government printing
Department:
Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

3. Consumer Price Index Increase

The above tariffs are subject to an annual Consumer Price Index (CPI) increase which is published in the Government Gazette plus 1% (one percent) effective from 1 April of every year. The CPI indicates the annual headline consumer inflation rate published from time to time by Statistics South Africa (STATSSA) and is broadly accepted as an economic inflation indicator. For the purposes of the Tariffs, the CPI will be calculated as the average CPI rates provided by STATSSA for the months 1 April from the preceding year to 31 March of the following year and will then constitute the CPI figure to be taken into account for any CPI-linked increments plus 1% (one percent) that must be implemented from 1 April of the applicable year.

FRUIT INDUSTRY

REQUEST FOR A STATUTORY MEASURE (PER HECTARE *AD HOC* LEVY) FOR THE FUNDING OF THE AREA-WIDE BACTROCERA DORSALIS ERADICATION PROGRAMME IN SPECIFIED PRODUCTION AREAS IN THE EASTERN-, WESTERN- AND NORTHERN CAPE

NAMC REQUESTING COMMENTS FROM INDUSTRY ROLE PLAYERS

On 19 November 2025, the Minister of Agriculture received a request from FruitFly Africa (Pty) Ltd, on behalf of the fruit industry, for the continuation of the area based, per hectare *ad hoc,* statutory levy for the funding of *Bactrocera dorsalis* (BD) (also known as the Oriental Fruit Fly) programmes in specific production regions for a new four-year period implemented as soon as possible (the current statutory levy will expire by the end of December 2025). This application includes the Lower-Orange-River area (on table-grapes and citrus) a new area where the levy will be introduced for the first time which was previously not part of this *ad-hoc* producer levy.

The Department of Agriculture (DoA) supports the BD control strategy and will continue to co-fund operational expenses of the area-wide Medfly control programme *via* the Public- Private Partnership arrangement between the DoA and the participating producers *via* FruitFly Africa (Pty) Ltd (FFA).

It is proposed that a maximum levy of R1 367-00/ha per year (excluding VAT) be introduced, for the 1st year of the cycle, in the production regions (indicated below) based on the need for eradication within a specific year subject to the number of hectares to be treated. FFA calculated that between R60 million (2026) and R86 million (2029) will be required to run the eradication programme.

These funds will only be levied in areas and in years where eradication measures are required. Should no eradication actions be necessary during a season, no funds will be levied. For regions bigger than 2 500 hectares a *pro-rata* lower per hectare levy will be applicable.

Council Members: Mr. A. Petersen (Chairperson), Ms. T. Ntshangase (Deputy Chairperson),
Prof. A. Jooste, Mr. S.J. Mhlaba, Ms. F. Mkile, Ms. N. Mokose, Ms. S. Naidoo, Mr. G. Schutte, Mr. J.G. Mocke and Dr. S.T. Xaba.

If approved, this will be a separate statutory levy, meaning that the existing statutory levies in the fruit industry (to finance research, information, transformation etc.) will remain unchanged.

The Eastern-, Western- and Northern Cape still has an official (from the DOA) pest-free status with regards to BD, and it is therefore vital to put all possible precautionary measures in place to keep these fruit production areas pest-free.

The eradication programme will be available in the following production regions, namely:

- Hex River Valley;
- De Wet;
- Brandwacht;
- Elgin-Grabouw;
- Hemel & Aarde Valley;
- Vyeboom;
- Warm Bokkeveld (including Hamlet, Eselfontein rd., Onder-Swaarmoed);
- Koue Bokkeveld;
- Agter-Witzenberg;
- Bo-Swaarmoed;
- Wolseley;
- Tulbagh
- Langkloof; and
- *Lower-Orange-River (on table-grapes and citrus is a new area where the levy will be introduced for the first time).*

This mechanism was used with great success during the past four years and **enabled FFA and regional structures to eradicate *Bactrocera dorsalis* in the Hex River valley and Elgin-Grabouw area**. The fruit industry is confident that the successful continuation and expansion of this measure as motivated will not only empower regions to differentiate themselves in the international marketing environment, but will substantially enhance their ability to comply with international quarantine requirement in support of the national growth targets based on exports, maintaining and growing jobs and ensure food security in rural areas.

The NAMC believes that the proposed statutory levies requested are consistent with the objectives of the MAP Act (as set out in section 2 of the Act).

The NAMC believes that the application by FruitFly Africa for the implementation of the proposed statutory levies in the relevant regions is consistent with the objectives of the MAP Act (as set out in section 2 of the Act).

Directly affected groups (e.g. producers, packers and exporters) in the fruit industry are kindly requested to submit any comments, in writing, regarding the proposed fruit fly statutory levies, to Mathilda van der Walt (mathildavdw@namc.co.za) on or before 16 January 2026, to enable the NAMC to finalise its recommendation to the Minister in this regard.

NOTIFICATION REGARDING OPPORTUNITY TO PARTICIPATE IN ENVIRONMENTAL AUTHORISATION APPLICATION PROCESS FOR THE PROPOSED TETRA4 3-D SEISMIC SURVEY PROJECT, IN THE VIRGINIA REGION, FREE STATE, SOUTH AFRICA.

Tetra4 (Pty) Ltd (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to assist with undertaking the required authorisation processes (including the statutory public participation), and to compile and submit the required documentation in support of application for: Environmental Authorisation (EA) and amendments in accordance with the National Environmental Management Act- NEMA (Act 107 of 1998) Listed activities: (GNR 983): Activities 21C; 21D. Additional listed activities and/or water uses may be identified during the process.

Following the successful commencement of Cluster 1 gas production in 2022, Tetra4 applied for relevant environmental approvals to expand the natural gas operations within the approved production right area and around the Cluster 1 project, designated as 'Cluster 2'. This Cluster 2 application area covered a total of ~27 500 hectares which overlaps with a large part of the Cluster 1 area.

The Cluster 2 EA Authorised various production well transects where drilling could occur with little to no specific drilling locations which resulted in some uncertainty from landowners. In order to mitigate this uncertainty and provide landowners with specific drilling locations, Tetra4 proposes undertaking a 3D seismic survey over the Cluster 2 area which would provide a high resolution subsurface geological profile and enable Tetra4 to visualise gas placement in the sub-surface and thereby enable more accurate identification of proposed drill sites on specific properties.

EIMS will be following the procedures defined in the Environmental Impact Assessment (EIA) Regulations (GRN982 of 2014, as amended) for undertaking a Basic Assessment process. In accordance with Chapter 6 of the EIA Regulations, a public participation process will be undertaken. You are hereby invited to register and comment on the proposed project and applications. In order to ensure that you are identified and registered as an I&AP and that your comments are captured, please submit your name, contact details, the reason for your interest, in writing or telephonically, to EIMS. Please note that only registered I&AP's will be informed of future project information and opportunities for participation. By registering as an interested and affected party you consent to the collection and processing of your personal information as per the EIMS Privacy Notice available at www.eims.co.za/public-participation.

Please include the project reference number **1595** in all correspondence.

KENNISGEWING MET BETREKKING TOT GELEENTHEID OM DEEL TE NEEM AAN OMGEWINGSMAGTIGING AANSOEKPROSES VIR DIE VOORGESTELDE TETRA4 3-D SEISMIESE OPNAMEPROJEK, IN DIE VIRGINIA STREEK, VRYSTAAT, SUID-AFRIKA.

Tetra4 (Edms) Bpk (hierna verwys as die aansoeker) het Environmental Impact Management Services (Edms) Bpk (EIMS) as die Omgewingsevalueringspraktisyn (EAP) aangestel om te help met die onderneming van die vereiste magtigingsprosesse (insluitend die statutêre openbare deelname), en om die vereiste dokumentasie saam te stel en in te dien ter ondersteuning van aansoek vir: Omgewingsmagtiging (OM) en wysigings in ooreenstemming met die Wet op Nasionale Omgewingsbestuur- NEMA (Wet 107 van 1998) Gelyste aktiwiteite: (GNR 983):Aktiwiteite 21C; 21D. Bykomende gelyste aktiwiteite en/of watergebruike kan tydens die proses geïdentifiseer word.

Na die suksesvolle aanvang van Cluster 1-gasproduksie in 2022, het Tetra4 aansoek gedoen vir relevante omgewingsgoedkeurings om die aardgasbedrywighede binne die goedgekeurde produksiereggebied en rondom die Cluster 1-projek, aangewys as 'Cluster 2', uit te brei. Hierdie Cluster 2-toepassingsgebied het 'n totaal van ~27 500 hektaar beslaan, wat met 'n groot deel van die Cluster 1-gebied oorvleuel.

Die Cluster 2-gebied bestaan uit verskillende produksieputtransekte waar boorwerk kan plaasvind met min of geen spesifieke boorplekke, wat 'n mate van onsekerheid skep vir grondeienaars. Om hierdie onsekerheid te versag en grondeienaars met spesifieke boorplekke te voorsien, stel Tetra4 voor om 'n 3D-seismiese opname oor die Cluster 2 gebied te onderneem wat 'n hoë resolusie ondergrondse geologiese profiel sal bied en Tetra4 in staat sal stel om gasplasing in die ondergrond te visualiseer en sodoende meer akkurate identifikasie van voorgestelde boorplekke op spesifieke eiendomme moontlik te maak.

EIMS sal die prosedures volg wat in die Omgewingsimpakbepaling (OIS) Regulasies (GN R982 van 2014, soos gewysig) omskryf word vir die onderneem van 'n Basiese Assesseringsproses. In ooreenstemming met Hoofstuk 6 van die OIS regulasies sal 'n openbare deelnameproses onderneem word. U word hiermee uitgenooi om te registreer en kommentaar te lewer op die voorgestelde projek en aansoek(e). Om te verseker dat u as 'n B&GP geïdentifiseer en geregistreer word en dat u kommentaar vasgelê word, dien asseblief u naam, kontakbesonderhede, die rede vir u belangstelling, skriftelik of telefonies teen nie later nie as 14 Desember 2025 by EIMS in. Let asseblief daarop dat slegs geregistreerde B&GP'e ingelig sal word oor toekomstige projekinligting en geleenthede vir deelname. Deur as 'n I & AP te registreer en/of kommentaar te lewer, stem jy in tot die insameling en verwerking van jou persoonlike inligting volgens die EIMS-privaatheidskennisgewing beskikbaar by www.eims.co.za/public-participation .

Sluit asseblief die projekverwysingsnommer **1595** by alle korrespondensie in.

SANS 22718:20xx Ed 2 and ISO amdt 1	Cosmetics - Microbiology - Detection of Staphylococcus aureus.*This International Standard gives general guidelines for the detection and identification of the specified microorganism Staphylococcus aureus in cosmetic products. Microorganisms considered as specified microorganism Staphylococcus aureus in cosmetic products. Microorganisms considered as specified in this International Standard might differ from country to country according to national practices or regulations. In order to ensure product quality and safety for consumers, it is advisable to perform an appropriate microbiological risk analysis to determine the types of cosmetic product to which this International Standard is applicable. Products considered to present a low microbiological (see ISO 29621) risk include those with low water activity, hydro-alcoholic products, extreme pH values, etc.* *The method described in this International Standard is based on the detection of Staphylococcus aureus in a non-selective liquid medium (enrichment broth), followed by isolation on a selective agar medium.* *Other methods may be appropriate dependent on the level of detection required.* *NOTE For the detection of Staphylococcus aureus, subcultures can be performed on non-selective culture media followed by suitable identification steps (e.g. using identification kits).* *Because of the large variety of cosmetic products within this field of application, this method may not be appropriate for some products in every detail (e.g. certain immiscible water products). Other International Standards (ISO 18415) may be appropriate. Other methods (e.g. automated) may be substituted for the tests presented here provided that their equivalence has been demonstrated or the method* has been otherwise shown to be suitable.	**2026-02-11**
