2025 Ed 4.01	Mass (oven-dry plus conventional allowance) per unit area of textile fabrics, free from non-fibrous material. Specifies a method for the evaluation of the mass per unit area of textile fabrics.
SANS 422:2025 Ed 5.02	Hospital nurses' shoes (Goodyear welted construction). *Applicable to six types of hospital nurses' shoes made in accordance with the Goodyear welted principle.They shall be of one of the following types as required:* *a) type 1: lace-up shoes with calf leather uppers;* *b) type 2: lace-up shoes with glacé kid leather uppers;* *c) type 3: lace-up shoes with side leather uppers;* *d) type 4: slip-on shoes with calf leather uppers;* *e) type 5: slip-on shoes with glacé kid leather uppers; or* *f) type 6: slip-on shoes with side leather uppers.*
SANS 441:2025 Ed 1.03	Timber preservative - Mixture of azoles and permethrin. *Specifies the requirements for the ready-to-use mixture of azoles (tebuconazole and propiconazole) and permethrin, in a liquid form for use as a timber preservative.*
SANS 506:2025 Ed 1.03	Timber preservative - Alkaline-copper-quaternary type. *Timber preservative - Alkaline-copper-quaternary type*
SANS 1150:2025 Ed 2.05	Glass-reinforced polyester (GRP) laminated sheets (profiled or flat). *Covers the requirements for two types of profiled or flat sheets made from glass-reinforced polyester (GRP) resin laminates.*
SANS 1246:2025 Ed 1.01	Polypropylene grain bags. *Covers the requirements for two types of bags made from slip-resistant tubular woven fabric (of which polypropylene yarns are the major component) and that are suitable for use for the handling, transportation and storage of whole grain (maize) and milled grain (maize meal).*
SANS 1329-1:2025 Ed 2.06	Retro-reflective and fluorescent warning signs for road vehicles Part 1: Triangles. *Covers requirements for two types of triangles that are retro reflective and fluorescent and are intended to be carried in motor vehicles operating on public roads.*

This gazette is also available free online at **www.gpwonline.co.za**

SANS 1329-2:2025 Ed 2.07	Retro-reflective and fluorescent warning signs for road vehicles Part 2: Abnormal load vehicle signs. *Covers requirements for abnormal load signs that are retro-reflective and fluorescent, and that are intended for use on motor vehicles operating on public roads*.
SANS 1329-4:2025 Ed 4.02	Retro-reflective and fluorescent warning signs for road vehicles Part 4: Retro-reflective chevron signs and decals. *Specifies requirements for retro-reflective chevron signs that incorporate a substrate and chevron decals that are intended for use on motor vehicles that operate on public roads.*
SANS 1401 (PARTS 1-15):2025 Ed 2.02	Woven cotton and similar household fabrics and articles Parts 1 - 15, bound together, loose-leaf. *SANS 1401 covers the definitions, basic requirements, requirements for packing, labelling, marking, and the inspection and testing of woven cotton and similar household fabric piece-goods and made-up articles. Specific requirements are covered by the relevant individual parts of SANS 1401.*
SANS 1401-1:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 1: Basic requirements for piece-goods and made-up articles. *Covers the definitions, basic requirements, requirements for packing, labelling, marking, and the inspection and testing of woven cotton and similar household fabric piece-goods and made-up articles.*
SANS 1401-2:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 2: Winter sheeting, sheets and pillowcases. *Covers the specific requirements of three types of raised sheeting fabric, and articles in the form of winter sheets and pillowcases.*
SANS 1401-3:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 3: Cotton sheeting, sheets, and pillowcases. *This part of SANS 1401 covers the specific requirements of four types of cotton sheeting fabric and articles in the form of sheets and pillowcases.*
SANS 1401-4:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 4: Polyester-and-cotton sheeting, sheets and pillowcases. *This part of SANS 1401 covers the specific requirements of six types of polyester-and-cotton sheeting fabric, and articles in the form of sheets and pillowcases.*
SANS 1401-5:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 5: Terry towelling, towels, and other terry weave articles. *This part of SANS 1401 covers the specific requirements of five types of cotton terry towelling fabric, and articles in the form of bibs, face cloths, napkins, towels and bathmats.*
SANS 1401-6:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 6: Cotton curtain fabrics. *This part of SANS 1401 covers the specific requirements of two types of cotton fabric suitable for curtaining.*
SANS 1401-7:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 7: Cotton curtain lining. *This part of SANS 1401 covers the specific requirements of two types of cotton fabric suitable for curtain linings.*
SANS 1401-8:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 8: Bedspread fabrics and bedspreads. *This part of SANS 1401 covers the specific requirements of three types of cotton fabrics and articles in the form of bedspreads*.
SANS 1401-9:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 9: Cotton flannelette duster fabric and dusters. *This part of SANS 1401 covers the specific requirements of one type of cotton flannelette fabric and articles in the form of dusters.*
SANS 1401-10:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 10: Cotton ticking. *This part of SANS 1401 covers the specific requirements of two types of cotton fabric suitable for mattress ticking.*
SANS 1401-11:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 11: Featherproof fabrics. This part of SANS 1401 covers the specific requirements of two types of cotton fabric suitable for use in the manufacture of feather pillows.
SANS 1401-12:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 12: Kitchen cloth fabric and kitchen cloths. *This part of SANS 1401 covers the specific requirements of four types of cotton kitchen cloth fabric, and made-up kitchen cloths*.
SANS 1401-13:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 13: Cotton huckaback towelling and towels. *Woven cotton and similar household fabrics and articles Part 13: Cotton huckaback towelling and towels*

This gazette is also available free online at **www.gpwonline.co.za**

SANS 1401-14:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 14: Cotton table-cloth fabric, table-cloths, and table napkins. *This part of SANS 1401 covers the specific requirements of three types of cotton fabric, and articles in the form of table-cloths and table napkins*.
SANS 1401-15:2025 Ed 2.02	Woven cotton and similar household fabrics and articles Part 15: Cotton dishcloth fabrics and dishcloths. *This part of SANS 1401 covers the specific requirements of three types of cotton fabric, and articles in the form of dishcloths.*
SANS 1900:2025 Ed 1.03	Monoplanar prefabricated timber roof trusses (nail-plated). Specifies requirements for monoplanar prefabricated timber roof trusses assembled with nail plates.

SCHEDULE B.3: Revised STANDARDS

The following standards have been revised in terms of section 24(1)(a) of the Standards Act.

Standard No. and year	Title, scope and purport
SANS 1525:2025 Ed 2	Geosynthetics - Wide-width tensile test. *Specifies an index test method for the determination of the tensile properties of geosynthetics (polymeric, glass and metallic), using a wide-width strip.*
SANS 3088:2025 Ed 2	Water Efficiency in buildings. *Provides minimum requirements for plumbing fixtures and fittings and for water usage in buildings.*
SANS 4136:2025 Ed 3	Destructive tests on welds in metallic materials - Transverse tensile test. *Specifies the sizes of test specimen and the procedure for carrying out transverse tensile tests to determine the tensile strength and the location of fracture of a welded butt joint. This document applies to metallic materials in all forms of product with joints made by any welded butt joint.*
SANS 4706:2025 Ed 3	Gas cylinders - Refillable welded steel cylinders - Test pressure 60 bar and below. *Specifies the minimum requirements concerning material selection, design, construction and workmanship, procedure, and test at manufacture of refillable welded-steel gas cylinders of water capacities from 0,5 L up to and including 150 L and drums of water capacities of 150 L to 500 L of a test pressure not greater than 60 bar1), exposed to extreme worldwide temperatures (-50 degree celsius to +65 degree celsius) used for compressed, liquefied or dissolved gases.*
SANS 10400-S:2025 Ed 4	The application of the National Building Regulations Part S: Facilities for persons with disabilities. *Provides deemed-to-satisfy and performance requirements for compliance with part S (Facilities for Persons with Disabilities) of the National Building Regulations.*
SANS 11770-2:2025 Ed 3	IT Security techniques - Key management Part 2: Mechanisms using symmetric techniques. *defines key establishment mechanisms using symmetric cryptographic techniques*
SANS 11770-3:2025 Ed 4	Information Security - Key management Part 3: Mechanisms using asymmetric techniques. *Defines key management mechanisms based on asymmetric cryptographic techniques.*
SANS 11770-4:2025 Ed 2	Information technology - Security techniques - Key management Part 4: Mechanisms based on weak secrets. *Defines key establishment mechanisms based on weak secrets, i.e. secrets that can be readily memorized by a human, and hence, secrets that will be chosen from a relatively small set of possibilities.*
SANS 11770-5:2025 Ed 2	Information security - Key management - Part 5 Group Key management. *Specifies mechanisms to establish shared symmetric keys between groups of entities.*
SANS 15589-1:2025 Ed 2	Petroleum, petrochemical and natural gas industries - Cathodic protection of pipeline systems Part 1: On-land pipelines. *Specifies requirements and gives recommendations for the pre-installation surveys, design, materials, equipment, installation, commissioning, operation, inspection, and maintenance of cathodic protection systems for on-land pipelines, as defined in ISO 13623 or EN 14161 for the petroleum, petrochemical, and natural gas industries, and in EN 1594 or EN 12007-1 and EN 12007-3 used by gas supply industries in Europe.*

This gazette is also available free online at **www.gpwonline.co.za**

SANS 15589-2:2025 Ed 2	Oil and gas industries including lower carbon energy - Cathodic protection of pipeline transportation systems Part 2: Offshore pipelines. *Specifies requirements and gives recommendations for the pre-installation surveys, design, materials, equipment, fabrication, installation, commissioning, operation, inspection and maintenance of cathodic protection (CP) systems for offshore pipelines for the petroleum, petrochemical and natural gas industries as defined in ISO 13623.*
SANS 18000-4:2025 Ed 3	Information technology - Radio frequency identification for item management Part 4: Parameters for air interface communications at 2,45 GHz. *Defines the air interface for radio frequency identification (RFID) devices operating in the 2,45 GHz industrial, scientific, and medical (ISM) band used in item management applications.*
SANS 19115-2:2025 Ed 2	Geographic information - Metadata Part 2: Extensions for acquisition and processing. *Extends ISO 19115-1:2014 (published in South Africa as an identical adoption under the designation SANS 19115-1) by defining the schema required for an enhanced description of the acquisition and processing of geographic information, including imagery.*
SANS 19116:2025 Ed 2	Geographic information - Positioning services. *Specifies the data structure and content of an interface that permits communication between position-providing device(s) and position-using device(s) enabling the position-using device(s) to obtain and unambiguously interpret position information and determine, based on a measure of the degree of reliability, whether the resulting position information meets the requirements of the intended use.*
SANS 19144-2:2025 Ed 2	Geographic information- Classification systems - Part 2 Land cover Meta Language(LCML). *Specifies a Land Cover Meta Language (LCML) expressed as a UML metamodel that allows different Land Cover classification systems to be described based on physiognomic aspects.*
SANS 60332-3-21:2025 Ed 2	Tests on electric cables under fire conditions Part 3-21: Test for vertical flame spread of vertically-mounted bunched wires or cables - Category A F/R. *Specifies methods of test for the assessment of vertical flame spread of vertically-mounted bunched wires or cables, electrical or optical, under defined conditions.*
SANS 60332-3-23:2025 Ed 2	Tests on electric and optical fibre cables under fire conditions Part 3-23: Test for vertical flame spread of vertically-mounted bunched wires or cables - Category B. *Specifies methods of test for the assessment of vertical flame spread of vertically-mounted bunched wires or cables, electrical or optical, under defined conditions.*
SANS 60670-1:2025 Ed 3	Boxes and enclosures for electrical accessories for household and similar fixed electrical installations Part 1: General requirements. *Applies to boxes, enclosures and parts of enclosures (hereafter called "boxes" and "enclosures") for electrical accessories with a rated voltage not exceeding 1 000 V AC and 1 500 V DC intended for household or similar fixed electrical installations, either indoors or outdoors.*
SANS 1615:2025 Ed 3	Disinfectants based on glutaraldehyde for domestic, industrial and institutional use. *Specifies requirements for two types of disinfectants based on glutaraldehyde and intended for domestic, industrial and institutional use.*
SANS 1658:2025 Ed 3	Ballistic resistance of body armour. *Specifies the minimum performance requirements for the ballistic resistance of body armour intended to protect the wearer's torso against gunfire.*
SA SANS 162:2025 Ed 4	Gas cylinders – Vocabulary. *Defines terms for gas cylinders.*
SANS 199:2025 Ed 4	Shut-off valves for transportable, refillable liquefied petroleum gas cylinders. *Specifies the requirements for the design, specification and type testing of dedicated liquefied petroleum gas (LPG) cylinder valves specifically for use with transportable refillable LPG cylinders from 0,5 L up to and including 150 L water capacity.*
SANS 60670-21:2025 Ed 2	Boxes and enclosures for electrical accessories for household and similar fixed electrical installations Part 21: Particular requirements for boxes and enclosures with provision for suspension means. *Applies to boxes and enclosures for ceiling and wall mounting with provision for suspension means.*
SANS 60670-22:2025 Ed 2	Boxes and enclosures for electrical accessories for household and similar fixed electrical installations Part 22: Particular requirements for connecting boxes and enclosures. *Applies to junction connecting boxes or tapping connecting boxes or both.*
SANS 60670-24:2025 Ed 3	Boxes and enclosures for electrical accessories for household and similar fixed electrical installations Part 24: Particular requirements for enclosures for housing protective devices and other power dissipating electrical equipment. *Applies to enclosures and parts of them for housing protective devices and other power dissipating electrical equipment intended to be used with a rated voltage not exceeding 400 V and a total incoming load current not exceeding 125 A for household and similar fixed electrical installations.*

This gazette is also available free online at **www.gpwonline.co.za**

SANS 60884-2-2:2025 Ed 3	Plugs and socket-outlets for household and similar purposes Part 2-2: Particular requirements for socket-outlets for appliances. *Applies to socket-outlets for a.c. only, with or without earthing contact, with a rated voltage not exceeding 250 V and a rated current not exceeding 16 A, which are integrated or intended to be incorporated in or fixed to appliances.*
SANS 60884-2-3:2025 Ed 3	Plugs and socket-outlets for household and similar purposes Part 2-3: Particular requirements for switched socket-outlets without interlock for fixed installations. *Applies to switched socket-outlets without interlock, for fixed installation, for AC only, with or without earthing contact, with a rated voltage not exceeding 440 V and a rated current not exceeding 32 A, intended for household and similar purposes, either indoors or outdoors. Applies to socket-outlets controlled by a manually operated mechanical switch.*
SANS 60884-2-6:2025 Ed 2	Plugs and socket-outlets for household and similar purposes Part 2-6: Particular requirements for switched socket-outlets with interlock for fixed electrical installations. *Applies to switched socket-outlets with interlock for AC only, for fixed electrical installations, with or without earthing contact, with rated voltage above 50 V but not exceeding 440 V and a rated current not exceeding 32 A, intended for household and similar purposes, either indoors or outdoors.*
SANS 60884-2-7:2025 Ed 2	Plugs and socket-outlets for household and similar purposes Part 2-7: Particular requirements for cord extension setst. *Applies to cord extension sets, rewirable and non-rewirable, with or without earthing contact, with a rated voltage greater than 50 V but not exceeding 440 V and a rated current not exceeding 16 A, intended for household and similar purposes, either indoors or outdoors. Applies to cord extension sets which are intended to be used in a cable reel, and which therefore become cable reels with a detachable flexible cable.*
SANS 60947-2:2025 Ed 6	Low-voltage switchgear and controlgear Part 2: Circuit-breakers. *Applies to circuit-breakers, intended to be installed and operated by instructed or skilled persons, the main contacts of which are intended to be connected to circuits, the rated voltage of which does not exceed 1 000 V AC or 1 500 VC.*

If your organization is interested in participating in these committees, obtaining a copy of the draft or would like to send comments on draft documents, please send an e-mail to Dsscomments@sabs.co.za for more information or visit SABS website

SCHEDULE 5: ADDRESS OF THE SOUTH AFRICAN BUREAU OF STANDARDS HEAD OFFICE

Copies of the standards mentioned in this notice can be obtained from the Head Office of the South African Bureau of Standards at 1 Dr Lategan Road, Groenkloof, Private Bag X191, Pretoria 0001.

This gazette is also available free online at **www.gpwonline.co.za**

DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION

NOTICE 3601 OF 2025

COMPETITION TRIBUNAL

NOTIFICATION OF COMPLAINT REFERRAL

The Competition Tribunal gives notice in terms of Section 51(3) & (4) of the Competition Act 89 of 1998 as amended, that it received the c COVCR074Jul20omplaint referrals listed below. The complaint(s) alleges that the respondent(s) engaged in a prohibited practice in contravention of the Competition Act 89 of 1998.

Case No.	Complainant	Respondent	Date received	Sections of the Act
CRP113Oct25	eTouch Logistics (Pty) Ltd	Airports Company of South Africa SOC Ltd (ACSA) and Swissport SA (Pty) Ltd	14/10/2025	8(1)(a),8(1)(b),8(c),8(d)(i),8(d)(ii),8(d)(iv),9(1)

The Chairperson
Competition Tribunal

DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION

NOTICE 3602 OF 2025

COMPETITION TRIBUNAL
NOTIFICATION OF DECISION TO APPROVE MERGER

The Competition Tribunal gives notice in terms of rules 34(b)(ii) and 35(5)(b)(ii) of the "Rules for the conduct of proceedings in the Competition Tribunal" as published in Government Gazette No. 22025 of 01 February 2001 that it approved the following mergers:

Case No.	Acquiring Firm	Target Firm	Date of Order	Decision
LM073Aug25	Burstone Group Ltd	Izandla Property Fund (Pty) Ltd	16/10/2025	Approved
LM057Jul25	Malan and Buys (Pty) Ltd	Aptekor Sneldiens (Pty) Ltd and Aptekor Wholesale (Pty) Ltd	21/10/2025	Approved
LM083Sep25	BWS Holdings Ltd (Bidco)	Just Group PLC	21/10/2025	Approved Subject to Conditions
LM101Sep25	MMU Property Investments (Pty) Ltd	The dealership businesses conducted by CFAO Mobility (Pty) Ltd in respect of the Ford Malmesbury, Ford Citrusdal and Ford Springbok dealerships, located at 1 Pieter Berg Street, 69 Voortrekker Street and the corner of Inry and Kwartsiet Street	28/10/2025	Approved
LM104Sep25	Vukile Property Fund Ltd	Sanlam Life Insurance Ltd	28/10/2025	Approved

The Chairperson Competition Tribunal

DEPARTMENT OF TRANSPORT

NOTICE 3603 OF 2025

MERCHANT SHIPPING ACT, 1951 (ACT NO. 57 OF 1951)

THE DRAFT MERCHANT SHIPPING (LIFE-SAVING EQUIPMENT AND FIRE APPLIANCES) REGULATIONS, 2025

The Minister of Transport, in terms of section 356(1) of the Merchant Shipping Act, 1951 (Act No. 57 of 1951), hereby publishes for comments, the draft Merchant Shipping (Life-Saving Equipment and Fire Appliances) Regulations, 2025.

Interested persons are invited to submit written comments on these draft Merchant Shipping (Life-Saving Equipment and Fire Appliances) Regulations, 2025 to the Director-General, Department of Transport for the attention of Mr. T. Matlala within 30 days after publication of this notice.

The Department of Transport

SCHEDULE

Arrangement of regulations

PRELIMINARY

1. Definitions
2. Application of these Regulations
3. Classification of ships

PART I
LIFE-SAVING APPLIANCES AND ARRANGEMENTS

CHAPTER I – LIFE-SAVING APPLIANCES AND ARRANGEMENTS FOR THE RESPECTIVE CLASSES OF VESSELS

4. Compliance with the LSA Code
5. Compliance with the Polar Code
6. Operational readiness maintenance and inspection for life-saving appliances and arrangements
7. Class I ships
8. Class II ships
9. Class IIA ships
10. Class III ships
11. Class IV ships
12. Class V ships
13. Class VI ships
14. Class VII ships
15. Class VIIA ships
16. Class VIII ships
17. Class IX ships
18. Class IXA ships
19. Class XI ships
20. Class XII ships
21. Passenger ships (Additional Requirements)
22. Cargo ships (Additional Requirements)

CHAPTER II- REQUIREMENTS FOR LIFE-SAVING APPLIANCES

23. Application and Interpretation
24. General requirements for lifeboats
25. Liferafts, launching and embarkation appliances
26. Marking of lifeboats, rescue boats and liferafts
27. Lifebuoys and danbuoys

This gazette is also available free online at **www.gpwonline.co.za**

28. Lifejackets
29. Line-throwing appliances
30. Approved rescue boat
31. Evaluation, Production tests, testing and approval of life-saving appliances and arrangements
32. Training manual and on-board training aids
33. Instructions for on-board maintenance
34. Muster list and emergency instructions
35. Alternative design and arrangements

CHAPTER III-PROVISION OF EQUIPMENT AND RATIONS IN LIFEBOATS, BOATS AND LIFERAFTS

36. Equipment for lifeboats and rescue boats
37. Rations for lifeboats
38. Special equipment for certain motor lifeboats
39. Equipment and rations for liferafts

CHAPTER IV-STOWAGE AND HANDLING OF LIFE-SAVING APPLIANCES

40. General provisions relating to the stowage and handling of life-saving equipment
41. Stowage and handling of lifeboats, and boats

CHAPTER V—MISCELLANEOUS PROVISIONS

42. Stowage, design and handling of liferafts, lifebuoys, lifejackets, immersion suits, anti-exposure suits, rescue boats and marine evacuation systems
43. Embarkation into survival craft, rescue boats, launching and recovery arrangements
44. Manning of survival craft and supervision
45. Portable radio equipment
46. Electrically operated signals, on-board communications, alarm systems and public address systems
47. Electric lighting
48. Vessels' distress signals and list of persons on board
49. Survival craft posters and signs
50. Recovery of persons from water
51. Emergency training and drills

CHAPTER VI—EQUIVALENTS, CONCESSIONS AND EXEMPTIONS

52. Equivalents and approval of types of life-saving equipment
53. Exemption in respect of portable radio equipment
54. Concession regarding the size of rescue boats
55. Exemption in respect of a vessel constructed before the coming into force of this Part
56. General exemption in respect of certain vessels

PART II

This gazette is also available free online at **www.gpwonline.co.za**

FIRE APPLIANCES

CHAPTER I — CLASS I SHIPS

57. Class I ships

CHAPTER II — CLASS II OR IIA SHIPS

58. Requirements

CHAPTER III — CLASS III OR IV SHIPS

59. Class III ships
60. Class IV ships

CHAPTER IV — CLASS V OR VI SHIPS

61. Class V or VI ships
62. Water pipes, hydrants and fire hoses
63. Portable fire extinguishers for passenger and crew spaces
64. Machinery spaces: ships fitted with main or auxiliary oil-fired boilers
65. Machinery spaces containing internal combustion machinery
66. Fire pumps

CHAPTER V — CLASS VII SHIPS

67. Class VII Ships of 500 gross tons or over: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles
68. Class VII Ships of 500 gross tons or over: Fire extinguishers for accommodation spaces, service spaces and control stations
69. Class VII Ships of 2,000 gross tons or over: Fixed gas fire-extinguishing arrangements in cargo spaces
70. Class VII Ships of 500 gross tons or over: Machinery spaces containing oil-fired boilers or oil burning equipment
71. Class VII Ships of 500 gross tons or over: Machinery spaces containing internal combustion machinery
72. Class VII Ships of 500 gross tons or over: Machinery spaces containing steam turbines or enclosed steam engines
73. Class VII Ships of 500 gross tons or over: Firefighters' outfits
74. Class VII Ships of 500 gross tons or over: International shore connection
75. Application of regulations to Class VII ships
76. Class VII Ships of 150 gross tons or more but less than 500 gross tons: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles
77. Class VII Ships of 150 gross tons or more but less than 500 gross tons: Portable fire extinguishers for accommodation and service spaces
78. Class VII Ships of 150 gross tons or more but less than 500 gross tons: Machinery spaces containing oil-fired boilers or oil burning equipment
79. Class VII Ships of 150 gross tons or more but less than 500 gross tons: Machinery spaces containing internal combustion machinery
80. Class VII Ships of 150 gross tons or more but less than 500 gross tons: Firefighters' outfits

CHAPTER VI — CLASS VIIA SHIPS

81. Requirements

CHAPTER VII — CLASS VIII SHIPS

82. Class VIII Ships of 1,000 gross tons or over

83. Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles

84. Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Portable fire extinguishers for accommodation and service spaces

85. Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Machinery spaces containing oil-fired boilers or oil burning equipment

86. Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Machinery spaces containing internal combustion type machinery

87. Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Firefighters' outfits

88. Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles

89. Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Portable fire extinguishers for accommodation and service spaces

90. Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Machinery spaces containing oil-fired boilers or oil burning equipment

91. Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Machinery spaces containing internal combustion type machinery

92. Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Firefighters' outfits

93. Class VIII Ships of less than 150 gross tons: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles

94. Class VIII Ship of less than 150 gross tons: Portable fire extinguishers

CHAPTER VIII — CLASS IX OR IXA SHIPS

95. Requirements

CHAPTER IX—CLASS XI SHIPS

96. Requirements

CHAPTER X—CLASS XII SHIPS

97. Requirements

CHAPTER XI—GENERAL REQUIREMENTS REGARDING FIRE APPLIANCES

98. Operational readiness, maintenance, service and inspection for fire appliances

99. Additional requirements for ships carrying explosives

100. Fire pumps

101. Fire main, water service pipes and hydrants

102. Availability of water supply

103. Fire hoses, nozzles

This gazette is also available free online at **www.gpwonline.co.za**

104. International shore connection
105. Fire extinguishers
106. Fixed fire-extinguishing systems
107. Fire detection systems
108. Firefighters' outfits
109. Means for stopping machinery, shutting off oil fuel suction pipes and closing of openings
110. Emergency fire growth potential stops
111. Fire control plans
112. Availability of fire fighting appliances
113. Helicopter facilities
114. FTP Code compliance
115. FSS Code compliance
116. Lithium-ion batteries

CHAPTER XII — EQUIVALENTS AND EXEMPTIONS

117. Equivalents and approval of types of fire appliances
118. Exemptions in respect of fire patrol, alarm and detection systems
119. Exemption in respect of fixed gas fire-extinguishing systems in cargo spaces in passenger ships
120. Exemption in respect of fixed gas fire-extinguishing systems in cargo spaces in ships other than passenger ships
121. General exemption in respect of certain ships
122. Exemption in respect of a ship constructed before the coming into force of this Part
123. Repeal of regulations
124. Savings Provisions
125. Short title and commencement

Definitions

1. In these Regulations, the expression "the Act" means the Merchant Shipping Act, 1951 (Act No. 57 of 1951), and unless the context otherwise indicates, any word or expression used in these Regulations, to which a meaning has been assigned in the Act, bears the meaning so assigned, and –

'accommodation space' means a passenger space, corridor, lavatory, cabin, office, crew space, shop, isolated pantry and locker and any similar space;

'administration' means the Authority;

'anti-exposure suit' means a protective suit designed for use by a rescue boat crew or a marine evacuation system party;

'Authority' has the meaning assigned to it in section 1 of the Act;

'cargo space' means a space used for cargo, cargo oil tanks, tanks for other liquid cargo and trunks to such spaces;

This gazette is also available free online at **www.gpwonline.co.za**

'certificated person' means a person who holds a certificate of proficiency in survival craft issued under the authority of, or recognised as valid by, the Authority in accordance with the requirements of the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, in force, or a person who holds a certificate issued or recognised by the Authority of a State not a Party to that Convention for the same purpose as the convention certificate;

'company' means the owner of the ship or any other organisation or person such as the manager, or the bareboat charterer, who has assumed the responsibility for operation of the ship from the shipowner and who on assuming such responsibility has agreed to take over all the duties and responsibility imposed by the International Safety Management Code, as adopted in 1993 and "owner" has a corresponding meaning;

'control station' includes a space in which radio, main navigating or central fire-recording equipment or the emergency generator, is located;

'crew space' means crew accommodation space;

'detection' means the accurate determination of the location of a survivor or survival craft;

'embarkation' means mustering into survival craft, transfer, entering, seating, either by directly embarking into survival craft or using MES equipment such as a chute or platform;

'embarkation ladder' means a ladder provided at a survival craft embarkation station to permit safe access to survival craft after launching;

'fire extinguisher' provided in compliance with Part II, means a fire extinguisher complying with the requirements of regulation 105;

'float-free launching' means a method of launching a survival craft whereby the craft is automatically released from a sinking ship and is ready for use;

'free-fall launching' means a method of launching a survival craft whereby the craft with its complement of persons and equipment on board is released and allowed to fall into the sea without any restraining apparatus;

'FSS Code' means the International Code for Fire Safety Systems as defined in Chapter II-2 of the Safety Convention;

'FTP Code' means the International Fire Test Procedures Code, 2010 as defined in Chapter II-2 of the Safety Convention;

'immersion suit' means a protective suit which reduces the body-heat loss of a person wearing the suit in cold water and which complies with the requirements of regulation 42;

This gazette is also available free online at **www.gpwonline.co.za**

'inflatable appliance' means an appliance which depends upon non-rigid, gas-filled chambers for buoyancy which is normally kept uninflated until ready for use;

'inflated appliance' means an appliance which depends upon non-rigid, gas-filled chambers for buoyancy and which is kept inflated and ready for use at all times;

'international shore connection' provided in compliance with Part II, means an international shore connection complying with the requirements of regulation 104;

'launching appliance or arrangement' means an appliance or a means of transferring a survival craft or rescue boat from its stowed position safely to the water, complying with the requirements of Chapter VI, section 6.1 of the LSA Code;

'length' means 96% of the total length on a waterline at 85% of the least moulded depth measured from the top of the keel, or the length from the fore-side of the stem to the axis of the rudder stock on that waterline, if that is greater: Provided in a ship designed with a rake of keel the waterline on which this is measured must be parallel to the designed waterline;

'lifeboat' means a boat complying with the requirements of regulation 24;

'lifebuoy' means a lifebuoy complying with the requirements of regulation 27;

'lifejacket' means a lifejacket complying with the requirements of regulation 28;

'line-throwing appliance' means a line-throwing appliance complying with the requirements of regulation 29;

'liferaft' means a liferaft complying with the requirements of regulation 25;

'lightest sea-going condition' means a loading condition with the ship on even keel, without cargo, with 10% stores and fuel remaining and in the case of a passenger ship, with the full number of passengers and crew and their luggage;

'LSA Code' means the International Life-Saving Appliance Code as defined in Chapter III regulation 3 of the Safety Convention;

'marine evacuation system' is an appliance for the rapid transfer of persons from the embarkation deck of a ship to a floating survival craft and **"MES"** has a corresponding meaning;

'mile' means a nautical mile, the equivalent of 1852 meters;

'moulded depth' means the vertical distance measured from the top of the keel to the top of the freeboard deck beam at side measured as follows:

This gazette is also available free online at **www.gpwonline.co.za**

(a) in a wood and composite ship the distance is measured from the lower edge of the keel rabbet, where the form at the lower part of the midship section is of a hollow character, or where thick garboards are fitted, the distance is measured from the point where the line of the flat of the bottom continued inwards cuts the side of the keel;

(b) in a ship having rounded gunwales, the moulded depth must be measured to the point of intersection of the moulded lines of the deck and side shell plating, the lines extending as though the gunwale were of angular design;

(c) where the freeboard deck is stepped and the raised part of the deck extends over the point at which the moulded depth is to be determined, the moulded depth must be measured to a line of reference extending from the lower part of the deck along a line parallel with the raised part;

'novel life-saving appliance or arrangement' means a life-saving appliance or arrangement which embodies new features not fully covered by the provisions of chapter III of the Safety Convention or the Code, but which provides an equal or higher standard of safety;

'oil fired boiler' means any boiler wholly or partly fired by liquid fuel not being a domestic boiler of less than 250,000 B.T.U. per hour;

'oil fuel unit' means the equipment used for the preparation of oil fuel for delivery to an oil-fired boiler, or equipment used for the preparation for delivery of heated oil to an internal combustion engine, and includes any associated oil pressure pump, filter and heater dealing with oil at a pressure of more than 0.18 N/mm²;

'passenger space' means space provided for the use of passengers;

'person' means a person over the age of one year;

'Polar Code' means the International Code for Ships Operating in Polar Waters, as defined in Chapter XIV regulation 1 of the Safety Convention;

'positive stability' means the ability of a craft to return to its original position after the removal of a heeling moment;

'recovery time' for a rescue boat means the time required to raise the boat to a position where a person on board can disembark to the deck of the ship and includes the time required to make preparations for recovery on board the rescue boat such as passing and securing a painter, connecting the rescue boat to the launching appliance, and the time to raise the rescue boat but does not include the time needed to lower the launching appliance into position to recover the rescue boat;

'rescue boat' means a boat contemplated in regulation 30, designed to rescue persons in distress and to marshal the survival craft;

This gazette is also available free online at **www.gpwonline.co.za**

'retrieval' means the safe recovery of a survivor;

'ro-ro passenger ship' means a passenger ship with ro-ro cargo spaces or special category spaces as defined in Chapter II-2 regulation 3 of the Safety Convention;

'sailing ship' includes a ship provided with sufficient sail area for navigation under sails alone, whether or not fitted with mechanical means of propulsion;

'SAMFAS Code' means the South African Maritime Code of Practice for Marine Fire Service Stations;

'service space' includes a galley, main pantry, laundry, store room, paint room, baggage room, mail room, bullion room, carpenters' and plumbers' workshop, and trunkway leading to such a space;

'settling tank' means a deep tank in the engine room used to separate heavy residues and water from the fuel by heat or gravity;

'short international voyage' means an international voyage—

(a) in the course of which a ship is not more than 200 miles from a port or place in which the passengers and crew could be placed in safety; and

(b) where neither the distance between the last port of call in the country in which the voyage begins and the final port of destination nor the return voyage must exceed 600 miles and the final port of destination is the last port of call in the scheduled voyage at which the ship commences its return voyage to the country in which the voyage began;

'survival craft' means a craft capable of sustaining the lives of persons in distress from the time of abandoning the ship;

'tanker' means a ship, other than a passenger ship, constructed or adapted for the carriage in bulk of liquid cargoes of an inflammable, toxic or hazardous nature and includes a chemical tanker and a liquefied gas tanker;

'thermal protective aid' means a bag or suit made of waterproof material with low thermal conductance;

'the Act' means the Merchant Shipping Act, 1951 (Act No. 57 of 1951); and

'tons' in relation to the tonnage of a vessel, means gross tons.

Application of these Regulations

2.(1) Subject to subregulation (2), these Regulations apply to a vessel of 25 gross tons or more, and so apply to—

(a) a vessel that is registered or licensed in the Republic wherever the vessel may be; and

This gazette is also available free online at **www.gpwonline.co.za**

(b) any other vessel, when in the Republic or its territorial waters.

(2) These Regulations do not apply to -

(a) vessels of less than 100 gross tons that are used solely for sport or recreation; and

(b) fishing vessels.

(3) The vessels in subregulation (1) are required to comply with these Regulations as follows:

(a) Vessels required to comply with the Safety Convention – upon promulgation of these Regulations;

(b) New vessels – upon promulgation of these Regulations;

(c) Existing vessel to which the Safety Convention does not apply – two years after promulgation of these Regulations;

(d) Existing vessel – upon registration onto the South African Ships Register - after promulgation of these Regulations.

(4) A provision of these Regulations does not apply to a vessel registered on the South African Ships Register in the waters of a country other than the Republic where the provision is inconsistent with a law of that country which, by its terms, applies to the vessel when in the waters of that country.

(5) A ship may carry life-saving and fire appliances, in addition to that required by these Regulations, provided the additional appliances and equipment –

(a) do not present a safety hazard;

(b) are not detrimental to the seaworthiness of the ship;

(c) comply with the requirements of these Regulations; and

(d) where applicable, are type approved.

Classification of ships

3. (1) The vessels to which these Regulations apply are divided into the following classes:

(a) Passenger ships

Class I – A passenger ship engaged on voyages any of which are international voyages other than short international voyages;

Class II – A passenger ship, other than a ship of Class I, engaged on voyages any of which are short international voyages;

Class IIA – A passenger ship of 21 meters in length or over, other than a ship of Class V or VI, engaged on voyages of any kind other than international voyages;

Class III – Not yet allocated;

Class IV – Not yet allocated;

Class V – A passenger ship of 25 gross tons or over engaged only on voyages to sea in fine weather with not more than 40 persons on board, in the course of which voyages the

This gazette is also available free online at **www.gpwonline.co.za**

ship is at no time more than 40 miles from the point of departure nor more than 15 miles from land; and

Class VI – A passenger ship which operates at a port or is engaged on voyages to sea in fine weather with not more than 250 persons on board, in the course of which voyages the ship is at no time more than 15 miles from the point of departure nor more than 5 miles from land.

(b) Vessels other than passenger ships

Class VII — A ship, other than a ship of class VIIA, X, XI or XII engaged on voyages any of which are international voyages other than short international voyages;

Class VIIA — A ship employed as a fish processing or canning factory ship, or a ship engaged in the carriage of persons employed in the fish processing or canning industry;

Class VIII — A ship, other than a class XI or XII ship engaged on voyages in the Republic or on short international voyages;

Class IX — A tug, tender, lighter, dredger, barge or hopper which is employed at a port in the Republic and proceeds to sea for not more than 10 miles from the entrance to such port;

Class IXA — A tug, tender, lighter, dredger, barge or hopper which is employed at a port in the Republic and does not proceed to sea;

Class XI — A sailing ship, other than a class XII ship which proceeds to sea; and

Class XII — A pleasure vessel of 100 gross tons or over.

PART I
LIFE-SAVING APPLIANCES

CHAPTER I — LIFE-SAVING APPLIANCES FOR THE RESPECTIVE CLASSES OF VESSELS

Compliance with the LSA Code

4. All life-saving appliances and arrangements required under these Regulations must comply with the applicable requirements of the LSA Code.

Compliance with the Polar Code

5. All vessels operating in polar waters as defined in the Safety Convention must carry life-saving appliances and arrangements that comply with the applicable requirements of the Polar Code.

Operational readiness maintenance and inspection for life-saving appliances and arrangements

6.(1) *(a)* Before a vessel leaves the port and at all times during the voyage, all life-saving appliances must be in working order and ready for immediate use and must comply with the general requirements for life-saving appliances in Chapter I section 1.2 of the LSA Code.

(b) For the purpose of this regulation, "voyage" includes-

(i) when the vessel has passengers on board;

(ii) is engaged in cargo and bunkering operations,

both including where the vessel is alongside.

This gazette is also available free online at **www.gpwonline.co.za**

(2) For operational readiness, maintenance and inspection, all ships must comply with the operational readiness maintenance and inspection requirements of Chapter III regulation 20 of the Safety Convention and the LSA Code.

(3) The maintenance, thorough examination, operational testing, overhaul and repair of lifeboats and rescue boats, launching appliances and release gear, must be in accordance with the requirements as defined in Chapter III regulation 3 of the Safety Convention.

(4) Maintenance, testing and inspections of life-saving appliances must be carried out in a manner having due regard to ensuring reliability of such appliances in accordance with Chapter III, regulation 20 of the Safety Convention.

(5) Instructions for on-board maintenance of life-saving appliances must be provided in compliance with Chapter III regulation 36 of the Safety Convention.

(6) The Authority may accept, in compliance with the requirements of subregulation (3), a shipboard planned maintenance programme, which includes the requirements of Chapter III regulation 36 of the Safety Convention.

Class I Ships

7. (1) A Class I ship must carry life-saving appliances and arrangements in accordance with the requirements of Chapter III of the Safety Convention as applicable to passenger ships and the LSA Code.

(2) A Class I ship must carry survival craft and rescue boats in accordance with Chapter III regulation 21 of the Safety Convention.

Class II Ships

8. (1) A Class II ship must, subject to the provisions of subregulation (2), be fitted with life-saving appliances and arrangements in accordance with the requirements of Chapter III of the Safety Convention applicable to passenger ships and the LSA Code.

(2) The Authority may permit any Class II ship, being a ship which is subdivided in accordance with the requirements of the Construction Regulations, to carry persons in excess of the lifeboat capacity provided on board that ship in compliance with subregulation (1): Provided that—

(a) if such ship is permitted by the Authority in terms of section 200(3) of the Act, to proceed to sea from a port in the Republic on an international voyage not exceeding 1,200 miles between the last port of call in the Republic and the final port of destination, such a ship must carry lifeboats attached to davits affording accommodation for at least 75 per cent of the persons on board the ship;

(b) in all cases liferafts must be carried so that the total number of lifeboats together with such liferafts must be sufficient to accommodate the total number of persons which the ship is certified to carry; and

This gazette is also available free online at **www.gpwonline.co.za**

(c) in any such ship in which a two-compartment standard of subdivision is not achieved throughout by virtue of the application of the provisions of to the Construction Regulations, there must be provided liferafts of sufficient aggregate capacity to accommodate 10 percent of the total number of persons which the ship is certified to carry, such liferafts being additional to those required to be provided in compliance with paragraph (b).

(3) A Class II ship must carry survival craft and rescue boats in accordance with Chapter III regulation 21 of the Safety Convention.

Class IIA Ships

9. (1) The provisions of regulation 6 must also apply to a Class IIA ship of over 500 gross tons.

(2) A Class IIA ship of less than 500 gross tons must carry at least the number of lifebuoys indicated in the following table:

Length of ship in meters	***Minimum number of lifebuoys***
Under 24	4
24 to 60	8
60 or over, but under 121	12
121 or over, but under 182	18
182 or over, but under 243	24
243 or over	30

(3)*(a)* Not less than half of the lifebuoys required to be carried in accordance with subregulation (2) must be provided with self-igniting lights;

(b) at least half of the lifebuoys in paragraph (a) must be provided with self-activating smoke signals and the lifebuoys must be carried and so fitted in accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

Class III Ships

10. Not yet allocated.

Class IV Ships

11. Not yet allocated

Class V Ships

12. (1) A Class V ship must carry liferafts of sufficient capacity to accommodate all persons on board the ship.

This gazette is also available free online at **www.gpwonline.co.za**

(2) *(a)* A Class V ship must carry at least eight lifebuoys.
(b) Not less than half of the lifebuoys required to be carried in accordance with paragraph (a) must be provided with self-igniting lights;
(c) In no case less than two of the lifebuoys in paragraph (b) must be provided with self-activating smoke signals and the lifebuoys must be carried and so fitted in accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

(3) A Class V ship must carry a lifejacket for every person on board the ship.

(4) A Class V ship must carry a line-throwing appliance.

(5) A Class V ship of 24 metres or more in length must be equipped with a rescue boat and a launching appliance or arrangement.

Class VI Ships

13. (1) A Class VI ship must carry liferafts for all persons on board the ship.

(2) A Class VI ship of less than 24 meters in length, must carry at least four lifebuoys.

(3) A Class VI ship of 24 meters or over in length must carry at least eight lifebuoys.

(4) *(a)* Not less than half of the lifebuoys required in subregulation (1) and (2) to be carried must be provided with self-igniting lights.
(b) At least half of the lifebuoys in paragraph (a) must be provided with self-activating smoke signals and the lifebuoy must be carried and so fitted in accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

(5) A Class VI ship must carry one lifejacket for every person on board the ship.

(6) A Class VI ship must carry a line-throwing appliance.

(7) A Class VI ship of 45 metres or more in length must be equipped with a rescue boat and a launching appliance or arrangement.

Class VII Ships

14. (1) A Class VII ship of 500 gross tons or over must comply with the requirements of Chapter III of the Safety Convention as applicable to cargo ships and the LSA Code.

(2) A Class VII ship of less than 500 gross tons, must carry either—
(a) the lifeboats prescribed in subregulation (1) for a ship of 500 gross tons or over and one or more liferafts of sufficient aggregate capacity to accommodate all persons on board the ship and where such a ship carries 16 persons or more on board, must carry at least two liferafts; or

This gazette is also available free online at **www.gpwonline.co.za**

(b) a lifeboat or a rescue boat which must be capable of being launched on one side of the ship, and at least two liferafts of sufficient aggregate capacity to accommodate twice the total number of persons on board the ship.

(3) Liferafts carried in accordance with subregulation (2), must be so stowed that the liferafts can be readily transferred to the water on either side of the ship.

(4) A Class VII ship must carry portable radio equipment which must comply with the requirements of regulation 45.

(5) A Class VII ship of less than 500 gross tons must carry lifebuoys in accordance with the requirements of Chapter III regulation 32 of the Safety Convention as applicable to cargo ships and the LSA Code.

(6) *(a)* Not less than half of the lifebuoys required in subregulation (5) to be carried must be provided with self-igniting lights.

(b) At least half of the lifebuoys in paragraph (a) must be provided with self-activating smoke signals and the lifebuoy must be carried and so fitted in accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

(7) A Class VII ship of less than 500 gross tons must carry one lifejacket for every person on board the ship.

(8) A Class VII ship of less than 500 gross tons must carry a line-throwing appliance.

Class VIIA Ships

15. (1) A Class VIIA ship of 500 gross tons or over must comply with the requirements of Chapter III of the Safety Convention as applicable to cargo ships and the LSA Codes.

(2) A Class VIIA ship of less than 500 gross tons, must carry either—

(a) the lifeboats prescribed in subregulation (1) for a ship of 500 gross tons or over and one or more liferafts of sufficient aggregate capacity to accommodate all persons on board the ship and where such a ship carries 16 persons or more on board, must carry at least two liferafts; or

(b) a lifeboat or a rescue boat which must be capable of being launched on one side of the ship, and at least two liferafts of sufficient aggregate capacity to accommodate twice the total number of persons on board the ship.

(3) A Class VIIA ship of less than 500 gross tons must carry lifebuoys in accordance with the requirements of Chapter III regulation 32 of the Safety Convention as applicable to cargo ships and the LSA Code.

(4) *(a)* Not less than half of the lifebuoys required in subregulation (3) to be carried must be provided with self-igniting lights.

This gazette is also available free online at **www.gpwonline.co.za**

(b) At least half of the lifebuoys in paragraph (a) must be provided with self-activating smoke signals and the lifebuoy must be carried and so fitted in accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

Class VIII Ships

16. The provisions of regulation 14 must also apply to a Class VIII ship.

Class IX Ships

17. (1) A Class IX ship, other than a dumb lighter, barge or hopper which is towed to sea, must carry a lifeboat or a rescue boat which must be capable of being launched on one side of the ship: Provided a ship of less than 24 metres may have alternative equipment, arrangements and procedures for recovery of persons from the water as prescribed in Chapter III regulation 17-1 of the Safety Convention.

(2) A Class IX ship, other than a dumb lighter, barge or hopper which is towed to sea, must carry liferafts of sufficient capacity to accommodate the total number of persons on board the ship, and so stowed that they can readily be transferred to the water on either side of the ship.

(3) A Class IX ship must carry at least two lifebuoys.

(4) *(a)* Not less than half of the lifebuoys required in subregulation (3) to be carried must be provided with self-igniting lights.

(b) At least one of the lifebuoys in paragraph (a) must be provided with self-activating smoke signals and the lifebuoy must be carried and so fitted in accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

(5) A Class IX ship must carry one lifejacket for each person on board the ship.

Class IXA Ships

18. (1) A Class IXA ship must carry at least two lifebuoys.

(2) *(a)* Not less than half of the lifebuoys required in subregulation (1) to be carried must be provided with self-igniting lights.

(b) At least one of the lifebuoys in paragraph (a) must be provided with self-activating smoke signals and the lifebuoy must be carried and so fitted in accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

(3) A Class IXA ship must carry one lifejacket for every person on board the ship.

Class XI Ships

19. (1) A Class XI ship must carry either—

(a) at least two lifeboats, with launching arrangements, so arranged that there is at least one lifeboat on each side of the ship, the lifeboats on each side of the ship

This gazette is also available free online at **www.gpwonline.co.za**

being of sufficient aggregate capacity to accommodate one half of the total number of persons on board the ship, and liferafts on the following scale:

(i) a ship with less than 16 persons on board—at least one liferaft; and

(ii) a ship with 16 or more persons on board—at least two liferafts,

of sufficient aggregate capacity to accommodate the total number of persons on board the ship; or

(b) a lifeboat which must be capable of being launched on one side of the ship, with launching arrangements, and at least two liferafts of sufficient aggregate capacity to accommodate twice the total number of persons on board the ship.

(2) Liferafts carried in accordance with subregulation (1), must be so stowed that the liferafts can be readily transferred to the water on either side of the ship.

(3) *(a)* In a Class XI ship which carries the equipment required by subregulation (1)(a), the lifeboat launching arrangements must be in accordance with Chapter III regulations 9, 11 and 12 of the Safety Convention and Chapter VI section 6.1 of the LSA Code.

(b) In a Class XI ship which carries a lifeboat or rescue boat in accordance with subregulation (1)(b), the launching arrangements must be in accordance with Chapter III regulations 9, 11 and 12 of the Safety Convention and Chapter VI section 6.1 of the LSA Code.

(4) A Class XI ship must carry at least four lifebuoys.

(5) *(a)* Not less than half of the lifebuoys required in subregulation (4) to be carried must be provided with self-igniting lights.

(b) At least one of the lifebuoys in paragraph (a) must be provided with self-activating smoke signals and the lifebuoy must be carried and so fitted in accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

(6) A Class XI ship must carry one lifejacket for every person on board the ship.

(7) A Class XI ship of 25 gross tons or over must carry a line-throwing appliance.

Class XII Ships

20. (1) A Class XII ship of 100 gross tons or over must carry—

(a) at least two liferafts of sufficient aggregate capacity to accommodate twice the total number of persons on board the ship;

(b) at least four lifebuoys; and

(c) a line-throwing appliance.

(2) *(a)* Not less than half of the lifebuoys required to be carried in accordance with subregulation (1)(b) must be provided with self-igniting lights;

(b) at least one of the lifebuoys in paragraph (a) must be provided with self-activating smoke signals and the lifebuoy must be carried and so fitted in

This gazette is also available free online at **www.gpwonline.co.za**

accordance with the requirements of Chapter III regulation 7.1 of the Safety Convention and Chapter II section 2.1 of the LSA Code.

(3) In lieu of the requirements of subregulation (1) (b), a vessel under 100 gross tons may carry a danbuoy.

(4) Liferafts carried in compliance with this regulation, must be so stowed that the liferafts can be readily transferred to the water on either side of the ship.

(5) A Class XII ship carry one lifejacket for every person on board the ship.

Passenger Ships (Additional Requirements)

21. (1) A passenger ship engaged on international voyages which are not short international voyages and passenger ship engaged on short international voyages must comply with Chapter III regulation 21 of the Safety Convention.

(2) A passenger ship must comply with Chapter III regulations 22, 23, 24, 25, 27, 29 and 30 of the Safety Convention.

(3) A ro-ro passenger ship must comply with Chapter III regulation 26 and 28 of the Safety Convention.

Cargo Ships (Additional Requirements)

22. A cargo ship must comply with Chapter III regulation 31, 32 and 33 of the Safety Convention.

CHAPTER II—REQUIREMENTS FOR LIFESAVING APPLIANCES

Application and Interpretation

23. (1) The requirements of the LSA Code apply to the provisions of this Chapter II.

(2) Where there is conflict between the LSA Code and the provisions of this Chapter, the provisions of these Regulations must prevail.

General requirements for lifeboats

24. A lifeboat must comply with the applicable requirements of Chapter III regulations 8 to 13 inclusive and Chapter III regulation 16 of the Safety Convention and Chapter IV, sections 4.4 to 4.9 inclusive of the LSA Code.

Liferafts, launching and embarkation appliances

25. (1) Liferafts, launching and embarkation appliances must comply with the applicable requirements of either subregulation (3) and (4) or subregulation (5) and Chapter III of the Safety Convention and Chapter IV, section 4.1 to 4.3 inclusive and Chapter VI section 6.1.5 of the LSA Code.

This gazette is also available free online at **www.gpwonline.co.za**

(2) The appliances in subregulation (1) and the hydrostatic release unit must be serviced in accordance with regulation 20 Chapter III of the Safety Convention.

(3) Subject to the provisions of subregulation (4) every inflatable liferaft must comply with the requirements of Chapter IV, section 4.1 to 4.2 and Chapter VI section 6.1.5 of the LSA Code.

(4) In a class V, VI or IX ship of less than 24 meters in length, the requirements of subregulation (1) may be modified as follows:

(a) The height prescribed in section 4.1.1.2 of Chapter IV of the LSA Code may be the height equivalent to that of the deck on which the liferaft is stowed above the ship's light water line, but in no case less than six meters;

(b) Means for collecting rain referred to in section 4.1.1.5 of Chapter IV of the LSA Code, must not be required;

(c) The method for insulating the floor of the liferaft against cold as referred to in section 4.2.2.2 of Chapter IV of the LSA Code, must not be required to be complied with;

(d) The minimum carrying capacity of a liferaft required by section 4.1.2 of Chapter IV of the LSA Code of six persons, may not be less than four persons, provided that a liferaft which is deemed fit to accommodate less than six persons must only be carried on a ship on which the total number of persons on board is not more than the number of persons the liferaft is designed to accommodate;

(e) The liferaft must be capable of operating throughout an air temperature range prescribed in Chapter I section 1.2 of the LSA Code; and

(f) In a Class VI ship, the requirement for a canopy of the liferaft to protect the occupants referred to in section 4.1.1.5 of Chapter IV of the LSA Code, must not be required.

(5) Every rigid liferaft must comply with the requirements of section 4.1 and 4.3 of the LSA Code.

Marking of lifeboats, rescue boats and liferafts

26. (1) The markings of a lifeboat must be as prescribed in section 4.4.9 of the LSA Code.

(2) The number of persons which a liferaft that complies with regulation 25(3) and (4) is deemed fit to accommodate, must be clearly marked as prescribed in sections 4.2.6.3 and 4.2.7 of the LSA Code.

(3) A liferaft which complies with regulation 25(5), must be marked as prescribed in section 4.3.6 of the LSA Code.

Lifebuoys and danbuoys

27. (1) A lifebuoy must comply with the requirements prescribed in Chapter II section 2.1 of the LSA Code.

This gazette is also available free online at **www.gpwonline.co.za**

(2) A danbuoy must comply with the applicable ISO Standards.

Lifejackets

28. (1) A lifejacket kept on board a vessel in accordance with these Regulations must—

(a) in the case of a lifejacket supplied in the Republic or in a country the government of which is not a contracting government to the Safety Convention, comply with the requirements specified by the Authority; and

(b) in the case of a lifejacket supplied in a country the government of which is such a contracting government, comply with the requirements prescribed by law for lifejackets on vessels registered or licensed in that country.

(2) A lifejacket kept on board a vessel in accordance with these Regulations must comply with South African National Standards (SANS) and as specified by the Authority as follows—

(a) for a Class I and II ship, must be compliant with the requirements of Chapter III regulations 7.2, 22.2, 22.3, 26.5 of the Safety Convention and Chapter II section 2.2 of the LSA Code;

(b) in a Class IIA, VII or VIIA ship, and in a Class VIII ship of 500 gross tons or over, be compliant with the requirements of Chapter III regulations 7.2 and 32.2 of the Safety Convention and Chapter II section 2.2 of the LSA Code; and

(c) in a Class V, VI or IX, IXA, XI and XII ship, be compliant with the requirements specified by the Authority.

Line-throwing appliances

29. A line-throwing appliance must comply with the requirements of Chapter III regulation 18 of the Safety Convention and Chapter VII section 7.1 of the LSA Code.

Approved rescue boat

30. In order to be approved, a rescue boat must be constructed, equipped and tested in accordance with the provisions of Chapter V section 5.1 of the LSA Code.

Evaluation, Production tests, testing and approval of life-saving appliances and arrangements

31. (1) Except as provided in subregulations (5) and (6), life-saving appliances and arrangements required by these Regulations must be approved by the Authority in accordance with Chapter III regulation 4 of the Safety Convention.

(2) Before giving approval to life-saving appliances and arrangements, the Authority must ensure that such life-saving appliances and arrangements—

(a) are tested, to confirm that they comply with the requirements of Chapter III of the Safety Convention and the LSA Code; or

(b) have successfully undergone tests, to the satisfaction of the Authority, which are substantially equivalent to the requirements of Chapter III of the Safety Convention and the LSA Code.

This gazette is also available free online at **www.gpwonline.co.za**

(3) Before giving approval to novel life-saving appliances or arrangements, the Authority must ensure that such—

(a) appliances provide safety standards at least equivalent to the requirements of Chapter III of the Safety Convention and the LSA Code and have been evaluated and tested based on the guidelines developed under the Safety Convention; or

(b) arrangements have successfully undergone an engineering analysis, evaluation and approval in accordance with Chapter III regulation 38 of the Safety Convention.

(4) Procedures adopted by the Authority for approval must also include the conditions for continued approval or withdrawal.

(5) Before accepting life-saving appliances and arrangements that have not been previously approved by the Authority, the Authority must be satisfied that life-saving appliances and arrangements comply with the requirements of Chapter III of the Safety Convention and the LSA Code.

(6) Life-saving appliances required by Chapter III of the Safety Convention for which detailed specifications are not included in the LSA Code must be to the satisfaction of the Authority.

(7) The Authority must require life-saving appliances to be subjected to such production tests as are necessary to ensure that the life-saving appliances are manufactured to the same standard as the approved prototype.

Training manual and on-board training aids

32. (1) A training manual must be in accordance with Chapter III regulation 35 of the Safety Convention.

(2) The training manual in subregulation (1) must be written in the English language.

Instructions for on-board maintenance

33. Instructions for on-board maintenance of life-saving appliances must be in accordance with Chapter III regulation 36 of the Safety Convention.

Muster list and emergency instructions

34. A muster list must be in accordance with Chapter III regulation 8 and 37 of the Safety Convention.

Alternative design and arrangements

This gazette is also available free online at **www.gpwonline.co.za**

35. Life-saving appliances and arrangements may deviate from the requirements set out in this Chapter, provided that the alternative design and arrangements meet the intent of the requirements prescribed in Chapter III regulation 38 of the Safety Convention.

CHAPTER III—PROVISION OF EQUIPMENT AND RATIONS IN LIFEBOATS, RESCUE BOATS AND LIFERAFTS.

Equipment for lifeboats and rescue boats

36. (1) The equipment of a lifeboat carried in a ship must be carried and secured in accordance with section 4.4.7 and the applicable provisions of 4.4.8 of the LSA Code.

(2) The equipment of a rescue boat carried in a Class VII ship, in a Class VIIA ship, in a Class VIII ship, in a Class IX ship, and in a Class XI ship, all of 500 gross tons or over, must be so secured or stowed as prescribed in 5.1.2 of the LSA Code.

(3) The equipment of a rescue boat carried in a Class VI ship and in a Class VIIA ship of less than 500 gross tons must be so secured or stowed within a rescue boat that it cannot be dislodged from its position should the rescue boat capsize and be as follows:

(a) two buoyant oars with thole-pins or crutches for each oar, or two paddles;
(b) one bailer and two sponges;
(c) one buoyant painter of adequate length and size, fitted in the bows as a slip painter;
(d) one waterproof torch together with spare batteries and a bulb in a watertight container;
(e) one buoyant safety knife;
(f) a whistle or equivalent sound signal;
(g) a first aid kit in a watertight container;
(h) six red hand-held distress flares;
(i) two buoyant four-minute orange distress smoke signals;
(j) one portable hand radio which is kept in a portable but watertight casing in order to facilitate communication with the parent ship and for which, when not in use, means must be provided on the parent ship to keep the battery of the portable hand radio fully charged at all times;
(k) one lifejacket per person;
(l) one safety boat hook;
(m) one efficient bellows or pump;
(n) one radar reflector; and
(o) a list of instructions on the use of the rescue boat supplied by the manufacturer.

Rations for lifeboats

37. A lifeboat carried in a ship, except in a Class V, VI and IX ship, must be provided with at least the rations, carried and secured as prescribed in section 4.4.8.12 and 4.4.8.9 of the LSA Code.

Special equipment for certain motor lifeboats

This gazette is also available free online at **www.gpwonline.co.za**

38. (1) In a Class I or VIIA ship, a motor lifeboat which is required to comply with Chapter III of the Safety Convention, must be provided with the following equipment:

(a) radio equipment which must comply with the requirements of the Merchant Shipping (Radio Installations) Regulations, 2002, and in addition the following provisions must apply thereto:

(i) the radio equipment must be installed in a cabin large enough to accommodate both the apparatus and the person using the equipment;

(ii) the arrangements must be such that the efficient operation of the transmitter and receiver must not be impaired through interference from the engine of the motor lifeboat whether a battery is on charge or not; and

(iii) the radio battery must not be used to supply power to any engine starting motor or ignition system; and

(b) a dynamo fitted to the engine of the motor lifeboat and capable of recharging all batteries in the lifeboat.

(2) In a Class I, II or VIIA ship, a motor lifeboat which is required in terms of regulation 7, 8 or 15, must be provided with a searchlight which must include a lamp of at least 80 watts, capable of working for at least three hours continuously, an efficient reflector and a source of power which will give effective illumination of a light-coloured object having a width of about two meters at a distance of 200 meters for a total period of 6 hours.

Equipment and rations for liferafts

39. (1) Subject to the provisions of subregulation (2), the equipment and rations provided in a liferaft carried in a ship must be as prescribed in 4.1.5 of the LSA Code.

(2) Liferafts carried on Class V and VI ships and on a Class IX ship under 500 gross tons must not be required to be provided with the following:

(a) for liferafts which are fit to accommodate not more than 12 persons: one safety knife and one bailer; for liferafts which are fit to accommodate 13 persons or more: two safety knives and two bailers;

(b) two sponges;

(c) two sea anchors, one permanently attached to the liferaft and one spare with line;

(d) two paddles;

(e) one repair outfit capable of repairing punctures in buoyancy compartments;

(f) one topping-up pump or bellows;

(g) one daylight signalling mirror and one signalling whistle or alternatively any signalling device approved by the Authority; and

(h) instructions printed in the English language on how to survive in the liferaft.

CHAPTER IV—STOWAGE AND HANDLING OF LIFE-SAVING APPLIANCES

General provisions relating to the stowage and handling of life-saving appliances

This gazette is also available free online at **www.gpwonline.co.za**

40. (1) The arrangement of each lifeboat, rescue boat and liferaft, must be such that it will not interfere with the operation of other lifesaving appliances or impede in any way their prompt handling or the mustering of persons at the launching stations or their embarkation.

(2) Lifeboats, rescue boat and liferaft must be so stowed that they can all be launched safely in the shortest possible time, and the overall launching period must not exceed 30 minutes in the case of—

(a) a Class I, II or IIA ship; and

(b) a Class VIIA ship which carries liferafts under launching appliances.

Stowage and handling of lifeboats and rescue boats;

41. The stowage of a lifeboat or a rescue boat carried in a ship must be as prescribed in Chapter III regulations 12, 13, 14, 16, 17, 24 and 31 of the Safety Convention.

CHAPTER V—MISCELLANEOUS PROVISIONS

Stowage, design and handling of liferafts, lifejackets, immersion suits, anti-exposure suits, rescue boats and marine evacuation systems

42. (1) All life-saving appliances required in this Part must comply with the requirements of Chapter III regulation 4 of the Safety Convention and Chapter I section 1.2 of the LSA Code.

(2) All life-saving appliances required in this Part must be periodically inspected and maintained in accordance with Chapter III regulation 36 of the Safety Convention.

(3) The stowage and design of a liferaft carried in a ship must be as prescribed in the applicable provisions of Chapter III regulations 13, 16, 24 and 31.1.4 of the Safety Convention.

(4) In a Class I, II, IIA or VIIA ship which carries liferafts in accordance with Chapter III of the Safety Convention, there must be provided for such liferafts launching appliances complying with the requirements of Chapter IV section 4.1 to 4.3 and Chapter VI, section 6.1.5 of the LSA Code.

(5) The stowage and design of a lifebuoy carried in a ship must be as prescribed in the applicable provisions of Chapter III regulation 7.1 of the Safety Convention and Chapter II, section 2.1 of the LSA Code.

(6) The stowage and design of lifejackets carried in a ship must be as prescribed in the applicable provisions of Chapter III regulation 7.2 of the Safety Convention, provided that Class I and II ship must in addition, comply with regulation 22.2 and 26.5 of the Safety Convention and Chapter II, section 2.2 of the LSA Code.

(7) *(a)* The stowage and design of immersion suits and anti-exposure units carried in a ship must be as prescribed in the applicable provisions of Chapter III regulation 7.3 of the Safety Convention and Chapter II section 2.3 and 2.4 of the LSA Code.

This gazette is also available free online at **www.gpwonline.co.za**

(b) An immersion suit which complies with the requirements of regulation 30 in addition to those of Chapter II, section 2.3 of the LSA Code may also be treated as a lifejacket.

(8) The stowage and design of rescue boats carried in a ship must be as prescribed in the applicable provisions of Chapter III regulation 14 of the Safety Convention and Chapter V, section 5.1 of the LSA Code.

(9) The stowage and design of marine evacuation systems carried in a ship must be as prescribed in the applicable provisions of Chapter III regulation 15 of the Safety Convention and Chapter VI, section 6.2 of the LSA Code.

Embarkation into survival craft, rescue boats, launching and recovery arrangements

43. (1) Arrangements must be made to ensure that it is possible to effect embarkation into a survival craft rapidly and in good order as prescribed in Chapter III regulation 11, 23, 33 of the Safety Convention.

(2) *(a)* The launching and recovery arrangements of survival craft must be in accordance with the requirements prescribed in Chapter III regulations 12 and 16 of the Safety Convention.

(b) The embarkation, launching and recovery arrangements of a rescue boat must be in accordance with the requirements prescribed in Chapter III regulations 12 and 17 of the Safety Convention.

Manning of survival craft and supervision

44. (1) On a ship, there must be sufficient number of crew members who may be deck officers or certificated persons in charge of the survival craft and duties, as prescribed in Chapter III regulation 10 of the Safety Convention.

(2) In a Class I, II or IIA ship, a person capable of working the radio equipment and searchlight equipment, must be assigned to each lifeboat carrying such equipment.

(3) In a ship in which motor lifeboats are carried, a person capable of working the motor must be assigned to each motor lifeboat.

Portable radio equipment

45. (1) The portable radio equipment required to be carried in compliance with regulation 14(4) and Chapter IV regulation 7 of the Safety Convention, must comply with such requirements of the Merchant Shipping (Radio Installations) Regulations, 2002, as apply thereto, and must be kept in a suitable place ready to be moved into a lifeboat or a liferaft in case of emergency.

(2) In a ship where the disposition of superstructures or deck houses is such as to involve substantial fore and aft separation of the main transmitter and lifeboats portable radio equipment

This gazette is also available free online at **www.gpwonline.co.za**

must be kept in the vicinity of those lifeboats or liferafts which are furthest away from the main transmitter.

(3) Two-way VHF radiotelephone apparatus must be provided on a passenger ship and every cargo ship as prescribed in Chapter IV regulation 7 of the Safety Convention.

Electrically operated signals, on-board communications, alarm systems and public address systems

46.(1) All vessels, except for Class XI and XII ship must be provided with –

(a) electrically operated signals throughout the ship, controlled from the bridge, for summoning the crew and passengers to muster stations;

(b) two-way communication for use in an emergency comprising of either fixed or portable equipment or both between emergency control stations, muster and embarkation stations and strategic positions on board; and

(c) a general emergency alarm system complying with the requirements of the LSA Code for summoning passengers and crew to the muster stations and to initiate the actions included in the muster list as prescribed in Chapter III regulation 6 of the Safety Convention.

(2) In addition to the requirements of this regulation, a passenger ship must be fitted with a public address system, approved by the Authority, as prescribed in Chapter III regulation 6 of the Safety Convention.

Electric lighting

47. (1) *(a)* In a Class I, II, IIA, V and VI ship, an electric lighting system must be provided throughout the ship and in particular upon the decks from which lifeboats and liferafts are embarked as prescribed in Chapter II-1 regulation 41 of the Safety Convention.

(b) Provision must also be made in every such ship for the electric lighting of the launching gear and of the lifeboats, and of the liferaft launching appliances where provided and the liferafts which they serve, during the preparation for and process of launching and also for illuminating the water into which the lifeboats and liferafts served by launching appliances are launched until the process of launching is completed, and for lighting the stowage position of liferafts for which launching appliances are not provided.

(c) The lighting must be operated from the ship's main generating plant and must be as prescribed in Chapter II-1 regulation 42 of the Safety Convention and so arranged that power may be supplied from the emergency source of electric power referred to in regulation 42 of the Construction Regulations, 1968.

(2) In a Class VII, VIIA, VIII, IX, IXA, XI or XII ship of 500 gross tons or over, provision must be made for the electric lighting of the launching gear and of the lifeboats and of the liferaft launching appliances, in accordance with Chapter II-1 regulation 43 of the Safety Convention.

This gazette is also available free online at **www.gpwonline.co.za**

(3) In a Class VII, VIIA or VIII, IX, IXA, XI or XII ship to which subregulation (2) does not apply, means must be provided for the electric lighting of the launching gear and lifeboats or boats during the preparation for and process of launching and also for the lighting of the stowage position of the liferafts, from the ship's main generating plant and must be so arranged that power may be supplied from the emergency source.

Vessels' distress signals and list of persons on board

48. (1) *Distress signals—*

(a) A Class I, II, IIA, V, VI, VII, VIIA, VIII or IX ship must carry at least 12 rocket parachute distress flares which must comply with the requirements of Chapter III regulation 6.3 of the Safety Convention.

(b) A Class XI or XII ship of 100 tons or over must carry at least 12 rocket parachute distress flares which must comply with the requirements of Chapter III regulation 6.3 of the Safety Convention.

(c) A Class IXA ship must carry at least two rocket parachute distress flares, two hand flares, six buoyant smoke signals which must comply with the requirements of Chapter III, section 3.1, 3,2 and 3.3 of the LSA Code.

(d) All distress signals must be as prescribed in Chapter III, section 3.1, 3.2 and 3.3 of the LSA Code.

(e) A copy of the illustrated table must be readily available in a vessel in accordance with Chapter V regulation 29 of the Safety Convention.

(2) *List of persons on board—*

(a) The master of or company operating a ship who has entered into an agreement with the crew of the ship, must make out and sign a list setting forth the name and address of each person on board the ship.

(b) The list referred to in paragraph (a) must indicate in respect of each person on board whether that person is a member of the crew or a passenger.

(c) The list referred to in paragraph (a) must be kept with the company and made available on demand by the proper officer, port authority or person nominated by the proper officer or port authority.

Survival craft posters and signs

49. Posters or signs must be provided on or in the vicinity of survival craft and their launching controls and must be in accordance with the requirement of Chapter III regulation 9 of the Safety Convention.

Recovery of persons from water

50. A ship must have ship-specific plans and procedures for recovery of persons from the water, in accordance with Chapter III regulation 17 of the Safety Convention.

Emergency training and drills

51. Emergency training and drills on a passenger ship and on a cargo ship of 25 gross tons or over must be in accordance with Chapter III regulation 19 and 30 of the Safety Convention.

CHAPTER VI—EQUIVALENTS, CONCESSIONS AND EXEMPTIONS

This gazette is also available free online at **www.gpwonline.co.za**

Equivalents and approval of types of life-saving equipment

52. (1) Where this Part requires that a particular fitting, material, appliance or apparatus, or type thereof, must be fitted or carried in a vessel, or that any particular provision must be made, the Authority may allow any other design and arrangements, fitting, material, appliance, apparatus, or type thereof, to be fitted or carried, or any other provision to be made in that vessel if the Authority is satisfied that such other fitting, material, appliance or apparatus, or type thereof, or provision, is at least as effective as that required by this Part.

(2) The Authority may approve any type of life-saving equipment for use on a vessel belonging to the Republic which in the Authority's opinion complies with the requirements of this Part in accordance with Chapter I regulation 5 and Chapter III regulation 38 of the Safety Convention.

Exemption in respect of portable radio equipment

53. The Authority may exempt any Class II or IIA ship from the requirements of regulation 8 read with regulation 9, or any Class VII or VIII ship from the requirements of regulation 14 read with regulation 16 or any Class VIIA ship from the requirements of regulation 15, in respect of portable radio equipment, if the ship is engaged on voyages of such duration that in the Authority's opinion such equipment is unnecessary.

Concession regarding the size of rescue boats

54. If it is impracticable or unreasonable for a ship to carry a rescue boat of the minimum length prescribed by this Part, the Authority may allow a smaller rescue boat to be carried by that ship.

Exemption in respect of vessel constructed before the coming into force of this Part

55. The Authority may, on such conditions as the Authority thinks fit, exempt any vessel constructed before the coming into operation of this Part, from any of the requirements of this Part, if the Authority is satisfied that compliance with that requirement is either impracticable or unreasonable in the case of that vessel.

General exemption in respect of certain vessels

56. (1) The Authority may exempt, in accordance with Chapter I regulation 4 of the Safety Convention any ship not normally engaged on international voyages but which, in exceptional circumstances, is required to undertake a single international voyage, from any of the requirements of this Part provided that the ship complies with safety requirements which in the opinion of the Authority are adequate for the voyage which is to be undertaken by the ship.

(2) The Authority may exempt, in accordance with Chapter III regulation 2.1 of the Safety Convention any ship, considering the sheltered nature and conditions of the voyage are such as to render the application of any specific requirements of this Part unreasonable or unnecessary, exempt from those requirements an individual ship or classes of ships which in the course of their voyage do not proceed more than 20 nautical miles from the nearest land.

This gazette is also available free online at **www.gpwonline.co.za**

(3) The Authority may, on such conditions as the Authority thinks fit, exempt any vessel which does not engage on an international voyage, from any of the requirements of this Part.

PART II
FIRE APPLIANCES

CHAPTER I—CLASS I SHIPS

Class I Ships

57. A Class I ship must be fitted with fire protection, detection and fire extinction appliances in accordance with the requirements of Chapter II-2 of the Safety Convention as applicable and the applicable Codes.

CHAPTER II — CLASS II OR IIA SHIPS

Requirements

58. (1) Regulation 57 must also apply to a Class II or IIA ship.

(2) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds 45m^2, at least two such extinguishers and two such blankets must be provided.

CHAPTER III — CLASS III OR IV SHIPS

Class III Ships

59. Not yet allocated.

Class IV Ships

60. Not yet allocated

CHAPTER IV — CLASS V OR VI SHIPS

Class V and VI Ships

61. The fire protection, detection and fire extinction appliances on a Class V or VI ship must be in accordance with the requirements of the FSS Code.

Water pipes, hydrants and fire hoses

62. (1) A Class V or VI ship must be provided with water pipes and hydrants.

(2) The diameter of the water service pipes must be sufficient to enable an adequate supply of water to be provided for the operation of at least one fire hose and the projection thereby of a powerful jet of water.

This gazette is also available free online at **www.gpwonline.co.za**

(3) The number and position of the fire hydrants referred to in subregulation (1) must be such that at least one such jet may be directed into any part of the ship by means of a fire hose not exceeding 20 meters in length.

(4) At least one fire hose must be provided for each hydrant.

Portable fire extinguishers for passenger and crew spaces

63. (1) A Class V or VI ship must be provided with at least five portable fire extinguishers for all of the passenger and crew spaces.

(2) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds 45m^2, at least two such extinguishers and two such blankets must be provided.

Machinery spaces: ships fitted with main or auxiliary oil-fired boilers

64. (1) Every fully-decked Class V or VI ship fitted with main or auxiliary oil-fired boilers, must be provided in the machinery space with at least—

(a) one fire hydrant and fire hose with a nozzle suitable for spraying water; and

(b) two portable fire extinguishers suitable for extinguishing oil fires.

(2) In addition to the requirements of subregulation (1), there must be provided in the machinery space a fixed fire-extinguishing system, a fixed foam fire extinguishing system and a fixed pressure water spraying and a water mist fire extinguishing system complying with the requirements of regulation 106.

Machinery spaces containing internal combustion machinery

65. (1) A Class V or VI ship fitted with internal combustion type propelling machinery, must be provided in the machinery space with at least—

(a) one fire hydrant and fire hose with a nozzle suitable for spraying water; and

(b) one portable foam fire extinguisher for each 375 kW of the machinery or part thereof, but in no event less than two such extinguishers: Provided that not more than six such extinguishers must be required in any ship.

(2) In addition to the requirements of subregulation (1), there must be provided in the machinery space a fixed gas fire-extinguishing system, a fixed foam fire extinguishing system and a fixed pressure water spraying and a water mist fire extinguishing system complying with the requirements of regulation 106.

Fire pumps

66. (1) A Class V or VI ship must be provided with at least one fire pump operated by the ship's main power supply.

(2) A Class V or VI ship must be provided with an additional independently powered fire pump which must be permanently connected to the water pipes referred to in regulation 62.

This gazette is also available free online at **www.gpwonline.co.za**

(3) The pump referred to in subregulation (2), and its source of power must be situated in a different compartment remote from that containing the pump referred to in subregulation (1).

CHAPTER V—CLASS VII SHIPS

Class VII Ships of 500 gross tons or over: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles

67. A Class VII ship of 500 gross tons or over must be fitted with fire pumps, fire main, water service pipes, hydrants, hoses and nozzles in accordance with the requirements of Chapter II-2 of the Safety Convention as applicable and the applicable Codes.

Class VII Ships of 500 gross tons or over: Fire extinguishers for accommodation spaces, service spaces and control stations

68. (1) A Class VII ship of 500 gross tons or over must be provided with fire extinguishers for accommodation spaces, service spaces and control stations in accordance with the requirements of Chapter II-2 regulation 10 of the Safety Convention and the applicable Codes.

(2) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds 45m^2, at least two such extinguishers and two such blankets must be provided.

Class VII Ships of 2,000 gross tons or over: Fixed fire-extinguishing arrangements in cargo spaces

69. A Class VII ship of 2,000 gross tons or over must be protected by a fixed carbon dioxide or inert gas fire-extinguishing system complying with the provisions of Chapter II-2 regulation 10 of the Safety Convention and the FSS Code, or by a fire-extinguishing system which gives equivalent protection, except for ro-ro and vehicle spaces, cargo spaces.

Class VII Ships of 500 gross tons or over: Machinery spaces containing oil-fired boilers or oil burning equipment

70. (1) A Class VII ship of 500 gross tons or over must be provided with fixed fire-extinguishing arrangements in machinery spaces containing oil-fired boilers or oil burning equipment in compliance with the requirements of Chapter II-2 regulation 10 of the Safety Convention and the applicable Codes.

(2) In each firing space, a receptacle containing at least 0.1 m^3 of sand, saw dust impregnated with soda or other approved dry material suitable for quenching oil fires together with a scoop for its distribution, or alternatively an additional approved portable fire extinguisher suitable for extinguishing oil fires.

Class VII Ships of 500 gross tons or over: Machinery spaces containing internal combustion machinery

71. A Class VII ship of 500 gross tons or over must be provided with fixed fire-extinguishing arrangements in machinery spaces containing internal combustion machinery in accordance

This gazette is also available free online at **www.gpwonline.co.za**

with the requirements of Chapter II-2 regulation 10 of the Safety Convention and the applicable Codes.

Class VII Ships of 500 gross tons or over: Machinery spaces containing steam turbines or enclosed steam engines

72. A Class VII ship of 500 gross tons or over, must be provided with fixed fire-extinguishing arrangements in machinery spaces containing steam turbines or enclosed steam engines in accordance with the requirements of Chapter II-2 regulation 10 of the Safety Convention and the applicable Codes.

Class VII Ships of 500 gross tons or over: Firefighters' outfits

73. A Class VII ship of 500 gross tons or over, must carry firefighters' outfits in accordance with the requirements of Chapter II-2 regulation 10 of the Safety Convention and Chapter III section 2 of the FSS Code.

Class VII Ships of 500 gross tons or over: International shore connection

74. A Class VII ship of 500 gross tons or over, must be provided with at least one international shore connection in accordance with the requirements of Chapter II-2 regulation 2 of the Safety Convention.

Application of regulations to Class VII ships

75. The provisions of regulations 92 to 98 of these Regulations must apply to Class VII ships less than 150 gross tons.

Class VII Ships of 150 gross tons or more but less than 500 gross tons: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles

76. (1) A Class VII ship of 150 gross tons or more but less than 500 gross tons , must be provided with appliances in accordance with this regulation whereby at least one jet of water, as required by this Part, can reach any part of the ship normally accessible to the passengers or crew while the ship is being navigated, and any store room and any part of any cargo space, accommodation spaces, service spaces and control stations when empty.

(2) A Class VII ship of 150 gross tons or more but less than 500 gross tons must be provided with at least one fire pump operated by power which must be capable of delivering at least one jet of water from any fire hydrant, hose and nozzle provided in the ship, and which must comply with the requirements of regulation 103.

(3) In a Class VII ship of 150 gross tons or more but less than 500 gross tons fitted with oil-fired boilers or internal combustion type propelling machinery, there must be provided in a position outside the spaces containing such boilers or machinery, an additional fire pump and its source of power and sea connection, one such pump is operated by power, the pump must comply with the requirements of subregulation (2), and if the pump is manually operated, the pump must be provided with a hose and a minimum 10mm diameter nozzle through which the pump must be capable of producing a jet of water having a throw of not less than six meters which can be directed on to any part of the ship.

This gazette is also available free online at **www.gpwonline.co.za**

(4) In a Class VII ship of 150 gross tons or more but less than 500 gross tons, there must be provided a fire main, water service pipes and hydrants and at least three fire hoses in accordance with regulation 101 read with regulation 103.

(5) In a Class VII ship of 150 gross tons or more but less than 500 gross tons fitted with oil-fired boilers or internal combustion type propelling machinery, there must be provided a spray nozzle suitable for use with the fire hoses required by subregulation (4).

Class VII Ships of 150 gross tons or more but less than 500 gross tons: Portable fire extinguishers for accommodation and service spaces

77. (1) A Class VII ship of 150 gross tons or more but less than 500 gross tons, must be provided with at least three portable fire extinguishers so situated as to be readily available for use in the accommodation and service spaces.

(2) Accommodation spaces, service spaces and control stations must be provided with portable fire extinguishers of appropriate types and sufficient number to the satisfaction of the Authority.

(3) The fire extinguishers in this regulation must comply with regulation 105.

(4) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds 45m^2, at least two such extinguishers and two such blankets must be provided.

Class VII Ships of 150 gross tons or more but less than 500 gross tons: Machinery spaces containing oil-fired boilers or oil burning equipment

78. (1) In a Class VII ship of 150 gross tons or more but less than 500 gross tons, there must be provided for the protection of any space containing any oil-fired boiler, oil fuel settling tank or oil fuel unit, at least one of the following fixed fire extinguishing systems:

(a) a fixed pressure water spraying and a water mist fire extinguishing system complying with the requirements of regulation 106;

(b) a fixed gas fire-extinguishing system complying with the requirements of regulation 106; or

(c) a fixed foam fire-extinguishing system complying with the requirements of regulation 106: Provided that if the engine and boiler room are not entirely separated from each other by a bulkhead, or if fuel oil can drain from the boiler room into the engine room, the combined engine room and boiler room must, for the purpose of this subregulation, be regarded as a single space.

(2) In addition to the requirements of subregulation (1), there must be provided—

(a) in each boiler room and in each space which contains any part of any oil fuel installation, at least two portable fire extinguishers suitable for extinguishing oil fires; and

(b) in each firing space, a receptacle containing at least 0.1 m^3 of sand, saw dust impregnated with soda or other approved dry material suitable for quenching oil

This gazette is also available free online at **www.gpwonline.co.za**

fires together with a scoop for its distribution, or alternatively an additional approved portable fire extinguisher suitable for extinguishing oil fires.

Class VII Ships of 150 gross tons or more but less than 500 gross tons: Machinery spaces containing internal combustion machinery

79. In a Class VII ship of 150 gross tons or more but less than 500 gross tons there must be provided in any space containing internal combustion machinery, approved foam-type fire extinguishers, each of at least 45 litre capacity or equivalent, sufficient in number to enable foam or its equivalent to be directed on to any part of the fuel and lubricating oil pressure systems, gearing and other fire hazards, in addition, there must be provided a sufficient number of portable foam extinguishers or equivalent which must be so located that an extinguisher is readily available and that there are at least two such extinguishers in each of such spaces, and for smaller spaces of cargo ships the Authority may consider relaxing this requirement.

Class VII Ships of 150 gross tons or more but less than 500 gross tons: Firefighters' outfits

80. A Class VII ship of 150 gross tons or more but less than 500 gross tons, must be provided with at least two firefighter's outfit which must comply with the requirements of regulation 108.

CHAPTER VI—CLASS VIIA SHIPS

Requirements

81. (1) Regulations 67 to 74 inclusive, must also apply to a Class VIIA ship of 500 gross tons or over.

(2) The provisions of regulations 76 to 80 of these Regulations must apply to Class VIIA ships of 150 gross tons or more but less than 500 gross tons.

(3) The provisions of regulations 88 to 94 of these Regulations must apply to Class VIIA ships less than 150 gross tons.

CHAPTER VII—CLASS VIII SHIPS

Class VIII Ships of 1,000 gross tons or over

82. (1) Regulations 67 and 68 and regulations 70 to 74 inclusive, must apply to a Class VIII ship of 1,000 gross tons or over.

(2) Except for ro-ro and vehicle spaces, cargo spaces on cargo ships of 2,000 gross tonnage and upwards must be protected by a fixed carbon dioxide or inert gas fire-extinguishing system complying with the provisions of Chapter II-2 regulation 10 of the Safety Convention and the FSS Code, or by a fire-extinguishing system which gives equivalent protection

Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles

This gazette is also available free online at **www.gpwonline.co.za**

83. A Class VIII ship of 500 gross tons or over but of less than 1,000 gross tons, must be provided with appliances in accordance with the requirements of Chapter II-2 and the applicable provisions of regulation 10 of the Safety Convention as applicable and the applicable Codes.

Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Portable fire extinguishers for accommodation and service spaces

84. (1) A Class VIII ship of 500 gross tons or over but of less than 1,000 gross tons, must be provided with portable fire extinguishers in accordance with the requirements of Chapter II-2 and the applicable provisions of regulation 10 of the Safety Convention as applicable and the applicable Codes.

(2) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds 45m^2, at least two such extinguishers and two such blankets must be provided.

Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Machinery spaces containing oil-fired boilers or oil burning equipment

85. (1) In a Class VIII ship of 500 gross tons or over but of less than 1,000 gross tons, there must be provided for the protection of any space containing any oil-fired boiler, oil fuel settling tank or oil fuel unit, at least one of the following fixed fire extinguishing systems:

(a) a fixed pressure water spraying and a water mist fire extinguishing system complying with the requirements of regulation 106;

(b) a fixed fire-extinguishing system complying with the requirements of regulation 106; or

(c) a fixed foam fire-extinguishing system complying with the requirements of regulation 106: Provided that if the engine and boiler room are not entirely separated from each other by a bulkhead, or if fuel oil can drain from the boiler room into the engine room, the combined engine room and boiler room must, for the purpose of this subregulation, be regarded as a single space, and if a fixed gas fire-extinguishing system is fitted in compliance with paragraph (b), there must be provided for the protection of the boiler room and spaces containing the oil fuel installation, one foam fire extinguisher of at least 135 litres capacity or a carbon dioxide fire extinguisher of at least 45 kg. capacity.

(2) In addition to the requirements of subregulation (1) there must be provided—

(a) in each boiler room, one foam fire extinguisher of at least 45 litres capacity or a carbon dioxide fire extinguisher of at least 16 kg. capacity and for each burner therein one portable fire extinguisher suitable for extinguishing oil fires;

(b) in each space which contains any part of any oil fuel installation, at least two portable fire extinguishers suitable for extinguishing oil fires in addition to any such extinguishers which may be carried in accordance with paragraph (a); and

(c) in each firing space, a receptacle containing at least 0.1 m3 of sand, saw dust impregnated with soda or other approved dry material suitable for quenching oil fires together with a scoop for its distribution, or alternatively an additional approved portable fire extinguisher suitable for extinguishing oil fires.

This gazette is also available free online at **www.gpwonline.co.za**

Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Machinery spaces containing internal combustion type machinery

86. (1) A Class VIII ship of 500 gross tons or over but of less than 1,000 gross tons, must be provided in any space containing internal combustion machinery used for main propulsion, or having in the aggregate a total power of not less than 186 kW for auxiliary purposes, fire extinguishing systems in accordance with the requirements of Chapter II-2 regulation 10 of the Safety Convention and the applicable Codes.

(2) In every Class VIII ship of 500 gross tons or over but of less than 1,000 gross tons, there must be provided in any space containing internal combustion type machinery, one portable fire extinguisher suitable for extinguishing oil fires for each 75 kW or part thereof of such machinery: Provided that not more than six such extinguishers must be required in any such space.

Class VIII Ships of 500 gross tons or over but of less than 1,000 gross tons: Firefighters' outfits

87. A Class VIII ship of 500 gross tons or over but of less than 1,000 gross tons, must be provided with at least two firefighter's outfits which must comply with the requirements of regulation 108.

Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles

88. (1) A Class VIII ship of 150 gross tons or over but of less than 500 gross tons, must be provided with appliances in accordance with this regulation whereby at least one jet of water, as required by this Part, can reach any part of the ship normally accessible to the passengers or crew while the ship is being navigated, and any store room and any part of any cargo space, accommodation spaces, service spaces and control stations when empty.

(2) A Class VIII ship of 150 gross tons or over but of less than 500 gross tons, must be provided with at least one fire pump operated by power which must be capable of delivering at least one jet of water from any fire hydrant, hose and nozzle provided in the ship and which must comply with the requirements of regulation 104.

(3) In a Class VIII ship of 150 gross tons or over but of less than 500 gross tons, there must be provided a fire main, water service pipes and hydrants which must comply with the requirements of regulation 105, and at least two fire hoses.

(4) In a Class VIII ship of 150 gross tons or over but of less than 500 gross tons fitted with oil-fired boilers or internal combustion propelling machinery, there must be provided a spray nozzle suitable for use with the fire hoses required by subregulation (3).

Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Portable fire extinguishers for accommodation and service spaces

89. (1) A Class VIII ship of 150 gross tons or over but of less than 500 gross tons, must be provided with at least two portable fire extinguishers so situated as to be readily available for use in the accommodation and service spaces and control stations.

This gazette is also available free online at **www.gpwonline.co.za**

(2) The fire extinguishers in this regulation must comply with regulation 105.

(3) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds 45m^2, at least two such extinguishers and two such blankets must be provided.

Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Machinery spaces containing oil-fired boilers or oil burning equipment

90. (1) In a Class VIII ship of 150 gross tons or over but of less than 500 gross tons, there must be provided for the protection of any space containing any oil-fired boiler, oil fuel settling tank or oil fuel unit, at least one of the following fixed fire extinguishing systems:

(a) a fixed pressure water spraying and a water mist fire extinguishing system complying with the requirements of regulation 106;

(b) a fixed gas fire-extinguishing system complying with the requirements of regulation 106; or

(c) a fixed foam fire-extinguishing system complying with the requirements of regulation 106: Provided that if the engine and boiler room are not entirely separated from each other by a bulkhead, or if fuel oil can drain from the boiler room into the engine room, the combined engine room and boiler room must, for the purpose of this subregulation, be regarded as a single space, and if a fixed gas fire-extinguishing system is fitted in compliance with paragraph (b), there must be provided for the protection of the boiler room and spaces containing the oil fuel installation, one foam fire extinguisher of at least 135 litres capacity or a carbon dioxide fire extinguisher of at least 45 kg. capacity.

(2) In addition to the requirements of subregulation (1), there must be provided—

(a) in each boiler room and in each space which contains any part of any oil fuel installation, at least two portable fire extinguishers suitable for extinguishing oil fires; and

(b) in each firing space, a receptacle containing at least 0.1 m^3 of sand, saw dust impregnated with soda or other approved dry material suitable for quenching oil fires together with a scoop for its distribution, or alternatively an additional approved portable fire extinguisher suitable for extinguishing oil fires.

Class VIII Ships of 150 gross tons or over but of less than 500 gross tons: Machinery spaces containing internal combustion type machinery

91. In a Class VIII ship of 150 gross tons or over but of less than 500 gross tons, there must be provided in any space containing internal combustion type machinery, one portable fire extinguisher suitable for extinguishing oil fires for each 75kW or part thereof of such machinery, except that not more than six of such fire extinguishers must be required in any one space and that, alternatively, there may be provided two such extinguishers together with either—

(a) one foam fire extinguisher of at least 45 litres capacity; or

(b) one carbon dioxide fire extinguisher of at least 15 kg. capacity.

This gazette is also available free online at **www.gpwonline.co.za**

Class VIII Ships of 150 tons or over but of less than 500 tons: Firefighters' outfit

92. A Class VIII ship of 150 gross tons or over but of less than 500 gross tons, must be provided with at least two firefighter's outfits which must comply with the requirements of regulation 108.

Class VIII Ships of less than 150 gross tons: Fire pumps, fire main, water service pipes, hydrants, hoses and nozzles

93. Regulation 88 must also apply to a Class VIII ship of less than 150 gross tons, except that the fire pump required by regulation 88(2) may be driven by the main engine.

Class VIII Ships of less than 150 gross tons: Portable fire extinguishers

94. (1) A Class VIII ship of less than 150 gross tons, must be provided with portable fire extinguishers suitable for extinguishing oil fires, so situated as to be readily available for use, in accordance with the following table:

Length of ship in meters	***Minimum number of extinguishers***
Under 24	2
24 or over	3

(2) In addition to subregulation (1), a Class VIII ship of less than 150 gross tons, must be provided with at least two portable fire extinguishers so situated as to be readily available for use in the accommodation and service spaces and control stations.

(3) The fire extinguishers in this regulation must comply with regulation 105.

(4) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds $45m^2$, at least two such extinguishers and two such blankets must be provided.

CHAPTER VIII — CLASS IX OR IXA SHIPS

Requirements

95. Regulations 82 to 94 inclusive, must also apply also to a Class IX or IXA ship: Provided the ship is exempt from compliance with regulation 105(10).

CHAPTER X—CLASS XI SHIPS

Requirements

96. (1) A Class XI ship must be provided with—

(a) at least one pump with the minimum capacity of $15m^3$/hr and at least one fire hose whereby a jet of water can be readily directed into any part of the ship; and

(b) a minimum of three portable fire extinguishers to ensure that at least one is available for immediate use in each compartment of the crew spaces and of the passenger spaces, if any.

This gazette is also available free online at **www.gpwonline.co.za**

(2) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds 45m^2, at least two such extinguishers and two such blankets must be provided.

CHAPTER XI—CLASS XII SHIPS

Requirements

97. (1) A Class XII ship of 24 meters or over in length must be provided with at least one pump with the minimum capacity of 15m^3/hr and at least one fire hose whereby a jet of water can be directed into any part of the ship.

(2) A Class XII ship of 24 meters or over in length and fitted with internal combustion propelling machinery must be provided with at least one nozzle suitable for spraying water by means of the fire hose referred to in subregulation (1).

(3) In a Class XII ship of 100 gross tons but less than 1000 gross tons, there must be provided in any space containing internal combustion machinery, approved foam-type fire extinguishers, each of at least 45 litre capacity or equivalent, sufficient in number to enable foam or its equivalent to be directed on to any part of the fuel and lubricating oil pressure systems, gearing and other fire hazards, in addition, there must be provided a sufficient number of portable foam extinguishers or equivalent which must be so located that an extinguisher is readily available and that there are at least two such extinguishers in each such space, and for smaller spaces of cargo ships the Authority may consider relaxing this requirement.

(4) A Class XII ship in which sails are the only means of propulsion must carry not less than two portable fire extinguishers.

(5) In addition, at least one portable fire extinguisher and a fire blanket must be provided in every galley: Provided that, where the superficial deck area of any galley exceeds 45m^2, at least two such extinguishers and two such blankets must be provided.

CHAPTER XII—GENERAL REQUIREMENTS REGARDING FIRE APPLIANCES

Operational readiness, maintenance, service and inspection for fire appliances

98. (1) For operational readiness, maintenance and inspection, all ships must comply with the operational readiness maintenance and inspection requirements of Chapter II-2 regulation 14 of the Safety Convention and the FSS Code.

(2) All fire-fighting appliances must be serviced at intervals not exceeding 12 months by a service station, approved for that purpose by the Authority, or by a person of the ship's staff who is qualified to do so, in accordance with the SAMFAS Code.

Additional requirements for ships carrying explosives

99. (1) Where any ship, other than a ship carrying more than 12 passengers, carries explosives of such a nature or in such quantity as are not permitted to be carried in a passenger

This gazette is also available free online at **www.gpwonline.co.za**

ship, by the relative provisions of Chapter II-2 regulation 19 of the Safety Convention, read with the Merchant Shipping (Dangerous Goods) Regulations, 1997, steam must not be used for fire smothering purposes in any compartment containing explosives, and in any such compartment containing explosive and in an adjacent cargo compartment there must be provided with a fire detection system complying with the requirements of regulation 107 or a smoke detection system.

(2) For the purpose of this regulation, "compartment" means all spaces contained between two adjacent permanent bulkheads, and includes the lower hold and all cargo spaces above the lower hold: Provided the whole of any shelter deck space not subdivided by steel bulkheads the openings in which can be closed by steel closing plates, must for the purpose of this regulation be considered as a single space and where steel bulkheads with openings closed by steel closing plates are fitted, the enclosed spaces in the shelter deck must be considered as part of the compartment or compartments below.

Fire Pumps

100. (1) The required fire pumps must be capable of delivering for fire-fighting purposes a quantity of water, at the pressure specified as follows:

(a) pumps in passenger ships, the quantity of water is not less than two thirds of the quantity required to be dealt with by the bilge pumps when employed for bilge pumping; and

(b) pumps in cargo ships, other than any emergency pump, the quantity of water is not less than four thirds of the quantity required under regulation II-1/35-1 of the Safety Convention, to be dealt with by each of the independent bilge pumps in a passenger ship of the same dimension when employed in bilge pumping, provided that in no cargo ship, other than those included in paragraph 7.3.2, Chapter II-2 regulation 10 of the Safety Convention need the total required capacity of the fire pumps, exceed 180 m³/h: provided for vessels of less than 500 gross tons the Authority may accept alternative arrangements, to the satisfaction of the Authority.

(2) *(a)* Each of the required fire pumps, other than any emergency pump required in paragraph 2.2.3.1.2 Chapter II-2 regulation 10 of the Safety Convention, for cargo ships, must have a capacity not less than 80% of the total required capacity divided by the minimum number of required fire pumps but in any case not less than 25 m³/h and each such pump must in any event be capable of delivering at least the two required jets of water.

(b) The fire pumps in paragraph (a) must be capable of supplying the fire main system under the required conditions.

(c) Where more pumps than the minimum of required pumps are installed such additional pumps must have a capacity of at least 25 m³/h and must be capable of delivering at least the two jets of water required in paragraph 2.1.5.1 Chapter II-2 regulation 10 of the Safety Convention.

(3) A fire pump required by this Part to be operated by power must, except as expressly provided otherwise in this Part, be operated by a means other than the ship's main engines.

This gazette is also available free online at **www.gpwonline.co.za**

(4) *(a)* Relief valves must be provided in conjunction with all fire pumps if the pumps are capable of developing a pressure exceeding the design pressure of the fire main, water service pipes, hydrants and hoses.

(b) The valves referred to in paragraph (a) must be so placed and adjusted as to prevent excessive pressure in any part of the fire main system.

(5) *(a)* Isolating valves to separate the section of the fire main within the machinery space containing the main fire pump or pumps from the rest of the fire main must be fitted in an easily accessible and tenable position outside the machinery spaces.

(b) The fire main must be so arranged that when the isolating valves are shut all the hydrants on the ship, except those in the machinery space referred to above, can be supplied with water by another fire pump or an emergency fire pump: provided for vessels of less than 500 gross tons, the Authority may accept alternative arrangements to the satisfaction of the Authority.

(c) The emergency fire pump, its seawater inlet, and suction and delivery pipes and isolating valves must be located outside the machinery space: Provided that where this arrangement cannot be made, the sea-chest may be fitted in the machinery space if the valve is remotely controlled from a position in the same compartment as the emergency fire pump and the suction pipe is as short as practicable.

(d) Short lengths of suction or discharge piping may penetrate the machinery space, provided they are enclosed in a substantial steel casing, or are insulated to A-60 class standards.

(e) The pipes must have substantial wall thickness, but in no case less than 11 mm, and must be welded except for the flanged connection to the sea inlet valve.

(6) A valve must be fitted to serve each fire hydrant so that any fire hose may be removed while the fire pumps are in operation.

(7) In tankers, isolation valves must be fitted in the fire main at poop front in a protected position and on the tank deck at intervals of not more than 40m to preserve the integrity of the fire main system in case of fire or explosion.

(8) A centrifugal pump which is connected to the fire main, must be fitted with a non-return valve.

(9) *(a)* The emergency fire pump must be situated in a position aft of the ship's collision bulkhead.

(b) The space containing the emergency fire pump must comply with regulation 10 paragraph 2.2.3.2 Chapter II-2 of the Safety Convention.

Fire main, water service pipes and hydrants

101. (1) In a ship which is required by this Part to be provided with fire pumps operated by power, the diameter of the fire main and of the water service pipes connecting the hydrants

This gazette is also available free online at **www.gpwonline.co.za**

thereto, must be sufficient for the effective distribution of the maximum discharge required by this Part from—

(a) where only one pump is required by this Part, that pump;

(b) where two pumps are so required, both pumps operating simultaneously; or

(c) where more than two pumps are so required, the two largest of such pumps operating simultaneously: Provided that in any ship, other than a passenger ship, the diameter of the fire main and of the water service pipes must be required to be sufficient only for the discharge of 180m^3 per hour.

(2) With the two pumps simultaneously delivering water through the nozzles specified in paragraph 2.3.3 Chapter II-2 regulation 10 of the Safety Convention, with the quantity of water as specified in paragraph 2.1.3 Chapter II-2 regulation 10 of the Safety Convention, through any adjacent hydrants, the following minimum pressures must be maintained at all hydrants:

(a) for passenger ships:

(i) 4,000 gross tons and upwards- 0.40 N/mm^2;

(ii) less than 4,000 gross tons - 0.30 N/mm^2;

(b) for cargo ships:

(i) 6,000 gross tons and upwards - 0.27 N/mm^2;

(ii) less than 6,000 gross tons - 0.25 N/mm^2,

Provided the maximum pressure at any hydrant must not exceed that at which the effective control of a fire hose can be demonstrated.

(3) *(a)* In addition to the requirements in subregulation (2), passenger ships must comply with the following:

(b) In the accommodation, service and machinery spaces the number and position of hydrants must be such that the requirements of subregulation (2) may be complied with when all watertight doors and all doors in main vertical zone bulkheads are closed; and

(c) (i) Where access is provided to a machinery space of category A at a low level from an adjacent shaft tunnel, two hydrants must be provided external to, but near the entrance to that machinery space;

(ii) Where such access is provided from other spaces, in one of those spaces two hydrants must be provided near the entrance to the machinery space of category A; and

(iii) Such provision need not be made where the tunnel or adjacent spaces are not part of the escape route.

(4) *(a)* Where any ship is required by this Part to provide two jets of water under the conditions required by this Part, hydrants sufficient in number, must be so positioned as to enable at least two jets of water not emanating from the same hydrant, one of which must be from a single length of hose, to reach any part of the ship normally accessible to the passengers or crew while the ship is being navigated, and to any store room and any part of any cargo space when empty, any ro-ro space or any vehicle space in which latter case the two jets must reach any part of the space, each from a single length of hose.

This gazette is also available free online at **www.gpwonline.co.za**

(b) Where any ship is required by this Part to provide one jet of water under the conditions required by this Part, hydrants sufficient in number, must be so positioned as to enable one jet of water from a single length of hose to reach any part of the ship normally accessible to the passengers or crew while the ship is being navigated, and any store room and any part of any cargo space when empty.

(c) The hydrants in paragraphs (a) and (b) must be positioned near the accesses to the protected spaces.

(5) *(a)* The fire main must have no connections other than those necessary for firefighting and washing down.

(b) (i) Materials readily rendered ineffective by heat, must not be used for fire mains and the fittings thereto, unless adequately protected.

(ii) The pipes and fire hydrants must be so placed that the fire hoses may be easily coupled to them.

(iii) In a ship which may carry deck cargo, the fire hydrants must be so placed that they are always readily accessible, and the pipes must be arranged as far as practicable to avoid risk of damage by such cargo.

(iv) Unless there is provided one fire hose and nozzle for each fire hydrant in the ship, there must be complete interchangeability of fire hose couplings and nozzles.

(c) Valves of the screw lift type or cocks must be fitted in such positions on the pipes that any of the fire hoses may be removed while the fire pumps are at work.

(d) The arrangement of pipes and hydrants must be such as to avoid the possibility of freezing.

(e) Suitable drainage provisions must be provided for fire main piping.

(f) Isolation valves must be installed for all open deck fire main branches used for purposes other than fire-fighting.

(g) In ships where deck cargo may be carried, the positions of the hydrants must be such that they are always readily accessible and the pipes must be arranged as far as practicable to avoid risk of damage by such cargo.

(h) In a Class I or II ship, water from the fire main must, so far as practicable, be immediately available, such as by maintenance of pressure or by remote control of fire pumps, which control must be easily operable and readily accessible.

(i) The diameter of the fire main and water service pipes must be sufficient for the effective distribution of the maximum required discharge from two fire pumps operating simultaneously, except that in the case of cargo ships, other than those included in Chapter II-2 regulation 10 paragraph 7.3.2 of the Safety Convention, the diameter need only be sufficient for the discharge of 140 m³/h.

Availability of water supply

102. The arrangements for the ready availability of water supply in a ship must be in accordance with Chapter II-2 regulation 10 paragraph 2.1.2 of the Safety Convention.

This gazette is also available free online at **www.gpwonline.co.za**

Fire hoses, nozzles

103. (1) Fire hoses provided in compliance with this Part, must be in accordance with the provisions of Chapter II-2 regulation 10 of the Safety Convention: Provided, for vessels of 150 gross tons or less, the Authority may consider an alternative arrangement to the satisfaction of the Authority.

(2) Fire hoses must have a length of at least 10m, but not more than—

(a) 15 m in machinery spaces;

(b) 20 m in other spaces and open decks; or

(c) 25 m for open decks on ships with a maximum breadth in excess of 30 m.

(3) Unless one hose and nozzle is provided for each hydrant in the ship, there must be complete interchangeability of hose couplings and nozzles.

(4) Except in Class V or VI ship or in a Class XII ship, fire hoses provided in compliance with this Part, must not be used for any purpose other than extinguishing fire or testing with fire appliances.

(5) *(a)* A ship which is required by this Part to be provided with fire pumps operated by power, must be provided with nozzles 10mm, or 19mm in diameter or as near thereto in diameter as possible. Provided nozzles larger in diameter may be provided if the requirements of this Part relating to the provision of water for fire fighting purposes are otherwise complied with and that they comply with the provisions of Chapter II-2 regulation 10 of the Safety Convention: Provided, for vessels of 150 gross tons or less, the Authority may accept alternative arrangements to the satisfaction of the Authority.

(b) For the purposes of this Part, standard nozzle sizes must be 12 mm, 16 mm and 19 mm or as near thereto as possible: provided the Authority may permit larger diameter nozzles.

(c) For accommodation and service spaces, a nozzle size greater than 12 mm need not be used.

(d) For machinery spaces and exterior locations, the nozzle size must be such as to obtain the maximum discharge possible from two jets at the pressure mentioned in regulation 100 from the smallest pump, provided that a nozzle size greater than 19 mm need not be used.

(e) Nozzles must be of an approved dual-purpose type, either spray or jet type incorporating a shutoff.

International shore connection

104. (1) Any international shore connection provided in compliance with this Part, must be constructed in accordance with the requirements of the provisions of Chapter II-2 regulation 10 of the Safety Convention and the following standards:

Description	***Dimension***

This gazette is also available free online at **www.gpwonline.co.za**

Outside diameter	178 mm
Inside diameter	64 mm
Bolt circle diameter	132 mm
Slots in flange	4 holes 19 mm in diameter spaced equidistantly on a bolt circle of the above diameter, slotted to the flange periphery
Flange thickness	14.5 mm minimum
Bolts and nuts	4, each of 16 mm, 50 mm in length

(2) *(a)* International shore connections must be of steel or other equivalent material and must be designed for 1.0 N/mm² services.

(b) The flange must have a flat face on one side and, on the other side, it must be permanently attached to a coupling that will fit the ship's hydrant and hose.

(c) The connection must be kept aboard the ship together with a gasket of any material suitable for 1.0 N/mm² services, together with four bolts of 16 mm diameter and 50 mm in length, four 16 mm nuts, and eight washers.

Fire extinguishers

105.(1*)* A fire extinguisher type and design, provided in compliance with this Part, must be constructed in accordance with the relevant provisions of Chapter II-2 regulation 10 of the Safety Convention and the provisions of the FSS Code.

(2) Subject to the provisions of subregulation (3)**,** the mass and capacity of a portable fire extinguisher provided in compliance with this Part, must be in accordance with the provisions of Chapter IV section 3 of the FSS Code.

(3) The Authority may in a Class IX, IXA, X, XI or XII ship permit for a portable fire extinguisher required to be provided in compliance with this Part, the provision of a combination of portable fire extinguishers approved by the Authority having an aggregate capacity of not less than the fire extinguishing equivalent of a 9-litre fluid fire extinguisher.

(4) A portable fire extinguisher provided in compliance with this Part must, so far as practicable, have a uniform method of operation.

(5) Where portable dry powder fire extinguishers are provided in compliance with this Part in either accommodation and service spaces or in machinery spaces, their number must not exceed one half of the total number of extinguishers provided in either of those spaces as required by Chapter II-2 of the Safety Convention.

This gazette is also available free online at **www.gpwonline.co.za**

(6) A fire extinguisher provided for use in any ship, must not contain any extinguishing medium which either itself or when in use, gives off gases harmful to persons.

(7) For the purpose of this Part, the capacity of any fire extinguisher other than a carbon dioxide fire extinguisher, must be taken to be the greatest volume or weight of extinguishing medium which it can contain when sufficient space is left to ensure the proper operation of the extinguisher.

(8) For the purposes of this part, the capacity of a carbon dioxide fire extinguisher must be taken to be the greatest weight of carbon dioxide which it can safely contain in a tropical climate.

(9) A fire extinguisher provided in compliance with this Part must at all times be kept fully charged.

(10) *(a)* Spare charges must be provided for 100% of the first 10 extinguishers and 50 percent of the remaining fire extinguishers capable of being recharged on board.
(b) Not more than 60 total spare charges are required.
(c) Instructions for recharging must be carried on board.
(d) For fire extinguishers which cannot be recharged onboard, additional portable fire extinguishers of the same quantity, type, capacity and number as determined in paragraph (a) must be provided in lieu of spare charges.

Fixed fire-extinguishing systems

106. (1) This regulation applies to fixed fire-extinguishing systems fitted in compliance with this Part.

(2) A fixed gas fire-extinguishing system required to be installed on a ship, must be provided in accordance with Chapter 5 of the FSS Code.

(3) A fixed foam fire extinguishing system required to be installed on a ship, must be as prescribed in Chapter 6 of the FSS Code.

(4) A fixed pressure water spraying and water mist fire extinguishing system required to be installed on a ship, must be as prescribed in Chapter 7 of the FSS Code.

(5) An automatic sprinkler, fire detection and fire alarm system required to be installed on a ship, must be as prescribed in Chapter 8 of the FSS Code.

(6) Operating instructions, in the English language, in clear and permanent lettering, must be affixed to a fixed fire extinguishing system or in a position adjacent thereto.

This gazette is also available free online at **www.gpwonline.co.za**

(7) Where a fixed fire-extinguishing system not required by this Part is installed, the system must meet the requirements of the relevant regulations of the Safety Convention and the FSS Code.

(8) *(a)* A fire-extinguishing system containing Halon 1211, 1301, and 2402, perfluorocarbons and perfluoro octane sulfonic acid (PFOS) is prohibited.

(b) A ship fitted with the fire extinguishing system containing perfluoro octane sulfonic acid (PFOS), prior to these Regulations coming into force, must be required to comply with paragraph (a), not later than the first survey after 01 January 2026.

(c) The owner of a ship must, in order to reduce the hazard to life from smoke and toxic products generated during a fire in spaces where persons normally work or live, ensure compliance with Chapter II-II Part B regulation 6 of the Safety Convention, in accordance with the FTP Code.

(9) Fixed fire-extinguishing systems for the protection of cargo tanks and cargo pump rooms in tankers must be in compliance with Chapter II-2 regulation 10 of the Safety Convention.

Fire detection systems

107.(1*)(a)* A fire detection system fitted in compliance with this Part, must be capable of automatically indicating the presence or indication of fire and its location.

(b) The indicators must be centralised either on the navigating bridge or at other control stations which are provided with direct communication with the navigating bridge: Provided that the Authority may in any ship, permit the indicators to be distributed among several stations if the Authority is satisfied that such arrangements are at least as effective as if the indicators were so centralised.

(2) In a passenger ship, electrical equipment used in the operation of any fire detection system fitted in compliance with this Part, must be capable of being supplied from two sources of electric power one of which must be the emergency source of electric power required by regulation 42 of the Construction Regulations, 1968.

(3) The indicating system of any fire detection system fitted in compliance with this Part, must operate both audible and visible alarms at the stations referred to in subregulation (1).

(4) A fixed fire detection and fire alarm system required to be installed on a ship, must be as prescribed in Chapter 9 of the FSS Code.

(5) A sample extraction smoke detection system required to be installed on a ship, must be as prescribed in Chapter 10 of the FSS Code.

Firefighters' outfits

108. (1) A fire-fighter's outfit carried in compliance with this Part, must be in accordance with the requirements of Chapter 3 of the FSS Code.

AIDS HELPLINE: 0800-0123-22 Prevention is the cure

(2) Where more than one of the outfits mentioned in subregulation (1) is provided, they must be kept in accordance with the requirements of Chapter II-2 regulation 10 of the Safety Convention.

(3) Self-contained compressed air breathing apparatus of fire-fighter's outfits must comply with Chapter 3 paragraph 2.1.2.2 of the FSS Code.

Means for stopping machinery, shutting off oil fuel suction pipes and closing of openings

109. In a ship, there must be provided means for stopping ventilating fans serving machinery, accommodation and cargo spaces in accordance with the requirements of Chapter II-2 regulation 5 of the Safety Convention.

Emergency fire growth potential stops

110. (1) In a ship—

(a) there must be provided means for stopping ventilating fans serving machinery, accommodation, service spaces and cargo spaces;

(b) for machinery and cargo spaces, there must be provided means for closing all skylights, doorways, ventilators, annular spaces around funnels and other openings to such spaces;

(c) there must be means of limiting fire-growth potential in every space of the ship, in accordance with Chapter II-2 regulation 5 of the Safety Convention; and

(d) the stopping means in paragraph (a), (b) (c) must be capable of being operated from positions outside the said spaces which would not be made inaccessible by a fire within such spaces.

(2) An installation must be provided with a stop valve or electrical isolation external to the compartment containing the cooking or heating appliances for eliminating the fuel source.

Fire control plans

111. (1) In a Class I, II or IIA ship, there must be permanently exhibited for the guidance of the master and officers of the ship, general arrangement plans in accordance with the requirements of Chapter II-2 regulation 15 of the Safety Convention.

(2) In a ship, there must be permanently exhibited for the guidance of the master and officers of the ship, general arrangement plans showing clearly the information referred to in subregulation (1) where it is applicable to the ship.

(3) The general arrangement plans required by this regulation, must be kept up-to-date and any alterations must without delay be recorded on such plans.

Availability of fire fighting appliances

112. (1) Fire appliances carried in a ship, must be maintained in good order and must be kept available for immediate use at all times.

This gazette is also available free online at **www.gpwonline.co.za**

(2) All moveable fire appliances, other than Fire-fighters' outfits, carried in compliance with this Part must be stowed where moveable fire appliances will be readily accessible from the spaces in which they are intended to be used.

(3) At least one of the portable fire extinguishers intended for use in any space must be stowed near the entrance to that space.

Helicopter facilities

113. The construction of a helicopter facilities on a ship, must be in accordance with the provisions of Chapter II-2 Part G regulation 18 of the Safety Convention.

FTP Code compliance

114.(1) For the purposes of these Regulations, if a material must meet requirements set out in Annex 1 to the FTP Code—

(a) the material must be approved by the Authority as meeting those requirements and in accordance with that Code;

(b) the Authority's approval is not required when section 6 of the Code applies; and

(c) the Code is to be read without reference to the words "In general".

(2) For the purposes of these Regulations —

(a) "may" is to be read as "must" in section 3.4 of Part 3 of Annex 1 to the FTP Code;

(b) section 3.5.2.1 of Part 3 of Annex 1 to the FTP Code is to be read as "Thermal radiation through windows must be tested and evaluated in accordance with appendix 3 to this part if escape routes pass near the windows"; and

(c) the hose-stream test procedure set out in section 5 of appendix 2 to Part 3 of Annex 1 to the FTP Code is mandatory if escape routes pass near the windows.

FSS Code compliance

115. (1) For the purposes of these Regulations, if a system or equipment is certified by a competent authority and is acceptable to the Authority, as meeting the requirements of the FSS Code, the system or equipment must be accepted by the Authority as compliant with the requirements of these Regulations.

Lithium-ion batteries

116. (1) The owner of a ship fitted with lithium-ion batteries must–

(a) have in place a risk assessment acceptable to the Authority;

(b) have suitable means to extinguish or contain a thermal runaway fire;

(c) ensure the batteries are not stowed in the vicinity of a "means of escape"; and

(d) ensure that the ship complies with the Chapter II-I Part D of the Safety Convention.

CHAPTER XIII—EQUIVALENTS AND EXEMPTIONS

Equivalents and approval of types of fire appliances

This gazette is also available free online at **www.gpwonline.co.za**

117. (1) Where this Part requires that a particular fitting, material, appliance or apparatus, or type thereof, must be fitted or carried in a ship, or that any particular provision must be made, the Authority may allow any other fitting, material, appliance, apparatus, or type thereof, to be fitted or carried, or any other provision to be made in that ship if the Authority is satisfied that such other fitting, material, appliance or apparatus, or type thereof, or provision, is at least as effective as that required by this Part in accordance with Chapter II-2 regulation 1 of the Safety Convention.

(2) The Authority may approve of any type of fire appliance for use on a ship belonging to the Republic which in the Authority's opinion complies with the requirements of this Part.

Exemption in respect of fire patrol, alarm and detection systems

118. The Authority may exempt any Class I, II or IIA ship from the requirements of regulation 57 read with regulation 58, if the Authority is satisfied that to require compliance therewith would be unreasonable on account of the short duration of the voyages on which the ship is engaged.

Exemption in respect of fixed fire-extinguishing systems in cargo spaces in passenger ships

119. The Authority may exempt any Class I, II or IIA ship of 1,000 gross tons or over from the requirements of regulation 57 read with regulation 58, if the Authority is satisfied that to require compliance therewith would be unreasonable on account of the short duration of the voyages on which the ship is engaged.

Exemption in respect of fixed fire-extinguishing systems in cargo spaces in ships other than passenger ships

120. The Authority may exempt any Class VII or VIIA ship of 2,000 gross tons or over from the requirements of regulation 69 read with regulation 81 in respect of the provision of a fixed gas fire-extinguishing systems in the cargo holds of the ship, not being the tanks of a tanker, if the Authority is satisfied that—

(a) the holds therein are provided with steel hatch covers and effective means of closing all ventilators and other openings leading to the holds;

(b) the ship is constructed for, and employed solely in, the carriage of ore, coal or grain; or

(c) to require compliance with the requirements of the said regulation would be unreasonable on account of the short duration of the voyages on which the ship is engaged.

General exemption in respect of certain ships

121. The Authority may, on such conditions as the Authority thinks fit, exempt any ship which does not engage on an international voyage, from any of the requirements of this Part.

Exemption in respect of a ship constructed before the coming into force of this Part

122. The Authority may, on such conditions as the Authority thinks fit, exempt any ship constructed before the coming into operation of this Part, from any of the requirements of this

This gazette is also available free online at **www.gpwonline.co.za**

Part, if the Authority is satisfied that compliance with that requirement is either impracticable or unreasonable in the case of that ship.

Repeal of regulations

123. The Life-Saving Equipment Regulations, 1968 promulgated by Government Notice No. R. 141 of 2 February 1968, as amended by Government Notices Nos. R. 917 of 9 May 1975, R. 2205 of 21 November 1975, R. 516 of 21 March 1980, R. 2422 of 28 November 1980, R. 1022 of 30 May 1986, R. 423 of 17 March 1995, R. 925 of 7 June 1996, and R. 610 of 14 May 1999 and R. 565 of 17 June 2005 are hereby repealed.

Savings Provisions

124. All provisions applicable to Class X ships in The Life-Saving Equipment Regulations, 1968 promulgated by Government Notice No. R. 141 of 2 February 1968, as amended by Government Notices Nos. R. 917 of 9 May 1975, R. 2205 of 21 November 1975, R. 516 of 21 March 1980, R. 2422 of 28 November 1980, R. 1022 of 30 May 1986, R. 423 of 17 March 1995, R. 925 of 7 June 1996, and R. 610 of 14 May 1999 and R. 565 of 17 June 2005, must continue to be in force, until a date determined by Notice in the government gazette by the Minister.

Short title and commencement

125. These Regulations are called the Merchant Shipping (Life-Saving Equipment and Fire Appliances Regulations, 2025 and are published for public comments.
