Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

NO. 7122 **13 February 2026**

NATIONAL ENVIRONMENTAL MANAGEMENT: INTEGRATED COASTAL MANAGEMENT ACT, 2008 (ACT NO. 24 OF 2008)

APPLICATION FOR PRE-APPROVAL FOR THE RECLAMATION OF LAND FROM COASTAL WATERS IN TERMS OF SECTION 7C(3), 7C(4)(a) AND 53 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: INTEGRATED COASTAL MANAGEMENT ACT, 2008 (ACT NO. 24 OF 2008) AND REGULATIONS 2 AND 4 OF THE RECLAMATION OF LAND FROM COASTAL WATERS REGULATIONS, 2018: GRANGER BAY, V&A WATERFRONT, CAPE TOWN, WESTERN CAPE

I, Willem Abraham Stephanus Aucamp, the Minister of Forestry, Fisheries and the Environment, hereby invite the public to comment on the pre-approval application for the reclamation of land from coastal waters in terms of section 7C(3), 7C(4)(a) and 53 of the National Environmental Management: Integrated Coastal Management Act, 2008 (Act No. 24 of 2008), (ICM Act).

V&A Waterfront Holdings (Pty) Ltd has submitted an application for pre-approval (in-principle approval) for the reclamation of land from the coastal waters of the Granger Bay area, V&A Waterfront, Cape Town (see locality map below). A copy of the pre-approval application can be accessed and downloaded from the following webpage: **https://bit.ly/VAwaterfrontgrangerbay_reclamation**. A copy of the application can also be obtained electronically upon request by email to **reclamation@dffe.gov.za**. A hard copy can also be obtained from the Department's offices at the address indicated below by prior arrangement with the person indicated below for enquiries.

Reclamation of land from the sea involves the creation of new land in the sea. The ICM Act defines it as "the process of artificially creating new land within coastal waters, and includes the creation of an island or peninsula, but excludes beach replenishment by sand pumping for maintenance purposes". The ICM Act contemplates a two-part approval process for reclamation, with the first part being a Ministerial pre-approval. The ICM Act requires that, as the responsible Minister, I undertake a publication consultation process to obtain the public comments on the proposed reclamation. As part of that process, I am required to follow the public participation consultation and public participation process described in section 53 of the ICM Act. The second part of the process involves parliamentary ratification, where the ICM Act requires that if I pre-approve the proposed reclamation, that pre-approval must be ratified by Parliament.

The reclamation application and approval process in the ICM Act does not remove the need for an environmental authorisation in terms of Environmental Impact Assessment Regulations, 2014 (EIA Regulations), as amended under the National Environmental Management Act, 1988 (Act No. 107 of 1998) (NEMA). The pre-approval decision by the Minister will be submitted to Parliament for ratification in accordance with section 7C(4)(b) of the ICM Act. The Minister's pre-approval decision will become invalid

should Parliament fail to ratify it. The legal effect of Parliament failing to ratify pre-approval renders the reclamation process null and void. The same applies when the applicant's environmental authorisation is refused; the pre-approval and Parliamentary pre-approval ratification become invalid. Where Parliament ratifies the pre-approval process, the V&A Waterfront will be expected to submit the final reclamation application, environmental authorisation granted, ratified pre-approval decision for the Minister's final decision. The Minister's final reclamation decision will be further tabled in Parliament within 60 days of making the decision.

The V&A Waterfront proposes to reclaim 3.81 hectares (ha) of land which is divided as 0.80ha planned for coastal protection infrastructure, that is, breakwaters and revetment; 1.47 ha planned for the open spaces and public amenities, and 1.54 ha for the mixed-use development. The proposed reclamation area is located north of the Granger Bay Point Precinct of the V&A Waterfront between the western dolos revetment and the Oceana Power Boat Club Public Launch Site.

Figure 3: Map of V&A Waterfront illustrating a proposed land reclamation area

Figure 4: Granger Bay Masterplan depicting development parcels and public spaces with the proposed reclamation site

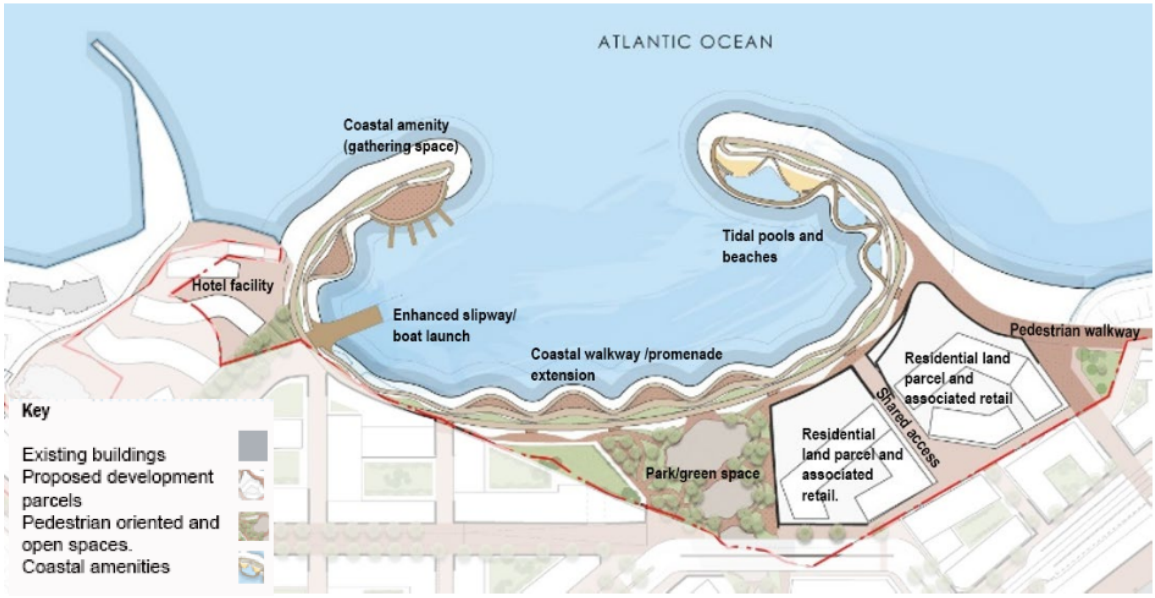

Figure 5: The schematic diagram of the proposed reclamation area in the context of the larger Granger Bay Precinct Plan

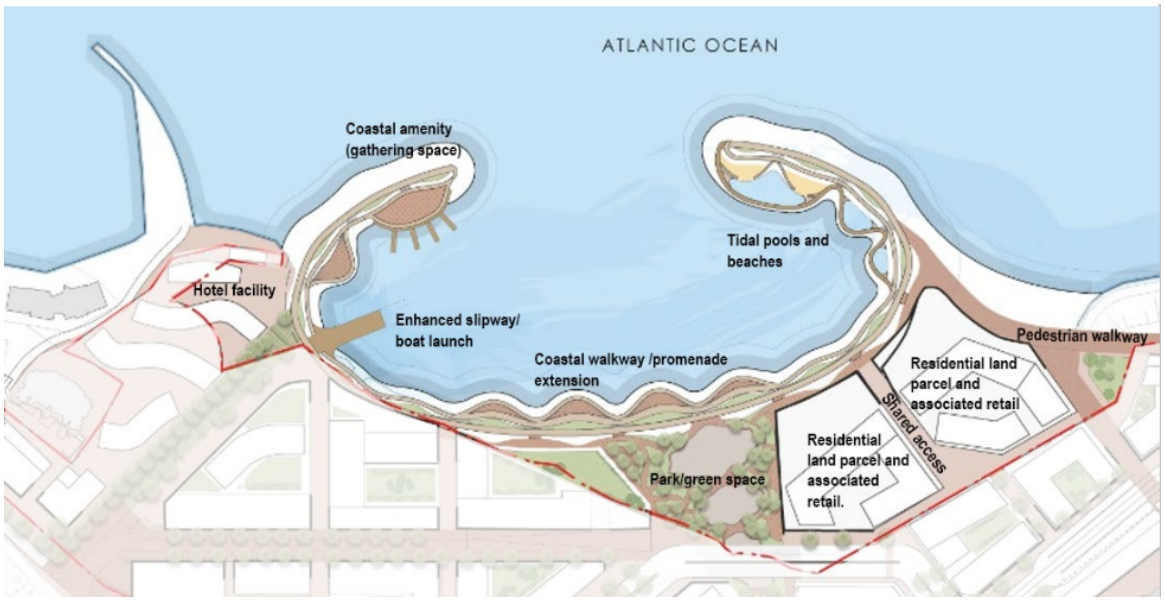

Figure 6: Proposed land uses on the reclaimed land

The reclamation project will comprise three elements as follows;

- Coastal protection infrastructure: the shoreline will be protected by means of new permanent rock revetment and two breakwaters, one to the east at a length of 140m and another to the west at a length of 90m. The revetment connecting the east and west breakwaters will be approximately 540m long. A new bay will be created providing sheltered waters for boating, kayaking and swimming. This will ensure the protection of land-based mixed development & public amenities.
- Mixed-use development on the newly reclaimed land: the proposal is a development of residential accommodation, hotel, leisure and associated issues.
- Adjacent mixed-use: Even though not part of the reclamation application, in context, erf 173712 will house residential accommodation, hotel, retail, and commercial development parcels.

The V&A Waterfront submit that the construction of the entire Granger Bay reclamation project is estimated to generate a total production output of approximately R24.2 billion and contribute R8.8 billion to the Gross Domestic Product (GDP). The entire reclamation construction phase is said to create 26,929 jobs, while the operation phase is said to create plus or minus 5105 jobs over 20 years.

The overall environmental impact of the proposed reclamation project, including but not limited to impacts on fisheries and oceanographic conditions, is said to be low. Specialist studies on fisheries, currents and tides, water quality and oxygen, longshore sediment transport, impacts on biodiversity, etc., can be found at the webpage cited above.

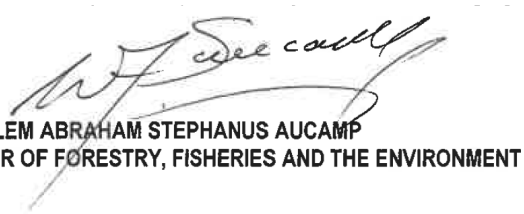

As opposed to the EIA Regulations process undertaken in terms of NEMA, the primary purpose of the reclamation authorisations process under the ICM Act is to assess and to provide in-principle approval for the reclamation. In this assessment, the application will be assessed to ensure that the sea, which is his coastal public property, is not utilised in a manner that undermines the objectives of the ICM Act, which is to ensure integrated and sustainable coastal development and to secure equitable access to the opportunities and benefits of coastal public property.

The public is invited to submit written representations on the pre-approval application within 30 days after publication of this notice in the *Gazette* or publication of a notification in the newspaper, whichever is the later date. Written representations received after 30 days may be disregarded.

All representations must be submitted in writing to the Deputy Director-General of the Department of Forestry, Fisheries and the Environment, Branch: Oceans and Coasts.

1. Glossary Terms

Any word or expression to which a meaning has been assigned in the National Environmental Management Biodiversity Act, 2004 (Act No. 10 of 2004), has the same meaning so assigned and, unless the context otherwise indicates.

"biodiversity value" includes:

(a) contribution to conservation of rare, threatened or endangered species or ecosystems;
(b) contribution to species population growth or the extent of endemic or range-restricted species or ecosystems;
(c) contribution to conservation of natural ecosystems underrepresented in the protected area network;
(d) contribution to important species spawning, breeding or feeding areas;
(e) contribution to ecological connectivity/part of a network of sites; or
(f) a high level of ecological integrity/intactness.

"**Conservation Authority**" means the national or provincial entity or authority mandated by legislation to carry out biodiversity conservation.

"Governing authority" means the management or governance entity of a Trust, company, or any recognised institution, body or natural persons acknowledged as having legal or customary authority and responsibility for decision-making and management of an area or site.

"Management plan" means a plan that includes, amongst other activities to manage or restore ecosystems, species, habitats, sustainable conservation use to measure the extent to which in-situ conservation is achieved.

"**Other Effective Area-based Conservation Measures, or OECMs"**, means other effective area-based conservation measures which are geographically defined areas other than a protected area, which are governed and managed in ways that achieve positive and sustained long-term outcomes for the in-situ conservation of biodiversity, with associated ecosystem functions and services and where applicable, cultural, spiritual, socio–economic, and other locally relevant values.

"rights holders" means a person:

(a) with a right to land;
(b) authorised in terms of applicable laws to use natural resources on land; or
(c) authorised in terms of applicable laws to use natural resources in the sea.

"Long-term outcomes" means a timeframe that is equal or longer than five years.

"the Department" means the Department responsible for environmental management.

2. Background and Purpose

South Africa's conservation estate comprises a diverse and expanding network of protected areas and areas where biodiversity is conserved outside of protected areas. These areas not only safeguard South Africa's rich biodiversity and ecosystem services but also play a critical role in supporting rural livelihoods and sustainable development. Recognising the urgent need to conserve biodiversity across various land tenures and ecosystems, South Africa has adopted a multi-pronged approach to expanding its conservation estate. Over the last 20 years, South Africa has implemented an exceptionally successful biodiversity stewardship programme in terms of which private land in priority biodiversity areas has been

DRAFT

declared as protected areas and put under alternative conservation measures for the long-term conservation of biodiversity. The practice has recently started to extend to state-owned communal land.

It has furthermore recently come to light that biodiversity is conserved in certain areas that are not necessarily used for conservation purposes. Those areas include land used for military training, botanical gardens and areas that are regarded as sacred under customary law.

Some of the areas where biodiversity is conserved outside of the protected area network in South Africa may well qualify as "other effective area-based conservation measures" or "OECM," a concept adopted by the Conference of the Parties to the Convention on Biological Diversity (CBD) at the 15th Conference of the Parties to the Convention on Biological Diversity (CBD COP 15).

The OECM concept, including the CBD's definition, has been adopted in South Africa's White Paper on the Conservation and Sustainable Use of Biodiversity, 2023.

Under the Global Biodiversity Framework (GBF), the Parties to the CBD committed to having 30% of all land and seascapes under protected areas or OECMs by 2030. South Africa, as a Party to the CBD as well as the GBF, is expected to make an effort to help achieve that target.

Furthermore, Decision 14/8 Annex, III adopted at CBD COP15, sets out guiding principles and common characteristics and criteria for identification of other effective area-based conservation measures which are applicable across all ecosystems currently or potentially important for biodiversity and should be applied in a flexible way and on a case-by-case basis.

In order for South Africa to report to the CBD on the OECMs in the country, it must identify the stewardship sites, and other areas where biodiversity is being conserved, outside of protected areas that would qualify as OECMs. It is within this context that the guiding principles and criteria for the identification of OECMs (Decision 14/8 Annex III) have been applied in a flexible manner to align to national circumstances and on a case-by-case basis, through these norms and standards.

The purpose of these norms and standards are to set clear minimum requirements for the recognition of OECMs in South Africa and to establish procedures for the assessment of areas that could qualify as OECMs. The norms and standards have been adopted in terms of section 9 of the National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004) (NEM: BA), which provides that the Minister responsible for the environment may issue norms and standards for the achievement of any of the objectives of NEMBA, including for the management and conservation of South Africa's biological diversity and its components, and set indicators to measure compliance with those norms and standards.

These norms and standards are based on the key components of the definition of OECM, including the guiding principles and criteria for the identification of OECMs set out in Decision 14/8. They also set out some key principles that must be considered when identifying which conservation measures qualify as OECMs in South Africa. They are also composed of norms, standards and indicators.

3. Guiding Principles for the recognition of OECMs in South Africa

- **Protected Area declaration:** The declaration of protected areas should be considered in the first instance, particularly for areas of very high biodiversity value.
- **Conservation outcomes**: The conservation of biodiversity should be promoted in OECMs, even if conservation is not the primary management objective for an OECM.
- **Free, Prior, and Informed Consent:** Conservation measures established without the free, prior or informed consent of the Governing Authority or right holder should not be recognised as OECMs.

DRAFT

- **Voluntary Recognition:** Recognition of an area or site as an OECM is a voluntary process initiated or supported by the management authority of the area, right holder or person responsible for the site or area.
- **Diverse governance types:** A conservation measure should not be disqualified as an OECM on account of the governance type for the conservation measure. All legitimate governance types must be recognised, including customary or traditional governance types.

Chapter 2: **Norms, Standards and Indicators**

4. Site or an Area Recognition process

Purpose:

To ensure that the process followed by the Conservation Authority for the recognition of sites or areas as an OECM is fair, clearly defined and consistent.

Norm:

The process for the recognition of the OECM is fair, participatory and acknowledges the rights of indigenous peoples and local communities, including over communal land.

Standards:

Transparent and participatory recognition process, that acknowledges and upholds the rights of indigenous people, local communities, and communal land.

Results of the biodiversity assessment has been presented to the relevant review panel.

Indicators:

The site assessment report with attachments and portfolio of evidence.

Recognised OECMs are included in the national OECM database.

Signed consent form from Governance Authority or landowner for the recognition of the conservation measure.

Record of consultation with relevant stakeholders.

Conservation Authority Recommendation.

5. Biodiversity contribution

Purpose:

To ensure that the area or site contributes to the South African biodiversity conservation objectives and the conservation estate.

Norm:

The area or site has biodiversity value.

Standards:

The baseline biodiversity information has been established.

Observable signs, characteristics or measures that demonstrate presence of biodiversity value.

DRAFT

The importance of the site or area for conservation of biodiversity is determined from best available science, grey literature, or written/oral indigenous and traditional knowledge, where available.

Indicator:

Presence of critically endangered, endangered, threatened or protected ecosystem types or species.

Important for ecological connectivity or forms part of a network of sites where biodiversity is still intact or

Biodiversity that is still in a good ecological condition.

6. Geographically defined

Purpose:

The purpose of this norm is to ensure that OECMs have boundaries that are spatially delineated and do not overlap with a protected area.

Norm:

OECM boundaries are clear and do not overlap with protected areas.

Standard:

The area or site is geographically defined.

The area or site or part thereof is not a protected area

GPS co-ordinates for sea-based OECMs.

The site has not been declared, and is not recognised, as a protected area under the South African protected area legislation.

7. Governance Types

Purpose:

The purpose of this norm is to ensure that OECMs are governed and managed by recognised structures or person(s) in a fair and inclusive manner to ensure sustained long-term outcomes of biodiversity conservation.

Norm:

Governance authority governs and manages the area or site in a manner that contributes to sustained long-term outcomes.

DRAFT

Standards:

The governance authority must, where applicable recognize and acknowledge the rights of indigenous peoples and local communities, including over their communal land.

The governance and management systems respect traditional knowledge and customary practices of indigenous people and local communities, where applicable.

Indicators:

Publicly available information about the OECM, its governance structure and management.

Evidence that decision-making processes, management plans and outcomes are transparent and accessible to all stakeholders.

Evidence of mechanisms for meaningful participation of all relevant rights holders and stakeholders in governance and management decisions.

Evidence for regular review and feedback processes in place to assess governance effectiveness

Evidence that sufficient human, financial and technical resources are allocated for effective management.

There is a mechanism in place that would ensure a reasonable likelihood that the important biodiversity values for which the site is identified will be conserved *in situ* in the long term**.**

Signed co-management agreements between the Governance authority and the right holders or local communities, where applicable.

Governing and management system for the attainment of the biodiversity outcomes developed and implemented through a participatory process.

Management agreement with the Conservation Authority, where applicable.

DRAFT

8. Long-Term In-situ conservation of biodiversity

Purpose:
To ensure that governance and management of OECMs are sustained, maintaining biodiversity value over the long term.

Norm:
Governance and management are sustained to achieve long-term in situ conservation of biodiversity.

Standard:

A long-term mechanism is in place to support objectives of the area or site contributing to the conservation of the site's important biodiversity values.

The long-term mechanism must have been in effect for at least 5 years and is expected to persist into the future.

Indicators:

Governance and management arrangements are in place, respecting traditional governance systems and protocols

9. Effectiveness of biodiversity interventions

Purpose:

The purpose of this norm is to ensure that management of the site or area achieves or is expected to achieve effective in situ conservation of biodiversity.

Norm:

The governance and management of the OECM effectively conserves biodiversity values regardless of whether biodiversity conservation is the primary objective.

Standards:

Pressures on biodiversity are known and where applicable are mapped, and their impacts are understood.

Pressures on biodiversity value are addressed and mitigated.

Resource use is ecologically sustainable.

Indicators:

A management plan or system includes pressures on biodiversity and outlines any conservation objectives, actions and responsibilities.

Where applicable, the management system provides for the sustainable use of resources.

Best practices are adopted based on the fundamental principles of environmental management, such as the precautionary principle and other principles outlined in section 2 of the National Environmental Management Act.

10. Cultural and spiritual values and socio-economic benefits

Purpose:

The purpose of this norm is to ensure that where applicable, management systems of OECMs address and support ecosystem services and functions, cultural, spiritual, traditional, socio-economic or other locally relevant values, and cultural practices that provide benefits to biodiversity.

Norm:

Where applicable, an OECM supports or upholds ecosystem functions and services, cultural, spiritual, traditional, socio-economic or other locally relevant values.

Standards:

Governance and management systems acknowledge and uphold the practices, institutions, and knowledge including but not limited to indigenous and traditional knowledge that are fundamental for the in-situ conservation of biodiversity.

Intervention to enhance an ecosystem service is not at the expense of other ecosystem services.

Indicator:

Where they exist, a description of any cultural, spiritual, traditional, socio-economic or other locally relevant values are included in the management system.

DRAFT

Where they exist, and at the discretion of landholders with the Free, Prior, and Informed Consent (FPIC) of those landholders, all cultural, spiritual, traditional, socio-economic and other locally relevant values are included in monitoring reports as required by the Conservation Authority.

Chapter 3: Removal of the area or site as an OECM

11. Removal process:

The recognition of a site or area as an OECM must be removed through written agreement between the responsible Conservation Authority and Governance Authority responsible for the management of the OECM:

- at the request of a landowner or Governance Authority
- if the site is declared as a protected area;
- upon the expiry of the validity period of an agreement or other arrangement in terms of which an OECM is governed or managed; or
- at the request of a Conservation Authority when the site or area no longer meets these norms and standards.

Chapter 4: Reporting by Conservation Authorities

12. Reporting process:

Purpose

To ensure consistent, transparent, and accurate reporting on OECMs, enabling effective national and international tracking of South Africa's conservation estate and compliance with CBD/GBF commitments.

Norm

Conservation Authorities submit accurate and timely reports on OECMs to the Department, in accordance with prescribed formats and timeframes.

Standards

The Assessment report developed by the Department must, as a minimum, contain:

a) the number of requests for recognition of OECMs received and assessed by the Conservation Authority; and
b) the number of OECMs recognised by the Conservation Authority.

Conservation Authorities must submit **annual** reports to the Department in the prescribed format.

For the purposes of (b), a Conservation Authority's report must contain the following information:

a. Conservation Authority recommendation (minutes of the review committee meeting)
b. Site Assessment Report:

i. Area or site name.

ii. GIS Map/coordinates/spatial boundary information.

iii. Number of hectares or kilometres squared coverage.

iv. Recognition date, and expiry date for fixed term agreements.

v. Name of the Conservation Authority, district and local municipality.

DRAFT

vi. Name of Governance Authority (government; entity, community or individual).

vii. Indicate whether biodiversity conservation is a primary, or secondary management objective, or the ancillary result of other activities.

viii. Date of the most recent amendment to the site (for example, date of a management or governance authority or spatial boundary change).

ix. The site management system that is in place.

x. Confirmation of ownership, where applicable.

Reports must be submitted within 60 days after the end of the reporting period.

Reports must be made publicly available via the Department's website.

Conservation Authorities must provide additional reports upon request from the Department within a reasonable timeframe.

Recognised OECMs must be recorded in the South African National Conservation Areas Database (SACAD).

Only the Department is responsible for reporting OECMs to the World Database on OECMs, based on information provided by Conservation Authorities.

Indicators

Submission of a signed annual report by the Conservation Authority to the Department.

Publication of reports on the Department's website.

Entry of candidate and recognised OECMs into SACAD (system records).

Evidence that reports were submitted within the prescribed timeframe.

DRAFT

Chapter 5: Monitoring

13. Monitoring requirements:

Monitoring mechanisms for sites recognised as OECMs to be undertaken on a case-by-case basis, in consultation with the Conservation Authority and relevant management/governance authority, landowner, custodian, etc, and should make use of existing management agreements, where applicable.

Monitoring of biodiversity values should be done at a frequency to detect meaningful change in the site's biodiversity values and will be done on a case-by-case basis, depending on the site's biodiversity values. Monitoring may be undertaken by the management/governance authority according to the agreed monitoring mechanisms, at least every five years.

Monitoring of cultural, traditional, socio-economic and other locally relevant values and practices is voluntary. Monitoring of these values is at the discretion of right-holders and should include Free, Prior, and Informed Consent (FPIC).

43. At the hearing of an appeal the Appeals Tribunal shall not be limited to consideration of the evidence before the Administration Board or other body and the Appeals Tribunal may, in its discretion, rehear the evidence or hear or receive additional evidence so as to inform itself fully of the relevant facts.

44. Subject to the provisions of clause 47, any decision, order or ruling of the Appeals Tribunal shall be final and binding on all parties.

Growers' Right to Deliver Cane

71. A grower may deliver cane to any mill willing to accept his or her cane for crushing, if he or she shall first have lodged with the Administration Board a notice in such form as the Administration Board may from time to time determine, in which is set out -

(a) the grower's name and address and contact details;

(b) whether the grower is a member of a grower group;

(c) such other information as is reasonably required by the Administration Board,

If a mill intends to resite or close permanently, it shall give the Administration Board and its Mill Group Board at least two months prior written notice thereof and the Mill Group Board shall without delay take all reasonable steps to notify all affected growers of the intended resiting or closure and no grower shall have any claim or obligations against or to the mill in consequence of the resiting or closure, save in respect of any contract which may subsist between the grower and the mill.

Control of Pests and Diseases and Varieties of Cane

75. The provisions of this Chapter relating to the control of pests and diseases and varieties of cane are intended specifically to prevent or abate loss and damage suffered by growers and the sugar industry and shall be read and construed as supplemental, in aid and not in derogation of the Agricultural Pests Act, 1973 (Act No. 3 of 1973), or any other legislation relating to pests and diseases in plants.

76. In clauses 77 to 96, unless the context otherwise indicates -

78. The South African Sugar Association may in the notice referred to in clause 77, publish such procedures, directions or orders as it may determine for the purpose of regulating remedial operations to be carried out on or the harvesting or destruction of cane and the South African Sugar Association may from time to time and in like manner amend or withdraw any notice or suspend the operation of any notice for such period as it may deem fit or in relation to such part of the proclaimed area as it may specify.

79. Each grower in respect of land situated within a proclaimed area shall carry out the remedial operations or the harvesting or destruction of cane with a view to the eradication of the pest or disease in question as may be required to be complied with in terms of a notice referred to in clause 77.

80. If the grower fails or omits to promptly comply with, to the satisfaction of the Local Pest, Disease and Variety Control Committee concerned, any procedure, direction or order published in terms of the notice, the committee may, at the expense of the grower, cause

the procedure, direction or order to be carried out and the grower shall forfeit all rights to the proceeds, if any, of any cane harvested upon the land in question, which proceeds shall be payable to the South African Sugar Association.

81. If the proceeds referred to in clause 80, are insufficient to meet the costs incurred by the South African Sugar Association in causing any procedure, direction or order so carried out, the South African Sugar Association shall be entitled to claim the shortfall from the grower and a certificate by the South African Sugar Association's auditor as to the amount so due shall be *prima facie* proof of the amount.

Varieties of Cane

82. On or before 31 March in each year the South African Sugar Association shall cause to be published a notice in the *Gazette* which shall specify in respect of each control area or respective parts of each control area the varieties of cane approved by the South African Sugar Association for planting and such notice shall come into force on 1 April following the date of publication and shall remain in force until the following 31 March.

83. No grower shall at any time plant cane other than a variety of cane at that time approved by the South African Sugar Association for planting in the relevant control area or part thereof in which the grower's land is situated, in terms of the South African Sugar Association's said notice then in force.

84. A grower who plants land to an approved variety of cane shall, in the event of the approval being withdrawn in respect of the control area or part of a control area concerned, but subject to a right of appeal to the Administration Board, eradicate the cane within the period and in the manner determined by the relative Local Pest, Disease and Variety Control Committee and laid down in a written order duly served on him or her.

85. Save during the period determined by the Local Pest, Disease and Variety Control Committee for the eradication of a previously approved variety of cane, no grower shall deliver to a mill and no mill shall knowingly accept delivery from a grower of a variety of cane which is not, in the year of delivery, an approved variety for planting in the control

area or part of the control area in which the grower's land is situated.

86. Any cane which is not a variety duly approved for planting in the control area concerned or part thereof and any cane which is growing on a grower's land after the expiration of the period determined for the eradication thereof in terms of an order referred to in clause 84, shall be deemed to be diseased sugar cane to which the provisions of clauses 79, 80 and 81 shall *mutatis mutandis* apply.

Compensation for Eradication of Cane

87. The South African Sugar Association may in its discretion and having due regard to equitable considerations compensate a grower for loss suffered due to the eradication of his or her cane before the time it would normally be ploughed out, if the South African Sugar Association is satisfied that -

(a) the grower has become obliged to eradicate the cane due to the pest and disease control provisions or control of varieties provisions of this agreement; and

(b) the loss has occurred due to circumstances beyond the control of the grower:

Provided that if a grower feels aggrieved at any decision of the South African Sugar Association in the exercise of the discretion, he or she shall have the right to appeal against that decision to the Appeals Tribunal, whose decision shall be final and binding on the grower and the South African Sugar Association.

Local Pest, Disease and Variety Control Committees and Officers

88. The South African Sugar Association -

(a) shall establish, cause the appointment of committee members of and make rules by which to regulate the procedures to be followed by respective Local Pest, Disease and Variety Control Committees and Local Pest, Disease and Variety Control Officers (hereinafter referred to as officers) for respective control areas or parts of control areas and shall determine the area of jurisdiction of each

committee and officer and shall provide for the identification of and the written authority to be produced by all officers so appointed;

(b) may delegate any of its functions in terms of clauses 77 to 96 to a Local Pest, Disease and Variety Control Committee; and

(c) shall have the power to impose levies in accordance with the recommendations of a Local Pest, Disease and Variety Control Committee on particular mills and particular growers to fund the costs and expenses of such committee and shall have the power to require the relative mills to deduct any levies imposed on growers from payments due to growers for cane deliveries.

Powers of Officers to Enter Upon Lands

89. Each grower in respect of land situated in a control area shall permit an officer on production by such officer of his or her written authority to enter upon the grower's land in order to perform any of his or her functions or those of a Local Pest, Disease and Variety Control Committee or any order or instruction given to him or her by the South African Sugar Association.

Inspection of Land and Order to Eradicate Pests or Diseases

90. Without incurring any obligation to pay compensation, a Local Pest, Disease and Variety Control Committee may cause an officer to inspect any cane on any land situated within its area of jurisdiction and to remove samples of any cane in order to ascertain whether any pest or disease inimical to cane exists on the land.

91. If an officer discovers upon any land within a proclaimed area the presence of any such pest or disease, or reasonably suspects the presence thereof on the land, the Local Pest, Disease and Variety Control Committee concerned may -

(a) by order in writing duly served on the grower concerned declare the whole of the land or any specified portion thereof to be quarantined for such period or periods as may be determined by the Local Pest, Disease and Variety Control Committee concerned and specified in the order;

(b) by order in writing duly served on the grower require the grower to carry out in the manner and within the period specified in the order such measures as the Local Pest, Disease and Variety Control Committee concerned may specify for the eradicating or combating the pest or disease; and

(c) by order in writing duly served on the grower require the grower to carry out any remedial operation on or to harvest or destroy any cane growing on his or her land in the manner and within the period specified in the order and to keep his or her land or any portion thereof free of any such sugar cane for a period specified in the order.

92. Any order issued under clause 91 shall be subject to an appeal to the Administration Board.

93. Should a grower upon whom an order under clause 91 has been duly served fail or omit to duly observe or comply with the terms and requirements of the order, the South African Sugar Association may cause the order to be carried out in accordance with the provisions of clause 80.

94. The Administration Board shall have power to consider and decide any matter in respect of which any Local Pest, Disease and Variety Control Committee is unable, due to a disagreement among its members, to come to a decision.

95. Any appeal to the said Administration Board shall be noted in writing and delivered at the office of the South African Sugar Association within 14 days of the service upon the grower concerned of the order against which the appeal is noted.

Service of Notice or Order

96. Any order in terms of the provisions of clauses 84 or 91 shall be deemed to have been duly served on the grower concerned -

(a) if it is delivered to the grower personally;

(b) if it is delivered to his or her duly authorised representative;

(c) five days, excluding Saturdays, Sundays and public holidays, after it is sent by certified or registered post to the last known business or residential address of the grower; or

(d) if it is delivered at the land concerned, in the absence therefrom of the grower, to a person apparently in charge thereof.

CHAPTER 4

SUPPLY OF CANE

Cane Delivery Estimates

97. Each Mill Group Board shall, after consultation with the growers and mill concerned, and subject to the provisions of this agreement, from time to time make rules for the taking out of cane delivery estimates by growers and grower groups who are contracted to supply cane to the mill, and for the better performance of its functions.

98. A grower shall, whenever so requested by his Mill Group Board, submit an estimate of the cane which he or she or any grower group of which he or she is a member proposes to deliver to the relative mill during the crushing season in each year and all such estimates shall be made in good faith and the grower shall, with due regard to a mill's obligation to accept deliveries of cane, use his or her best endeavours to compile his or her cane delivery estimates or where the grower is a member of a grower group, the grower group's cane delivery estimate, with reasonable accuracy. A grower or grower group may not submit an estimate for delivery of the same cane to more than 1 mill.

99. Reductions or increases in a grower's or grower group's cane delivery estimates shall be permitted only in accordance with the rules determined by his or her or its Mill Group Board in accordance with the provisions of clause 97.

100. By not later than 30 September in each year, or such earlier date as is agreed upon by the Mill Group Board and the mill concerned, or such later date as may, with the approval of the South African Sugar Association, be so agreed, each grower contracted to deliver cane to the relative mill or where a grower is a member of a grower group, that grower group, shall be required to submit to the Mill Group Board a cane delivery estimate relative to the current season, which shall constitute an undertaking by the grower or grower group to deliver the mass of cane indicated in the estimate and after that date the grower or grower group may only increase or reduce his or her or its undertaking, on

good cause shown, to the extent permitted by the relative Mill Group Board and the mill concerned. The words "**good cause**" in this clause shall be construed as including agronomic and such other factors and circumstances as may be considered appropriate.

101. If the Mill Group Board and the mill concerned cannot agree on a date other than 30 September, either party may refer the matter to the Administration Board for adjudication.

102. It shall be the duty of each Mill Group Board to take out at regular intervals and in accordance with its rules, estimates of cane which the growers or grower groups concerned propose to deliver during the crushing season and to advise the Administration Board, the growers, the grower groups and the mill concerned of the estimates. Mills shall not be liable for incorrect estimates made by Mill Group Boards.

103. Mill Group Boards may determine any question relating to growers' or grower groups' estimates of production not specifically provided for in this agreement.

Cane Supply Agreements

104. A mill and a grower may enter into a contract (commonly called a "**cane supply agreement**") in terms of which -

(a) such grower will be obliged to grow cane on such grower's land;

(b) for a period, such grower will be obliged to deliver such cane to such mill and such mill will be obliged to accept such deliveries; and

(c) the mill and the grower concerned agree to ancillary contractual terms which are not in conflict with the terms of this agreement.

105. Cane supply agreements in existence when this agreement comes into operation, shall be suspended during the subsistence of this agreement insofar as they are in conflict with the provisions of this agreement, but otherwise they shall remain in force: Provided that references in any such existing cane supply agreement to sucrose or sucrose in cane

shall be construed as references to recoverable value.

106. If a grower who is not contracted to deliver cane to the relevant mill, submits a cane delivery estimate to a Mill Group Board and such estimate is included, in whole or in part, in the Mill Group Board's delivery allocations for the year concerned, such grower and the mill concerned shall be deemed to have entered into a contract for the supply of that mass of cane referred to in such grower's initial estimate to the extent included in such delivery allocations, as it may be amended from time to time, for the year concerned. If a group estimate by several such growers is submitted (and without limiting the general meaning of this clause, a group estimate includes an estimate submitted by a grower group) and included in the delivery allocations, each of those several growers shall be deemed to have so entered into such a contract with the mill concerned in relation to his or her respective share of the group estimate.

Deliveries to Mills

107. Each grower shall -

(a) deliver his or her cane to his or her crush mill;

(b) ensure that all the cane is delivered in such a condition that the mill concerned will be able to crush the cane efficiently, to which end, without derogating from the generality of the foregoing, each grower shall ensure that the cane is reasonably topped and either trashed or burnt.

108. Save insofar as may be otherwise agreed between a particular grower and his or her home mill and subject to any provision in this agreement to the contrary, each grower shall bear his or her own costs of transport of cane to the home mill concerned.

Times and Modes of Delivery

109. Each Mill Group Board shall be responsible, according to the terms of this agreement, for regulating all matters relative to the delivery time and mode of delivery applicable to each grower and grower group delivering cane to the mill concerned. The expression "**delivery time**" embraces the days of a week and the hours of a day during which a

grower or grower group is required to deliver cane to a mill and the expression "**mode of delivery**" embraces the method by which cane is to be bundled, including the size of bundles, or not bundled and the type of delivery vehicle employed, so determining the manner in which the cane is presented for off-loading at a mill's receiving facilities.

110. If, to suit the receiving facilities of a mill, the mill tranships or moves cane from one mode of delivery to another, the costs of transport from the transhipment point to the mill or the cost of moving the cane to the other mode of delivery shall be borne by the mill, save insofar as the parties may otherwise agree.

111. If a mill undertakes the haulage of a grower's cane by locomotive from railhead to mill, the costs of the haulage shall be borne by the mill, save insofar as the parties may otherwise agree.

112. Save insofar as this agreement otherwise provides, each grower shall deliver his or her cane to the mill concerned at the same delivery time and by the same mode of delivery he or she was entitled to employ immediately prior to the coming into force of this agreement.

113. If a mill or a grower or grower group wishes to effect a change in the grower's or grower group's time of delivery or the mode of delivery to the mill concerned -

(a) the proposal for the change shall be referred to the Mill Group Board concerned;

(b) the Mill Group Board concerned shall not effect the change unless -

i. in the case of the delivery time, the grower concerned consents thereto together with any other grower affected by the change in delivery time if the grower is a member of a grower group, and, if the proposed change will affect the rate at which cane in any particular mode is received by the mill concerned from other growers contracted to that mill, the mill consents thereto;

ii. in the case of the grower's or grower group's mode of delivery, except if the proposed change results from a change in such mill's receiving

facilities effected pursuant to clause 115, both the mill and the grower consent thereto provided that where a grower group is delivering, consent is required of every grower who is a member of that grower group; and

if any dispute arises as to whether a delivery time or mode of delivery may be duly changed in accordance with the provisions of clauses 113(a) and (b), no change shall be given effect to until such time as the right to appeal has lapsed or such time thereafter as any appeal duly noted to the Administration Board or further appeal to the Appeals Tribunal shall have been finally disposed of.

114. A mill may refuse to accept the delivery of cane by a grower who, or grower group which, persistently fails to comply with his or her or its allocated delivery time or mode of delivery.

Mill Receiving Facilities

115. A mill shall not effect a change to its cane receiving facilities if the effect of the change is to render unsuitable the mode of delivery employed by any of the growers contracted to deliver cane to the mill, except with the approval of all affected growers or the Local Grower Structure/s concerned.

Varieties of Cane

116. Each grower and grower group shall, as far as possible, deliver different varieties of cane in separate consignments, each identified by variety in the relevant delivery note. Each mill shall weigh consignments separately and keep a proper record thereof. The Mill Group Board concerned shall, as far as practicable, test the different varieties of cane separately for all elements required so as to arrive at the recoverable value. The Mill Group Board shall collate such data for industrial purposes.

Condition of Cane

117. Unless the terms of any contract between the relative mill and relative grower provide otherwise, if a mill is dissatisfied with the condition of cane delivered to it by a grower or

grower group and does not wish to accept such cane, it shall refer the matter to the Mill Group Board concerned. If, in any such matter referred to it by a mill, the Mill Group Board concerned is satisfied that the condition of the cane is so defective that the mill concerned cannot efficiently crush the same, the Mill Group Board concerned shall order the cane to be redelivered to the grower concerned at the grower's expense, regardless of whether or not it has been weighed, in which event the grower shall not receive any payment therefor. A Mill Group Board may delegate any of its functions in terms of this clause to a nominee.

Road Maintenance

118. Where, from 1 April 1984 until immediately before the date on which this agreement comes into operation, a mill has continued to be responsible for making available and maintaining a road over which a grower delivers cane to a mill, the mill shall, to the extent it continues to be legally entitled to do so and unless otherwise agreed between the mill and the grower, continue to make the road available to the grower and continue to maintain the same on the same basis as hitherto on condition that -

(a) if any authority assumes the obligation to maintain the road or provides a suitable alternative road, the mill's obligation shall cease;

(b) subject to any contractual rights the mill may have, the mill shall not charge the grower or his or her transport contractor for the use of the road; and

(c) the provisions of this clause shall not apply if the mill makes available or maintains the relevant road pursuant to a contractual obligation, which obligation shall not be deemed to be extended by the provisions of clause 118(b).

Rateable Deliveries

119. Total deliveries of cane shall be made by a grower or grower group to the relative mill rateably over the full length of the crushing season, unless otherwise agreed to by the mill and the Mill Group Board concerned.

120. Each Mill Group Board shall, in consultation with the mill concerned -

(a) determine rateable delivery allocations based on growers' or grower groups' delivery estimates in respect of all growers contracted to deliver cane to the mill concerned;

(b) endeavour to facilitate co-operation amongst groups of growers to arrange for the sharing by the groups concerned of delivery allocations as may be appropriate in the interests of a rateable delivery schedule and the convenience of the parties concerned; and

(c) advise growers, grower groups and the mill concerned on all questions relating to delivery allocations and the rateable delivery of cane.

Special Delivery Allocations

121. A Mill Group Board may make special delivery allocations to growers and grower groups at any time to secure the reasonably prompt delivery of cane damaged by frost, fire, drought, flood, pest or disease, or cane required to be harvested in terms of an order issued in terms of this agreement by a Local Pest, Disease and Variety Control Committee.

Supply of Information to Mill Group Boards

122. Each mill and grower contracted to a mill shall supply to the Mill Group Board concerned all information reasonably necessary for the Mill Group Board concerned to perform its functions in terms of this agreement, including information related to grower groups.

123. Each such grower shall supply to the Mill Group Board concerned, by 30 April of each year or such later date as the Administration Board may allow, the following information regarding -

(a) the area of his or her land reaped and tonnage of cane harvested therefrom in the previous year;

(b) the estimated area of his or her land to be reaped and tonnage of cane capable of being harvested therefrom in the current year;

(c) the estimated area of his or her land -

i. under cane cultivation as at the previous 31 March;

ii. to be planted to cane during the current year; and

iii. which will be under cane cultivation on the following 31 March; and

(d) such additional information as the Administration Board may reasonably require.

Failure by a Grower to Submit Estimates or Information

124. In respect of growers contracted to a mill, a Mill Group Board may withhold, or itself determine, a cane delivery allocation to a grower or grower group if -

(a) the grower either directly or as part of a grower group, fails to duly submit estimates as required by this agreement the accuracy of which is acceptable to the Mill Group Board of the cane he or she or the grower group proposes to deliver to the mill concerned; or

(b) the grower fails timeously and adequately to furnish all the information and returns which he or she is required to furnish in terms of this agreement.

125. A Mill Group Board may, if the relative mill or any relative grower fails to carry out its or his or her obligations to furnish any information required of it or him or her, make estimates of the required information.

Cane Diversions

126. Mills may at any time divert supplies of cane from one mill to another.

127. Where mills agree to make diversions of supplies of cane in terms of this agreement, the identification of and payments for all cane deliveries shall be a matter for agreement between the mills concerned on condition that details thereof shall be notified to the Administration Board from time to time.

128. Save insofar as may be otherwise agreed by the grower and the home mill concerned -

(a) any additional costs of cane delivery or of cane testing incurred in consequence of a diversion of cane from a grower's home mill to another mill to suit the convenience of mills, shall be borne by the grower's home mill;

(b) where the diversion results in a saving of costs of delivery, the saving shall be for the benefit of the grower concerned;

(c) where a diversion takes place mainly to suit the grower concerned, any additional costs of cane delivery or of cane testing shall be borne by the grower; and

(d) any dispute between the grower and the home mill concerned in relation to the provisions of clauses 128 (a), (b) and (c) and any claim arising therefrom which is not resolved by negotiation between the parties, must be referred to the Administration Board which will have jurisdiction to determine that dispute.

The expression "**costs of cane delivery**" in this clause means the costs incurred in the loading, handling, transportation and unloading of cane from the time it is first loaded on a vehicle to the time it is off-loaded at the receiving facilities of the mill concerned.

129. Each mill shall notify its Mill Group Board and the South African Sugar Association monthly of the estimates of cane diversions agreed between any of them in terms of this agreement.

Local Grower Structure/s

130. If there is more than 1 Local Grower Structure representing growers contracted to deliver cane to a particular mill, then an agreement in terms of clause 131 may only be concluded and deductions in terms of clause 134 may only be made from cane proceeds, if and when those Local Grower Structures conclude a Co-operation Agreement.

131. After conclusion of a Co-operation Agreement, where applicable, the Local Grower Structure/s may negotiate with a mill on behalf of all the growers contracted to deliver cane to such mill in relation to -

(a) any agreement the mill may wish to enter into in relation to the length of its milling season;

(b) the payment of compensation by the growers concerned to the mill concerned or by the mill concerned to the growers concerned if the milling season is extended beyond the agreed length thereof;

(c) cane quality schemes and by-product payment schemes which may be offered to the growers concerned generally;

(d) the liability of a grower concerned for damages or a penalty if such grower fails, without good cause, to deliver cane to such mill in accordance with such grower's cane delivery estimate;

(e) any other matter relative to cane deliveries or cane supply which is of general application to all the growers concerned; and

(f) the continuing application of any specific provision of any cane supply or similar agreement subsisting between the mill concerned and a grower at the time this agreement comes into force and that may otherwise fall away or be superseded according to clause 132.

132. Any agreement resulting from such negotiation shall be binding on the mill concerned and all growers concerned. Any such agreement shall be supplementary to the

provisions of any cane supply or similar agreement that may subsist between the mill concerned and a particular grower: Provided that if there is any conflict between the provisions of any such cane supply or similar agreement and any agreement concluded in terms of clause 131, the provisions of the latter agreement shall prevail, save as may otherwise be agreed in terms of clause 131(f). Any agreement concluded in terms of clause 131, including agreements concluded by the Local Grower Councils which preceded the Local Grower Structure/s (and for clarity, the Local Grower Council was previously defined in this agreement as the Local Grower Council referred to in SACGA's Memorandum of Incorporation "representing growers contracted to deliver cane to a particular mill"), remains binding until it is replaced by another agreement concluded in terms of clause 131.

133. If any dispute arises between a mill and a grower in relation to an agreement negotiated between the mill and a Local Grower Structure/s, either party may refer the dispute to the Appeals Tribunal for determination.

134. The ordinary expenses for the performance of the functions of each Local Grower Structure in terms of this agreement, as agreed in terms of a Co-operation Agreement if applicable, shall be financed by each grower contracted to deliver cane to a mill. After conclusion of a Co-operation Agreement if applicable, every grower contracted to deliver cane to a particular mill shall be deemed to have authorised that mill to make a deduction from his cane proceeds to fund the Local Grower Structure/s' ordinary expenses, and the Local Grower Structure/s may by written notice to the mill, require the mill to:

(a) deduct the amount stipulated in that notice from the cane proceeds payable to each grower (which amount may not exceed the amount agreed in terms of the agreement concluded in terms of clause 131); and

(b) pay the amount deducted to the Local Grower Structure/s, in the proportions agreed in any applicable Co-operation Agreement, provided that the Local Grower Structure/s shall use the amounts so recovered to perform their functions in terms of this agreement.

CHAPTER 5

PAYMENT FOR CANE

Payment for Cane

135. For the cane delivered by a grower to a mill in each year, the grower's home mill shall pay the grower a price per ton based on the recoverable value of the cane, not less than the price determined in accordance with the provisions of this Chapter: Provided that, if a grower delivers cane to a mill in the month of March in any year, the South African Sugar Association may, on the application of the Mill Group Board concerned, declare that such cane shall, for the purposes of this Chapter, be deemed to be delivered in the following year.

Cane Testing

136. The South African Sugar Association shall establish and maintain a Cane Testing Service which -

(a) shall provide an audit function in respect of the determination of the total mass of recoverable value of cane entering each mill in accordance with clause 53; and

(b) may undertake the sampling and laboratory procedures aimed at the determination of the recoverable value of cane delivered by growers to each mill, in respect of which the relevant Mill Group Board has entered into a contract with the South African Sugar Association for the provision of such services.

137. The South African Sugar Association shall issue and keep up-to-date a manual called the "Official Methods for the Determination and Distribution of Total Recoverable Value of Cane" (**"the Official Methods Manual"**) and no amendment shall be effected to the Official Methods Manual, except with the prior written approval of the South African Sugar Association.

138. Each mill shall provide and maintain all such measuring equipment as specified by the South African Sugar Association from time to time for the measurement of the mass of cane and mixed juice and any other relevant substance derived from cane, which equipment shall also comply and be maintained in accordance with the Legal Metrology Act, 2014 (Act No. 9 of 2014), if applicable. The mass determinations shall be carried out in accordance with the procedures detailed in the Official Methods Manual.

139. The Mill Group Board at each mill shall be responsible for the determination of the total mass of recoverable value of cane entering the mill concerned in terms of clause 53 to the satisfaction of the South African Sugar Association. The South African Sugar Association shall at all times have access to all facilities, data and other information which it deems necessary in order to verify the accuracy of the determination of the total mass of recoverable value of cane entering the mill.

140. Should the South African Sugar Association be dissatisfied with the determination of the total mass of recoverable value of cane entering a particular mill, it shall advise the relevant Mill Group Board of its findings and of the steps it requires to be taken to remedy the situation and may order amendments to the results of determinations by the Mill Group Board, with retrospective effect. The Mill Group Board shall implement the requirements of the South African Sugar Association: Provided that should the Mill Group Board or the mill or grower(s) concerned dispute the validity of the steps or the amendments, they shall be entitled to refer the matter to the Administration Board for a ruling.

141. Each Mill Group Board shall provide and maintain all equipment, devices, chemicals and other facilities as are necessary to ensure compliance with the Official Methods Manual.

Analysis of Cane Deliveries

142. In order to determine the recoverable value of each consignment of cane delivered to a mill by a grower -

(a) individual cane consignments shall be tested in a manner and at a frequency determined by the Mill Group Board concerned from time to time;

(b) each mill shall, in consultation with the Mill Group Board concerned, design and operate its mill cane yard and cane carrier systems so as to facilitate the determinations required in terms of clause 53;

(c) when cane is delivered to a reloading site, the cane shall, as far as practicable in the light of the quantities of individual consignments, be stored so that the reload vehicle is filled with cane from one grower only;

(d) notwithstanding the provisions of clauses 142(a) to (c), inclusive, if consignments from any particular growers are, in the opinion of the Mill Group Board concerned, consistently too small for separate sampling or cannot practically be separately sampled for good and sufficient reason, the Mill Group Board may direct that such consignments be grouped for combined sampling and testing and the results of such combined sampling and testing of the cane shall apply to all the cane consignments so grouped within a distribution period referred to in clause 144;

(e) as far as practicable, consignments shall be crushed in the sequence of the dates and times of their delivery to a mill (and similarly reloaded on a first in first out basis at reloading sites);

(f) storage times in a mill yard shall be kept to a minimum and the Mill Group Board concerned shall monitor the delay of all consignments stored in a mill yard;

(g) a Mill Group Board may annul or adjust any test results which it considers to be irrational;

(h) any consignment of cane which for any reason is not sampled, shall be credited a recoverable value in accordance with the procedures provided for in the Official Methods Manual.

Application of Adjusting Factors

143. The individual consignment analytical parameters arrived at shall then be adjusted in respect of each distribution period by the Mill Group Board concerned by the application

of adjusting factors which shall be determined for the distribution period according to the Official Methods Manual.

144. Each distribution period, which shall normally be seven days, shall be fixed by the Mill Group Board concerned or, if the Mill Group Board is unable to agree, a distribution period shall be determined by the Administration Board.

Variations

145. If at any particular mill circumstances should arise which warrant a variation from the strict interpretation of any of the procedures relating to the determination of recoverable value of cane the Mill Group Board concerned may, subject to the approval of the South African Sugar Association, authorise such variation on such basis and for such period as it shall determine.

Monthly Cane Delivery Statements

146. Each Mill Group Board shall report monthly to the mill concerned and to the Administration Board and the Growers' Associations the total mass of cane delivered by each grower to the mill during the preceding monthly period, and the recoverable value thereof.

Relative Recoverable Value and Payment

147. For the purpose of clauses 148 to 156, inclusive, the term "**growers**" in relation to a mill means all growers in respect of which such mill is their home mill.

148. Subject to any provisions herein to the contrary, each mill shall pay growers prices for cane deliveries based on the relative recoverable value of the cane, but Union Co-op may adopt its own system of payment for the growers contracted to deliver cane to its mill.

149. Notwithstanding anything to the contrary contained in this chapter, the prices payable by a mill to a grower in respect of sugar beet deliveries shall be subject to agreement between the mill concerned and the grower concerned.

150. Payment for all out of season cane shall be based on actual recoverable value and not relative recoverable value of the cane.

151. The percentage of the relative recoverable value of the cane delivered by growers to a mill shall be calculated in each year according to the following provisions -

(a) In respect of the cane delivered by each grower, the percentage of the relative recoverable value of the cane crushed each week shall be calculated by adding the actual recoverable value percent of the cane as determined by the Mill Group Board concerned to the mean recoverable value percent cane for all the growers for the entire year concerned (excluding out of season cane deliveries), and deducting therefrom the mean recoverable value percent cane for all the growers during the week in which the cane is crushed; and

(b) until the actual mean recoverable value percent cane for the year is finally established for the mill concerned, the figure shall be estimated by the Mill Group Board concerned;

(c) each Mill Group Board shall advise the Administration Board monthly, at the time of submitting cane and recoverable value estimates, of the estimated mean recoverable value percent cane for the year of all the relative growers and should the Mill Group Board fail to agree on an estimate, the Administration Board shall determine the estimate;

(d) in order to assist with the determination of the estimates as accurately as possible, without derogating from the power conferred on the Mill Group Boards or the Administration Board in terms of clauses 151(a), (b) and (c), a committee comprising two representatives of each of the Millers' and Growers' Associations (1 appointed by SACGA and 1 appointed by SAFDA) and two representatives of the South African Sugar Association shall determine independent statistical forecasts and review these at least monthly with a view to making recommendations to each Mill Group Board on the estimates of seasonal mean recoverable value percent cane of the relative mill, and the committee may co-opt additional members as it thinks fit; and

(e) when the actual mean recoverable value percent cane for the year is established for the mill concerned, a final adjustment shall be made to incorporate the actual seasonal mean in place of the estimated seasonal mean for the growers concerned.

152. At each mill the Mill Group Board shall calculate the relative recoverable value percent cane for each grower on a weekly mean basis and each grower shall be informed by the Mill Group Board concerned at the end of each week of his or her mean actual and relative recoverable value percent cane for the week, as well as of the mean for all growers for the week and the estimated corresponding mean for the year concerned.

153. Payment by a home mill to a grower for the cane delivered by the grower to a mill shall be made on the basis that -

(a) a provisional payment for cane delivered in each respective mill month shall be made 30 days after the last day of the corresponding calendar month and the amount of each provisional payment shall be not less than the sum of the product obtained by multiplying 90% of the estimated price per ton of recoverable value, as determined in terms of the provisions of Chapter 6 for the immediately preceding month, by the accumulated recoverable value of the cane deliveries of the grower from the commencement of the year up to and including the last day of the mill month in respect of which the payment is due, less the total of all provisional payments previously made to him in respect of the year concerned;

(b) a mill may differentiate between provisional payments made to different categories of growers as determined by the mill in the light of delivery patterns and other factors but in no case shall any provisional payment be based on less than 90% of the estimated price per ton of recoverable value and, in the event of such differentiation, the retention interest values shall be calculated separately for each respective category in terms of clause 154; and

(c) a final payment shall be made on 31 March in each year and the amount of the final payment shall be the sum of the product obtained by multiplying the price per ton of recoverable value, as finally determined in terms of the provisions of

Chapter 6 for that year, by the accumulated recoverable value of the cane deliveries of the grower during the year, less the total of all provisional payments previously made to the grower in respect of the year concerned together with retention interest calculated in accordance with the provisions of clause 154.

154. At each mill there shall be calculated retention interest values per ton of recoverable value, which shall be the total of a calculation for each month during the year in which cane is delivered, divided by the total tons of the recoverable value of the cane delivered by the growers during the year, which calculation shall be made in accordance with the following formula:

$$(V \times W - R \times M) \times \frac{P}{12} \times Z$$

In which formula the factor -

(a) V represents the total cumulative tons of the recoverable value of the cane delivered from the commencement of the year up to and including the last day of the month concerned;

(b) W represents the price per ton of the recoverable value of cane as finally determined for that year in accordance with the provisions of Chapter 6 or, if clause 155 applies, the deemed recoverable value price determined by the South African Sugar Association in terms of that clause in respect of the period concerned;

(c) R represents the total cumulative tons of relative recoverable value of the cane delivered from the commencement of the year up to and including the last day of the month concerned;

(d) M represents the estimated price per ton of the recoverable value of the cane used as the basis in determining the provisional payment for the month concerned, less the retention deducted by the mill;

(e) P represents the period of time in months until the following payment (normally one month, except for the period between the last provisional payment and 31 March); and

(f) Z represents the weighted average of the daily prime bank overdraft rate chargeable by the Sugar Association's bankers from 1 March in the preceding year to 28 February in the year concerned, less one half of a percentage point.

155. For the purpose of the formula set out in clause 154, if any notional local market price referred to in Chapter 6 is increased or reduced during any year, the South African Sugar Association shall –

(a) estimate and determine the effect that such increase or reduction has on the finally determined recoverable value price for that year and the date from which it will have such effect; and

(b) determine a deemed recoverable value price which excludes this effect and which shall be applied to all deliveries of cane up to the date so determined, and the recoverable value price as finally determined for that year which shall be applied in respect of the period after that date, subject to any directions or adjustments that may be laid down by the South African Sugar Association.

156. The retention interest payment to each grower shall be calculated by multiplying the tonnage of recoverable value of the cane delivered by him or her by the retention interest value per ton of recoverable value for the grower's home mill.

Share of Filter Press Cake

157. Growers contracted to deliver cane to a mill shall have the right to participate in filter press cake residual from the milling process in accordance with such arrangements as may be made between that mill and its Mill Group Board and, failing that, such arrangements as may be decided by the Administration Board. If a mill loads, rails or delivers such cake, the cost of such service shall be paid by the growers concerned and delivery shall be in accordance with arrangements to be made to suit the convenience of the parties concerned.

Access to Data

158. Any person duly authorised thereto by the South African Sugar Association shall have reasonable access to mills and their records relating to cane testing and to the records of the Mill Group Board concerned in the course of performing their duties or carrying out any authorised inspection or investigation. Each mill and any person duly authorised thereto by a mill shall have reasonable access to the Mill Group Board's records in the course of performing the mill's duties or carrying out any inspection or investigation. The Millers' and Growers' Associations shall at all times have access to the data relating to cane testing in the possession of the South African Sugar Association.

Financing of Cane Testing Service

159. The amount required for the costs and expenses of cane testing at each mill shall be apportioned between the mill and the growers concerned in the percentage share in the division of proceeds fixed in clauses 170 to 172: Provided, however, that the Mill Group Board may determine a different apportionment of such costs. Such costs shall be recovered by Mill Group Boards in terms of clause 68.

160. The amount required for the operating costs and expenses of cane testing at each mill where the service is provided by the South African Sugar Association, as determined from time to time by the South African Sugar Association, regardless of the method of testing employed may be advanced by the South African Sugar Association. The South African Sugar Association shall recover such amount on the basis determined by it.

161. The amount required for the costs and expenses of the audit function of the Cane Testing Service referred to in clause 136(a) shall be an industry obligation.

CHAPTER 6

DETERMINATION AND DISTRIBUTION OF PROCEEDS AND CANE PRICES

Interpretation

162. In this Chapter, unless the context otherwise indicates -

(a) **"Growers' Statutory Costs"** means:

i. R125 138 479 being the sum of the costs of SACGA and SAFDA respectively approved by the South African Sugar Association's Council for the 2023/2024 season from 1 April 2023; and

ii. for each season thereafter, the Growers' Statutory Costs for the immediately preceding season escalated on 1 April (such escalation being compounded each season) by a rate equal to the year on year change in the headline consumer price index, for all urban areas, for January as reflected in table P0141 or its successor as published by Statistics SA, expressed as a percentage and less the Meeting Costs and other industry obligations in terms of clause 177.

(b) **"the notional local market price"** means the notional price attributed to local market brown sugar, refined sugar and molasses, respectively, determined from time to time by the South African Sugar Association in terms of clause 163; and

(c) **"milling"** includes refining and **"miller"** includes refiner.

163. The South African Sugar Association shall, for the purpose of determining the gross proceeds from the sale of production in terms of this Chapter, from time to time determine –

(a) separately for brown and refined sugar, respectively, the notional local market price of sugar to be sold on the local market by millers, ex-factory in bulk or packed in one ton bags or 25kg pockets; and

(b) for molasses, the notional market price of molasses to be sold on the local market by millers ex-factory and which will also represent the value of molasses utilised by millers.

164.

(a) The South African Sugar Association shall collect the Growers' Statutory Costs in each year by way of a levy imposed in terms of Chapter 7. MCPs shall be subject to a maximum levy equal to the lesser of R4.66 per ton cane delivered (and this R4.66 amount shall be adjusted for each season starting from 1 April 2024 by the year on year change in the headline consumer price index, for all urban areas, for January as reflected in table P0141 or its successor as published by Statistics SA or its successor) and the average per ton cane levy required to recover the Growers' Statutory Costs each year.

(b) The South African Sugar Association shall pay to SACGA and SAFDA equal portions of the Growers' Statutory Costs so collected.

165. If the South African Sugar Association, in terms of the proviso to clause 135, declares that any cane delivered in March of any year shall be deemed to be delivered in the following year the sugar and molasses produced from such cane by the mill concerned shall similarly be deemed to be produced in that following year.

Determination of Gross Proceeds

166. In respect of each year the South African Sugar Association shall determine the gross proceeds from the sale of production, which shall be the total of -

(a) the proceeds of local market refined sugar, calculated by multiplying the tonnage of such sugar produced and estimated to be produced during the year, by the weighted average notional local market price of refined sugar applicable during that year;

(b) the proceeds of local market brown sugar, calculated by multiplying the tonnage of such sugar produced and estimated to be produced during the year, by the weighted average notional local market price of brown sugar applicable during that year;

(c) the proceeds of export sugar, including high test molasses, received by millers from Sasexcor, calculated by multiplying the tonnage of such sugar, including the sugar equivalent as determined by the South African Sugar Association of high test molasses produced for export and the local market during the year, by the net average export price per ton of all export sugar produced during the year, and for which purposes -

i. the net average export price shall comprise the net free alongside ship or free on board proceeds of such export sugar including any polarisation awards and quality bonuses or penalties to which shall be added other income applicable to export sugar such as, *inter alia*, address commission, despatch money and interest and from which proceeds shall be deducted any other costs or charges applicable to export sugar, excluding those which comprise industry obligations and any adjustment, in respect of a previous year, referred to in clause 166(c)ii; and

ii. the final determination of export proceeds for each year shall be made by the South African Sugar Association not later than 31 March in each year and, if certain components of proceeds require to be estimated in

order that the final proceeds may be so determined, any differences between the actual and the estimate of such components shall be brought to account as an adjustment in the calculation of the net average export price for the following year;

(d) the net amount of any adjustment in respect of a previous year, resulting from the differences referred to in clause 166(c)ii between the estimated and actual amounts of any components of the export proceeds; and

(e) the proceeds of final molasses including refinery molasses, produced and estimated to be produced during the year, as determined by the South African Sugar Association; which proceeds represent -

i. proceeds from local market sales of molasses and the value of molasses utilised by millers, based on the notional local market price of molasses; and

ii. proceeds from export market molasses being the total realisation of export market molasses sold, less costs of distribution, handling, storage and transport.

Net Divisible Proceeds

167. In respect of each year, the South African Sugar Association shall determine the net divisible proceeds by deducting from the gross proceeds calculated in accordance with the provisions of clause 166, the industry obligations in respect of the year concerned.

Allocation of Share of Net Divisible Proceeds to Growing

168. For the purpose of determining the price per ton of recoverable value of cane payable by mills to growers in each year there shall be allocated to growing a share being a percentage of the net divisible proceeds, which percentage shall, subject to clause 170, be 64.3127%.

169. The percentage of the net divisible proceeds allocated to growing shall be adjusted for any year during which the aggregate tonnage of saleable sugar produced by all millers is less than 1,8 million tons by reducing such percentage by one half of a percentage point.

170. The basis of allocation of a share of the net divisible proceeds to growing referred to in clauses 168 and 169 may at any time be varied by agreement in writing by the Millers' Association and the Growers' Associations, which Associations may at any time, if they all agree, meet with a view to reviewing the basis of allocation.

Proceeds of Recoverable Value

171. In respect of each year, the South African Sugar Association shall calculate and determine the amount of the share of the net divisible proceeds determined by it in accordance with the provisions of clause 167, which is to be allocated to growing in accordance with the provisions of clauses 168 and 169, subject, if applicable, to clause 170, by deducting the Growers' Statutory Costs for the year and adding the Meeting Costs Equalisation Amount, and then attributing the total amount of the remainder of the share of the net divisible proceeds allocated to growing to the total proceeds payable by mills to growers for cane deliveries in such year.

Price for Recoverable Value of Cane

172. In each year, the price per ton of recoverable value payable by mills to growers for cane deliveries shall be equal to the recoverable value of such cane calculated by dividing the total proceeds determined as payable by mills to growers in accordance with the provisions of clause 171 by the total tonnage of the recoverable value of cane delivered during the year concerned.

Provisional and Final Prices for Recoverable Value of Cane

173. All elements of the determination of prices payable by mills to growers based on the recoverable value of cane deliveries shall be estimated by the South African Sugar Association at the commencement of each year and thereafter monthly during the year for the purpose of enabling provisional payments to be made to growers in accordance

with the provisions of clause 153(a).

174. The final determination of such prices shall be made by the South African Sugar Association not later than 31 March in each such year for the year then ending.

Production Schedules

175. For the purpose of complying with the provisions of this agreement –

(a) each mill, including a sugar beet mill, shall during each year and according to a timetable to be issued before the commencement of the year submit to the South African Sugar Association returns, in such form as is determined from time to time by the South African Sugar Association, of -

i. in the case of a mill other than a sugar beet mill, the estimated annual and actual monthly deliveries to the mill of cane and of the recoverable value of cane;

ii. the estimated annual and actual monthly sugar and molasses production; and

iii. total sugar production in respect of the year concerned which must be supported by a certificate of verification by the relative mill's independent auditor in a form acceptable to the South African Sugar Association.

(b) in respect of each year the South African Sugar Association shall prepare –

i. final production schedules in respect of all cane supplied by growers to mills and the recoverable value thereof;

ii. final sugar and molasses production schedules in respect of each mill including sugar beet mills.

176. If any mill, including a sugar beet mill, fails to supply the information required in terms of clause 175, according to the timetable issued by the South African Sugar Association, then the South African Sugar Association may, in writing, call upon any such mill to supply such information as has not been supplied within 14 days of the date of such request. If the mill concerned does not supply such information within the 14 day period, then the South African Sugar Association may make an assessment of the relevant tonnage of cane, recoverable value of cane, sugar or molasses, as the case may be, and its assessment shall be binding, for all purposes, on such mill.

CHAPTER 7

SOUTH AFRICAN SUGAR ASSOCIATION AND DISPOSAL OF CROP

Industry Obligations

177. Subject to clause 178, all expenditure incurred by or at the instance of or with the approval of the South African Sugar Association from time to time in accordance with the powers conferred upon it in terms of its constitution or as provided for in this agreement shall be industry obligations, and which expenditure, without limiting the generality of this provision, includes expenditure pursuant to obligations assumed in respect of loans raised by or at the instance of the South African Sugar Association and Meeting Costs.

178. The South African Sugar Association may at any time resolve that expenditure incurred by it or to be incurred by it shall not be an industry obligation by reason of the fact that such expenditure relates specifically to a particular grower, miller or refiner or to a particular group of growers, millers or refiners.

Determination of Local Market and Export Market Requirements

179. During each season, the South African Sugar Association shall in respect of each year determine estimates of the quantities of sugar required for the local market, including carry over stocks, and for the export market, respectively, and shall allocate to each mill, including a sugar beet mill, an allocation of each such quantity. Allocations so allocated to each mill shall be allocated separately in respect of local market refined sugar and local market brown sugar, on the one hand, and to export sugar on the other hand, and shall be determined for each such category, as may be applicable in each year in the proportion which each mill's total saleable production of sugar bears to the total quantity of saleable sugar produced by all mills, including sugar beet mills.

180. As at 31 March of each season, the South Africa Sugar Association shall confirm and calculate the quantity of sugar actually sold and deemed to be sold into the local market and sold into the export market. The South African Sugar Association shall calculate each mill's final allocation for the season as at 31 March in respect of local market refined sugar and local market brown sugar, on the one hand, and to export sugar on the other hand in the proportion which each mill's total saleable production of sugar bears to the total quantity of saleable sugar produced by all mills, including sugar beet mills.

181. Each season, the South African Sugar Association shall verify the quantity of local market carry over stock which each mill or refiner has on hand as at 31 March of that season in the manner determined by the South African Sugar Association and all mills and refiners must cooperate fully to facilitate that verification. All carry over raw sugar which a mill or refiner has on hand as at 31 March shall be deemed to be refined sugar and the quantity of deemed refined sugar shall be the refined sugar equivalent tons determined as prescribed by the South African Sugar Association, from time to time provided that, at the beginning of each season, any estimated refining loss taken into account in calculating the conversion of carry over raw sugar to refined sugar for the preceding season shall be reversed.

Exports

182. There is no obligation on any mill, including a sugar beet mill, to export or provide for export that quantity of sugar that is represented by its export allocation allocated in terms of clause 179.

183. Each mill shall in respect of each year provide and deliver to Sasexcor for export the quantity of sugar produced by it and which it does not require for sale on the local market.

184. All sugar delivered to the sugar terminals at the ports of Durban or Maputo shall be deemed to be delivered to Sasexcor for export in terms of clause 183

unless a mill notifies the South African Sugar Association, in writing, that the sugar is not for export or withdraws the sugar from export in terms of clause 185. Sugar provided for export shall, unless the South African Sugar Association otherwise determines, comprise only bulk raw sugar and it shall otherwise comply with the terms and conditions as are or may be determined by the South African Sugar Association.

185. On terms and conditions determined by the South African Sugar Association from time to time, by giving written notice to South African Sugar Association, a mill may withdraw for sale on the local market a quantity of sugar equal to the quantity of sugar delivered by that mill for export. Unless otherwise determined by the South African Sugar Association, if a mill withdraws sugar from export in terms of this clause 185:

(a) before collecting the withdrawn sugar, the mill must pay to the South African Sugar Association all storage costs in respect of that sugar from the date it was delivered to the sugar terminals;

(b) before collecting the withdrawn sugar, the mill must refund to the South African Sugar Association all amounts paid to the mill in terms of clause 186(c)i in respect of that sugar plus interest on those amounts at the rate determined by the South African Sugar Association from time to time;

(c) the sugar which the mill originally delivered for export will have been comingled with other sugar and the mill will only be entitled to withdraw the same quantity of sugar as it delivered and shall not have any claim against the South African Sugar Association arising from or in connection with any quality or other difference between the sugar delivered and the sugar withdrawn.

186. Sasexcor shall acquire from the respective mills all the sugar to be so exported and ensure that it is exported, according to the following provisions-

(a) Each mill shall in each year sell or ensure the sale to Sasexcor and Sasexcor shall purchase all sugar which comprises that mill's export deliveries;

(b) The prices payable by Sasexcor shall be determined by the South African Sugar Association from time to time in order to comply with the provisions of Chapter 6;

(c) When the proceeds of each sale are received by Sasexcor, payment for sugar purchased by Sasexcor shall be made to the respective mills as follows: payment shall first be made to the South African Sugar Association on behalf of each respective mill of any amount which that mill owes the South African Sugar Association in terms of this Agreement; and thereafter, any remaining balance of the proceeds shall be paid to the respective mill: Provided that -

i. all export sugar delivered by mills in any one month, the proceeds of which are not received during the succeeding 45 days from the end of that month shall, on the expiry of the said 45 days, be financed by Sasexcor to the full extent of the estimated value at which export sugar is to be paid for by Sasexcor and the South African Sugar Association shall at the same time finance Sasexcor to the full extent of the estimated value of the proceeds which Sasexcor will pay for the sugar in accordance with the provisions of clause 191; and

ii. in the case of sugar sold in respect of which the proceeds are not received by 31 March in each year Sasexcor shall finance mills and the South African Sugar Association shall finance Sasexcor in accordance with the provisions of clause 186(c)i until payment is received.

(d) For all purposes in this agreement except determining whether sugar which a mill wishes to withdraw from export has been sold by Sasexcor for export in terms of clause 185, the sale and delivery to Sasexcor of sugar to be purchased by it shall be deemed to be effected immediately prior to delivery to the buyer to whom it is re-sold on condition that any export sugar unsold as at 31 March in any year shall be purchased by and delivered to Sasexcor on that date and the South African Sugar Association shall in turn purchase from Sasexcor, at a price to be agreed between them, any such sugar;

(e) Sasexcor shall bear no risks or other liabilities or obligations in respect of any of the sugar purchased or sold by it and the South African Sugar Association shall accordingly indemnify Sasexcor and hold it harmless against any claim which Sasexcor may be compelled in law to meet, subject to any right of recovery which the South African Sugar Association or Sasexcor may have as against any mill or other person; and

(f) The South African Sugar Association shall be responsible for ensuring that Sasexcor performs its functions in terms of this agreement.

Redistribution of Local Market Proceeds

187. The provisions of clause 188 apply to all mills, including sugar beet mills and, in that clause, the expression "**mill**" includes a sugar beet mill.

188. In each year, if the sum of a mill's sales on the local market and its local market carry over stocks is a greater quantity of refined sugar or brown sugar than the quantity allocated to it as its local market allocation in terms of clause 179, that mill will pay to the South African Sugar Association an amount for redistribution amongst those mills which, during that year, sell on the local market quantities of refined sugar or brown sugar, respectively

including their local market carry over stocks, which are less than their allocated local market allocations, according to the following provisions –

(a) During April of each year, the South African Sugar Association shall provisionally estimate each mill's local market allocations for refined sugar and brown sugar, respectively, and during the year shall continuously revise such estimates until the allocations are finally determined at the end of the year. References in this clause to a local market allocation shall be construed as such allocation from time to time so estimated, until finally determined.

(b) The quarters referred to in this clause are sugar marketing quarters as determined by the South African Sugar Association in respect of each year, the last days of which need not co-incide with the last days of the calendar quarters concerned.

(c) In respect of each quarter ending on the last day of June, September, December and March, each mill ("**an over-performing mill**") which sells on the local market more refined sugar or brown sugar ("**the excess quantity**") than the pro rata share that its local market allocation bears to the aggregate quantity of all such sugar sold in the quarter concerned by all mills on the local market, shall pay an amount calculated in terms of clause 188(d) to the South African Sugar Association, for redistribution as hereinafter provided.

(d) The amount payable in respect of each quarter to the South African Sugar Association by an over-performing mill will be equal to the excess quantity sold by that mill during that quarter multiplied by the difference between the weighted average of the notional local market price (determined by the South African Sugar Association in terms of Chapter 6 applicable during that quarter) and the export price used by the South African Sugar Association to calculate the price per ton of recoverable value for the last month of that quarter, less (except in the case of a sugar beet mill) the financial levy imposed by the South

African Sugar Association in terms of this Chapter applicable thereto, and less a manufacturing allowance determined according to rules laid down by the South African Sugar Association: Provided that -

i. the amounts payable for redistribution in respect of the quarters ending on the last days of September, December and March will include a recalculation of the previous quarter or quarters (as the case may be) from the beginning of the year on a cumulative basis;

ii. unless otherwise determined by the South African Sugar Association, the manufacturing allowance will not be deducted from the amounts payable for redistribution in respect of the quarter ending on the last day of June and the manufacturing allowance for that quarter will then be taken into account as a deduction in the recalculation of the amounts payable for redistribution in the calculation made at the end of the September quarter;

iii. any amount deducted in terms of the proviso set out in 188(e)i from the amounts payable to under-performing mills, will be credited in calculation of the amounts payable by over-performing mills for redistribution in respect of the quarter concerned, pro rata in relation to the amounts payable by them, respectively, and those credits will be reversed in the recalculation at the end of the next quarter;

iv. the calculations to be made at the end of the June, September and December quarters will each be based on the South African Sugar Association's latest estimate at that time of the respective mills' local market allocations for the year concerned and the final calculation to be made at the end of the March quarter will be based on the actual

local market allocations for that year.

(e) The amounts payable by over-performing mills to the South African Sugar Association in terms of the foregoing provisions shall then be redistributed by the South African Sugar Association to those mills ("**under-performing mills**"), respectively, which, during the quarter concerned, will have sold on the local market less refined sugar or brown sugar, respectively, than the pro rata shares that their local market allocations bear to the aggregate quantity of all such sugar sold by all mills on the local market during that quarter; which redistribution, subject to paragraph 188(f), shall be made pro rata in relation to the respective shortfalls of the mills concerned: Provided that, if, at the end of a quarter, an under-performing mill has not realised in full its previous year's carry-over stocks of sugar -

i. an amount calculated by multiplying the difference between the weighted average of the notional local market price (determined by the South African Sugar Association in terms of Chapter 6 applicable during that quarter) and the export price used by the South African Sugar Association to calculate the price per ton of recoverable value for the last month of that quarter, less (except in the case of a sugar beet mill) the financial levy imposed by the South African Sugar Association in terms of this Chapter applicable thereto, and less a manufacturing allowance determined according to rules laid down by the South African Sugar Association; by the tons unrealised carry-over stocks will be deducted in calculating the amount to be redistributed to that mill in respect of that quarter;

ii. the debit in respect of the amount so deducted will be reversed in the recalculation of the amount to be redistributed at the end of the next quarter.

(f) If, in any quarter, a sugar beet mill is an under-performing mill, the South African Sugar Association shall adjust the *pro rata* shares of the amount to be redistributed in terms of paragraph 188(e) by adding back to the amount to be redistributed any financial levy that will have been deducted from the amount payable by each over-performing mill.

(g) An amount payable by an over-performing mill for redistribution in terms of the foregoing provisions shall be paid within thirty days of the last day of the quarter concerned, except for an amount in respect of the final quarter which shall be payable upon the date on which, in terms of this agreement, each mill is deemed to have sold into the local market carry-over stocks of local market refined sugar, local market brown sugar and local market molasses.

(h) In respect of each quarter, the amounts to be redistributed in terms of the foregoing provisions will be payable on the next day after the amounts payable by over-performing mills are due in terms of paragraph 188(g) and shall be paid by the South African Sugar Association whether or not it shall have received the amounts payable by over-performing mills. If the South African Sugar Association suffers any loss in consequence of a default by an over-performing mill, that loss will be borne as an industry obligation.

(i) All calculations necessary to give effect to the foregoing provisions shall be undertaken by the South African Sugar Association.

189. The proceeds of final molasses referred to in clause 166(e), before the deduction of rebates, shall be subject to a financial redistribution amongst mills based on the molasses production of the respective mills, which redistribution shall be undertaken by the South African Sugar Association at the end of each year in accordance with rules laid down by the South African Sugar Association.

Export Deliveries

190. The quantity of sugar to be exported in each year shall be determined in accordance with the constitution of the South African Sugar Association, the provisions of this agreement and such rules as may be laid down by the South African Sugar Association.

Financing Arrangements

191. The following financing arrangements shall be carried out by the South African Sugar Association -

(a) all export sugar and export high test molasses delivered by mills in any one month, the proceeds of which are not received during the succeeding 45 days from the end of that month shall, on the expiry of the 45 days referred to in clause 186(c)i, be financed by the South African Sugar Association on the basis of 100% of the estimated export value thereof;

(b) all export sugar and export high test molasses sold as at 31 March of each year, the proceeds of which are not received by that date, shall be financed by the South African Sugar Association on the basis of 100% of the estimated export value thereof, subject to clause 186(c)i;

(c) the carry-over stocks of local market refined sugar and local market brown sugar unsold as at 31 March of each year and which each mill has on hand as at 31 March of each year shall be deemed to have been sold by that mill into the local market on and as at that date in order that the total output of each year may be regarded as sold during that year and the year's recoverable value prices may be properly determined with the least possible delay on the following basis -

i. the prices of carry over stocks of local market refined sugar and local market brown sugar respectively shall be the

notional local market prices referred to in Chapter 6 applicable on 31 March of that year;

ii. the purchase price of export sugar, including the sugar equivalent as determined by the South African Sugar Association of high test molasses produced for export, shall be based on the estimated prices thereof as determined by the South African Sugar Association on the basis of the calculation of proceeds of export sugar referred to in clause 166(c)*;* and

iii. each miller and refiner will undertake the realisation, as soon as possible, of the local market carry over stocks which it will be deemed to have sold into the local market and, within such period after realisation (being when the sugar concerned is actually sold to such miller's or refiner's customers) as will be laid down by the South African Sugar Association, shall notify the South African Sugar Association so that it may stop paying financing and storage costs for such carry over stocks;

iv. except for each mill's obligation to report to the South African Sugar Association actual sales during a subsequent season of carry over sugar deemed to have been sold as at 31 March of the immediately preceding season, carry over sugar which is deemed to be sold as at 31 March of a season shall not be included in the sales for the next season; and

(d) any final molasses sold as at 31 March of each year, the proceeds of which are not received by that date and any stocks of final molasses unsold as at 31 March of each year, shall be financed by the South African Sugar Association on the basis of 100% of the estimated net value thereof; and

(e) the amount paid by SASA in terms of clause 193 towards the cost of financing and storing carry over stocks of local market refined sugar and local market brown sugar deemed to have been sold into the local market in terms of clause 191(c) and the cost of financing final molasses in terms of clause 191(d) shall be industry obligations.

192. A miller or refiner will be deemed to have sold into the local market at the notional prices prevailing as at 31 March all local market carry over stocks held as at 31 March so that the total saleable production each year may be regarded as sold during that year.

193. The South African Sugar Association shall pay as an industry obligation, the sum of millers' and refiners' costs of financing carry over stocks in an amount calculated by applying the South African Sugar Association's borrowing cost and, in respect of the millers' and refiners' storage costs for carry over stocks, a storage fee calculated at a rate determined by the South African Sugar Association from time to time.

Sugar Transport

194. Millers shall be responsible for the transport and the costs of transport of export sugar produced by them, which transport and costs will cover delivery to the port of Durban or Maputo, or such other port as the South African Sugar Association may approve. A mill delivering sugar to a terminal or warehouse operated by the South African Sugar Association shall utilise a mode of transport suitable for the receiving facilities thereat and shall not, without the South African Sugar Association's prior written approval change that mode of transport.

195. The costs of loading export bulk raw sugar on board ships, including storage and handling will be borne by the South African Sugar Association and will be industry obligations.

196. All bulk raw sugar which is to be exported shall be delivered to and exported from the port of Durban or Maputo, unless otherwise agreed by the South African Sugar Association: Provided that, if the South African Sugar Association does not agree to allow a mill to deliver sugar to the port of Maputo (or another port approved by the South African Sugar Association) and the cost of transport to Durban exceeds what it would have been if delivered to Maputo (or such other approved port), the excess transport costs incurred by the mill concerned shall be borne by the South African Sugar Association as an industry obligation. Furthermore, should the South African Sugar Association not be able to make available to a mill its nearest qualifying port for the purposes of its export deliveries, any increased cost of transport to another qualifying port shall be for the account of the South African Sugar Association.

Imposition of Levies

197. Industry obligations shall be met by means of financial levies imposed upon sugar from time to time by the South African Sugar Association in terms of its constitution.

198. Growers' Statutory Costs shall be met by means of financial levies imposed upon sugar from time to time by the South African Sugar Association in terms of clause 164(a) of this agreement.

199. The expenditure of the South African Sugar Association referred to in clause 178 shall be met by means of financial levies imposed on any grower, miller or refiner or group of growers, millers or refiners as the South African Sugar Association may deem appropriate having regard to the nature of the expenditure concerned.

200. The levies referred to in clause 197 shall be imposed upon all refiners and millers in respect of and *pro rata* in relation to the respective output of each miller and refinery in respect of any period and for that purpose -

(b) "**output**" in relation to a mill, means the tonnage of sugar of its own manufacture sold by it together with the tonnage of other sugar acquired and sold by it, after deduction of the tonnage thereof sold to a refiner, being that part of its saleable production as determined by the South African Sugar Association from time to time; and

(c) "**sold by it**" shall include any sugar sold or disposed of by a refiner to a mill and the tonnage of sugar so sold by a refiner to a mill or by one mill to another mill, for whatever purpose, shall be leviable upon such sale on condition that this shall not preclude the pooling of the production of any grade of sugar and the levying thereof upon sale, on such basis as may be approved by the South African Sugar Association.

201. Each refiner and each miller shall within 14 days notify the South African Sugar Association in writing when called upon to do so of its respective output of sugar during a stated period and if any refiner or any miller declines or fails to notify the South African Sugar Association of its output for the relevant period, the South African Sugar Association may estimate the output of the refiner or miller concerned, on such information as is available to the South African Sugar Association, and charge the levies on such estimate.

202. Each such levy shall be a debt due to the South African Sugar Association and recoverable by it on such date in each month as the South African Sugar Association shall determine.

203. No title in milling equipment shall be transferred from a miller to any other party (whether a miller in its own right or not) unless the South African Sugar Association has certified that the transferring miller has paid all amounts due by it, in terms of this agreement, to the South African Sugar Association, or that provision has been made to the satisfaction of the South African Sugar Association for the payment thereof. For the purposes of this clause:

(a) "**milling equipment**" shall mean: all moveable or immoveable property over a value specified in terms of clause 203(b) forming part of the physical infrastructure necessary for the operation of a sugar mill or refinery but shall not include non-specialized tools, office equipment or vehicles that are capable of being purchased on the open market and of being used for non-milling or non-refining activities.

(b) The South African Sugar Association's Council shall have the power to determine the value for the purposes of clause 203(a) provided that:

(i) the value may not be amended more than once in any year except with a two-thirds majority of votes cast at South African Sugar Association's Council;

(ii) the value shall not be amended retrospectively but may be determined together with an effective date.
