government printing
Department:
Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

DRAFT GUIDELINES ON SMALL MERGER NOTIFICATION

INVITATION FOR THE PUBLIC TO COMMENT ON THE AMENDMENT OF THE SMALL MERGER GUIDELINES

1 The Competition Commission of South Africa ("Commission") has amended its Guideline on Small Merger Notification.

2 Stakeholders and interested parties are invited to submit comments regarding the proposed changes to the guidelines on small merger notification, within a period of 30 days from publication of this notice, to the Mergers & Acquisitions Division of the Commission for the attention of Mr. Dale Adams at dalea@compcom.co.za.

GUIDELINES ON SMALL MERGER NOTIFICATION

Introduction

The Competition Act 89 of 1998, as amended ("the Act") requires that the Minister responsible for the administration of the Act determine a lower and a higher threshold of combined annual turnover or assets, or a lower and a higher threshold of combinations of turnover and assets in general or in relation to specific industries, which classify transactions as:

- Large (above the higher threshold)
- Intermediate (between the lower and higher thresholds) and
- Small (below the lower threshold)

Large and intermediate merger transactions require mandatory notification and approval by the competition authorities. Small mergers do not require mandatory notification, but in terms of section 13(3) of the Act, the Competition Commission ("Commission") may require, up to six months after the small merger has been implemented, that such mergers be notified and approved by the Commission if, in the opinion of the Commission, the merger may substantially prevent or lessen competition or cannot be justified on public interest grounds. According to section 13(4), merging parties may not take further steps to implement a small merger that has been notified until it has been approved or conditionally approved.

On 08 May 2026, the Minister of Trade, Industry and Competition published a notice in the Government Gazette raising the merger thresholds and the filing fee for their notification. These thresholds came into effect on 01 May 2026.

There are concerns that potentially anti-competitive acquisitions in digital or technology markets are escaping regulatory scrutiny due the acquisitions taking place at an early stage in the life of the target before they have generated sufficient turnover or accumulated capital and physical assets that would trigger mandatory merger notification as set by the turnover or asset thresholds. This is particularly the case where the target firm valuation is high due to the

prospective future value of the concept, technology, intellectual property or skills of the target firm. These are not recorded in the financial statements as 'assets' and therefore currently do not trigger a mandatory merger notification. Such acquisitions may substantially prevent future competition with incumbents or lessen competition through strengthening the portfolio of dominant companies (whether they are currently classified as operating in digital markets or not).

The Commission will remain vigilant in identifying small mergers that may require notification. In addition to its own monitoring, the Commission relies on the public to alert it to possible anticompetitive transactions. This notice communicates the approach of the Commission to the notification of small mergers.

Guidelines

The Commission will evaluate whether a small merger requires notification on its own merits, within the guidance provided by section 13(3) of the Act. Notice is hereby given, however, that the Commission must be informed in writing before implementation of all small mergers which meet any of the following criteria:

- at the time of entering into the transaction any of the firms, or firms within their group, are subject to an investigation by the Commission in terms of Chapter 2 of the Act;
- at the time of entering into the transaction any of the firms, or firms within their group, are respondents to pending proceedings referred by the Commission to the Competition Tribunal in terms of Chapter 2 of the Act;

Furthermore, the Commission will require that it be informed of all small mergers and share acquisitions where the acquiring firm's turnover or asset value alone exceeds the large merger combined asset/turnover threshold (currently R9.5 billion). For avoidance of doubt, only the acquiring firm's turnover or asset value (without including the target firm) must exceed the large merger combined turnover/asset value threshold; and at least one of the following criteria must be met for the target firm:

- the consideration for the acquisition or investment exceeds the target firm asset/turnover threshold for large mergers (currently R280 million).
- the consideration for the acquisition of a part of the target firm is less than the R280 million threshold but effectively values the target firm at R280 million or more.

Procedure

Parties to small mergers which meet the above criteria are advised to inform the Commission in writing of their intention to enter into the transaction. The parties should provide sufficient

detail on the acquiring and target firms, the proposed transaction, and the relevant markets in which the firms compete. Communication should be addressed to:

The Manager: Mergers & Acquisitions Division
The Competition Commission
Mulayo Building
77 Meintjies Street
Sunnyside,
Pretoria
Private Bag X23, Lynnwood Ridge 0040
E-mail: ccsa@compcom.co.za

The Commission will reply to the parties within a period of 30 business days in writing and inform them whether or not they would be required to notify the small merger to the Commission in the prescribed manner and form, in terms of Section 13 of the Act.

This Guideline is effective from X.
