HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

Registration is necessary to assist SAWIS in ensuring that continuous, timeous and accurate information relating to the products defined, is available to all role players. Market information is deemed essential for all role players in order for them to make informed decisions. By combining compulsory registration with the keeping of information and the rendering of returns on an individual basis, market information for the whole of the industry can be processed and disseminated and will form the basis for the collection of statutory levies.

(b) The continuation of the registration statutory measure will assist in promoting the efficiency of the marketing of wine products. The viability of the wine industry will, thus, be enhanced. The registration statutory measure will not be detrimental to the number of employment opportunities or fair labour practice.

(c) The registration statutory measure will be administered by SAWIS. SAWIS will continue to implement and administer the registration statutory measure as set out in this Schedule.

(2) (a) The purpose and aims of the returns statutory measure is to compel the parties set out herein to keep records and render returns to SAWIS. This is necessary to ensure that continuous, timeous and accurate information relating to the products defined, is available to all role players. Market information is deemed essential for all role players in order for them to make informed decisions. (i) to support the wine industry with expertise, enabling it to be cost effective while producing quality wines and other grape based products through the application of environmentally friendly technologies;

(ii) to support the training and education of individuals for the industry – at all levels in terms of skills, knowledge and insight development – in order to ensure the practical implementation of the best

knowledge and most advanced technologies in viticulture, wine making and other grape based products;

(iii) to establish a culture of technological innovation, to ensure the ongoing utilisation of the best technology within the industry, and to facilitate its dissemination to all the sectors of the industry;

(iv) to facilitate the development of resource poor and previously disadvantaged producers and to improve their access to the market by making leading edge appropriate technology available to such producers;

(v) to establish world leadership in selected niche areas of the wine industry through a network of scientific and technological expertise;

(vi) to commission relevant and thoroughly planned research, technology development and technology transfer in the promotion of the industry's technological capabilities and in the attainment of the other objectives.

These measures are necessary to ensure that continuous, timeous and accurate information relating to various products in the wine industry, is available to all role players in order for them to make informed decisions.

(viii) to fund, maintain and further develop an ethical trade system. It will ensure rapid transitioning to a transformed, ethical, just and sustainable environment, which is a key global sourcing requirement to ensure that impacts on workers are positive and developmental rather than negative, contributing to violations, and worker abuse. South Africa's international markets are having an increased focus on addressing their South African suppliers' readiness to address the protection of workers and their human rights. The requirement for exported products such as wine to trade ethically and to participate in the monitoring of labour practices, progress made in development indicators such as skills development leading to transformation through leadership and ownership, harms reduction and identification of potential

transgressions, has become a global commercial imperative. The successful and continuous implementation of ethical labour best practices that both empowers workers to exercise their labour rights and allows for opportunities to create social dialogue between owners and workers to address disputes and remedy abuses is key to the transformation of wine enterprises into successful and sustainable wine business ventures.

(ix) To fund the media and communication function that enables, advocates, and informs stakeholders while building and maintaining the industry's brand presence locally and globally. The levy will support strategic communication efforts that position South African wine as a world-class product and economic contributor. This includes brand awareness, thought leadership, crisis communication, and stakeholder engagement, all aimed at strengthening the industry's reputation, fostering a responsible and transformed value chain, and embedding sustainability in all messaging. The focus is on ensuring consistent, aligned, and impactful communication that supports industry priorities and reinforces trust.

(x) To fund advocacy and stakeholder engagement, the levy will support the efforts to influence government policies, legislation, and regulatory frameworks that impact the wine and brandy industry. This includes active engagement with national and international authorities to address issues such as excise tax, liquor legislation, harm reduction, and illicit trade. By fostering strong relationships with government departments, state-owned entities, and industry stakeholders, these efforts aim to create an enabling environment that supports market access, industry growth, and long-term sustainability.

(xi) to fund strategic wine tourism development and industry collaboration, supporting the efforts to position South Africa as the world's most authentic and diverse wine tourism destination. This includes initiatives that drive visitor growth, promote provenance, and diversify tourism experiences, all guided by sustainable

tourism principles. Also to strengthen industry coordination, support product development, and enhance the capacity of the wine tourism team, ensuring alignment with long-term goals for economic growth, environmental responsibility, and global visibility.

(b) The research, development and information levy will not be detrimental to food security, the number of employment opportunities within the economy or to fair labour practice. It is aimed at growing the competitiveness and capacity of the industry concerned.

(c) The research, development and information levy will be administered by South Africa Wine NPC. South Africa Wine NPC will continue to implement and administer the research, development and information levy as set out in this Schedule.

(d) The research, development and information levy will be collected by SAWIS, who will act on behalf of South Africa Wine NPC in this regard. South Africa Wine NPC is the actual beneficiary of the levy who will utilise it in accordance with their business plan.

(4) (a) The objective of the export statutory levy aims at increasing the profit margin for the industry for each focus market. This promotion will enhance the image of South Africa as a quality wine producer and increase opportunities for growth in new markets. It will assist South Africa to remain competitive in the global market place. In addition, it will assist in capacity building among all exporters, in particular SMME's and BEE's, and in improving the efficiency of the export process. Furthermore, a portion of the levy is used to fund, the Wine-on-Line system, maintaining and further developing the system. The Wine-on-Line system is a free, user friendly, automated export certification process.

(5) (a) The objective of the brandy statutory levy, brandy being an integral part of the wine industry, is to contribute in creating a transformed and responsible value chain and focus market. An integrated approach in collaboration with the wine industry will create a larger impact on the entire value chain. This is important to empower new entrants into the category and offer support/mentorship to ensure successful launches.

(b) By utilising innovation within the brandy category as well as a strong drive to create relevance to a new consumer base will substantially stimulate the category to ensure market growth and to contribute to the long-term viability and sustainability of the wine and brandy industry as a whole.

(c) The brandy levy will not be detrimental to food security, the number of employment opportunities within the economy or to fair labour practice. It is aimed at growing the competitiveness and capacity of the industry concerned.
