government printing
Department:
Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works* (*GPW*).

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*'. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as **@gpw.gov.za**

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at **www.gpwonline.co.za**
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

Notice Submission Process

4. Download the latest *Adobe* form, for the relevant notice to be placed, from the **Government Printing Works** website www.gpwonline.co.za.

5. The *Adobe* form needs to be completed electronically using *Adobe Acrobat* / *Acrobat Reader*. Only electronically completed *Adobe* forms will be accepted. No printed, handwritten and/or scanned *Adobe* forms will be accepted.

6. The completed electronic *Adobe* form has to be submitted via email to submit.egazette@gpw.gov.za. The form needs to be submitted in its original electronic *Adobe* format to enable the system to extract the completed information from the form for placement in the publication.

7. Every notice submitted **must** be accompanied by an official **GPW** quotation. This must be obtained from the *eGazette* Contact Centre.

8. Each notice submission should be sent as a single email. The email **must** contain **all documentation relating to a particular notice submission**.

   8.1. Each of the following documents must be attached to the email as a separate attachment:

      8.1.1. An electronically completed *Adobe* form, specific to the type of notice that is to be placed.

         8.1.1.1. For National *Government Gazette* or *Provincial Gazette* notices, the notices must be accompanied by an electronic Z95 or Z95Prov *Adobe* form

         8.1.1.2. The notice content (body copy) **MUST** be a separate attachment.

      8.1.2. A copy of the official **Government Printing Works** quotation you received for your notice. *(Please see Quotation section below for further details)*

      8.1.3. A valid and legible Proof of Payment / Purchase Order: **Government Printing Works** account customer must include a copy of their Purchase Order**. Non-Government Printing Works** account customer needs to submit the proof of payment for the notice

      8.1.4. Where separate notice content is applicable (Z95, Z95 Prov and TForm 3, it should **also** be attached as a separate attachment. *(Please see the Copy Section below, for the specifications)*.

      8.1.5. Any additional notice information if applicable.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

9. The electronic *Adobe* form will be taken as the primary source for the notice information to be published. Instructions that are on the email body or covering letter that contradicts the notice form content will not be considered. The information submitted on the electronic *Adobe* form will be published as-is.

10. To avoid duplicated publication of the same notice and double billing, Please submit your notice **ONLY ONCE.**

11. Notices brought to **GPW** by "walk-in" customers on electronic media can only be submitted in *Adobe* electronic form format. All "walk-in" customers with notices that are not on electronic *Adobe* forms will be routed to the Contact Centre where they will be assisted to complete the forms in the required format.

12. Should a customer submit a bulk submission of hard copy notices delivered by a messenger on behalf of any organisation e.g. newspaper publisher, the messenger will be referred back to the sender as the submission does not adhere to the submission rules.

QUOTATIONS

13. Quotations are valid until the next tariff change.

    13.1. ***Take note:*** **GPW**'s annual tariff increase takes place on ***1 April*** therefore any quotations issued, accepted and submitted for publication up to ***31 March*** will keep the old tariff. For notices to be published from 1 April, a quotation must be obtained from **GPW** with the new tariffs. Where a tariff increase is implemented during the year, **GPW** endeavours to provide customers with 30 days' notice of such changes.

14. Each quotation has a unique number.

15. Form Content notices must be emailed to the *eGazette* Contact Centre for a quotation.

    15.1. The *Adobe* form supplied is uploaded by the Contact Centre Agent and the system automatically calculates the cost of your notice based on the layout/format of the content supplied.

    15.2. It is critical that these *Adobe* Forms are completed correctly and adhere to the guidelines as stipulated by **GPW**.

16. **APPLICABLE ONLY TO GPW ACCOUNT HOLDERS**:

    16.1. **GPW** Account Customers must provide a valid **GPW** account number to obtain a quotation.

    16.2. Accounts for **GPW** account customers **must** be active with sufficient credit to transact with **GPW** to submit notices.

        16.2.1. If you are unsure about or need to resolve the status of your account, please contact the **GPW** Finance Department prior to submitting your notices. (If the account status is not resolved prior to submission of your notice, the notice will be failed during the process).

17. **APPLICABLE ONLY TO CASH CUSTOMERS:**

    17.1. Cash customers doing **bulk payments** must use a **single email address** in order to use the **same proof of payment** for submitting multiple notices.

18. The responsibility lies with you, the customer, to ensure that the payment made for your notice(s) to be published is sufficient to cover the cost of the notice(s).

19. Each quotation will be associated with one proof of payment / purchase order / cash receipt.

    19.1. This means that **the quotation number can only be used once to make a payment.**

GOVERNMENT PRINTING WORKS - BUSINESS RULES

COPY (SEPARATE NOTICE CONTENT DOCUMENT)

20. Where the copy is part of a separate attachment document for Z95, Z95Prov and TForm03

20.1. Copy of notices must be supplied in a separate document and may not constitute part of any covering letter, purchase order, proof of payment or other attached documents.

The content document should contain only one notice. (You may include the different translations of the same notice in the same document).

20.2. The notice should be set on an A4 page, with margins and fonts set as follows:

Page size = A4 Portrait with page margins: Top = 40mm, LH/RH = 16mm, Bottom = 40mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

Page size = A4 Landscape with page margins: Top = 16mm, LH/RH = 40mm, Bottom = 16mm; Use font size: Arial or Helvetica 10pt with 11pt line spacing;

CANCELLATIONS

21. Cancellation of notice submissions are accepted by **GPW** according to the deadlines stated in the table above in point 2. Non-compliance to these deadlines will result in your request being failed. Please pay special attention to the different deadlines for each gazette. Please note that any notices cancelled after the cancellation deadline will be published and charged at full cost.

22. Requests for cancellation must be sent by the original sender of the notice and must accompanied by the relevant notice reference number (N-) in the email body.

AMENDMENTS TO NOTICES

23. With effect from 01 October 2015, **GPW** will not longer accept amendments to notices. The cancellation process will need to be followed according to the deadline and a new notice submitted thereafter for the next available publication date.

REJECTIONS

24. All notices not meeting the submission rules will be rejected to the customer to be corrected and resubmitted. Assistance will be available through the Contact Centre should help be required when completing the forms. (012-748 6200 or email info.egazette@gpw.gov.za). Reasons for rejections include the following:

24.1. Incorrectly completed forms and notices submitted in the wrong format, will be rejected.

24.2. Any notice submissions not on the correct *Adobe* electronic form, will be rejected.

24.3. Any notice submissions not accompanied by the proof of payment / purchase order will be rejected and the notice will not be processed.

24.4. Any submissions or re-submissions that miss the submission cut-off times will be rejected to the customer. The Notice needs to be re-submitted with a new publication date.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

APPROVAL OF NOTICES

25. Any notices other than legal notices are subject to the approval of the Government Printer, who may refuse acceptance or further publication of any notice.

26. No amendments will be accepted in respect to separate notice content that was sent with a Z95 or Z95Prov notice submissions. The copy of notice in layout format (previously known as proof-out) is only provided where requested, for Advertiser to see the notice in final Gazette layout. Should they find that the information submitted was incorrect, they should request for a notice cancellation and resubmit the corrected notice, subject to standard submission deadlines. The cancellation is also subject to the stages in the publishing process, i.e. If cancellation is received when production (printing process) has commenced, then the notice cannot be cancelled.

GOVERNMENT PRINTER INDEMNIFIED AGAINST LIABILITY

27. The Government Printer will assume no liability in respect of—

27.1. any delay in the publication of a notice or publication of such notice on any date other than that stipulated by the advertiser;

27.2. erroneous classification of a notice, or the placement of such notice in any section or under any heading other than the section or heading stipulated by the advertiser;

27.3. any editing, revision, omission, typographical errors or errors resulting from faint or indistinct copy.

LIABILITY OF ADVERTISER

28. Advertisers will be held liable for any compensation and costs arising from any action which may be instituted against the Government Printer in consequence of the publication of any notice.

CUSTOMER INQUIRIES

Many of our customers request immediate feedback/confirmation of notice placement in the gazette from our Contact Centre once they have submitted their notice – While **GPW** deems it one of their highest priorities and responsibilities to provide customers with this requested feedback and the best service at all times, we are only able to do so once we have started processing your notice submission.
GPW has a 2-working day turnaround time for processing notices received according to the business rules and deadline submissions.
Please keep this in mind when making inquiries about your notice submission at the Contact Centre.

29. Requests for information, quotations and inquiries must be sent to the Contact Centre ONLY.

30. Requests for Quotations (RFQs) should be received by the Contact Centre at least **2 working days** before the submission deadline for that specific publication.

GOVERNMENT PRINTING WORKS - BUSINESS RULES

Payment of cost

31. The Request for Quotation for placement of the notice should be sent to the Gazette Contact Centre as indicated above, prior to submission of notice for advertising.

32. Payment should then be made, or Purchase Order prepared based on the received quotation, prior to the submission of the notice for advertising as these documents i.e. proof of payment or Purchase order will be required as part of the notice submission, as indicated earlier.

33. Every proof of payment must have a valid **GPW** quotation number as a reference on the proof of payment document.

34. Where there is any doubt about the cost of publication of a notice, and in the case of copy, an enquiry, accompanied by the relevant copy, should be addressed to the Gazette Contact Centre, **Government Printing Works**, Private Bag X85, Pretoria, 0001 email: info.egazette@gpw.gov.za before publication.

35. Overpayment resulting from miscalculation on the part of the advertiser of the cost of publication of a notice will not be refunded, unless the advertiser furnishes adequate reasons why such miscalculation occurred. In the event of underpayments, the difference will be recovered from the advertiser, and future notice(s) will not be published until such time as the full cost of such publication has been duly paid in cash or electronic funds transfer into the **Government Printing Works** banking account.

36. In the event of a notice being cancelled, a refund will be made only if no cost regarding the placing of the notice has been incurred by the **Government Printing Works**.

37. The **Government Printing Works** reserves the right to levy an additional charge in cases where notices, the cost of which has been calculated in accordance with the List of Fixed Tariff Rates, are subsequently found to be excessively lengthy or to contain overmuch or complicated tabulation.

SCHEDULE
PROPOSED WATER RESOURCE CLASSES AND RESOURCE QUALITY OBJECTIVES FOR THE UPPER ORANGE RIVER CATCHMENT

1 DEFINITIONS

In this Schedule any word or expression to which a meaning has been assigned in the National Water Act, 1998 (Act No. 36 of 1998) shall have the meaning so assigned and, unless the context indicates otherwise -

"Class I water resource" means a water resource which is minimally used; and in which the configuration of ecological categories of the water resources within a catchment, results in an overall condition of that water resource that is minimally altered from its pre-development condition, and as defined in the Water Resource Classification System Regulations

"Class II water resource" means a water resource which is moderately used; and in which the configuration of ecological categories of the water resources within a catchment, results in an overall condition of that water resource that is moderately altered from its pre-development condition and as defined in the Water Resource Classification System Regulations

"Class III water resource" means a water resource which is heavily used; and in which the configuration of ecological categories of the water resources within a catchment, results in an overall condition of that water resource that is significantly altered from its pre-development condition and as defined in the Water Resource Classification System Regulations

"Discontinuous wetland complex" means a discontinuously channelled valley bottom wetland in which the channel is not continuous throughout the wetland hydrogeomorphic unit and is characterised by both channelled and unchanneled sections

"Water Resource Classification System" means the Regulations for the Establishment of the Classification System, 2010 as prescribed in Government Notice No. 33541 R. 810 of 17 September 2010

"Ecological category" means the ecological condition of that water resource in terms of the deviation of its biophysical components from a predevelopment condition

"Ecological water requirements' in relation to a water resource, means the quantity and quality of water of that resource that is required to maintain the said water resource in its assigned ecological category

"Integrated unit of analysis" means a water resource catchment that incorporates a socio-economic zone, but is defined by a watershed

"Percentile" means the non-exceedance probability of a set of data i.e., at the 95th percentile, 95 percent of values must be less than or equal to the numerical limit; and at 50th percentile, 50 percent of values must be less than or equal to the numerical limit

"Present ecological state" means the current health or integrity of various biological attributes of the resource, compared to the natural or close to natural reference conditions

"Recommended ecological category" means a category indicating the realistically attainable ecological management target for a water resource

"Resource quality objectives" means descriptive qualitative statements and numerical values for the biological, physical, and chemical attributes of the significant water resources throughout the catchments

"Resource unit" means a basic unit of a water resource to which Resource Quality Objectives will apply

"Target ecological category" means the ultimate target to achieve a sustainable system both ecologically and economically, considering the present ecological state and recommended ecological category.

2 DESCRIPTION OF THE WATER RESOURCE

(1) The water resource classes and Resource Quality Objectives (RQOs) are determined for all or part of significant water resources within the Upper Orange River Catchment set out below:

Water Management Area:	Vaal - Orange
Drainage Region:	C51A-H, C51J-M; C52A-H, C52J-M; D12A-F; D13A – H; D13J – M; D14A – H, D14J and K; Portions of D15G and H; Portion of D18L and K; D21D – G, portion of D21A and D21H; D22A, D22B, portions of D22C and D22D, D22G, portions of D22H and D22J, Portion of D23A, D23C – H and D23J; D24A-H, D24J – L; D31A – E; D32A – H, D32J and K; D33A – K; D34A – G; D35A – H, D35J and K
River(s):	Upper Orange River, Modder-Riet River

(2) The date from which the RQOs will apply shall be the date stipulated in the *Gazette* wherein the final approved RQOs for the Upper Orange River Catchment in the Vaal - Orange Water Management Area will be published.

3 DETERMINATION OF THE CLASS OF WATER RESOURCE IN TERMS OF SECTION 13(1)*(a)* OF THE NATIONAL WATER ACT, 1998 (ACT NO. 36 of 1998)

(1) The proposed water resource classes per Integrated Unit of Analysis (IUA), which are in accordance with the Water Resource Classification System, for the Upper Orange River Catchment are as listed in Table 1 and illustrated in Figure 1 of Annexure A.

(2) The IUAs in the Upper Orange River Catchment are listed in Table 2 and illustrated in Figure 2 of Annexure A.

(3) A summary of the surface water Resource Units (RUs) and quaternary catchments are listed in Table 3 and indicated in

(4) Figure 3 of Annexure A.

(5) A summary of the Groundwater Resource Units (GRUs) and quaternary catchments are listed in Table 4 and indicated in Figure 4 of Annexure A.

(6) A summary of the prioritised wetlands is set out in Table 5 and illustrated in Figure 5 of Annexure A.

(7) A summary of the Water Resource Classes per IUA and Ecological Categories are listed in Table 6 of Annexure A.

4 WATER RESOURCES WITH PROPOSED RESOURCE QUALITY OBJECTIVES DETERMINED

Table 7 of Annexure A provides:

(i) the listed IUA in the Upper Orange River Catchment for which RQOs are proposed

(ii) the selected Water Resources (Rivers, Wetlands and Groundwater) for which RQOs are proposed; and

(iii) reference to subsequent tables that list the proposed RQOs per selected sub-components (quantity, quality, habitat, biota or groundwater) per Resource Unit.

a. RQOs for rivers and dams per IUA and RU within the Upper Orange River Catchment are specified in Tables 8 – 17.

b. RQOs for priority wetland clusters and systems in selected RUs in the Upper Orange River Catchment are set out in Tables 18- 25.

c. RQOs for groundwater in GRUs in the Upper Orange River Catchment are as specified and set out in Tables 26 – 34

ELECTRONIC COMMUNICATIONS ACT, 2005

(ACT NO. 36 OF 2005)

POLICY ON HIGH DEMAND SPECTRUM

I, Mr Solly Malatsi, Minister of Communications and Digital Technologies, acting in terms of section 3(1) of the Electronic Communications Act, 2005 (Act No. 36 of 2005) (the ECA), read with section 10(3) of the Interpretation Act, 1957 (Act No. 33 of 1957), and in terms of sections 3(2) and 3(7) of the ECA, in each case read with sections 3(3) and 3(5) of the ECA, hereby issue, with immediate effect -

the final amendment to the Policy on High Demand Spectrum and Policy Direction on the Licensing of a Wireless Open Access Network, published under Government Notice No. 1013 in *Government Gazette* No. 42597 of 26 July 2019 (the Policy), set out in Schedule A below (Final Amendment - Withdrawal of WOAN Reservation), that amendment being a matter already subjected to public consultation in 2022 as more fully explained in the Explanatory Note.

Mr Solly Malatsi, MP
Minister of Communications and Digital Technologies
14 September 2026

SCHEDULE A

FINAL AMENDMENT - WITHDRAWAL OF THE WOAN RESERVATION

(Issued in final form with immediate effect on publication in the Gazette, in terms of sections 3(1), 3(2) and 3(7) of the Electronic Communications Act, 2005. This Schedule gives effect to the withdrawal of the WOAN spectrum reservation, a proposal already published for public comment in 2022 as explained in paragraph 15 of the Explanatory Note).

1. Substitution of heading of the Schedule

The heading of the Schedule to Government Notice No. 1013 published in Government Gazette No. 42597 of 26 July 2019 is substituted by the following heading:

"**POLICY ON HIGH DEMAND SPECTRUM**".

2. Amendment of paragraph 1 of the Policy

Paragraph 1 of the Policy is amended -

(a) by the substitution for paragraph 1.1 of the following paragraph:

"1.1 Chapter Nine (9) of the National Integrated ICT Policy White Paper, 2016 (the White Paper) sets out the open access policy, spectrum policy and a policy framework to address the assignment of spectrum where there is insufficient spectrum to accommodate demand (hereinafter referred to as high demand spectrum).";

(b) by the deletion of paragraphs 1.2 to 1.5;

(c) by the insertion after paragraph 1.1 of the following paragraph:

"1.1A The White Paper's proposal to reserve high demand spectrum for prior assignment to a single wireless open access network (WOAN) has not resulted in the licensing of a WOAN in the more than seven years since this Policy was first issued, and the spectrum identified for that purpose has remained substantially unassigned. Having regard to that record, the domestic and international evidence summarised in the Explanatory Note, and the public interest in the timeous, efficient and productive use of a scarce national resource, the Minister has determined that the continued reservation of that spectrum for prior assignment to a WOAN is no longer justified and has accordingly withdrawn the reservation. The affected spectrum is therefore immediately available for licensing by the Authority, in the exercise of its statutory powers under sections 30 and 31 of the ECA, in a manner that gives effect to the objects of the ECA and the policy objectives set out in this Policy.";

(d) by the substitution in paragraph 1.6 for the words preceding paragraph (a) of the following words:

"The Minister consulted the Authority and interested persons as required by section 3(5) of the Electronic Communications Act, 2005 (Act No. 36 of 2005) (ECA). The Minister duly considered and reviewed the Authority's views; representations

received from interested persons and the objects of the ECA. When reviewing the above, the Minister considered the public interest and policy objectives that include to -";

(e) by the substitution in paragraph 1.6 for subparagraph (a) of the following subparagraph:

"(a) ensure that high demand spectrum is licensed, so as to realise its socio-economic value;";

(f) by the substitution in paragraph 1.6 for subparagraph (e) of the following subparagraph:

"(e) promote competition within the ICT sector,";

(g) by the substitution for paragraph 1.7 of the following paragraph:

"1.7 Following the review of representations as described in paragraph 1.6 above, the following policy is issued.".

3. Amendment of paragraph 2 of the Policy

Paragraph 2 of the Policy is amended —

(a) by the substitution for paragraphs 2.1.1 and 2.1.2 of the following paragraphs:

"2.1.1 The Minister recognises that there are players that hold electronic communications network service licences but cannot access spectrum, due to its scarcity. This has an adverse effect on competition, contributes to the high cost to communicate and serves as a barrier to entry for new entrants and SMMEs. Government is committed to maximising the socio-economic benefits derived from the use of the spectrum, and to ensuring that high demand spectrum does not remain unassigned for a protracted period without good cause.

2.1.2 The reservation of high demand spectrum for prior assignment to a WOAN, which includes the spectrum in the 700 MHz, 800 MHz, 2600 MHz and 3500 MHz bands, is withdrawn. To the extent that the White Paper provides for high demand spectrum to be set aside for assignment to a WOAN, this Policy prevails as contemplated in paragraph 2.1.5. That spectrum is, with immediate effect, available for licensing by the Authority.

(b) by the deletion of paragraph 2.1.3;

(c) by the substitution for the words preceding sub-paragraph (a) of paragraph 2.1.4 of the following words:“ In the licensing of high demand spectrum referred to in paragraph 2.1.2 the Authority must ensure that the following policy objectives are achieved:”;

(d) by the substitution in paragraph 2.1.4 for subparagraph (a) of the following paragraph:

(a) leasing of electronic communications networks and electronic communications facilities and provision of wholesale capacity to other licensees. The Authority must perform strict regulatory oversight to ensure compliance with this network and facilities leasing requirement;

(e) by the deletion in paragraph 2.1.4 of subparagraph (b); and

(f) by the re-lettering of subparagraphs (c), (d) and (e) of paragraph 2.1.4 and subparagraphs (b), (c) and (d) respectively.

4. Deletion of paragraph 3 of the Policy

Paragraph 3 of the Policy is deleted.

5. Short title and commencement

This Policy Amendment is called the Policy Amendment on High Demand Spectrum, 2026, and takes effect on the date of publication of this notice in the Gazette.

EXPLANATORY NOTE

1. Radio frequency spectrum is a finite, scarce national resource. It is valuable to licensees and can assist in reducing the cost of network construction by increasing the amount of capacity in a network. Spectrum that remains unassigned is not a neutral holding position; it represents a continuing, foregone opportunity for coverage, competition and investment.

2. Spectrum "in high demand" is described in paragraph 21(a) of the Next Generation Radio Frequency Spectrum Policy for Economic Development, 2024, as a situation where "demand for access to spectrum resources exceeds supply".[1] So-called 'high demand' spectrum may also be classified as such by the Minister, in consultation with the Independent Communications Authority of South Africa (ICASA).[2]

3. In terms of section 3(1)(a) of the Electronic Communications Act, 2005 (Act No. 36 of 2005) (the ECA), the Minister may make national policies applicable to the ICT sector in relation to radio frequency spectrum, among other matters. In terms of section 3(2) of the ECA, the Minister may, subject to sections 3(3) and 3(5), issue policy directions to the Authority on the matters listed in that subsection, including the determination of priorities for the development of electronic communications networks and electronic communications services (section 3(2)(b)) and any other matter which may be necessary for the application of the ECA (section 3(2)(e)). Section 3(7) empowers the Minister to amend, withdraw or substitute a policy direction issued under section 3(2).

4. On 11 March 2022, and pursuant to litigation against ICASA, the Minister issued a draft amendment to the Policy on High Demand Spectrum and Policy Direction on the Licensing of a Wireless Open Access Network (WOAN) in *Gazette* 46031 (the 2022 Draft Amendment). Cabinet approved the publication of the 2022 Draft Amendment for consultation in March 2022. That process was, however, never concluded, and no final policy was published.

5. The 2022 Draft Amendment proposed only the withdrawal of the WOAN reservation, on the basis that the spectrum available for the WOAN did not meet the viability threshold determined by the CSIR study referred to in the original 2019 Policy, and that the objectives intended to be served by the WOAN would instead be realised through the Next Generation Radio Frequency Spectrum Policy then being finalised. When that policy was ultimately published on 28 May 2024 as the Next Generation Radio Frequency Spectrum Policy for Economic Development (Government Gazette No. 50725), it did not, in fact, address the WOAN or the spectrum reserved for it, leaving the status of that spectrum unresolved notwithstanding the passage of a further two years.

6. Stakeholder views received during the 2022 consultation process have been considered by the Department. Considering the passage of time, they are not presented individually but in summary: some respondents supported retaining the original policy position that the WOAN is a workable concept for which the reserved spectrum is sufficient, while other respondents questioned the rationality of amending the policy at all. A number of submissions engaged with the competition and pricing implications of reconsidering how the affected spectrum should be assigned across operators, including whether assignment should favour state-owned entities or mobile network operators best placed to use it, and

whether such assignment would in turn encourage infrastructure-based and service-based competition. Other submissions addressed whether the Authority, rather than the Policy itself, should determine the spectrum assignment mechanism. These submissions, taken together, reflect a genuine divergence of stakeholder views on the amendment, which the Department has weighed in finalising this Policy. It should be noted that certain submissions made specific comments that the Minister considered and did not adopt. The Authority recommended that the title and clauses 1 to 3 of the Policy be retained. The Minister has considered that recommendation but is not persuaded that the reservation should continue, no WOAN having been licensed in the period since. The Competition Commission recommended the inclusion of an express competition objective and that competition be elevated above the other objectives, however, competition is already an object of the ECA under section 2(f) by which the Authority is bound.

7. Radio frequency spectrum licences have since been issued to successful bidders in a 2022 competitive auction of the very bands at issue (excluding the portion then reserved for the WOAN). That auction attracted six qualified bidders, ran through 58 competitive bidding rounds, and raised more than R14.4 billion for the national fiscus, with all but one lot sold.[3] Applicants were required, as a pre-qualification condition, to hold not less than 30 per cent equity ownership by historically disadvantaged persons and to be no lower than a level 4 B-BBEE contributor, and licensees were required, as licence conditions, to attain and maintain at least level 4 contributor status and to comply with coverage, open access and social obligations, demonstrating that competitive, market-based assignment and developmental policy objectives are not mutually exclusive.[4] The risk of litigation that arose prior to the auction, and following publication of the 2022 Draft Amendment, was resolved by agreement between the litigants, following which the 2021 Invitation to Apply and the 2022 auction proceeded without further challenge; and no party has since challenged the status quo reflected in the silence of the 2024 Next Generation Radio Frequency Spectrum Policy on the WOAN. The 2021 Invitation to Apply further imposed on successful applicants a licence condition to procure a minimum of 30 per cent of national capacity collectively from the WOAN once operational, and the overall spectrum cap applied in that process was calculated by reference to a pool that included the spectrum set aside for the WOAN. The withdrawal of the reservation leaves those conditions without practical object, which is a further reason why the status of the affected spectrum cannot responsibly be left unresolved.

8. International evidence reinforces the case for market-based assignment. A discussion paper prepared for the International Telecommunication Union's 2015 Global Symposium for Regulators cautioned that there is "insufficient international experience" to identify best practice in wholesale open-access wireless networks, and that such networks face significant organisational and strategic challenges.[5] Rwanda's experience illustrates those

challenges in practice. The single wholesale network established there in 2013 built out more slowly than planned, reaching only about 30 per cent population coverage by mid-2016 against a 95 per cent three-year target.[6] Although coverage targets were subsequently met, take-up under the wholesale model remained persistently low, and in June 2023 Rwanda's telecommunications regulator removed the operator's wholesale exclusivity for 4G LTE and beyond technologies, opening that market to competing operators after a decade of single-wholesale-network exclusivity.[7] In South Africa, more than seven years after the 2019 Policy reserved the 700 MHz, 800 MHz and 2600 MHz bands for prior assignment to a WOAN, no WOAN has been licensed, no network has been built, and the reserved spectrum remains substantially unassigned, while ICASA's 2022 competitive auction of the comparable, non-reserved spectrum in the same bands was concluded successfully within months.

9. The affected bands are complementary rather than substitutable. Sub-1 GHz spectrum (700 MHz and 800 MHz) is best suited to extending affordable coverage into rural, peri-urban and under-serviced areas, 2600 MHz is a capacity band best deployed to relieve network congestion in dense urban and suburban environments and 3500 MHz is the primary global band for 5G, best suited to fixed wireless access, smart-city infrastructure and industrial applications.[8] The 3500 MHz band was not reserved by paragraph 2.1.3 of the Policy, but fell within the set-aside of all unassigned high demand spectrum recorded in paragraph 1.4; paragraph 2.1.2 accordingly withdraws the reservation of high demand spectrum generally, and paragraph 2.1.5 provides that this Policy prevails over the White Paper to the extent of any difference. A policy that continues to reserve these spectrum bands, in an undifferentiated block, for assignment to a single new entrant forgoes the complementary benefit these bands are designed to produce. This is a further, practical reason why the sequencing, design and conditions of the licensing process are best entrusted to the Authority's own technical and regulatory judgment.

These documents are relied on here only for their technical description of the deployment and propagation characteristics of the bands concerned.

10. ICASA has demonstrated the capacity to apply competitive safeguards effectively, in the licensing framework used for the 2022 auction. ICASA imposed both an overall spectrum cap and a specific sub-1 GHz cap calculated by reference to each bidder's existing holdings, together with wholesale access, infrastructure-sharing and coverage obligations.[9] Shared and database-coordinated access mechanisms, of the kind the Authority is developing in its dynamic spectrum access and opportunistic spectrum management work-stream, remain a further regulatory tool available to the Authority, although that work-stream presently concerns the innovation spectrum bands rather than the bands referred to in paragraph 2.1.2.[10]

11. Paragraph 3 of the Policy comprises the Policy Direction on the Licensing of a Wireless Open Access Network, and is withdrawn in its entirety. It includes paragraph 3.7, which required the Authority to report to the Minister on 5G spectrum requirements within six months after the 2019 World Radiocommunication Conference. That Conference concluded in November 2019, so paragraph 3.7 has long since been overtaken and its withdrawal has no practical effect. The undertaking in paragraph 3.7 to issue a separate policy direction on the 5G candidate bands also falls away. The licensing of those bands, including the 3500 MHz band, is a matter for the Authority in the exercise of its powers under sections 30 and 31 of the ECA.

12. This Policy is issued within, and is justified by reference to, the following statutory and constitutional framework:

    (a) Section 192 of the Constitution of the Republic of South Africa, 1996, which requires national legislation to establish an independent authority to regulate broadcasting in the public interest, section 195 of the Constitution, and sections 3(3) and 3(4) of the Independent Communications Authority of South Africa Act, 2000 (Act No. 13 of 2000) (the ICASA Act), read with the ECA, recognise both the institutional independence of the communications regulator and the principles of accountable, transparent and responsive public administration that must inform the exercise of the Minister's policy-making powers.

    (b) Section 3(1) of the ECA empowers the Minister to make national policy on radio frequency spectrum matters. Section 3(3) provides that no policy made under section 3(1) and no policy direction issued under section 3(2) may be made or issued regarding the granting, amendment, transfer, renewal, suspension or revocation of a licence, except as permitted in terms of the ECA. This Policy Amendment does not determine whether any licence is to be granted, to whom, or on what terms: the Authority alone determines which applicant, if any, is granted a licence and on what specific terms, in accordance with its own processes. Section 3(5) prescribes the process that must precede the issue of a final policy or policy direction, requiring the Minister to consult the Authority, to

These draft regulations concern the innovation spectrum bands and not the bands referred to in paragraph 2.1.2 of the Policy; they are cited only as an illustration of the shared-access tools available to the Authority.

publish the text for the views of interested persons, and, in terms of section 3(5)(c), to publish a final version in the Gazette. The text of the proposed amendment was published for the views of interested persons in Government Gazette No. 46031 of 11 March 2022, and this notice publishes the final version of that amendment in accordance with section 3(5)(c). That process is more fully described in paragraph 15 below.

(c) Section 3(4) of the ECA obliges the Authority to consider policies issued by the Minister in exercising its powers and performing its duties, while sections 3(3) and 3(4) of the ICASA Act preserve the Authority's institutional and decisional independence, subject only to the Constitution and the law.

(d) Section 30(1) of the ECA vests in the Authority the function of controlling, planning, administering and managing the use and licensing of the radio frequency spectrum, except as provided for in section 34, the Authority being obliged by section 3(4) of the ECA to consider ministerial policy and policy directions in doing so. Section 31(1) of the ECA requires a radio frequency spectrum licence for the transmission or reception of any signal by radio, subject to the exemptions in sections 31(5) and 31(6), and section 31(3) empowers the Authority to prescribe procedures and criteria for radio frequency spectrum licences in instances where there is insufficient spectrum available to accommodate demand. Invitations to Apply are issued under regulations 6 and 7 of the Radio Frequency Spectrum Regulations, 2015, as amended, read with section 31(3). Implementation detail properly resides with the Authority; strategic direction properly resides with the Minister. This division of function is respected and given effect to by Schedule A.

(e) The principle of legality and the requirements of rationality and procedural fairness, and, to the extent that it applies to the making of national policy, the Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000) (PAJA), govern the amendment of the 2019 Policy. The consultation process prescribed by section 3(5) of the ECA has already been completed, as explained in paragraph 15 below, and this Explanatory Note records the reasons why the Minister has finalised that amendment.

13. It is recognised that parties who participated in the WOAN policy process, including those who made submissions during earlier public consultations or who responded to ICASA's 2020 Invitation to Apply for the licensing of the WOAN, may contend that Schedule A affects a legitimate expectation. However, no WOAN licence was ever issued; the spectrum reserved for the WOAN has remained unassigned for more than seven years; the publication of the withdrawal of the reservation given final effect in Schedule A was approved by Cabinet and published for public comment as long ago as 2022; and the subsequent 2022 high demand spectrum auction and the 2024 Next Generation Radio Frequency Spectrum Policy both proceeded, without any successful legal challenge seeking to compel implementation of the original WOAN reservation.

14. Schedule A completes the process commenced by the publication of the 2022 Draft Amendment referred to in paragraph 4 above, rather than commencing an entirely new policy process. Schedule A is the final version, published in terms of section 3(5)(c) of the ECA, of the amendment published in draft for comment in 2022; the proposal is unchanged, though the reasons for it are set out more fully in this Explanatory Note. The Minister has considered whether the period that has elapsed since 2022 requires the process to be recommenced, and has

concluded that it does not: no WOAN has been licensed, no network has been built, the reserved spectrum remains substantially unassigned, and no material circumstance has changed that would alter the proposal or the range of interests affected by it. This reflects the Minister's assessment that continued delay itself carries a substantial and non-neutral cost, measured in foregone rural coverage, foregone capacity relief and foregone investment, and that the public interest may be better served by making the spectrum available for licensing rather than by further deferral of the licensing outcome to future inter-agency consultation. Schedule A should be read together with, and does not purport to alter, the Next Generation Radio Frequency Spectrum Policy for Economic Development, 2024, save to the extent that they resolve the status of the spectrum that policy did not address. Nothing in Schedule A affects clause 24 of the Next Generation Radio Frequency Spectrum Policy for Economic Development, 2024, including clause 24.3, under which the Authority must set aside spectrum for use by the State Digital Infrastructure Company. That reservation is made under a separate national policy, on a different basis and for a different vehicle, and is unaffected by the withdrawal of the reservation in paragraph 2.1.3 of this High Demand Policy. To ensure that the withdrawal of the reservation does not itself leave the affected spectrum in an undefined position Schedule A, expressly records that the spectrum is available for licensing by the Authority under its ordinary powers.

15. Cabinet previously approved the publication of the 2022 Draft Amendment for public consultation, and that consultation process, described in paragraphs 4 to 6 above, was in substance completed: a draft was published, submissions were invited and received from a broad range of stakeholders, including ICASA, mobile network operators, infrastructure companies and the Competition Commission, and those submissions have been considered by the Department, as reflected in paragraph 6. The withdrawal of the WOAN reservation which Schedule A now finalises is precisely the proposal that was the subject of that 2022 consultation and Cabinet approval; no new substantive obligation is introduced by Schedule A beyond what was already consulted upon, and the only provision withdrawn that is not dependent on the WOAN is the spent paragraph 3.7, for the reasons given in paragraph 11 above. For this reason, and to avoid further, unwarranted delay in resolving the status of spectrum that has already remained substantially unassigned for more than seven years, Schedule A is issued in final form with immediate effect.
